Live operation being conducted at Vikram Hospital

AV Pro is a healthcare solution provider in Bangalore providing innovative solutions & services to organisations in healthcare domain.

Their requirement was to connect an Operation Theatre with Auditorium to relay live Video call to a group of new intern Team sitting in the Auditorium.

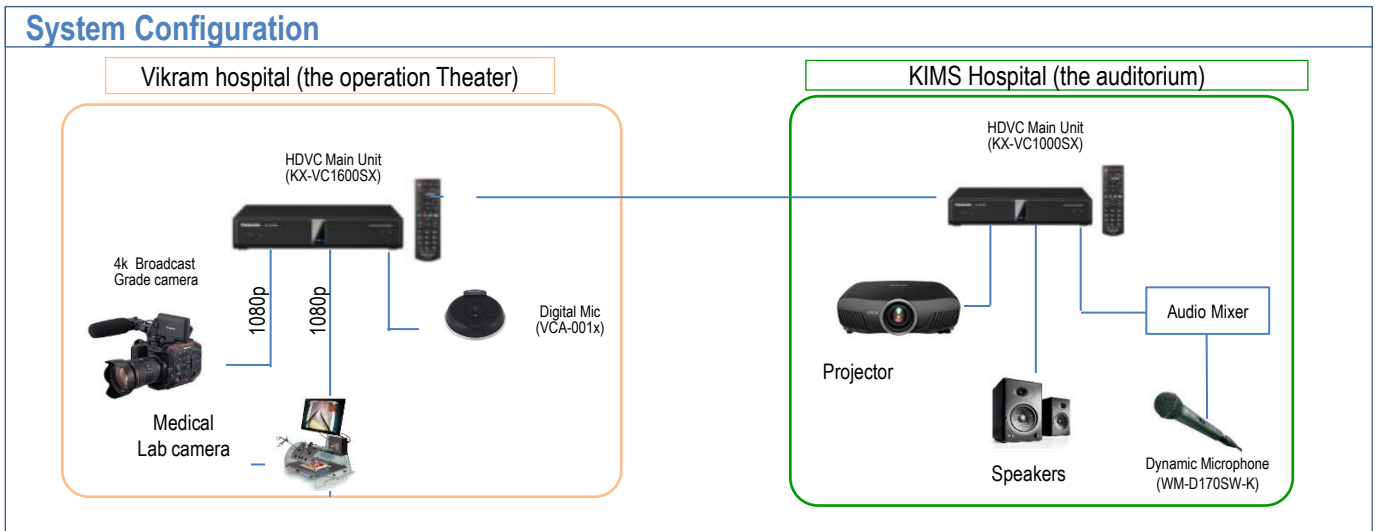

We installed VC-1600 in OT(Operation Theatre) at Vikram Hospital-Bangalore where a Live Operation was conducted and relayed LIVE over Video Call in the Auditorium where our VC-1000 was installed.

Live video call to new interns at other location.

The main reason for the success of this project was the compatibility of our VC with other manufacturer's video conference units.

System Configuration

*Solution provided by-
Abhishek Dubey &
Shashank Shekhar
Panasonic India*
