

(2) How to setup HD Camera on iOS devices

Plug in the HD cam and wait about a minute for the LED to turn solid green

Download the Panasonic Home Network app from Apple App Store and open it.

Select Next

Select HD Camera

Select Setup the HD Camera

Press the Setup button on the HD Camera and select next.

Take note of the network name and password to connect directly to the HD cam.

Press the home button on your iOS device and open Settings.

In Wi-Fi, find and select KX-HNC800_Panasonic.

Enter the password: 00000000, to connect to KX-HNC800_Panasonic

Once connected, press the home button.

Reopen the Panasonic Home network app.

Enter your Wi-Fi password and select next.

Please wait for about 3 minutes

Press the Setup button on the HD Camera.

Select OK

Create a Login Password and select OK

Enter a name for your mobile device and select OK.

Select your HD camera to view it live.

Completed !
