copyright information (GPLv2)
copyright information at the top, such as who you stole the code from and so forth. Also include the mini-GPL boilerplate. Be sure to name the main function <applet>_main instead of main. And be sure to put it in <applet>.c. Usage does not have to be taken care of by your applet. Make sure to #include "libbb.h" as the first include file in your applet so the bb config.h and appropriate platform specific files are included properly.
copyright information, and gives it freely to the world.
copyright interest in the library 'Frob' (a library for tweaking knobs) written by James Random Hacker.
copyright interest in the program Gnomovision' (which makes passes at compilers) written by James Hacker.
