

◆ [Mail Output - Scan to Email](#)

<Function>

Documents selected from “Document List” can be output as a mail attachment.

<ICP Setting Procedures>

Refer to

Click “Mail Output”  at the right side.

1. The “Save As” dialog box appears.
2. Click “Save”.
3. The installed e-mail application “Outlook 2010” starts.
4. The scanned document is saved as an attached file.
5. Email with an attached file using the e-mail application.

<Notes>

- If there are multiple documents: in simple scanning mode, the “Save As” dialog box will appear once for each document; in job scanning mode, the “Document Output Setting” dialog box will appear once for each document.
- Your e-mail application may not open automatically, depending on the e-mail application you use.
- Files whose size exceeds 2 GB cannot be output. Divide the document such that each piece is less than 2 GB.
