

HDVC Case - University-1

<Key point> High Image and Sound Quality, Optimum use of screen layout with Ease of Touch Panel Operation

Background

Since HDVC business started, 25 set of HDVC has been introduced in their facilities. HDVC is well appreciated. Now, considering replacing all VCs to Panasonic, like their Auditorium

Introduction

The Auditorium in University

Use of HDVC

- Distance learning
- Seminar
- Meeting of office staff

Configuration

- KX-VC1600×1
- Touch panel control system
- External MIC. for lecturers

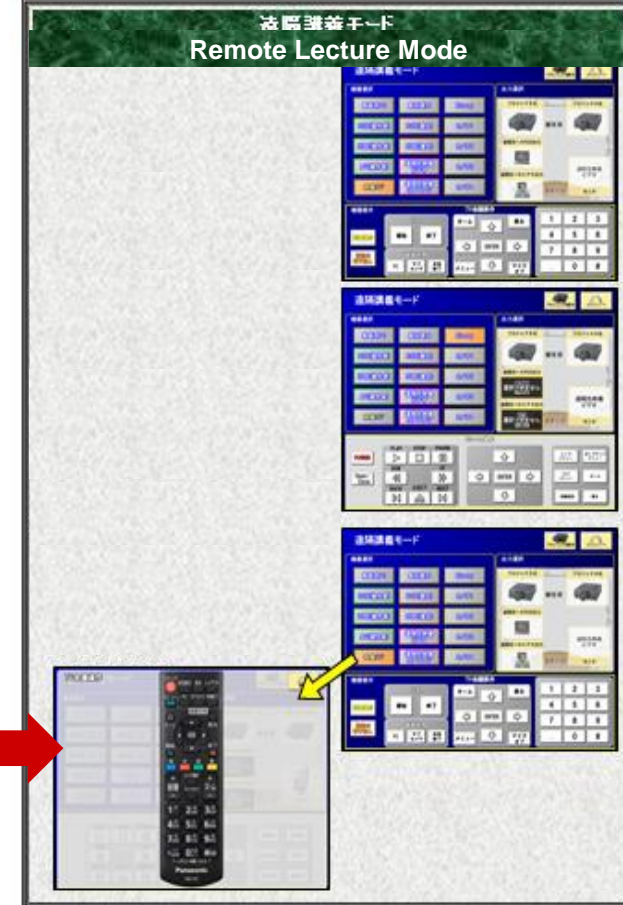

Further Plan

Change the existing other company's VCs in other classrooms to HDVC.

[Auditorium]

[Touch panel control system(Distance leaning)]

Key Point

The same buttons of the remote control unit are displayed on the touch panel. By pressing the button, required screen such as a menu is displayed on the monitor screen. You can use touch panel in the same way as normal remote control unit.
