### Limitations of Logo Transfer Software

#### Method of connecting to projector
- **LAN connection**
  - Communication rate
    - Group 1: 9600, 19200, 38400
    - Group 2: 9600, 19200
    - Group 5: Without function
    - Group 6: 9600, 19200
    - Group 7: Without function
    - Group 9: Without function
    - Group 11: Without function
    - Group 15: Without function
    - Group 16: Without function
    - Group 20: Without function
    - Group 21: Without function
    - Group 22: Without function
    - Group 23: Without function
    - Group 24: Without function
    - Group 25: Without function
    - Group 26: Without function
    - Group 27: Without function
  - Power on: Without function
  - Group settings: Without function
  - Projector ID: Without function
  - Method of connecting to projector: Without function

#### Power on
- **On and standby state**
  - Normal/eco: Without function
  - Eco: Without function
  - standby mode: Without function
  - On: Without function
  - stand-by mode: Without function

#### During cooling
- Off: Without function

#### During power on process
- Transfer via LAN: Without function

#### Security password setting
- On and standby state: Without function
- On and standby state: Without function
- On and standby state: Without function
- On and standby state: Without function
- On and standby state: Without function
- On and standby state: Without function

*1: Background colour can be set only for the VW300; the EW300; the UX50 and the UX80G.
*2: Background colour can be set only for the EZ70G, the EW300, the EZ80, the SLX7C and the SLW7C.
*3: Background colour can be set only for the VW300 and the EW300.
Limitations of Multi Projector Monitoring & Control Software

**Limitations of use with software not installed**

*8* When using a wired LAN connection with an F300/FW300, only use by [U (user)] is possible.

*6* To establish connection with IEEE802.11 n, use wireless LAN adapter and access point supporting 11n, and the connection must be established in Infrastructure mode.

*5* When wireless module is not inserted and a wired LAN connection is used, only use by [U (user)] is possible.

*4* Wireless module (sold separately) is necessary.

*3* Macintosh is unsupported.

*2* Audio cannot be output in "Multi-Live mode"/"Multiple unit connection".

*1* One of the following separately sold expansion boards with a network function is required.

- ET-MD77NT of the separately sold expansion boards in *1 is not supported.

- Digital signal input board (for dual link HD-SDI): Compatible with ET-MD100SD4 (except for D10000)

- Digital signal input board (for HD/SD-SDI): ET-MD77SD3

- Digital signal input board (for SD-SDI): ET-MD77SD1

- Network board: ET-MD77NT

**Connecting to projector**

**Remarks**

- Possible
- Not possible

- A connection is also possible with [user]*, but some information cannot be acquired and displayed.

- Restricted to the admin (administrator privileges) user name (a connection is also possible with the password of an ordinary user, but some information cannot be acquired and displayed.)

- Use the same password as for WEB control of the projector unit.

- Use the same password of the admin (administrator privileges) user as for WEB control of the projector unit.
