Panasonic

Operating Instructions

Assembly Controller

Model No.:

EYARW1

IMPORTANT

Read and follow the safety and operating instructions before using this product.
Do not use the wireless function outside the country where you purchased the product. Doing so may violate the local laws and regulations.

Operating Environment

You need to use a web browser to configure the controller.
Prepare a PC satisfying the following requirements.

Operating environment

Compatible OS	Windows 10 or later (supporting any of the web browsers below)
Web browser	Microsoft Edge version 102 or later or Google Chrome version 102 or later

- Some PCs are not available even if they meet the operating environment.
- Depending on the use environment etc. of your PC, the descriptions and screens in this Operating Instructions might be different from the actual descriptions and screens. Please be forewarned.
- The contents of this Operating Instructions are subject to change without prior notice.
- Any reproduction of the contents of this Operating Instructions in whole or in part is prohibited without permission.
- Figures in this Operating Instructions are for reference only.

[Note]

Always keep the firmware up to date.
You can find the latest firmware data on the following website which provides access to the Operating Instructions.
For how to update the firmware, see “Updating the Firmware”.
Refer to P83

How to Access the Operating Instructions

The current version of the controller’s Operating Instructions and other resources can be downloaded from the web site below.

https://panasonic.net/electricworks/ecm/powerelctrictools/download/

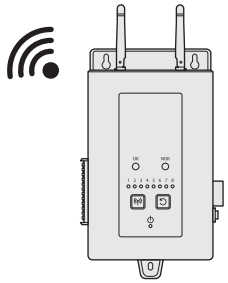

Trademark

- Microsoft and Windows are either registered trademarks or trademarks of Microsoft Corporation in the U.S. and/or other countries.
- The screenshots are used in accordance with the guidelines of Microsoft Corporation.

Other names including company names and product names in this Operating Instructions are trademarks or registered trademarks of their respective companies. ™ and ® may be omitted in this Operating Instructions.

Intended Use

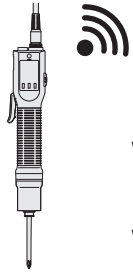

This product is a controller that wirelessly communicates with tools.
It can receive fastening history data from tools, make settings of tools, and control the quantity to fasten.

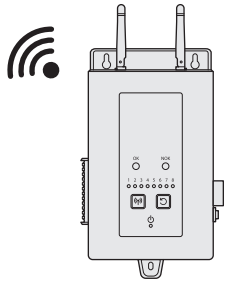

01	Connect to up to 8 tools.
02	Support 2.4 GHz and 5 GHz bands
03	Support a fastening control function and a history storing function

Setup

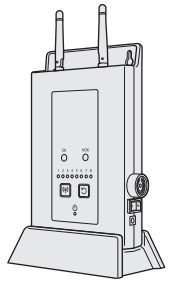

Install the controller in a range where wireless communication with tools is possible.
Supply power via an AC outlet and connect to external devices through communication interfaces as necessary.

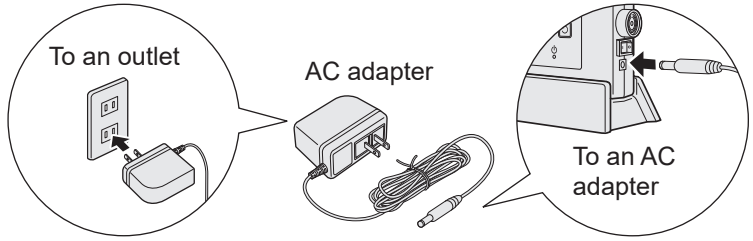

[2.4 GHz]
Within approximately
16 m (52.5 ft)
[5 GHz]
Within approximately
10 m (32.8 ft)

Wall-hanging

Free-standing

- The controller contains a coin cell battery to keep the clock function (RTC) running. It is recommended that you keep the power on to reduce consumption of the internal coin cell battery.
- The wireless coverage may change depending on the environment.

SAFETY PRECAUTIONS Always adhere to the instructions

Below are the instructions you should always adhere to, to prevent human harm and property damage.

■ **The severity of harm and damage caused by incorrect use is presented with the following.**

⚠ **WARNING**	May cause death or serious injury.
⚠ **CAUTION**	May cause minor injury or property damage.

■ **The content that should be observed is presented with the following symbols. (The following are examples)**

	You MUST NOT do the action.
	You MUST do the action.

⚠ WARNING

Mandatory

- **Make sure that there are no buried objects such as conduits, water pipes, and gas pipes in the installation place.**
  Touching such buried objects may cause electric shock or lead to electric leakage or gas leakage.
- **Insert the power plug all the way seated.**
  Incomplete insertion may cause electric shock or heat generation resulting in fire.
  Do not use a damaged plug or loose socket.
- **Clean dust off the power plug routinely.**
  Accumulated dust on the plug may absorb moisture and cause poor insulation resulting in fire. Disconnect the power plug and wipe it with dry cloth.
- **Use the specified power cord only.**
  Using any other plug may cause electric shock, short circuit, or fire.
- **Keep the workplace sufficiently bright.**
  Poor visibility in a dark workplace may lead to an accident or injury.

⚠ WARNING

Prohibited

- **Do not use a socket or wiring device in the manner of exceeding the rated value. Use 100 V-240 V AC only.**
  Exceeding the rated value due to an overloaded socket may cause heat generation resulting in fire.
- **Do not damage the power cord or plug. (Avoid damaging, breaking, modifying, putting close to a heat source, bending with force, twisting, pulling, putting a heavy load on it, pinching, or binding)**
  Using the damaged cord or plug may cause electric shock, short circuit, or fire.
  Check the cord and plug periodically and if any damage, consult your dealer.
- **Do not use the controller with a DC power supply, engine generator, or transformer.**
- **Do not use the controller in a place with flammable liquid or gas.**
  Doing so may cause generation of heat, smoke, fire, or burst.
- **Do not install the controller on a mortar wall.**
  Screwing it on a mortar wall may cause heat generation from wire mesh inside, resulting in fire in case of electric leakage.
- **Disconnect the power plug between uses.**
  Keeping it connected may cause poor insulation resulting in electric shock or fire from electric leakage.

No disassembly

- **Do not modify the controller. Do not disassemble or repair the controller.**
  Doing so may cause fire, electric shock, or injury.
  For repair, consult your dealer or our Customer Support Centre.

Keep dry

Avoid the following use of charged tools.

- **Do not use or leave them exposed to rain or moisture.**
- **Do not use them immersed under water.**
  Doing so may cause smoke, fire, or burst.

No wet hand

- **Do not use a wet hand to connect or disconnect the power plug to or from the outlet.**
  Doing so may cause electric shock.

⚠ CAUTION

Prohibited

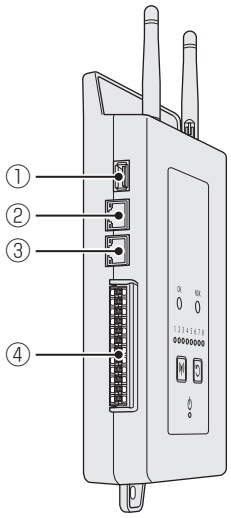

- **Do not use the controller for any other purpose than intended.**
  Doing so may cause injury.
- **Do not put the controller in a place accessible by a child.**
  Doing so may cause an accident or trouble.
- **Do not use the controller with oil or other foreign material attached to it.**
  Such oil or other foreign material may enter the inside, resulting in generation of heat, fire, or burst.
- **Do not store the main body in a place where the temperature may rise to 45 °C (113 °F) or higher.**
  Doing so may lead to abnormal operation.
- **Do not work in an unusual position.**
  Otherwise you may fall over and be injured.
  Always stand on a stable footing and keep a good balance.
- **Do not use the controller when you are tired.**
  Doing so may cause an accident or injury.
- **Do not allow a child or any other person who is not an operator to come near the workplace or touch the controller.**
  Doing so may cause injury.
- **Do not use the controller with incompatible devices.**
  Doing so may cause malfunction resulting in an accident.

Mandatory

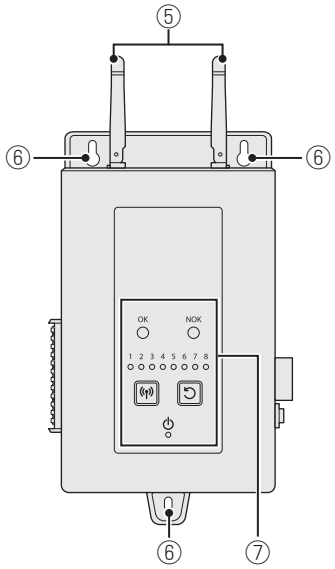

- **To install the controller on a wall, secure it with screws to prevent it from falling.**
  You may be injured if it falls.
- **To disconnect the power plug, always hold the power plug without pulling the cord.**
  Pulling the cord may cause electric shock or short circuit.
- **Before use, check the controller and other parts for any damage and confirm their normal operation.**
  Failure to do so may lead to breakage resulting in injury.
- **Keep the workplace clean.**
  A disordered workplace or work table may lead to an accident.
- **Consider well how to handle and work, pay attention to the surrounding environment, and use common sense during work.**
  Failure to do so may cause an accident or injury.

Main Body

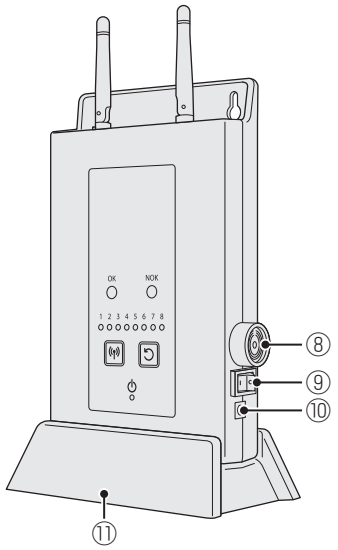

■ Left side

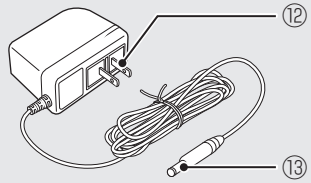

■ Front side

■ Right side

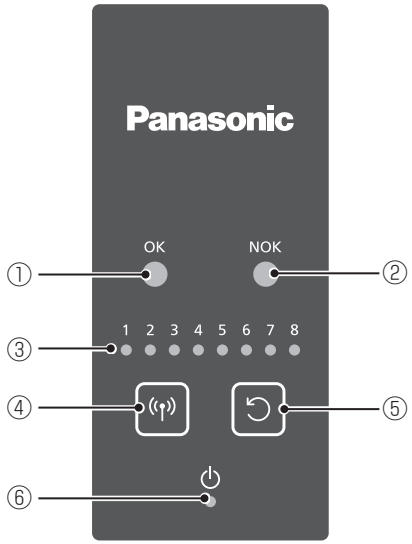

■ AC adapter

①	USB Port (USB-A)
②	Ethernet port (for maintenance)
③	Ethernet port (for network)
④	1～24 I/O port
⑤	Diversity antenna
⑥	Wall-hanging hole
⑦	Control panel

⑧	Buzzer
⑨	Power switch
⑩	AC adapter socket
⑪	Controller stand
⑫	Power plug
⑬	Power connector

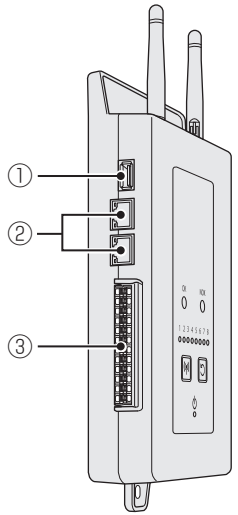

■ Control panel

①	Fastening OK lamp Blinking green: Barcode reading reception state. Solid green: A fastening completion signal has been received. Off: A fastening completion signal is not received yet.
②	Fastening NOK lamp Solid red: A fastening failure signal has been received. Off: A fastening failure signal is not received yet.

③	Communication lamp (No. 1 to No. 8) Solid blue: A tool has been registered. Blinking blue: A tool is being registered or out of coverage. Off: A tool is not registered yet.
④	Pairing key
⑤	Reset key
⑥	Power lamp Solid yellow: Power on (receiving mode) Off: Power off Blinking yellow: Error

■ Communication interface

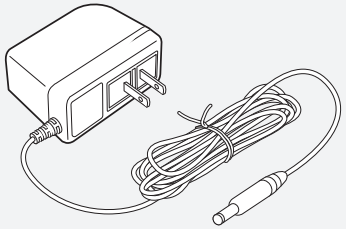

Interface		Details
①	USB	Use this port to connect a USB flash drive to update the firmware. * Directly connect a USB flash drive (without extension) A wireless receiver is connected to this port to connect a barcode reader. * Only wireless barcode readers are available. • USB2.0 USB-A × 1
②	Ethernet (for maintenance and network)	Use this port to connect to a PC for configuration or a host system. * Connect the Ethernet port (for maintenance) directly to a PC for configuration. (Do not use a hub) • 10Base-T/100Base-TX × 2 • Cable length: Less than 30 m (98.4 ft)
③	Input/output (I/O) terminal	Use this port to connect to an external device (e.g., a PLC). • 8 inputs and 8 outputs • Cable length: 10 m (32.8 ft) or less • Input terminal rating: 24 V DC, 50 mA • Output terminal rating: 30 V DC, 3 A

Instructional Safeguard Symbols

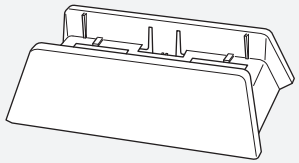

Symbol	Meaning
	To reduce the risk of injury, user must read and understand instruction manual.
	For indoor use only.

Accessory

■ **AC adapter × 1**
(WEYFRW1K7651)

■ **Controller stand × 1**
(EYFRW1F7001)

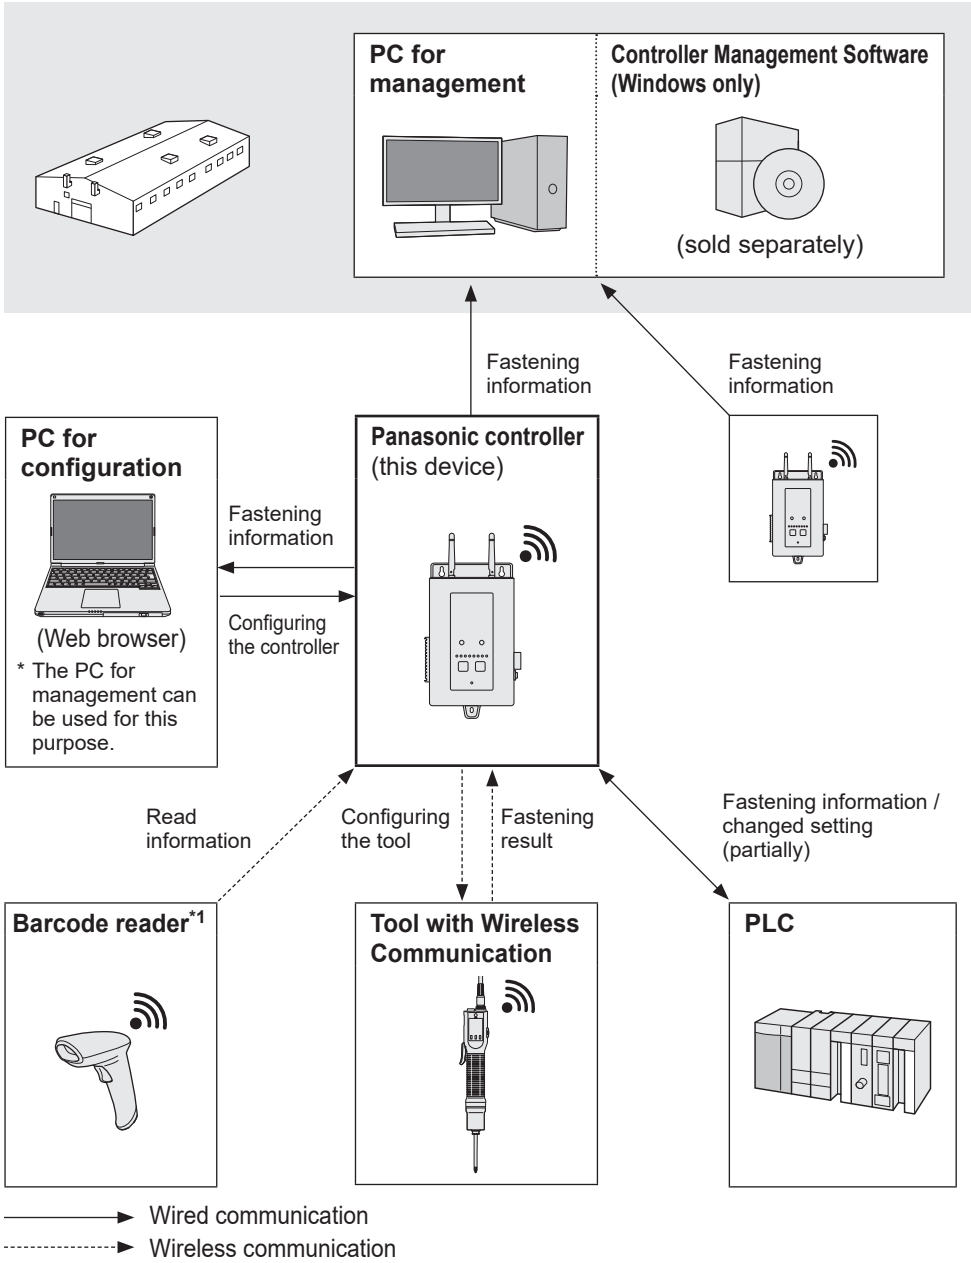

Consumables

■ **Coin cell battery** (CR2450) × 1
For how to replace, see “Replacing the Coin Cell Battery”.
Refer to P84

System Configuration

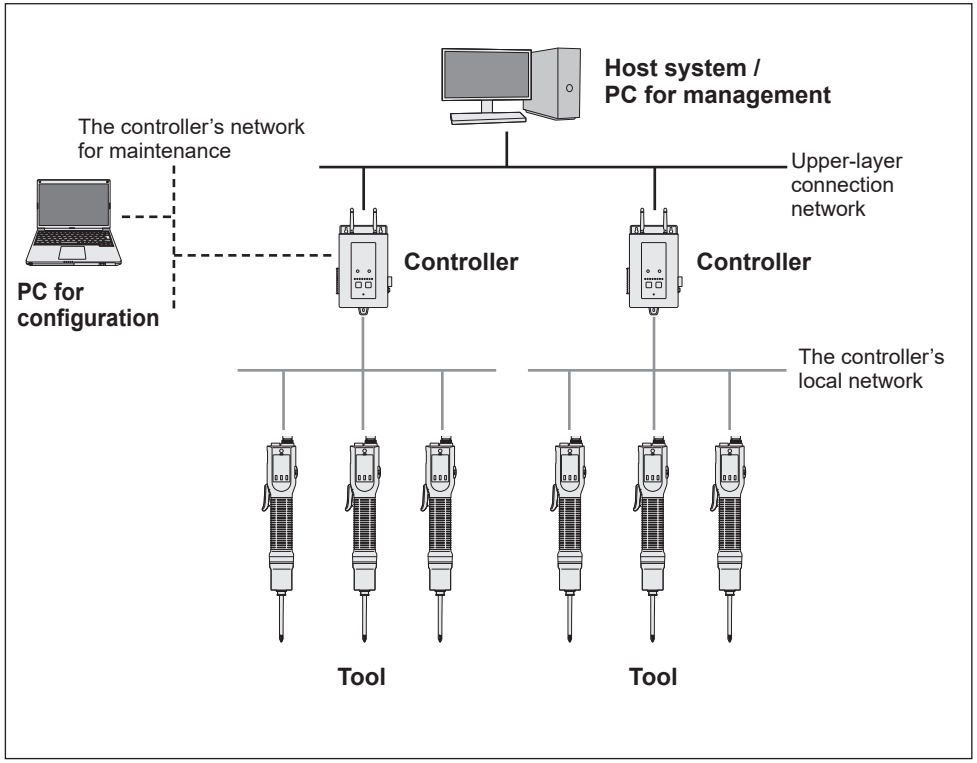

*1 This is only supported by the firmware version 2.03.00 or later.

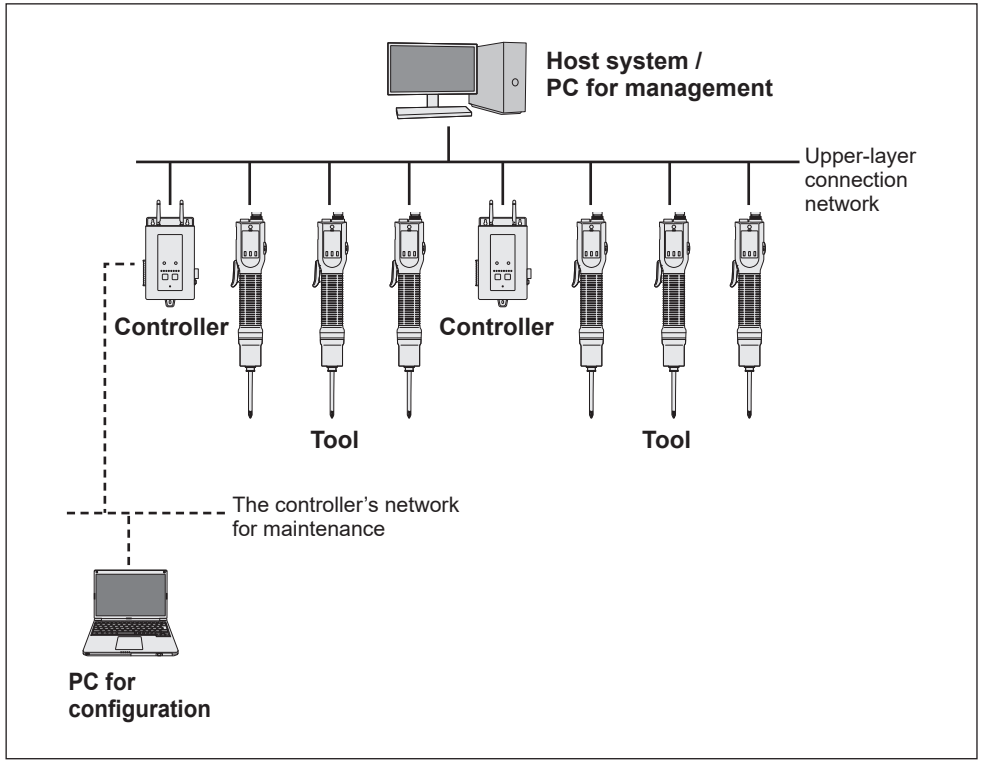

Typical Network Configurations

The controller can be used in the 2 configurations below.

■ Not managing tools' IP addresses
*** Automatic assignment (using the access point built in the controller)**

■ Managing tools' IP addresses (using the access point built in the controller)

* Use the system within your local network (with no Internet connection).

* Be sure to check the IP address setting for network of the controller before starting use. (Change the default if necessary)

Applicable Tool Models List

Models that can be registered	EYADA112WA/WB*1 EYADA212WA/WB EYADA218WA/WB EYADA407WA/WB

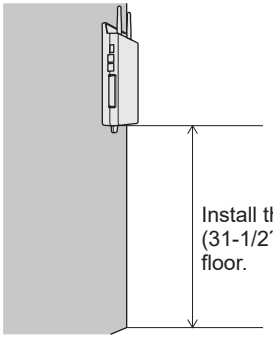

*1 This is only supported by the firmware version 2.02.00 or later.

Cautions for Installation

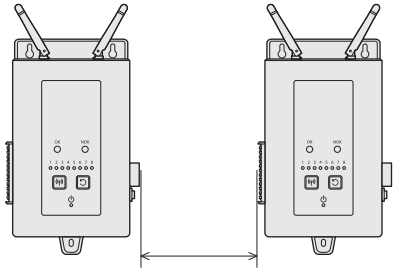

Install the controller 80 cm (31-1/2″) or more above the floor. Keep 10 cm (3-15/16″) or more between the installed controllers. (1 m (39-3/8″) or more is recommended)
Keep obstructions away from the antennas of the installed controller.
The controller has 2 diversity antennas. Keep obstructions away from both antennas.

⚠ CAUTION

For safe installation, use wood screws with a nominal diameter of 3.5 mm (1/8″) to 4.1 mm (5/32″).

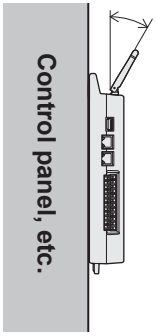

Install the controller 80 cm (31-1/2″) or more above the floor.

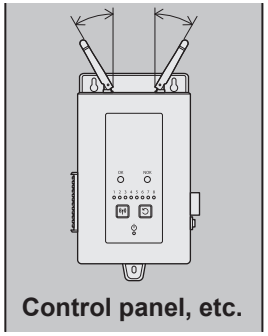

Keep 10 cm (3-15/16″) or more between the installed controllers.

Adjust the antennas' angles if communication is unstable.
* Particularly for the controller installed on a metal panel, adjusting the antennas' angles may improve the communication stability.

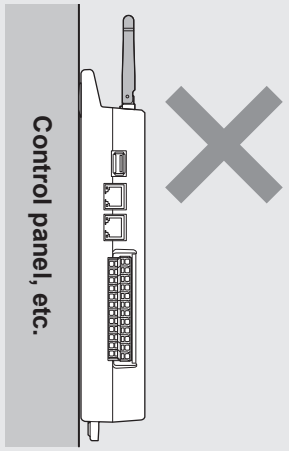

Tilt the antennas 30 to 45° from the wall.

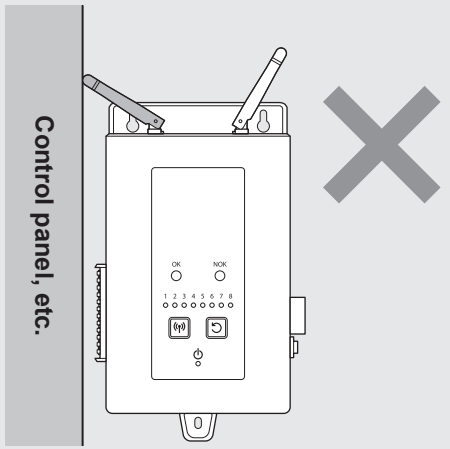

Tilt the antennas 30 to 45° outward when seen from the front.

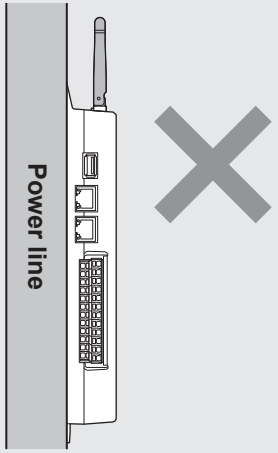

■ Avoid the following installation.

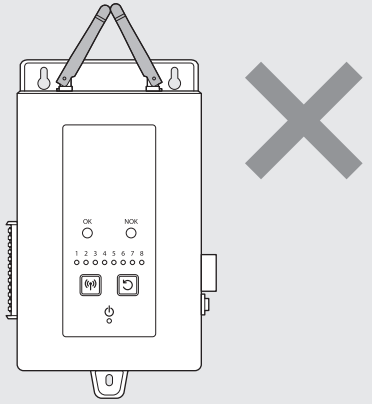

The antenna is in parallel with the control panel (metal panel) on the back side.

The antenna is in contact with the control panel (metal panel).

The controller is installed very close to a power line.

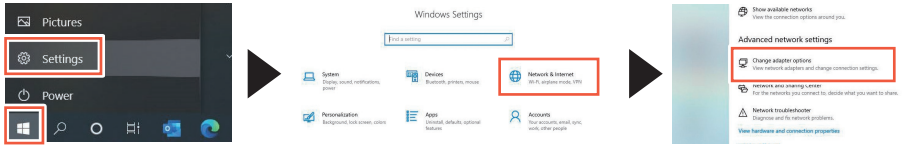

The antennas are in contact with each other.

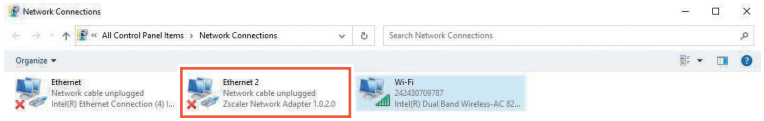

Network Settings on the PC for Configuration

Set the network settings on the PC for configuration as below when you connect it and the controller for the first time.

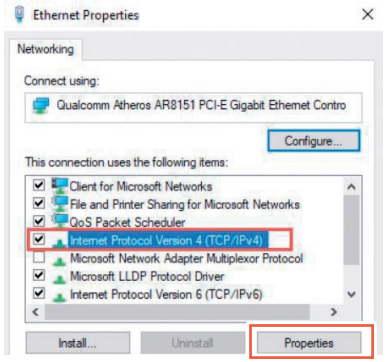

1 Click on the lower left of the screen and click (Settings) - [Network & Internet] - [Change adapter options].

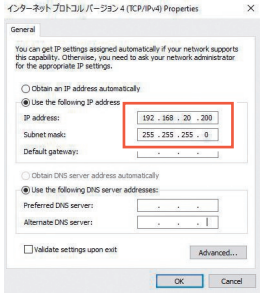

2 Right-click the device to connect and click [Properties].

3 Select “Internet Protocol Version 4” and click [Properties].

4 Set the “IP address” and “Subnet mask” as below.

IP address	192 . 168 . 20 . 200
Subnet mask	255 . 255 . 255 . 0

* If you changed the IP address for the controller after initial connection, enable connection by returning the network settings (IP address and subnet mask) on the PC for configuration. At the time, set the IP address so that the controller and the PC for configuration belong to the same network.
* Write down and keep the network settings of the PC for configuration (IP address and subnet mask) before you change it.
* Leaving the default gateway unspecified (blank) is recommended.

Displaying the Setting Screen

To configure the controller, access it via a web browser.
Display the controller’s setting screen as below.

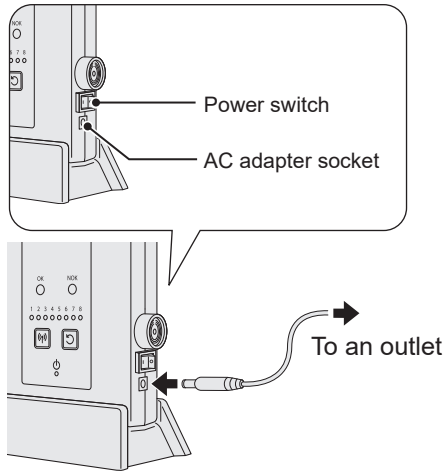

When you use the controller for the first time, remove the protective film from the coin cell battery.

1 Turn the controller on.

① Connect the supplied AC adapter to the controller and connect the power plug to an outlet.

② Turn the controller’s Power switch on.

* It takes a few tens of seconds to start up.
* During startup, the fastening OK lamp, fastening NOK lamp, and communication lamps (No. 1 to No. 8) blink together.
* Do not connect LAN cables.

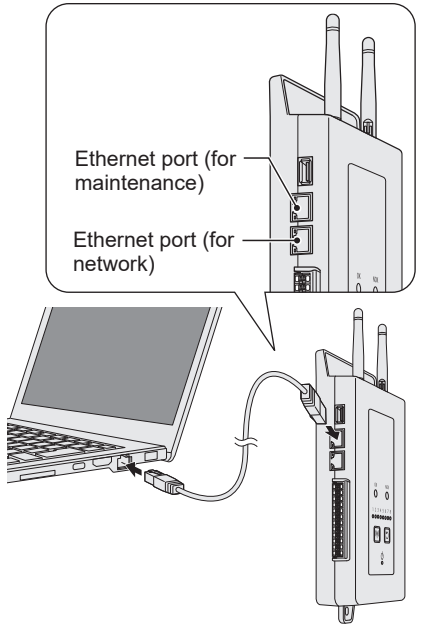

2 Connect the controller to the PC for configuration with a LAN cable.

① Connect a LAN cable to the Ethernet port of the controller.

* The controller has 2 Ethernet ports: one for maintenance and one for network. Use the one for maintenance for the first connection.

② Connect to the PC for configuration with the LAN cable.

3 Start a web browser on the PC for configuration and access the controller.

① Start a web browser on the PC for configuration. (Microsoft Edge is recommended)

② Input the IP address of the controller in the address bar of the web browser.

* The default IP address for the Ethernet port (for maintenance) is “192.168.20.10”.

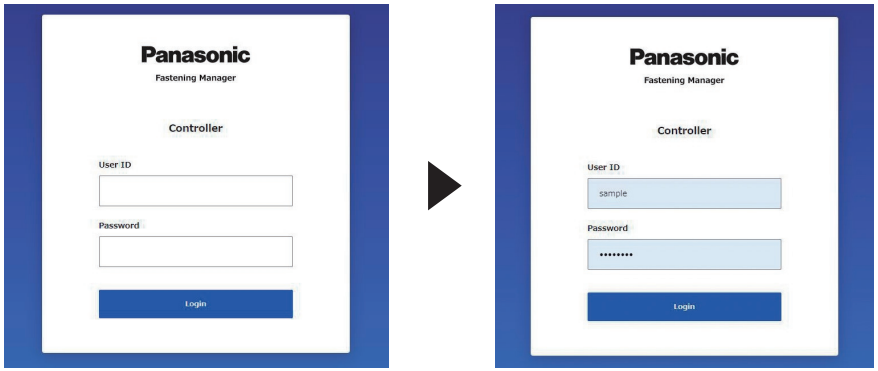

In the address bar of the web browser, input “http://192.168.20.10/controller” to access.
* Inputting “192.168.20.10/controller” only also allows for access.

* For how to access via the Ethernet port (for network), see “Connecting via Network”. Refer to P21

* The IP address should also be set on the PC for configuration.

③ In the displayed login screen, input the user ID and password.
* The user ID and password for the initial login are shown below.

④ The top page (the initial page of the setting screen) is displayed.

User ID and password for the initial login

Log in with the user ID and password below.

■ **User ID:** **root**

■ **Password:** **abcABC123**

* The account type for the initial login is “default”.
For the account types, see “Account Types (Authorities)”. Refer to P19
* Only account creation is possible when you log in with the user ID and password above. Create a new account before starting use.
* For security, changing the password above is recommended after the initial login.

Account Types (Authorities)

Below are the account types. Use them according to the applications.

Account Type	Function
Default	• For the initial login. Refer to P18 Adding or changing a user account.
Administrator	• Viewing the fastening history. • Configuring the controller. • Configuring tools. • Adding or changing a user account. * Create at least one administrator account.
General	• Viewing the fastening history (including viewing the work monitor).

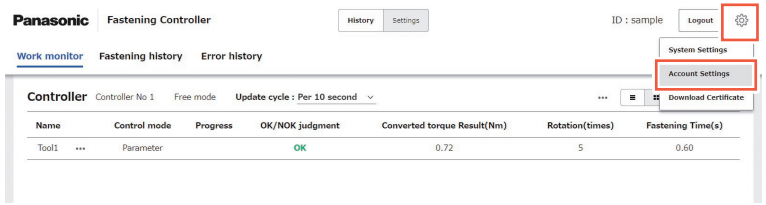

Up to 10 accounts can be registered.
Thus, more than one operator can log in simultaneously.
* Only one account can log in as administrator at the same time.
When multiple accesses are attempted, the last session takes priority.

Creating a User Account

Create a new account before starting use.

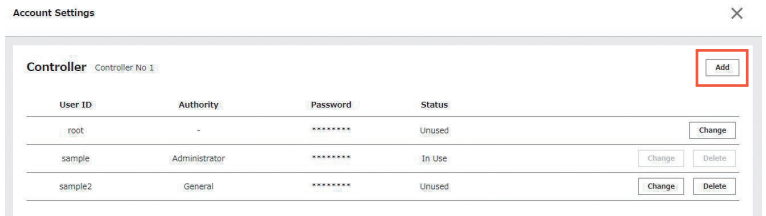

1 In the top page (the initial page of the setting screen), click the option key on the upper right and select “Account Settings”.

The “Account Settings” screen is displayed.

2 In the “Account Settings” screen, click [Add].

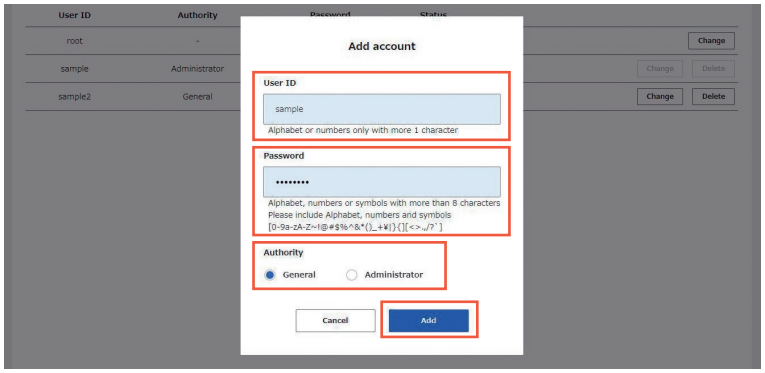

The “Add account” screen is displayed.
• Click [Change] to change the account and [Delete] to delete the account.

OPERATION

3 Input “User ID” and “Password”, select “Authority”, and click [Add].

* Create an administrator account to configure tools.
* For a password, always use a combination of 3 or more types from upper case, lower case, number, and symbol.

[Reference] If you lost the user ID or password

■ General account

[Method 1] Log in as administrator and make changes to the account concerned.
* A general user cannot change the user ID and password and needs to ask an administrator to change them.

[Method 2] Log in with a newly created administrator account and make changes to the account concerned.
* Log in with the user ID and password for the initial login and create a new administrator account. Refer to P18

■ Administrator account

A) When multiple administrator accounts have been created

[Method 1] Log in with another administrator account and make changes to the account concerned.

[Method 2] Log in with a newly created administrator account and make changes to the account concerned.
* Log in with the user ID and password for the initial login and create a new administrator account. Refer to P18

[Method 3] Initialise the settings if you lost IDs and passwords of all administrator accounts. Refer to P81

B) When only one administrator account has been created

[Method 1] Log in with a newly created administrator account and make changes to the account concerned.
* Log in with the user ID and password for the initial login and create a new administrator account. Refer to P18

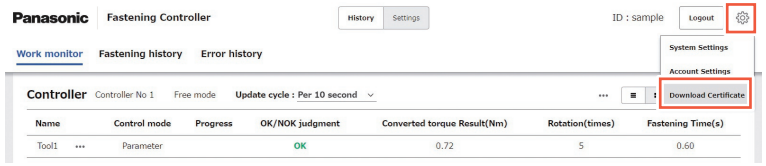

[Method 2] Initialise the settings if you lost IDs and passwords of all administrator accounts. Refer to P81

Obtaining a Certificate

A certificate is necessary to access the controller via the Ethernet port (for network). You can obtain a certificate as below.

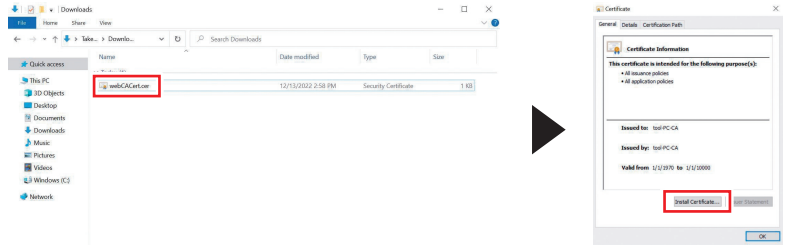

1 In the top page (the initial page of the setting screen), click the option key on the upper right and select “Download Certificate”.

A certificate datum is downloaded to the PC for configuration.

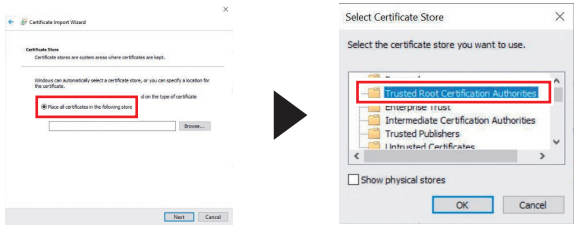

2 Install the certificate in the “PC for configuration used to access the controller via network”.

① Double-click the downloaded certificate datum and select “Install Certificate”.

② Select “Place all certificates in the following store” and then select “Trusted Root Certification Authorities”.

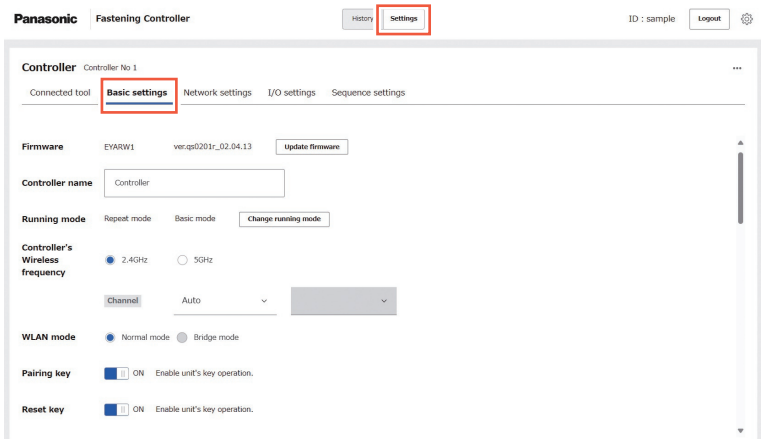

Connecting via Network

In the address bar of the web browser, input “https://XXX.XXX.XXX.XXX/controller” to connect the controller via the Ethernet port (for network).
* “XXX.XXX.XXX.XXX” is an IP address.
* The default IP address is “192.168.0.10”. If you changed the default address, input the changed one. Refer to P28

Basic settings

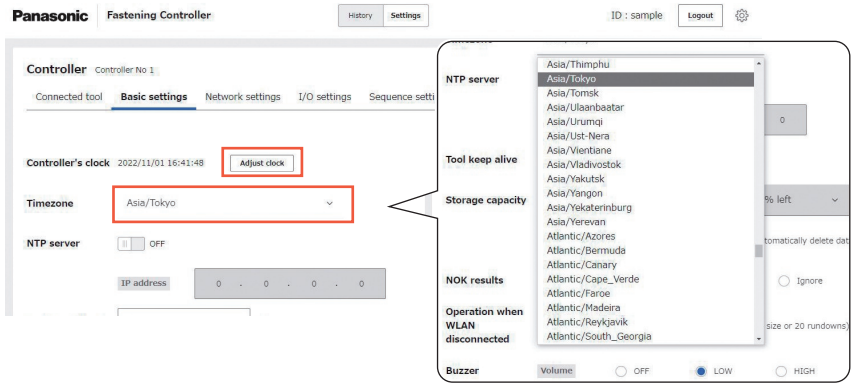

In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Basic settings” tab.
You can configure the controller.

■ Time setting

Select “Timezone” and then click [Adjust clock].
The time is updated.

- The time is not set yet at the time of shipment. Be sure to set the time when you use the controller for the first time.

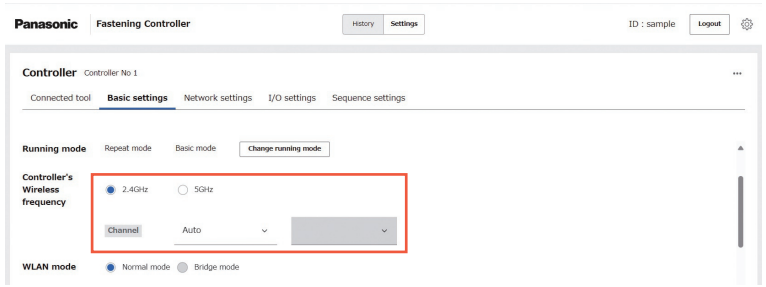

* If you use an NTP server, input the IP address.

■ Radio frequency and channel setting

You can set the frequency to use.
Select “2.4GHz” or “5GHz” and then the channel to use.

* Selectable channels differ between “2.4GHz” and “5GHz”.
* When "Channel" is set to "Auto", the controller automatically selects available channels in the surrounding environment when it turns ON.
  The setting may be effective against radio interference.
* When installing multiple controllers close to each other, do not set adjacent channels.

■ Setting items

Firmware

The firmware version of the controller is displayed.
Click [Update firmware] to update the firmware.
For how to update, see “Updating the Firmware”. Refer to P83

Controller name

You can register the controller’s name.
Use a maximum of 32 alphanumeric characters.
[Default] Controller
[Setting range] Up to 32 alphanumeric characters
* For symbols, only “-” (hyphen), “_” (underscore), and “ ” (half-width space) can be used.

Running mode

Select the running mode of the controller.
[Default] Free mode
[Setting range] Free mode / Repeat mode (Basic mode / Sequence mode) / External control mode

Controller’s Wireless frequency

Select the controller frequency channel to use for wireless communication.
[Default] 2.4GHz
[Setting range] 2.4GHz (Auto / Channel 1 to 13) / 5GHz (Auto / Channel 36, 40, 44, 48)

WLAN mode

You can set how to manage tool’s IP address.
[Default] Normal mode
[Setting range] Normal mode / Bridge mode
* Normal mode: When not managing tool’s IP addresses (automatic assignment)
Bridge mode: When managing (specifying) tool’s IP addresses

Pairing key

You can enable the Pairing key.
[Default] ON (enabled)
[Setting range] OFF (disabled) / ON (enabled)

Reset key

You can enable the Reset key.
[Default] ON (enabled)
[Setting range] OFF (disabled) / ON (enabled)

Controller's clock

Set the controller’s clock.
Click [Adjust clock] to update the time.

Timezone

You can set a desired time zone when adjusting the controller’s clock.

NTP server

Set an NTP server if you use automatic clock adjustment.

Tool keep alive

Set the time interval when the controller checks availability of tools in the wireless communication mode.
Tools not responding are detected as offline and then disconnected.

[Default] 30 s
[Setting range] 10 s to 3600 s

Storage capacity

Enable or disable notification of low storage capacity and set the behaviour in case of capacity shortage.

[Default] Notification - OFF,
Operation when capacity is insufficient - Automatically delete data
[Setting range] Notification - OFF/ON (remaining capacity 10/20/30/40/50%),
Operation when capacity is insufficient - Suspend operation / Automatically delete data

The default setting is “Automatically delete data”.
Consider well how to handle data before selecting “Suspend operation” as necessary.

NOK results

Select how to handle the fastening failure results.

[Default] Store data only
[Setting range] Store data only / Ignore

Operation when WLAN disconnected

Select the behaviour in case of temporary disruption of wireless communication.

[Default] Suspend tool
[Setting range] Suspend tool / Enable fastening (Until batch size or 20 rundowns)
For details, see “TOOLS’ BEHAVIOUR WITH WIRELESS COMMUNICATION DISCONNECTED”. Refer to P68

Buzzer

Select the volume and meaning of the buzzer.

[Default] Volume - LOW,
Beep - All checked
[Setting range] Volume - OFF/LOW/HIGH,
Beep - Check or uncheck each item

Barcode reader settings

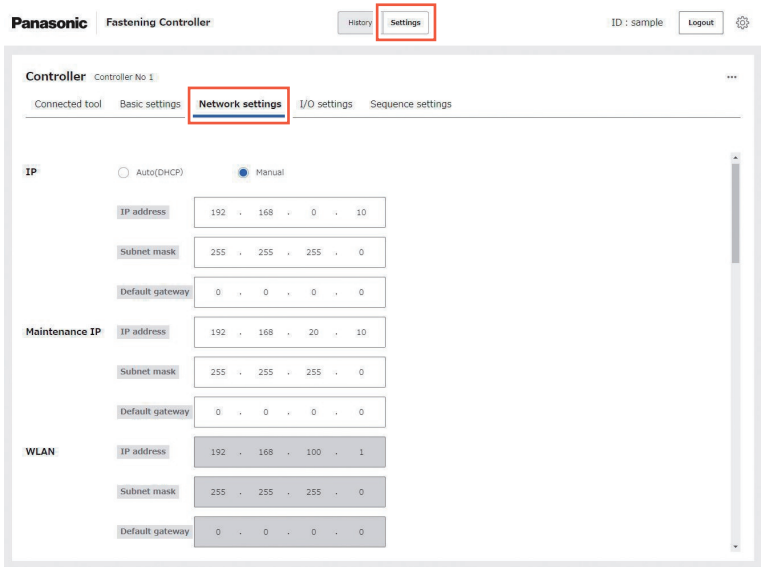

You can connect a barcode reader to add read information to the fastening history data.

[Reading Test] Displays the information read by the barcode reader.

[Bluetooth settings] These settings are used when you connect a Bluetooth-type barcode reader.
The “Search” button displays connectable devices.
Use “Pairing” to select a device to connect.
If it is already connected, the MAC address/device name will be displayed.
You can disconnect it by selecting “Cancel Registration”.

Network Settings

In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Network settings” tab.
You can make network settings of the controller.

■ Setting items

IP
Set the IP address of the Ethernet port (for network). [Default] Manual [Setting range] Auto (DHCP) / Manual * For “Manual” [Default] IP address - 192.168.0.10 Subnet mask - 255.255.255.0 Default gateway - 0.0.0.0
Maintenance IP
Set the IP address of the Ethernet port (for maintenance). [Default] IP address - 192.168.20.10 Subnet mask - 255.255.255.0 Default gateway - 0.0.0.0
WLAN
Set the IP address (on the controller’s side) for wireless communication with tools. [Default] IP address - 192.168.100.1 Subnet mask - 255.255.255.0 Default gateway - 0.0.0.0
Access point
Set the internal access point for wireless communication with tools. [Default] SSID - Controller’s model number-MAC address Security - WPA2 [Setting range] SSID - A maximum of 32 alphanumeric characters Security - WPA2

- For the IP addresses for “IP” and “Maintenance IP”, do not use the same subnet. (When you set a default value (255.255.255.0) in “Subnet mask”, set different values in the part corresponding to “192.168.0” or “192.168.20”.)

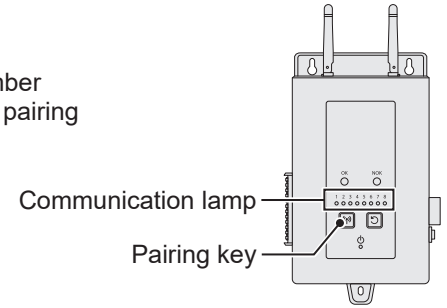

Starting the Pairing Mode on the Controller

You can put the controller in the pairing mode by “Using the key on the unit” or “Setting in the setting screen”.
During 2 minutes of the pairing mode, start the pairing mode on a tool within the coverage to automatically establish pairing.
If pairing is not established within the time, the pairing mode will end.

* After you attempt to start pairing, it may take some time until the controller enters the pairing mode.

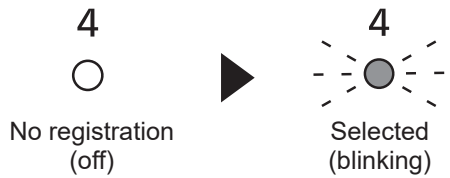

■ Using the key on the unit

Use the Pairing key on the controller unit.
Select the communication lamp of the number with no registration (lamp off) and hold the pairing key down to enter the pairing mode.
See the following procedure for details.

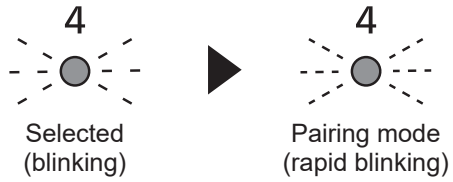

(To register Tool No. 4)

1 Press the Pairing key on the controller 4 times to select Tool No. 4.
Communication lamp No. 4 blinks.

2 While No. 4 is selected, hold down the Pairing key on the controller to enter the pairing mode of Tool No. 4.
In the pairing mode, Communication lamp No. 4 starts blinking rapidly.

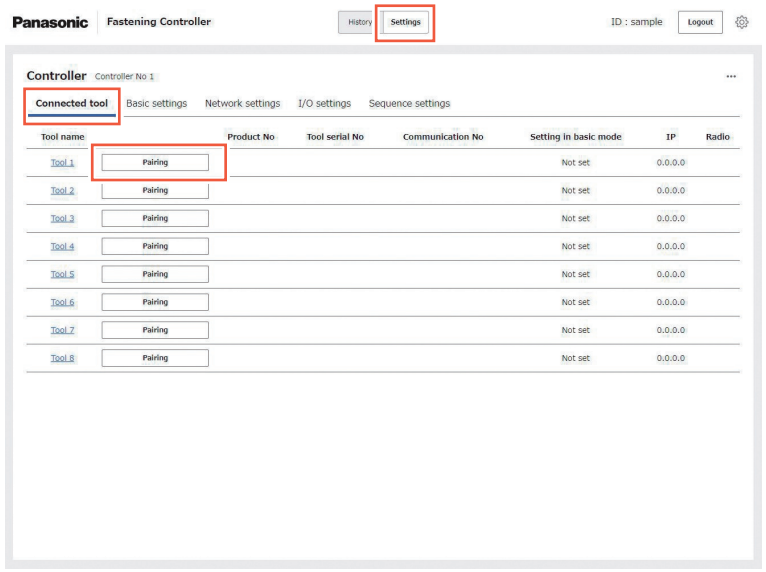

3 Operate Tool No. 4 to establish pairing.
Communication lamp No. 4 stays lit.
For how to operate the tool, see “Starting the Pairing Mode on a Tool”. Refer to P32

■ Setting in the setting screen

In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Connected tool” tab.
In the “Connected tool” screen, click [Pairing] of the desired tool number.
After the controller enters the pairing mode, perform the procedure in “Starting the Pairing Mode on a Tool”. Refer to P32

<For reference> Replacing with a spare tool

When replacing a defective paired tool with a new one with the same model number, cancel pairing Refer to P32 and then conduct pairing Refer to P30 so that the fastening parameters and other settings can be automatically transferred.

* To pair with a tool with a different product number, cancel pairing to delete the current pairing information before pairing with it. Refer to P36

Display after pairing is completed

After pairing is completed, if the setting screen does not display the information of the paired tool, conduct display update in the setting screen.

Starting the Pairing Mode on a Tool

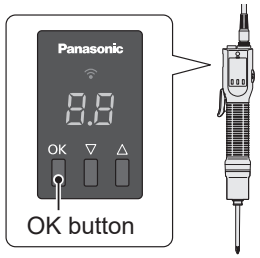

Put the controller in the pairing mode before starting the pairing mode on a tool.

■ Procedure

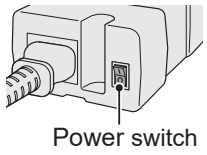

1 While holding down the OK button of the tool, turn ON the power switch of the power adapter.

The tool enters the pairing mode. Wireless communication is automatically established and pairing registration is completed.

* For details, see the tool's Operating Instructions.
* If pairing fails, cancel pairing on the controller and then try again.

Power Adapter (sold separately)

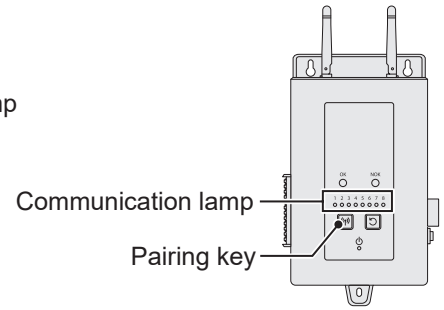

Connect the screwdriver cord to the power adapter and the tool and then connect the power plug to the outlet before starting operation.

Cancelling Pairing

You can cancel pairing registration on the controller by "Using the key on the unit" or "Setting in the setting screen".

■ Using the key on the unit

Use the Pairing key on the controller unit. Select the communication lamp of the tool number you want to cancel registration (lamp on) and hold the pairing key down to cancel pairing registration.
See the following procedure for details.

(To cancel Tool No. 4)

1 Press the Pairing key on the controller 4 times to select Tool No. 4.

Communication lamp No. 4 blinks.

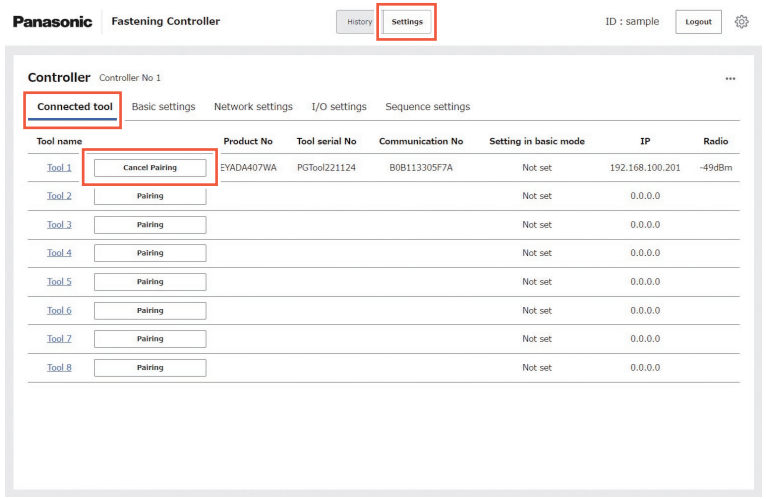

2 While No. 4 is selected, hold down the Pairing key on the controller to cancel pairing registration of Tool No. 4.

When pairing is cancelled, Communication lamp No. 4 stops blinking and turns off.

■ Setting in the setting screen

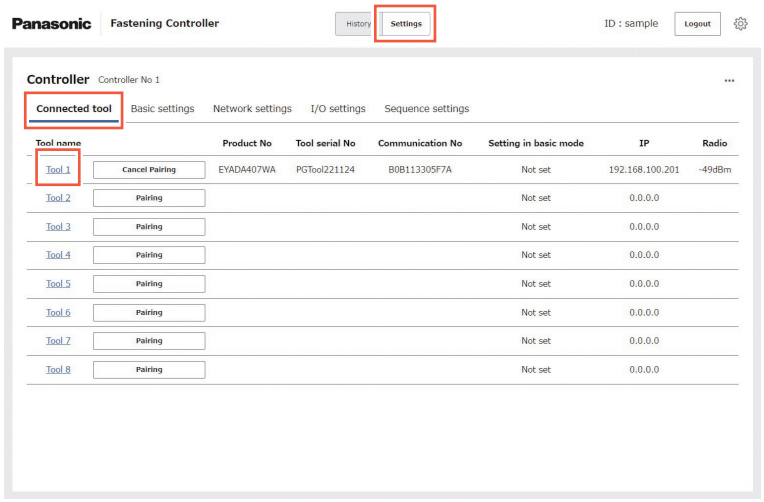

In the top page (the initial page of the setting screen), click [Settings] on the top and select the "Connected tool" tab.
In the "Connected tool" screen, click [Cancel Pairing] of the desired tool number.

* If the controller cannot communicate with the tool due to the tool being turned off or any other reason, check [Force to unpair] in the pairing cancellation confirmation dialogue.

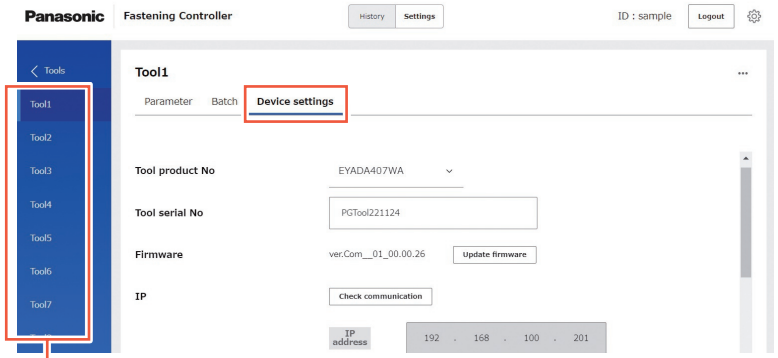

Displaying the Tool Screen

In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Connected tool” tab.
In the “Connected tool” screen, click the desired tool number.
The screen for the tool number is displayed.

Displaying the Tool Setting Screen

From the “Device settings” tab in the screen for the tool number, you can make basic settings of the tool and enter common parameters.
* To switch the tool, select the desired one from the tool list.

Tool list

Tool Setting Items

Tool product No

Select the tool product number.

[Default] Blank
[Setting range] Selectable from the pull-down menu

* Automatically selected if you establish pairing beforehand.
* The tool product number cannot be changed after pairing. Cancel pairing and then change it.

Tool serial No

You can set and display the tool’s unit identification.

[Default] 8-digit serial number
(2-digit manufacturing year + 2-digit month + 4-digit production lot)
[Setting range] 13 to 16 alphanumeric characters

* The model number may not be recognised correctly if the information is changed. Do not change it unless required by the management rule.

Firmware

The firmware version of the tool’s communication part is displayed.
Click [Update firmware] to update the firmware.
For how to update, see “Updating the Firmware”. Refer to P83

IP

Set the IP address (on the tool’s side) for wireless communication with tools.

[Default] IP address - 192.168.100.201 (Tool 1) to 208 (Tool 8)
Subnet mask - 255.255.255.0
Default gateway - 0.0.0.0

Tool’s clock

The tool’s clock is displayed. Click [Adjust to controller] to adjust the time.

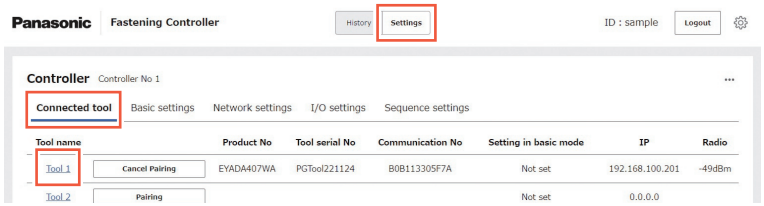

• For other setting items, see the tool’s Operating Instructions.

Deleting the Registration Information

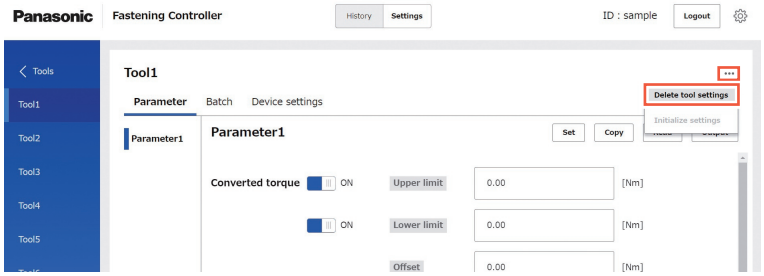

To stop use of a tool or pair a tool with a different product number, delete the pairing information.
* Cancel pairing beforehand.

1 **In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Connected tool” tab.**
The “Connected tool” screen is displayed.

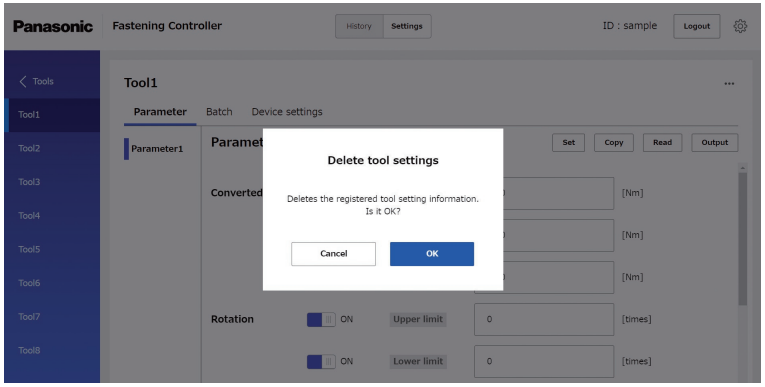

2 **In the “Connected tool” screen, click the desired tool number.**
The screen for the tool number is displayed.

3 **Click ··· (tool option key) and then [Delete tool settings].**
The “Delete tool settings” screen is displayed.

4 **In the “Delete tool settings” screen, click [OK].**

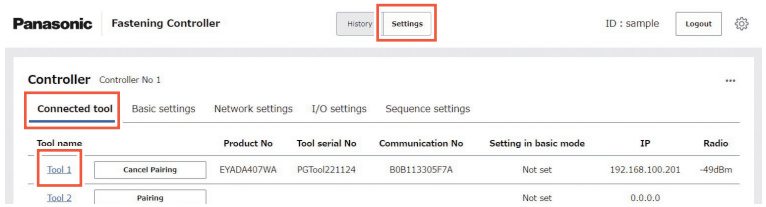

Resetting to Factory Settings

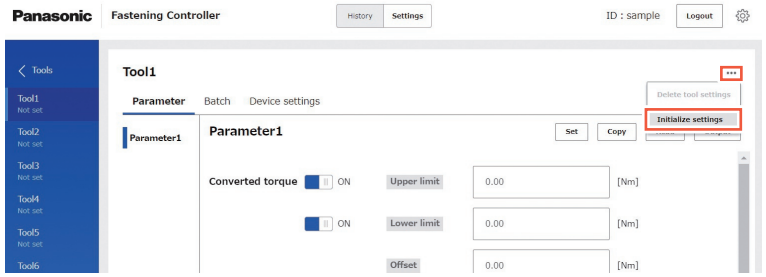

You can reset a tool to its factory settings.
* Resetting cancels pairing.

1 **In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Connected tool” tab.**
The “Connected tool” screen is displayed.

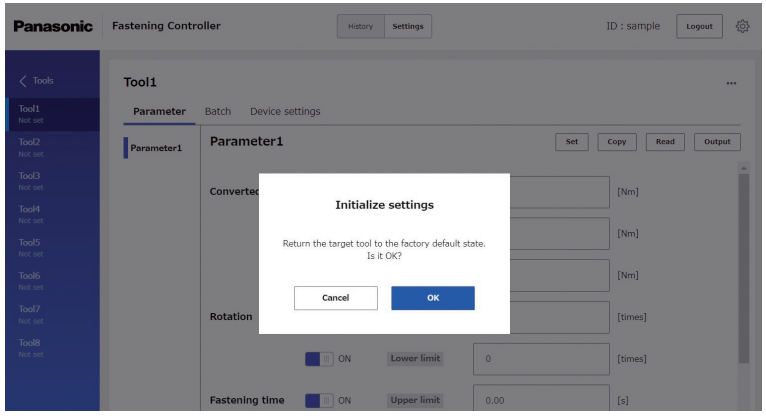

2 **In the “Connected tool” screen, click the desired tool number.**
The screen for the tool number is displayed.

3 **Click ··· (tool option key) and then [Initialize settings].**
The “Initialize settings” screen is displayed.

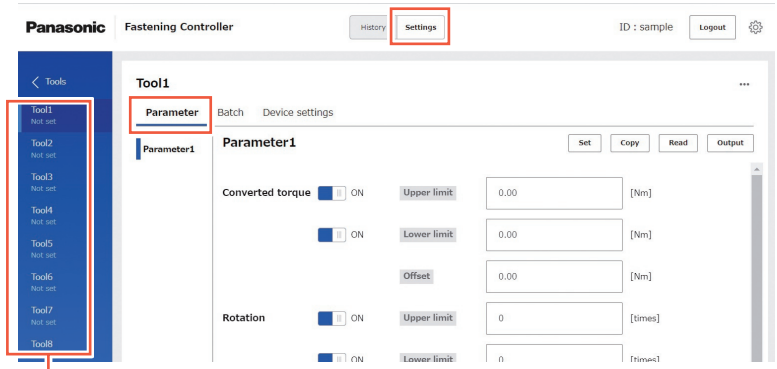

4 **In the “Initialize settings” screen, click [OK].**

OPERATION

Setting Parameters

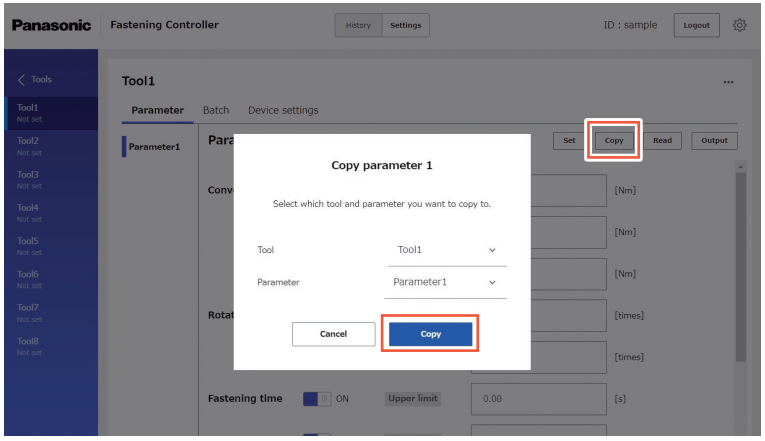

In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Connected tool” tab.
In the “Connected tool” screen, click the desired tool number.
In the screen for the tool number, select the “Parameter” tab to make settings.
Only one type of parameter can be registered for each tool.
* To switch the tool, select the desired one from the tool list.

Tool list

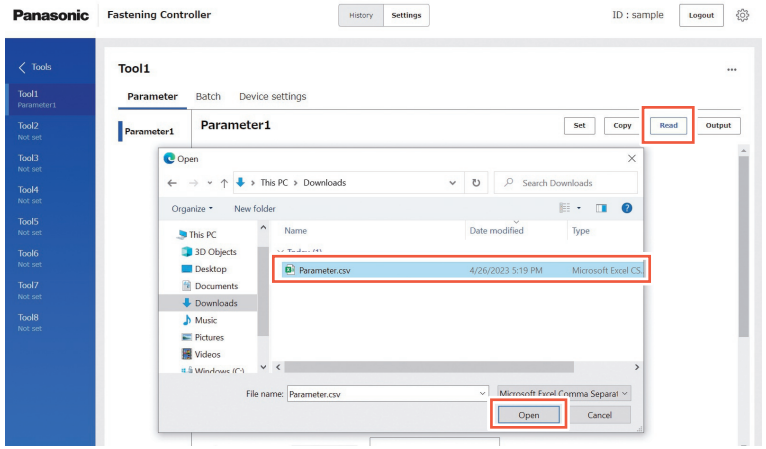

Copying Parameters

You can copy the set parameter to create a new parameter from it or use it on another tool.
In the “Parameter” tab in the screen for the tool number, click [Copy] to display the screen for copying the parameter. In the screen, select the destination and click [Copy].

Loading Parameters

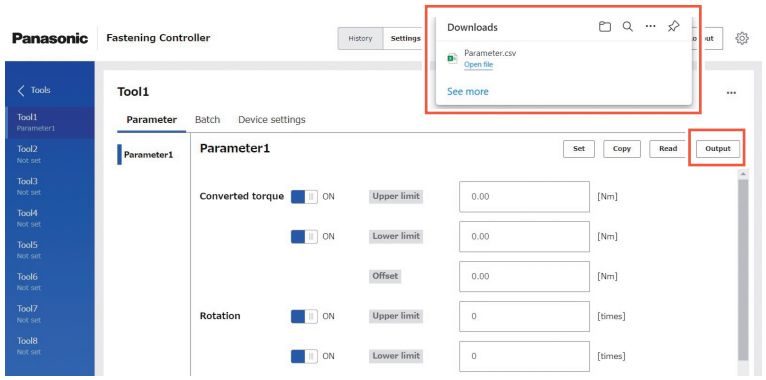

You can register a parameter by loading a parameter file saved in the PC for configuration into the controller.
From the “Parameter” tab in the screen for the tool number, click [Read] and open the parameter file.

Exporting Parameters

You can export the created parameter to the PC for configuration.
You can use the exported file as a backup, to copy it to another controller, or to move it to another PC for configuration.
From the “Parameter” tab in the screen for the tool number, click [Output] and save the parameter file.

Do not edit the exported parameter file.
Otherwise it may not be read correctly.

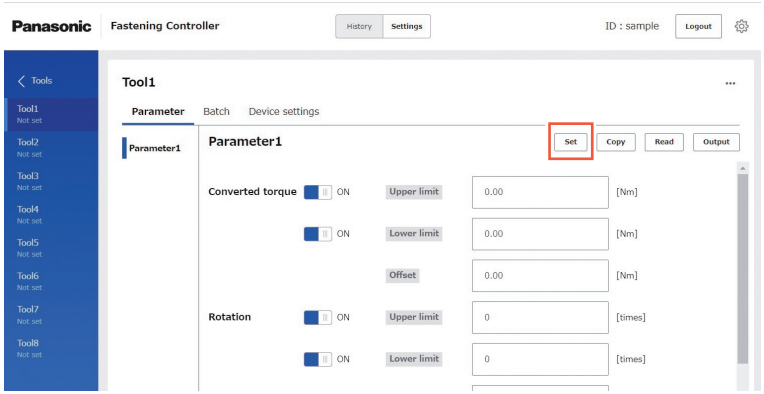

Registering Parameters

Register a parameter to use it to control a tool in “Free mode” of the controller’s running mode.

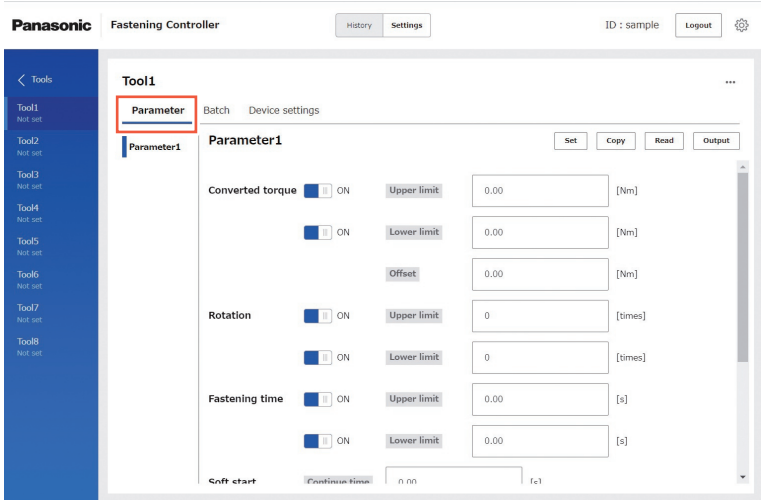

* It is not used in “Repeat mode” and “External control mode”.
  (For “Free mode”, “Repeat mode”, and “External control mode”, see “Setting the Running Mode”. Refer to P44

From the “Parameter” tab in the screen for the tool number, click [Set].

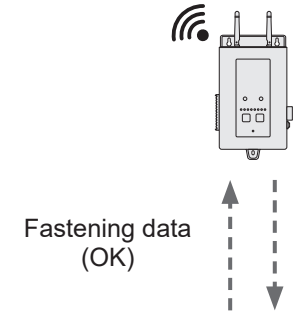

Parameter Items

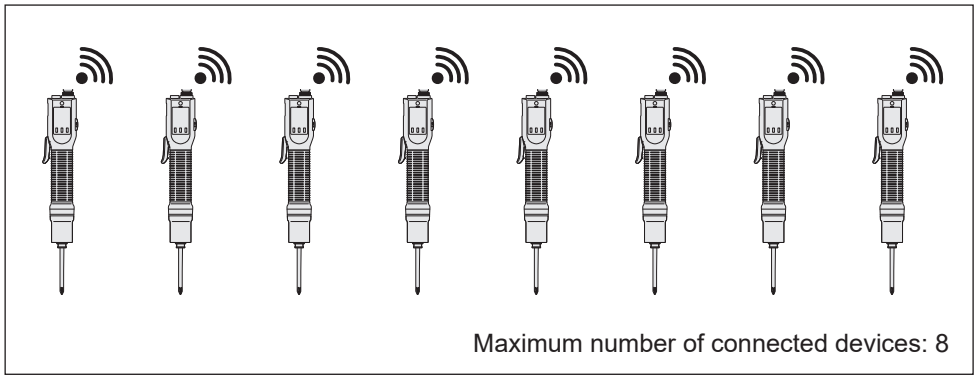

Set the fastening parameter items.
For details, see the tool’s Operating Instructions.

Controlling Fastening by Tools

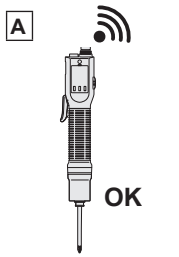

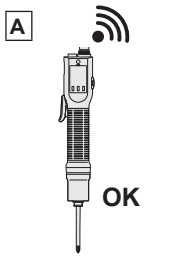

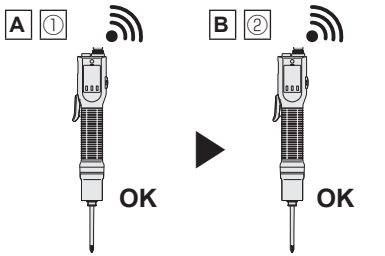

The controller can control up to 8 connected tools for fastening.
It receives fastening data of each fastening task and counts up the fastened quantity.

Typical Fastening Control Combinations

You can create different combinations of fastening control settings. See typical combinations as below.

Mode	[Free mode]	[Repeat mode]	
		[Basic mode]	[Sequence mode]
Pass criterion	– (The quantity is not specified)	Fastening the target quantity is completed	Tools complete fastening the respective target quantities in the specified order
[Batch] To fasten more than one screw with the same setting	 Clutch setting: [scale] 1; Target quantity: ∞ Parameter	 Clutch setting: [scale] 1; Target quantity: 10 Batch	 Clutch setting: [scale] 1; Target quantity: 10 / Clutch setting: [scale] 2; Target quantity: 5 Batch and Sequence
Remark	–	–	* A sequence can contain up to 10 steps.

• Clutch is manually set with the clutch handle on the tool (cannot be changed automatically).

Number of Combinations That Can Be Registered

See the number of combinations that can be registered in the controller as below.

Controller's mode		Tool's setting	Number of Combinations That Can Be Registered
Free mode		**Parameter**	○ 5 combinations per tool * This is only supported by the firmware version 2.02.00 or later. * For previous versions, only one type can be registered for each tool.
Repeat mode	**Basic mode (Independent control)**	**Batch**	○ 5 combinations per tool
	Sequence mode (Sequential control)	**Batch**	○ 5 combinations
External control mode		–	○ (I/O instruction only)

• Up to five different batch processes can be registered. Therefore, it is possible to switch to a batch process with different number of fastened screws such as “fastening one screw” and “fastening three screws”.

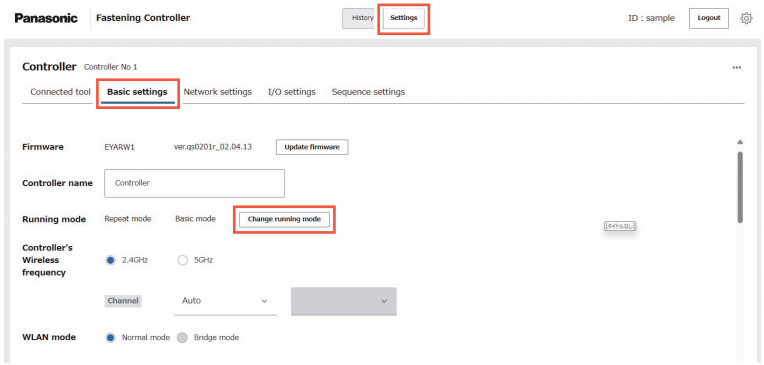

Setting the Running Mode

Set the running mode of the controller as below.

1 **In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Basic settings” tab.**

2 **In the “Basic settings” tab, click [Change running mode].**

The “Change running mode” screen is displayed.

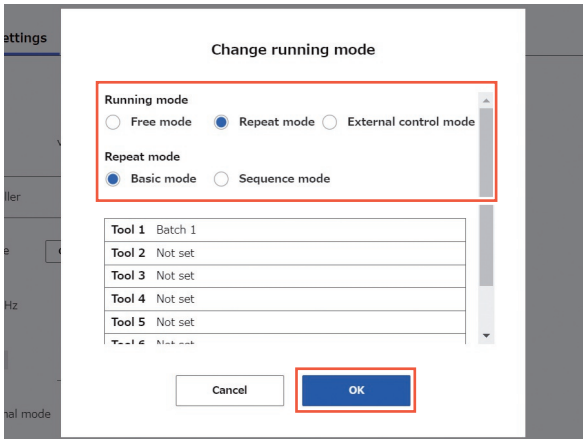

3 **Select a “Running mode” and click [OK].**

The running mode is set.

Select a running mode from “Free mode”, “Repeat mode”, and “External control mode”.

For “Repeat mode”, select “Basic mode” or “Sequence mode”.

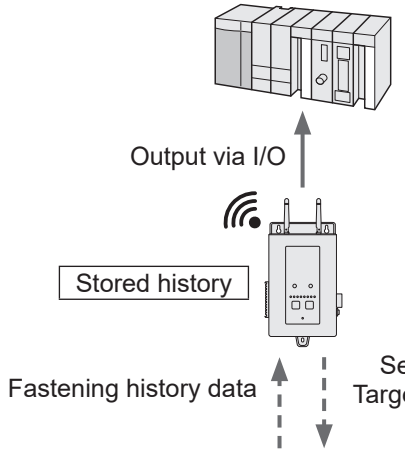

Refer to P45 to 48

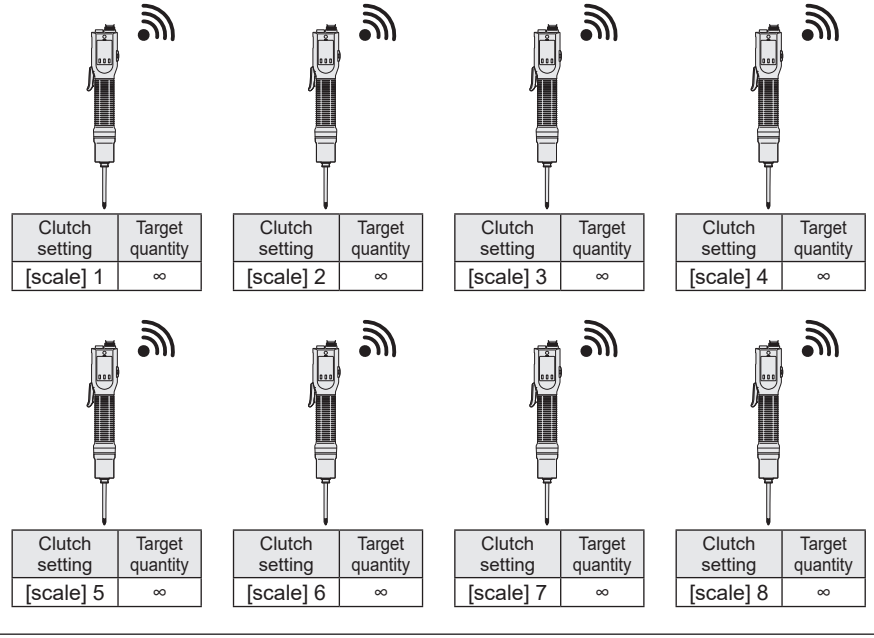

* Register “Parameter” before setting to “Free mode”.
* Register a “Batch” before setting to “Repeat mode”.

■ Free mode

This mode allows for unconditional fastening without specifying the quantity to fasten.
Tools use pre-registered parameters for fastening.
Up to 8 tools can conduct independent operation.
The I/O output settings are enabled.
* Use the mode when the fastened quantity is counted by an external device.

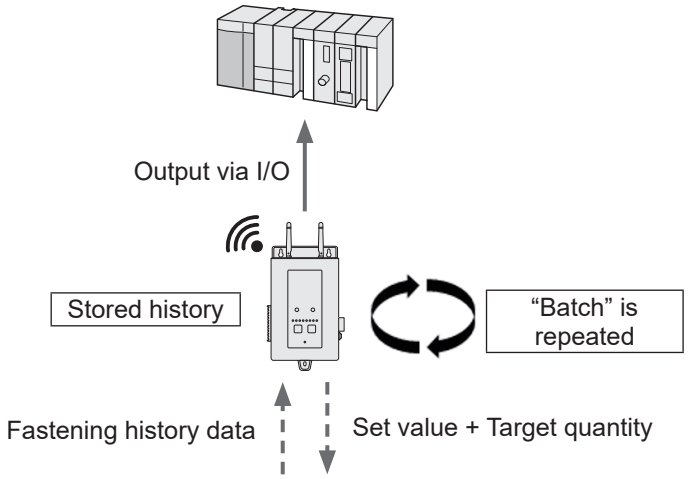

Up to 8 tools can be controlled at the same time

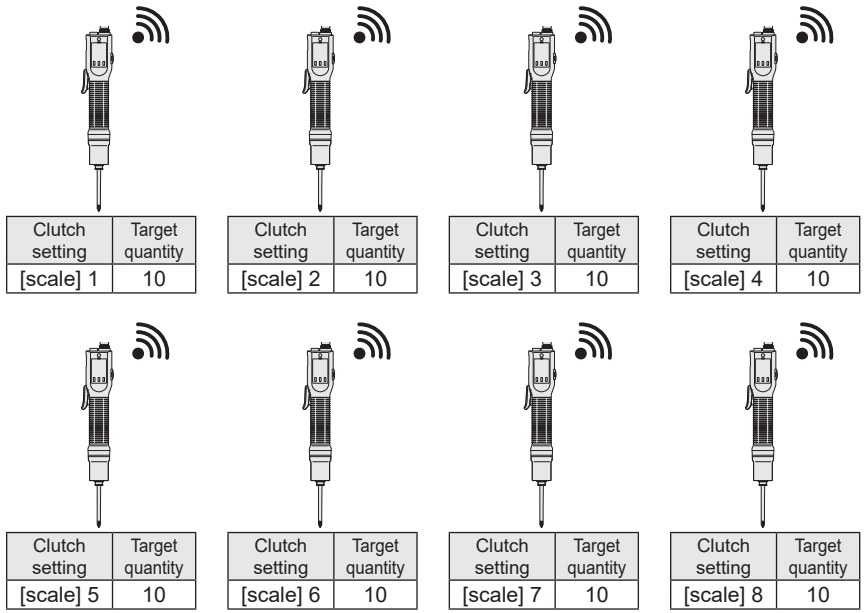

OPERATION

■ Repeat mode (Basic mode)

This mode repeats a “Batch” process.
Tools use pre-registered “Batch” settings for fastening.
Up to 8 tools can conduct independent operation.
The I/O output settings are enabled.

Up to 8 tools can be controlled at the same time

Clutch setting	Target quantity
[scale] 1	10

Clutch setting	Target quantity
[scale] 2	10

Clutch setting	Target quantity
[scale] 3	10

Clutch setting	Target quantity
[scale] 4	10

Clutch setting	Target quantity
[scale] 5	10

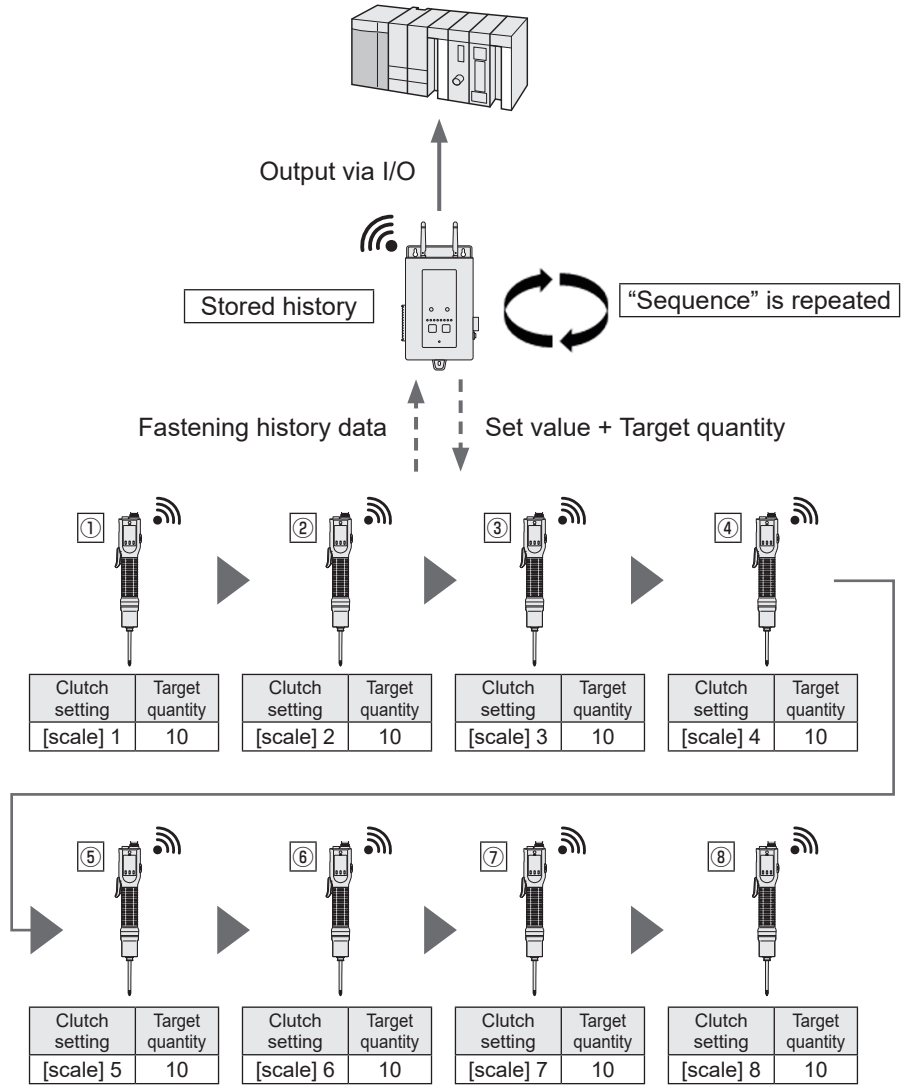

Clutch setting	Target quantity
[scale] 6	10

Clutch setting	Target quantity
[scale] 7	10

Clutch setting	Target quantity
[scale] 8	10

■ Repeat mode (Sequence mode)

This mode repeats a “Sequence” process where available tools are controlled in order.
Tools use pre-registered “Sequence” settings for sequential fastening.
Up to 10 steps can be set. A sequence supports up to 8 tools but allows only one tool to operate at a time.
The I/O output settings are enabled.

Clutch setting	Target quantity
[scale] 1	10

Clutch setting	Target quantity
[scale] 2	10

Clutch setting	Target quantity
[scale] 3	10

Clutch setting	Target quantity
[scale] 4	10

Clutch setting	Target quantity
[scale] 5	10

Clutch setting	Target quantity
[scale] 6	10

Clutch setting	Target quantity
[scale] 7	10

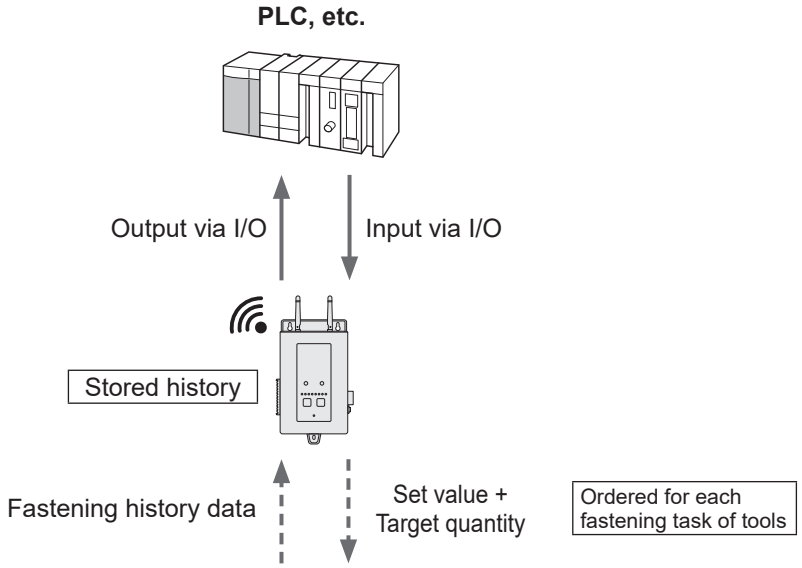

Clutch setting	Target quantity
[scale] 8	10

■ External control mode

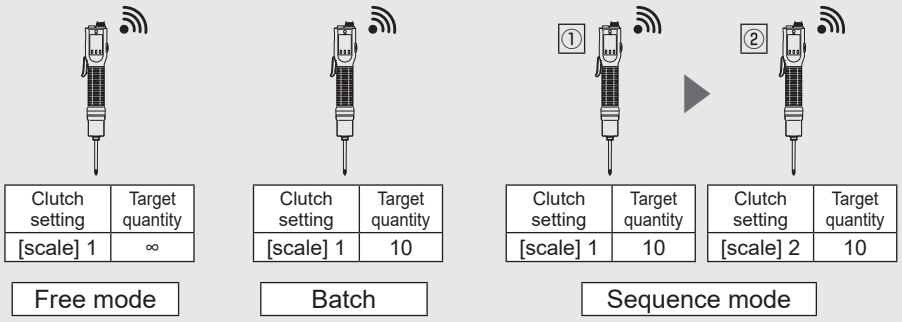

This mode allows for fastening control as ordered by an external device (PLC, etc.).

● Control via I/O

Fastening is controlled by inputs via the I/O port from an external device.
Up to 8 tools can be controlled independently or sequentially.

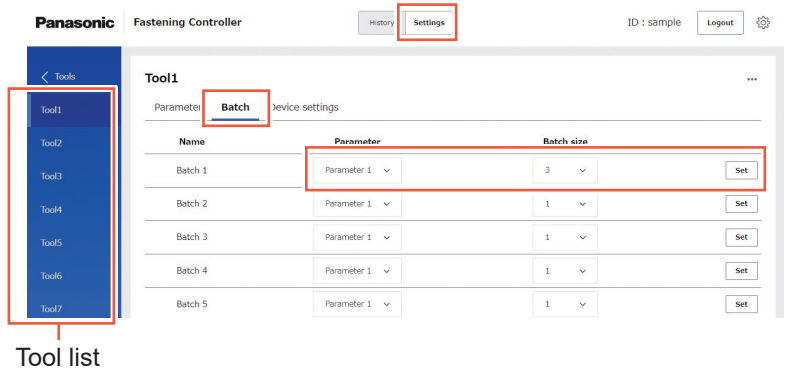

* More than one tool can be controlled at the same time (except for “Sequence”)

* If the controller turns off during fastening, fastening does not resume after the controller turns on. Fastening starts again when ordered by an external device.
* The I/O output settings are enabled.

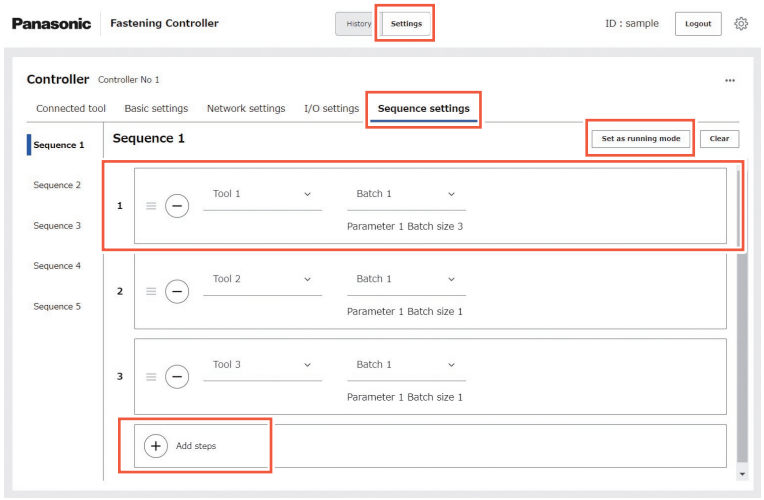

Creating (Setting) a Batch

In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Connected tool” tab. In the “Connected tool” screen, click the desired tool number.
In the screen for the tool number, select the “Batch” tab and make settings.
Select a parameter from the “Parameter” pull-down menu and set “Batch size” (quantity to fasten, up to 99). Click [Set] to set the values for “Repeat mode (Basic mode)”.
* To switch the tool, select the desired one from the tool list.
* Up to 5 batches can be registered.

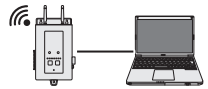

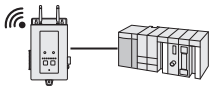

Creating (Setting) a Sequence

In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Sequence settings” tab.
In the “Sequence settings” screen, select a tool from the “Tool” pull-down menu and set “Batch”.
Click [Set as running mode] to set the values for “Repeat mode (Sequence mode)”.
* Up to 5 sequences can be registered.
* Up to 10 steps can be registered.
* The same tool can be used more than once in a sequence.

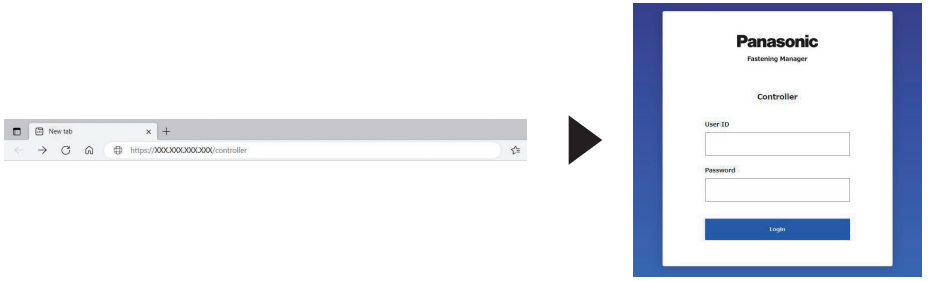

Supported Types of External Devices

The controller supports the following types of external device.

Feature	PC for Configuration	PLC
Illustration		
Communication method	Ethernet	I/O
Communication protocol	http/https	— (ON/OFF signal only)
Main use	• Viewing and storing the fastening history • Changing the settings	• Outputting completion and failure signals • Switching the fastening order
Data that can be exported	• Serial numbers of tools • Time • Completion and failure results • Torque values, angles	• Completion and failure results • Batch/sequence complete • Batch/sequence selected • Tool active
Switching the fastening order	—	• Batch/sequence selected
Other	Displayed in a web browser. Microsoft Edge is recommended.	8 ports each for input and output

Connecting to the PC for Configuration in a Remote Location

The PC for configuration with the certificate installed can remotely connect to controllers.
Note that only one access to the configuration function is accepted at a time.
To connect, input the IP address of the desired controller in a web browser.
Refer to P21

Connecting via I/O

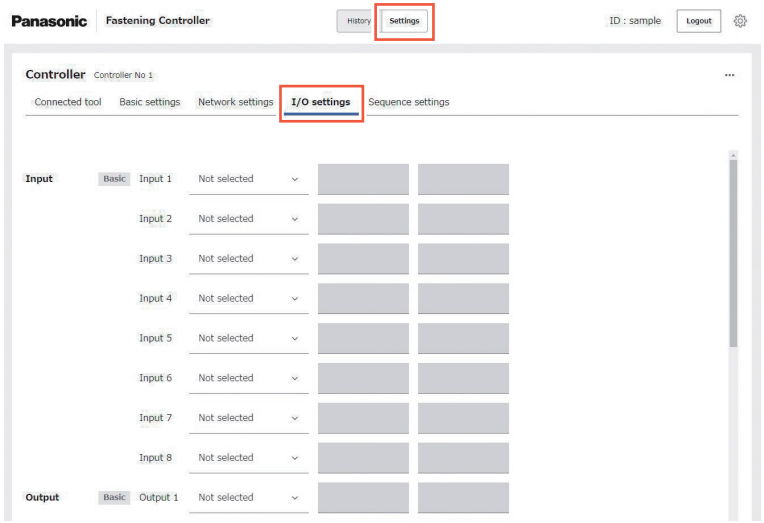

You can assign supported commands to 8 input ports and 8 output ports as desired.
Assign them in the “I/O settings” screen.
Below are the commands that can be assigned to the ports.

Input	Supported command
1	Batch (Tool 1 to 5) Sequence (1 to 5) Batch reset (1 to 8) Reset Suspend tool (1 to 8) Suspend controller
2	
3	
4	
5	
6	
7	
8	

Output	Supported command
1	OK (Tool 1 to 8) NOK (Tool 1 to 8) Batch complete (Tool 1 to 5) Sequence complete (1 to 5) Tool active (Tool 1 to 8) Batch selected (Tool 1 to 5) Sequence selected (1 to 5)
2	
3	
4	
5	
6	
7	
8	

Setting I/O

In the top page (the initial page of the setting screen), click [Settings] on the top and select the “I/O settings” tab.

* It is possible to assign a behaviour or event not registered yet. (Except for sequence selection)

Commands Assigned to Input Ports

Below are the commands that can be assigned to the input ports.
When a signal from an external device is input to one of the ports, the assigned command is executed.

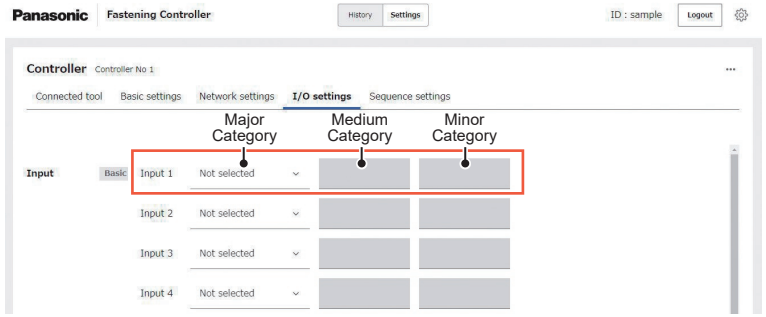

Major Category (Behaviour)	Medium Category (Tool)	Minor Category (Batch No., Etc.)
Batch	Tool 1 to 8	1-5
Sequence	—	1-5
Suspend tool*1	Tool 1 to 8	—
Suspend controller*1	—	—
Batch reset	Tool 1 to 8	—
Reset	—	—

*1 Enabled only while the input signal is held.

Notes when the “Suspend tool” or “Suspend controller” command is input

- While “Suspend controller” is active, no fastening order is accepted.
- For the tool number with “Suspend tool” active, no “Batch” fastening order is accepted.
- For other tool numbers than that with “Suspend tool” active, a “Batch” fastening order is accepted.
- While “Suspend tool” is active, no “Sequence” fastening order is accepted.
  At the time, the process continues until it reaches the tool with “Suspend tool” active.
- “Batch reset” and “Reset” are treated in the same manner as a fastening order.

After selecting a behaviour in the major category, select a tool and then a number (e.g., batch number) as necessary.

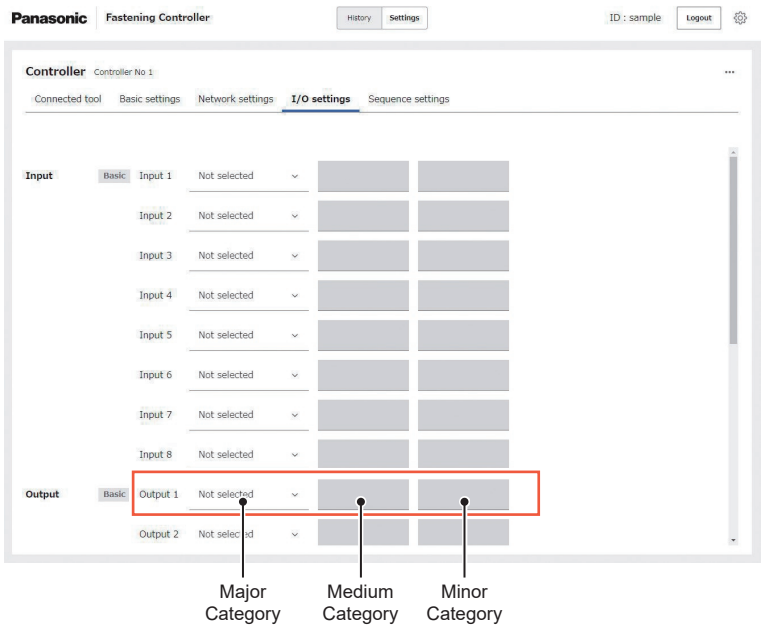

* No action is conducted if an unassigned signal is input. (No error occurs)

Commands Assigned to Output Ports

Below are the commands that can be assigned to the output ports.
When a relevant event has occurred, the controller outputs a signal from the corresponding port to an external device as specified by the assigned command.

Major Category (Event)	Medium Category (Tool)	Minor Category (Batch No., Etc.)
OK	Tool 1 to 8	—
NOK	Tool 1 to 8	—
Batch complete	Tool 1 to 8	1-5
Sequence complete	—	1-5
Tool active	Tool 1 to 8	—
Batch selected	Tool 1 to 8	1-5
Sequence selected	—	1-5

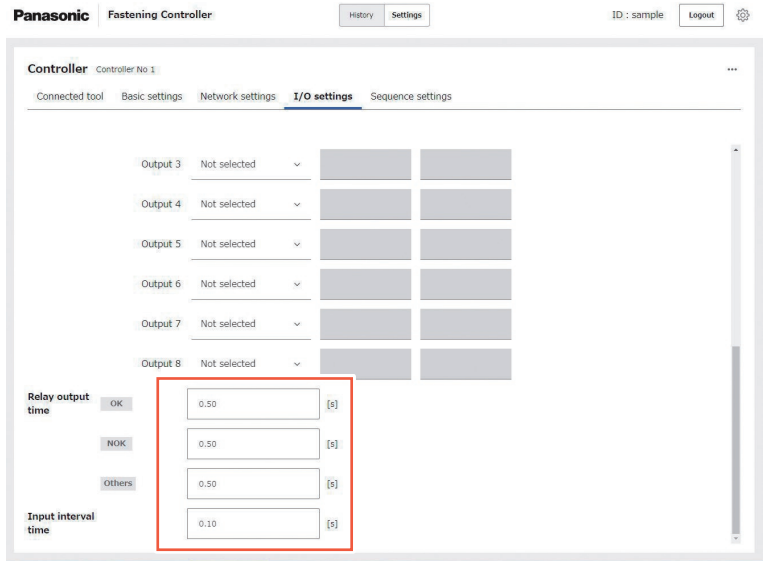

After selecting an event in the major category, select a tool and then a number (e.g., batch number) as necessary.

* If the controller turns off while executing an output command, the process does not resume after the controller turns on. (Note that fastening history data are saved.)

Other Settings

You can set other I/O related settings as below.

Relay output time (OK)

Select the time length until a fastening completion signal is output by the relay.
[Default] 0.5 s
[Setting range] 0.01 s to 10 s

Relay output time (NOK)

Select the time length until a fastening failure signal is output by the relay.
[Default] 0.5 s
[Setting range] 0.01 s to 10 s

Relay output time (Others)

Select the time length until any other signal than fastening completion and failure signals is output by the relay.
[Default] 0.5 s
[Setting range] 0.01 s to 10 s

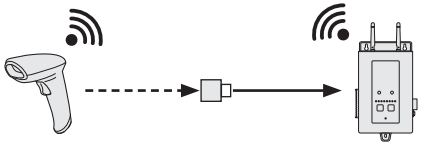

Input interval time

Select the time length when the successive input signals are not counted (accepted).
Set it to prevent double-counting caused by noise, etc.
[Default] 0.1 s
[Setting range] 0.01 s to 10 s

This is only supported by the firmware version 2.03.00 or later.
For how to update the firmware, see “Updating the Firmware”.
Refer to P83

Setup

You can connect a commercially available barcode reader to save read information while linking it to the fastening history data.
This can be used to link products to the fastening history.

Connection	Communication method	Note
	Wireless 2.4 GHz or Bluetooth	• Reads product information (such as manufacturing serial numbers) and reflects it in the history data.

Do not use wired USB-type barcode readers.

Applicable Devices

The following barcode readers are compatible with the controller.

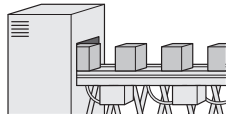

Item	Description
Communication interface	USB-HID
Keyboard layout	US
Supported characters	Alphanumeric characters, symbols **Supported codes** / **Code description (Anticipated information)** Numbers: 0-9 Alphabetic characters: A-Z, a-z Symbols: !"#$%&'()*+,-./:;<=>?@[¥]^_`{|}~
Acceptable 1D codes	JAN, EAN, UPC, CODE39, ITF
Acceptable 2D codes	QR Code Model 1/2, Micro QR
Acceptable number of characters	100 characters (maximum)

Recommended models
Bluetooth: Honeywell Xenon XP 1952g, ZEBRA DS2278

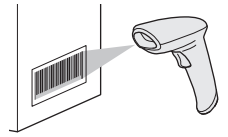

Work Process Flow

By following the procedure below, you can save product information while linking it to the fastening history data.

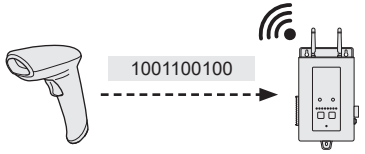

1 **Products flow through the line.**

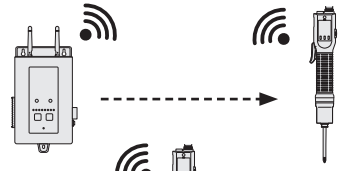

2 **Read product information with a barcode reader.**

3 **The information read by the barcode reader is sent to the controller.**

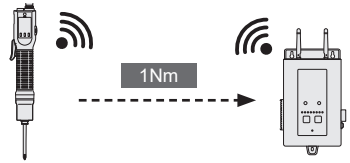

4 **A fastening order is sent from the controller to the tools.**
* This step may come before or after step 3.

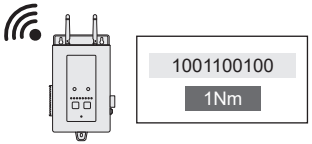

5 **Perform fastening work using the tools.**

6 **The fastening work result (such as torque) is sent to the controller.**

7 **The read information retained in the controller and the fastening work result are linked to each other and saved to the storage.**

8 **Repeat steps 5 to 7 until the barcode reading information is updated (or the work is completed).**

Setting Procedure

The setting procedure varies depending on the specifications of the barcode reader.

■Wireless 2.4 GHz method (with dedicated wireless receiver)

Connect it following the procedure below.
(Steps 2 to 3 are not required.)

■Bluetooth method (without dedicated wireless receiver)

Prepare a Bluetooth wireless receiver separately and connect it following the procedure below.

Available Bluetooth wireless receivers

- Bluetooth version: Compatible with Ver4.0
- Compatible with Linux OS (only those that do not require dedicated drivers)

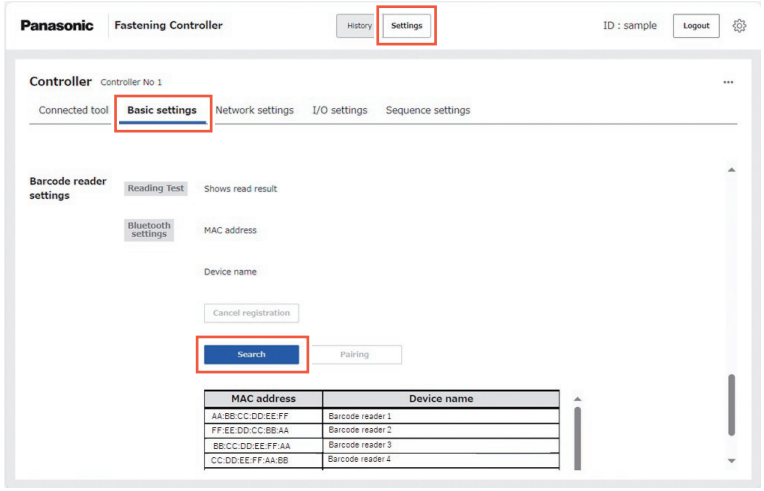

Recommended models

EDIMAX BT-8500

1 Connect the wireless receiver of the barcode reader to the USB-A port of the controller.

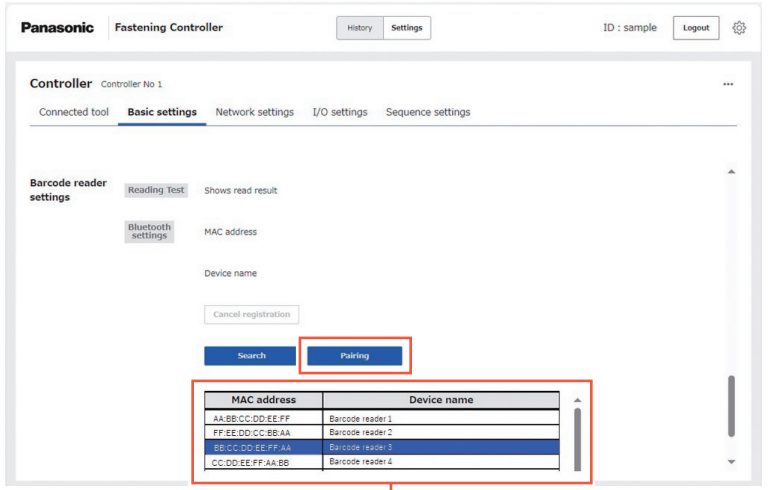

2 In the top page (the initial page of the setting screen), click [Settings] on the top, select the “Basic settings” tab, and click “Search” from “Barcode reader settings”.

* Put also the barcode reader in pairing mode according to its specifications.

3 Select the barcode reader to connect from the device name list and press “Pairing”.

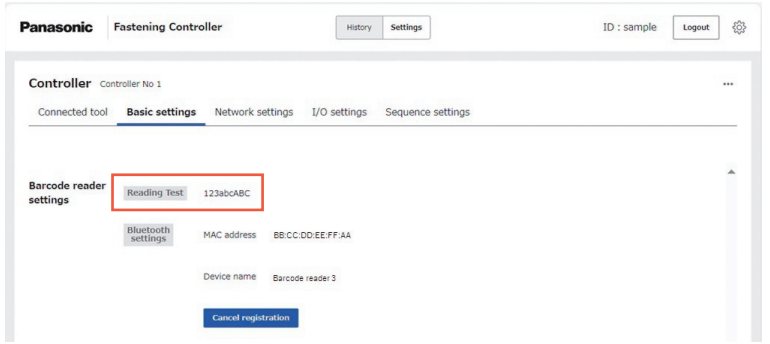

It will be paired with the barcode reader.

Device name list

- The search state is kept for about 10 seconds.
- Once pairing is registered, it will be reconnected automatically the second and subsequent times.
  * Depending on the specifications of the barcode reader, pairing may be required again.
  * If pairing fails, cancel pairing on the controller and then try again.

4 Read barcode information and check that the information is displayed correctly in “Reading Test”.

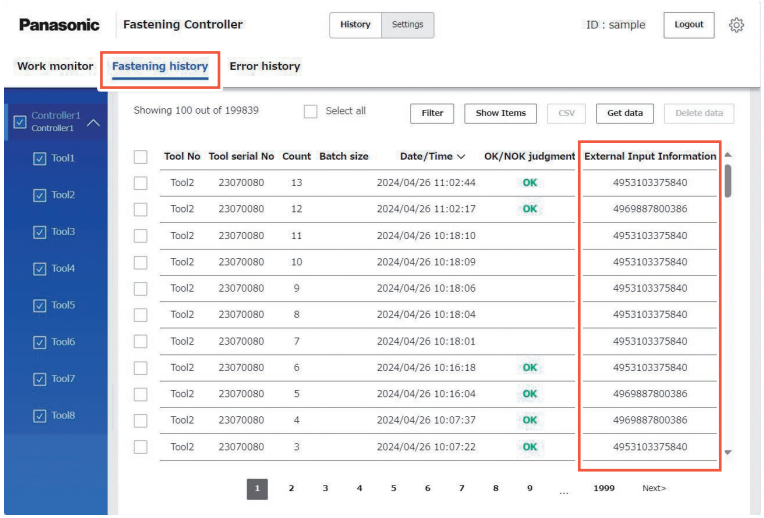

5 Perform fastening work with the barcode reader having read the information.

The read data will be displayed in “External Input Information” of the fastening history data.

Notes during operation

- The “Fastening OK lamp” will blink in the barcode reading reception state. During operation, check that the barcode reading reception state is active before work.

Notes on Read Values

The read values are:

- Reflected in the work results of all tools recorded by the controller after reading.
- Not retained when the controller is OFF.
- Overwritten by newly read information.
- Retained until the following conditions are met.

Running Mode	Data Retention Conditions
Free mode	Data is retained until updated.
Repeat mode (Basic mode)	Until “Batch” completion. Or data is retained until updated.
Repeat mode (Sequence mode)	Until “Sequence” completion. Or data is retained until updated.
External control mode * Control via I/O	Until “Batch”/“Sequence” completion. Or data is retained until updated.

- Depending on the device specifications of the barcode reader you are using, detailed settings may be required for connection with the controller. Before using this function, carefully read the Operating Instructions and settings of your device.
- If data is read continuously within 0.5 seconds, the information will be consolidated; therefore, space out the readings.
- Only one barcode reader can be operated simultaneously with the controller. Connecting multiple readers may result in a malfunction.

Indicator Lamps and a Buzzer

The indicator lamps and buzzer show the controller's status.

⚠ CAUTION

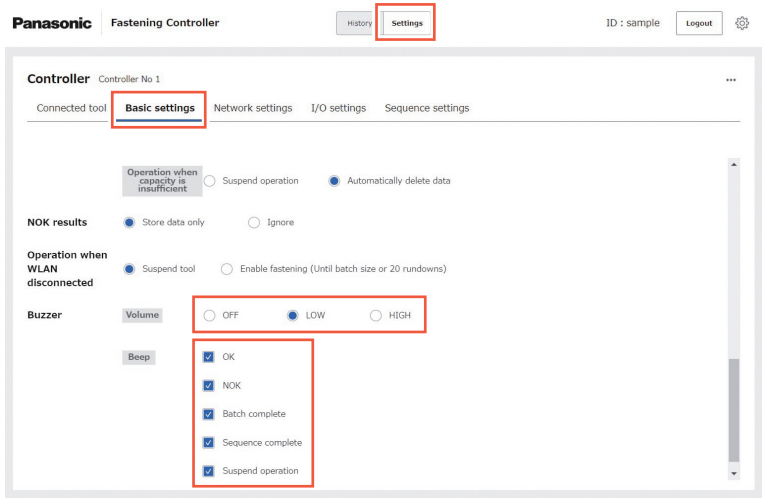

Do not turn off the power switch while the lamp is blinking startup.
Initialization may be required.

Status	Indicator Lamp	Buzzer
Power on	Power lamp (yellow) Stays lit	–
A tool to pair selected	Communication lamp (blue) Blinks slowly	–
Pairing established	Communication lamp (blue) Blinks rapidly	–
Pairing completed	Communication lamp (blue) Stays lit	A short beep ■
Pairing not established	Communication lamp (blue) Blinks very slowly	–
Pairing disconnected	Communication lamp (blue) Off	–
Fastening completion	OK lamp (green) Stays lit	A short beep ■
Fastening failure	NOK lamp (red) Stays lit	A long beep ▬
Batch completion	OK lamp (green) Blinks twice	Two short beeps ■ ■
Sequence complete	OK lamp (green) Blinks three times	Three short beeps ■ ■ ■
Error	Power lamp (yellow) Blinks	Two long beeps ▬ ▬

Buzzer Setting

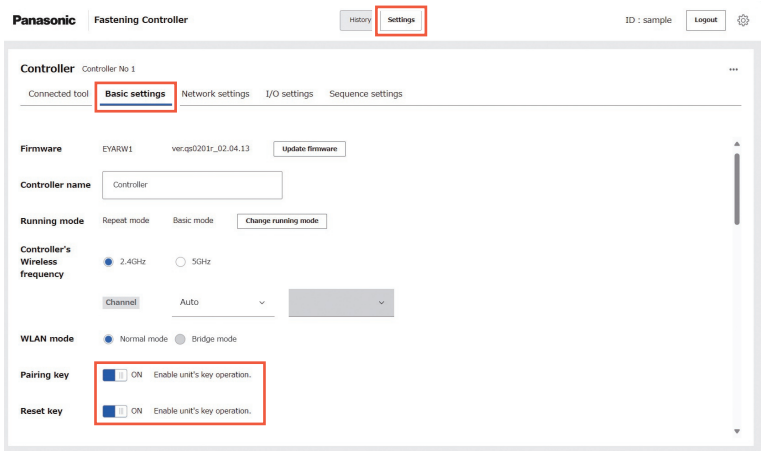

In the top page (the initial page of the setting screen), click [Settings] on the top and select the "Basic settings" tab.
In "Buzzer", set "Volume" and "Beep".

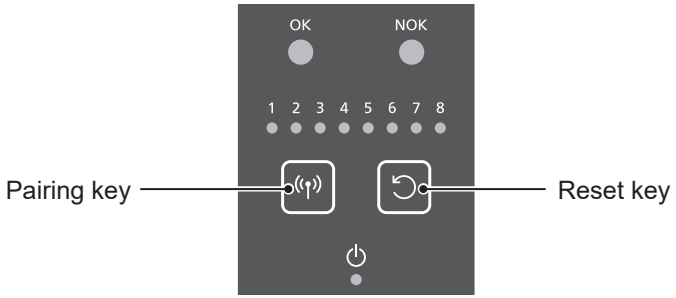

Item	Description
Volume	3 levels (OFF / LOW / HIGH) (LOW: 75 dB, HIGH: 85 dB)
Beep	Selected on the PC for configuration (OK / NOK / Batch complete / Sequence complete / Suspend operation)

SETTING THE OPERATION KEYS

In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Basic settings” tab.
In “Pairing key” and “Reset key”, you can disable the Pairing key and Reset key on the control panel.

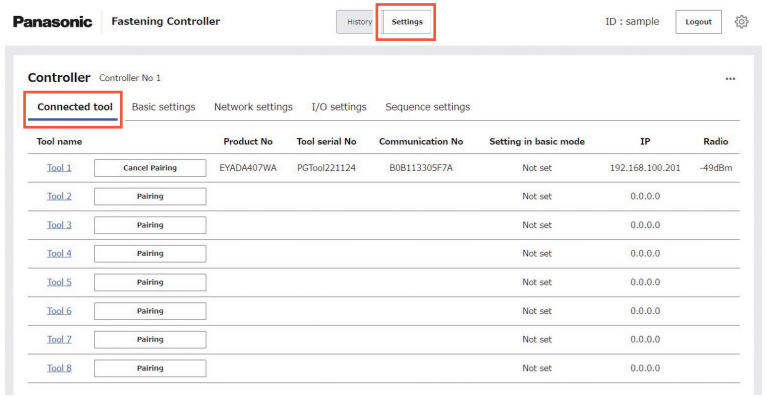

Pairing key
Enable or disable the Pairing key on the control panel. [Default] ON [Setting range] ON (enabled) / OFF (disabled)
Reset key
Enable or disable the Reset key on the control panel. [Default] ON [Setting range] ON (enabled) / OFF (disabled)

CHECKING THE INFORMATION OF CONNECTED TOOLS

In the top page (the initial page of the setting screen), click [Settings] on the top and select the “Connected tool” tab.
You can see the information and status of the tools connected to the controller.

Below are the displayed items.

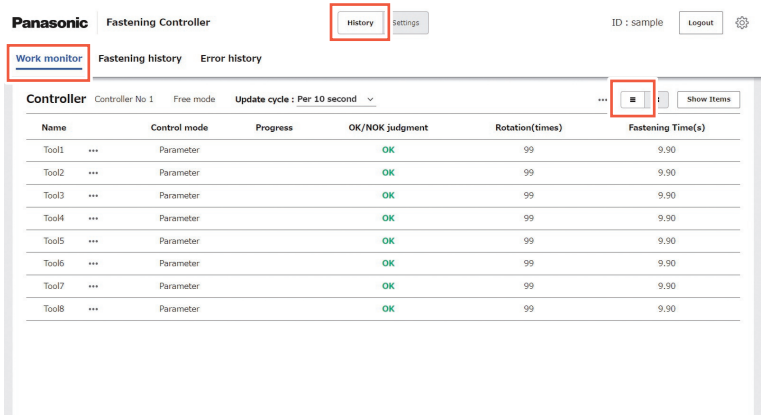

Tool name
The registered tool number (1 to 8) is displayed.
Tool serial No
You can set and display the tool’s unit identification. Default: 8-digit serial number (2-digit manufacturing year + 2-digit month + 4-digit production lot)
Product No
The tool product number is displayed.
Communication No
Unit identification (MAC address) of the tool’s communication part is displayed.
Setting in basic mode
A behaviour when the Running mode is set to “Repeat mode (Basic mode)” is displayed.
IP
The IP address of the tool is displayed.
Radio
Strength of a radio signal (RSSI) received from the tool is displayed. * Strength at the last communication is displayed.

In the top page (the initial page of the setting screen), click [History] on the top and select the “Work monitor” tab.
The latest fastening history logs by tool are displayed. You can use them to work by referring to the work results.
* More than one PCs for configuration can display them at the same time. (Up to 8 accesses. Multiple accesses from the same account are accepted.)
* To log in with more than one account, using different PCs is recommended.
* To use more than one account on the same PC, using different web browsers is recommended.
* Only one access to the configuration function is accepted at a time.

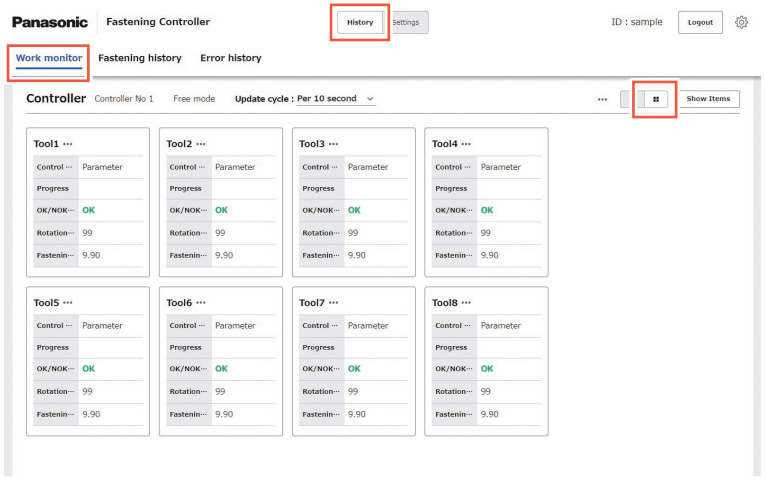

Switching the View Format

You can select between “List view” and “Grid view”.
Use the view icon on the upper right of the screen.

■ List view

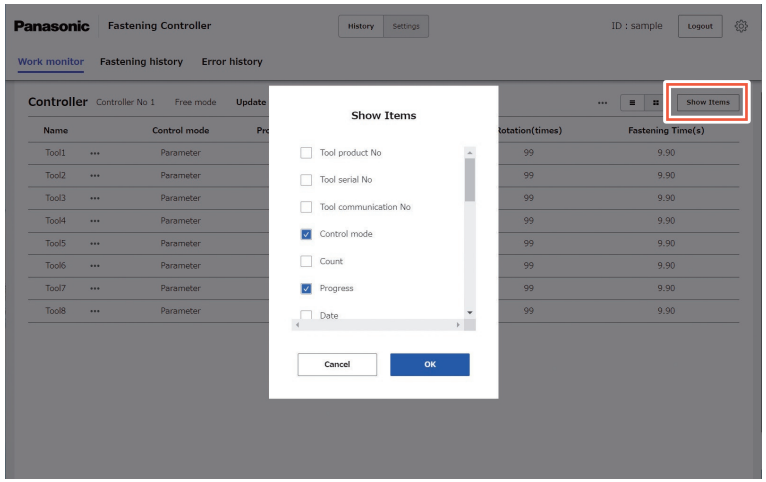

■ Grid view

Selecting Items to Show

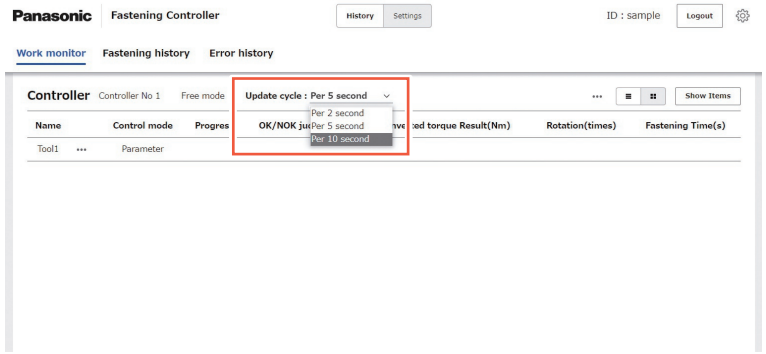

Select items to show using “Show Items”.

* In “List view”, you can scroll down and select many items to show.
* In “Grid view”, you can show up to 5 items.

Selecting the Display Update Cycle

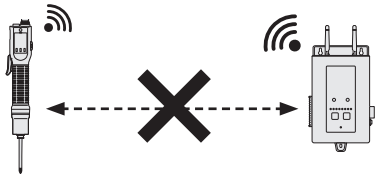

You can set automatic display update.
Select the update cycle from “Per 2 second”, “Per 5 second”, and “Per 10 second” as below.

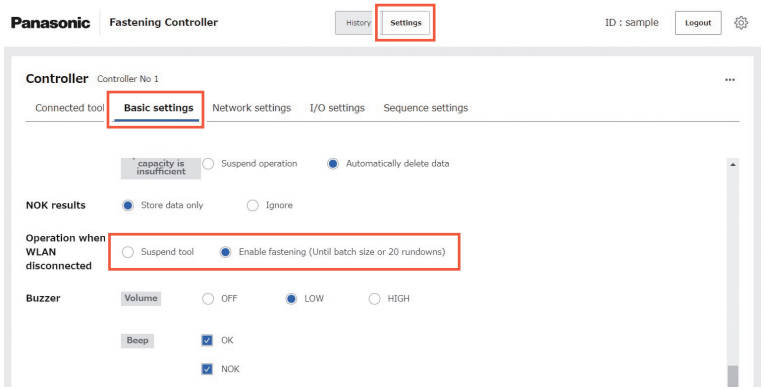

* If a large number of tools or PCs for configuration are connected, the update cycle of “Per 10 second” is recommended. (It may take some time to process data.)

TOOLS' BEHAVIOUR WITH WIRELESS COMMUNICATION DISCONNECTED

You can continue the fastening with the same parameters in case of temporary disruption of wireless communication between a tool and the controller.
The work results of tools during wireless communication disconnection are notified to the controller "When the tool gets reconnected" or "At the first fastening after the tool's connection recovered".

In the top page (the initial page of the setting screen), click [Settings] on the top and select the "Basic settings" tab.
If you set "Operation when WLAN disconnected" to "Suspend tool", the ongoing fastening is completed after disruption but no further fastening is conducted.
If you set "Enable fastening", no further fastening is conducted after the fastened quantity has reached the upper limit.

With "Enable fastening", the upper limit quantities by mode are as below.

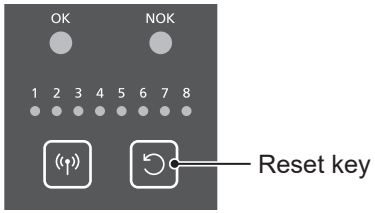

Mode		Behaviour
Free mode		Continues fastening up to 20 screws
Repeat mode	Basic mode	Continues fastening up to the end of the batch or up to 20 screws
	Sequence mode	Continues fastening up to the end of the batch or up to 20 screws * Tools other than the one concerned continue to run normally.
External control mode		Continues fastening up to the end of the batch or up to 20 screws

RESETTING THE COUNT DURING OPERATION

To change settings, stop fastening control by the controller if it is ongoing. A confirmation dialogue appears when you apply the change.
You can reset the counted quantities by "Using the key on the unit" or "Setting in the setting screen".
* This does not apply to "Free mode".

Using the key on the unit

Hold down the Reset key on the controller 3 seconds or more.
* The quantities of all active tools are reset.

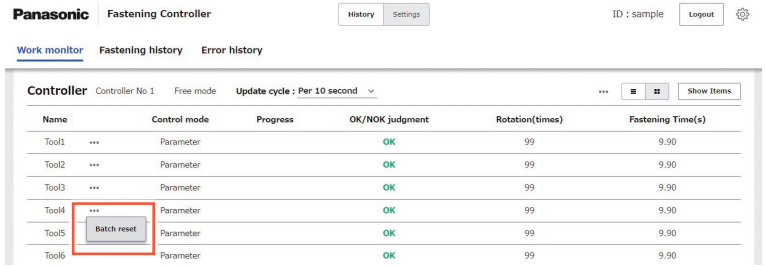

Setting in the setting screen

In the top page (the initial page of the setting screen), click [History] on the top and select the "Work monitor" tab.

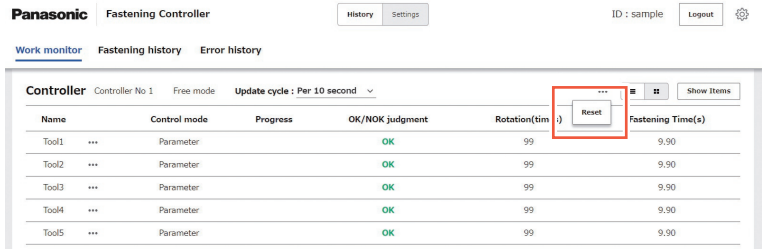

■ To reset the quantities by tool

In the "Work monitor" screen, click ··· (tool option key) and then [Batch reset] of the desired tool number.

■ To reset the quantities of all tools collectively

In the "Work monitor" screen, click ··· (controller option key) and then [Reset] on the upper right.

* In the Sequence mode, the quantities are reset up to the first tool.

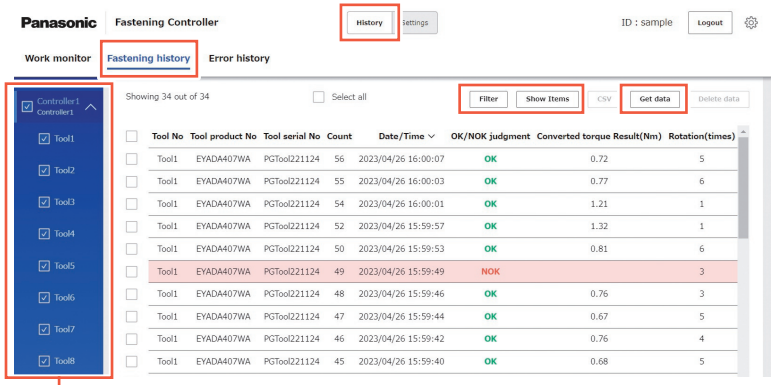

OPERATION

Displaying the Fastening History Data

In the top page (the initial page of the setting screen), click [History] on the top and select the “Fastening history” tab.
You can view the fastening history data sent from tools to the controller.

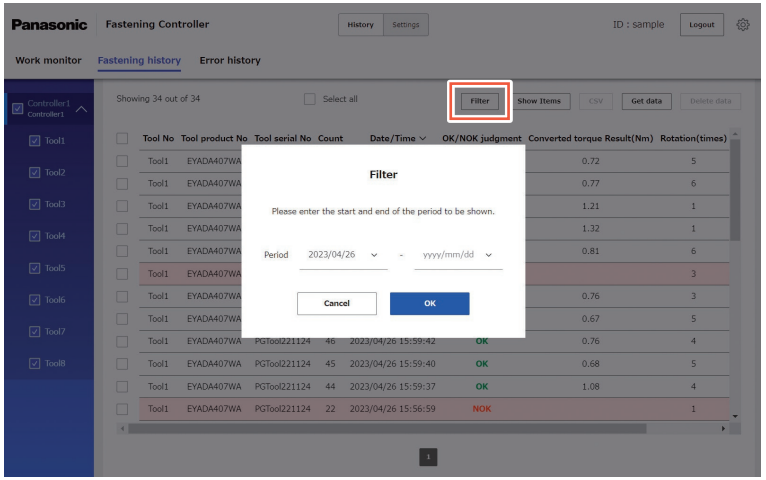

To display the data, select the desired controller and tools from the tool list on the left and click [Get data] on the upper right.
The fastening history logs are displayed from newest to oldest.

* For the content of fastening history items, see the tool’s Operating Instructions.

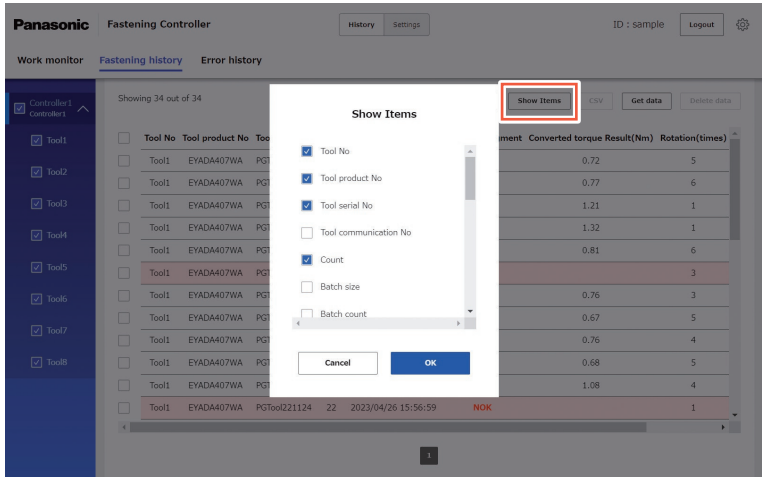

Extracting the fastening history logs by time period

Click [Filter] and specify the time period to narrow down the fastening history logs to display.

Setting Items to Display

To change the displayed items, click [Show Items] and select the desired items.

Capacity for Fastening History Data

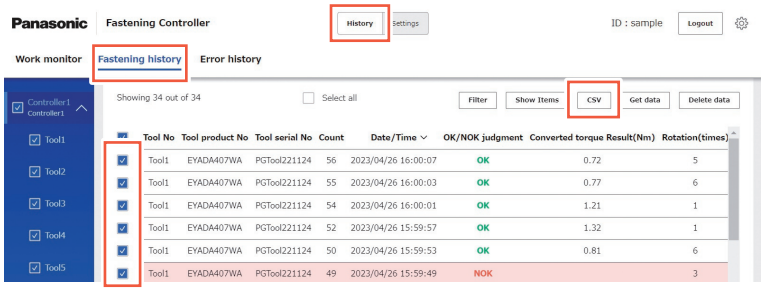

The controller can store a maximum of about 200,000 fastening history logs.
It suspends operation or automatically deletes the logs (by overwriting) if it receives more logs.
It is recommended that you periodically export the logs in the CSV format as necessary by referring to the guide below.

Estimated time to reach full storage capacity

	Quantity per Day per Tool		
Number of Tools	1,000	3,000	5,000
2	About 100 days	About 33 days	About 20 days
4	About 50 days	About 16 days	About 10 days
8	About 25 days	About 8 days	About 5 days

Exporting the Fastening History Data in the CSV Format

In the top page (the initial page of the setting screen), click [History] on the top and select the “Fastening history” tab.
Select the desired logs and click [CSV].
The fastening history logs are exported in the CSV format.
The exported data includes all items of each tool regardless of the “Show Items” setting.

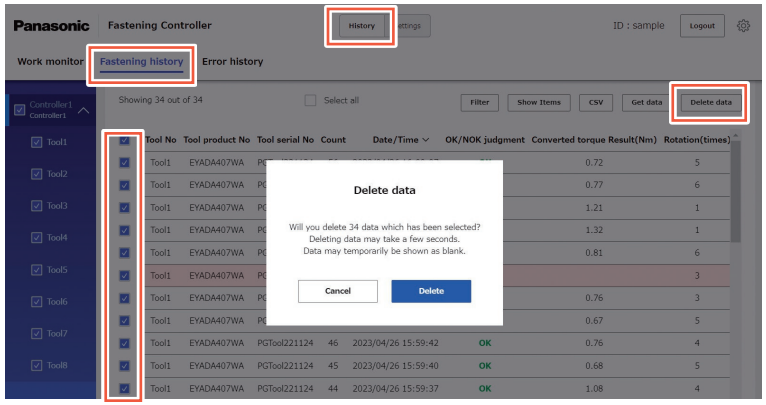

You can select between “Decimal point is a period, delimiter is a comma” and “Decimal point is a comma, delimiter is a semicolon”.

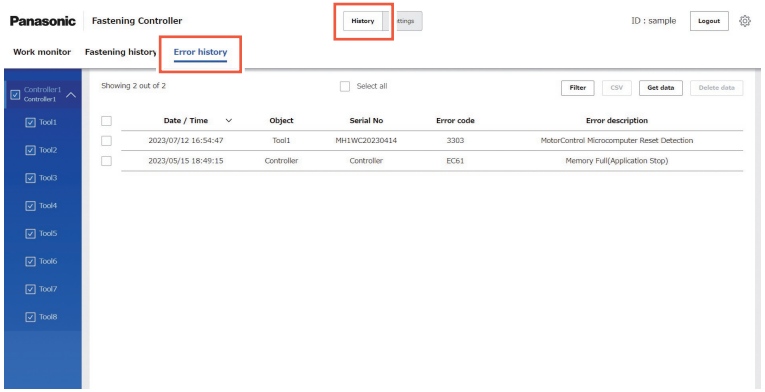

Deleting the Fastening History Data

In the top page (the initial page of the setting screen), click [History] on the top and select the “Fastening history” tab.
Select the desired logs and click [Delete data].
The fastening history logs are deleted.

Displaying the Error History

In the top page (the initial page of the setting screen), click [History] on the top and select the “Error history” tab.
The history of errors that occurred is displayed.

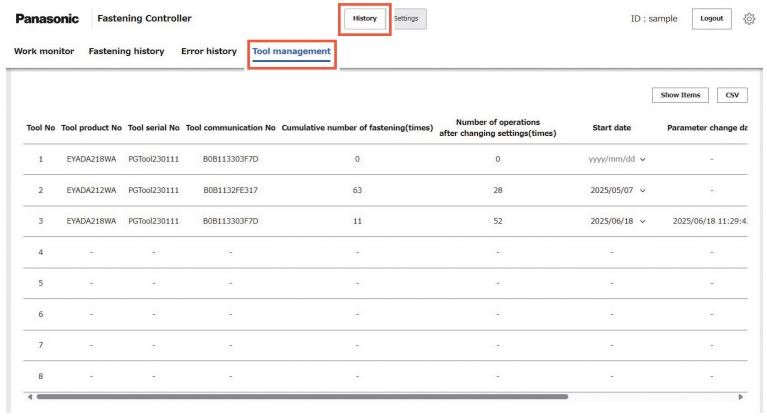

Below are the displayed items.
* For the error content, see “ERROR CODE”. Refer to P92

Date / Time
The date and time of error occurrence are displayed.
Object
The device (the controller or any of Tool 1 to 8) causing an error is displayed.
Serial No
The serial number of the device (the controller or any of Tool 1 to 8) causing an error is displayed.
Error code
An error code that occurred is displayed.
Error description
Content of an error that occurred is displayed.

Viewing Management Items

In the top page (the initial page of the setting screen), click [History] on the top and select the “Tool management” tab.

You can view the management items for each “Tool No.”

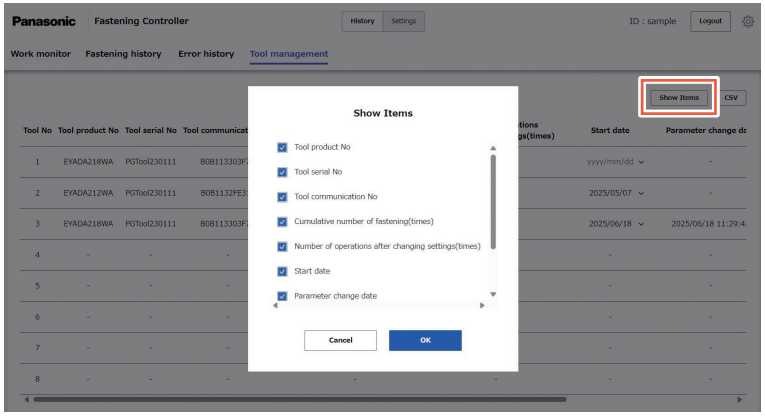

Below are the displayed items.
The latest information can be checked on the screen.
Each item is displayed based on the tool’s work result data.
Note that all information will be cleared when the tool is replaced or a new tool is paired.
* Information is not cleared when the controller - tool pairing is cancelled.

Tool product No
Displays the product number of the paired tool.
Tool serial No
Displays the individual identification information of the tool.
Tool communication No
Unit identification (MAC address) of the tool’s communication part is displayed.
Cumulative number of fastening (times)
Displays the cumulative number of fastening operations performed by the tool.
Number of operations after changing settings (times)
Displays the cumulative number of operations after changing the tool settings.

Start date
Sets the start date for using the tool. The settings can only be done using an administrator account. [Set value] 0100/01/01 to 9999/12/31
Offset change date
Displays the date and time when the tool settings, including “Offset” “Slope” or “Offset” “Intercept”, were changed.
Parameter change date
Displays the date and time when the tool settings were changed.
Changed parameter No
Displays the changed parameter number. It will also be displayed in this field if “Device settings” are changed.
Cumulative fastening time (h)
Displays the accumulated working time of the tool.
Cumulative pulsing time (h)
Displays the accumulated working time involving tool pulsing.

■ Setting Items to Display

To change the displayed items, click [Show Items] and select the desired items.

Configure the Date of Starting Use of the Tool

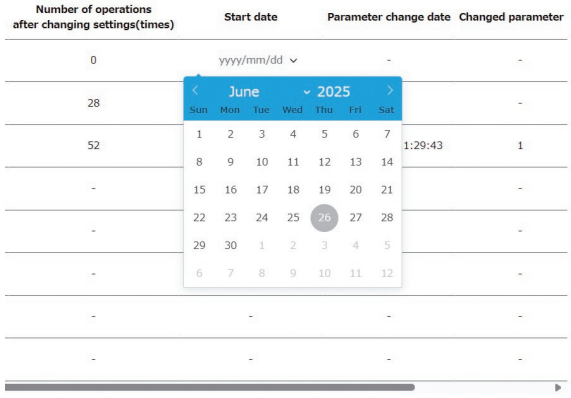

* This operation can only be performed with an administrator account. Refer to P19

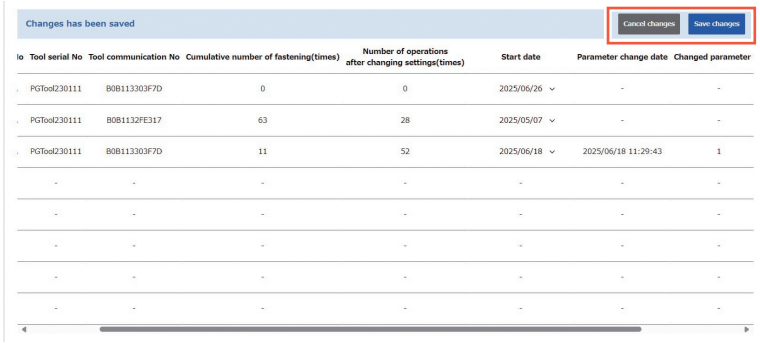

In the top page (the initial page of the setting screen), click [History] on the top and select the “Tool management” tab.

Click the “Start date” item for each tool.
The start date of use can be set from the calendar-style UI.

After selecting the start date, click “Save changes” to confirm the changes.
Before confirmation, you can modify the “Start date” or change the “Start date” of other tools.

Clicking “Cancel changes” allows it to revert to the previous state.

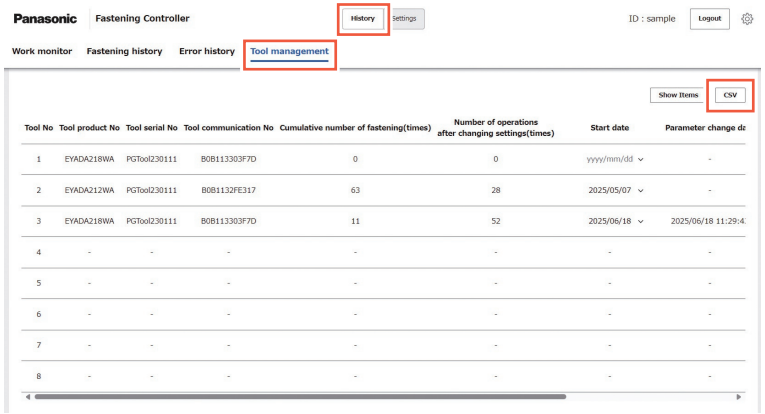

OPERATION

Export Tool Management Data in CSV Format

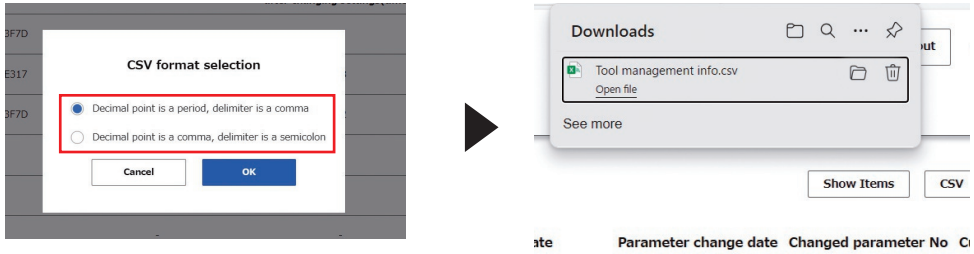

In the top page (the initial page of the setting screen), click [History] on the top and select the “Tool management” tab.

Click “CSV”.
The data displayed on the screen will be exported in CSV format.

The exported data includes all items of each tool regardless of the “Show Items” setting.

The CSV format can be selected from “Decimal point is a period, delimiter is a comma” or “Decimal point is a comma, delimiter is a semicolon”.

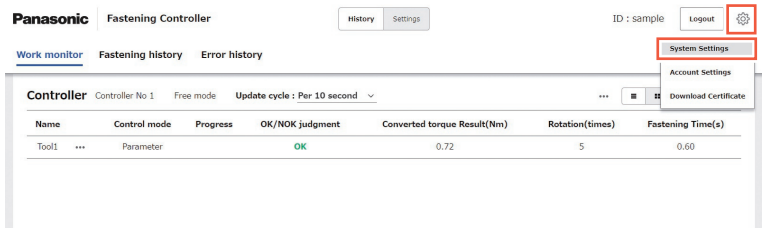

Changing the Language

You can select “Japanese” or “English”.

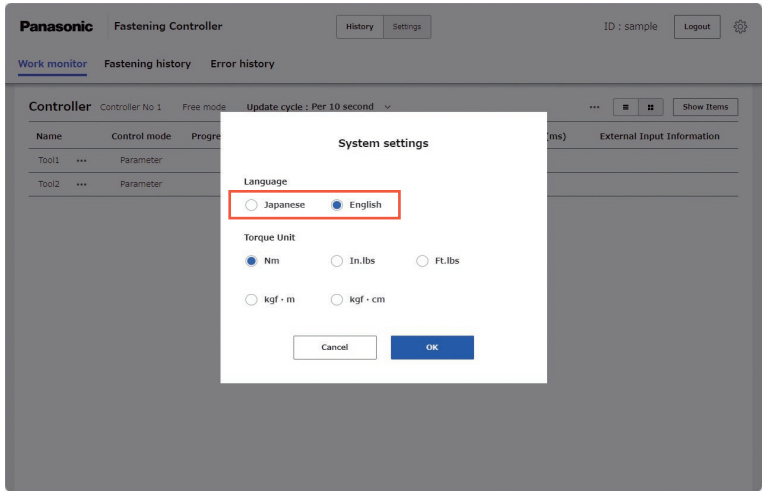

1 In the top page (the initial page of the setting screen), click the option key on the upper right and select “System Settings”.

The “System settings” screen is displayed.

2 Select the language in the “System settings” screen.

You can select “Japanese” or “English”.

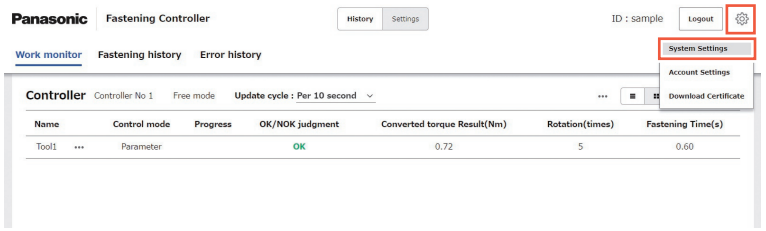

Changing the Torque Unit to Display

You can select “Nm”, “In.lbs”, “Ft.lbs”, “kgf·m”, or “kgf·cm”.

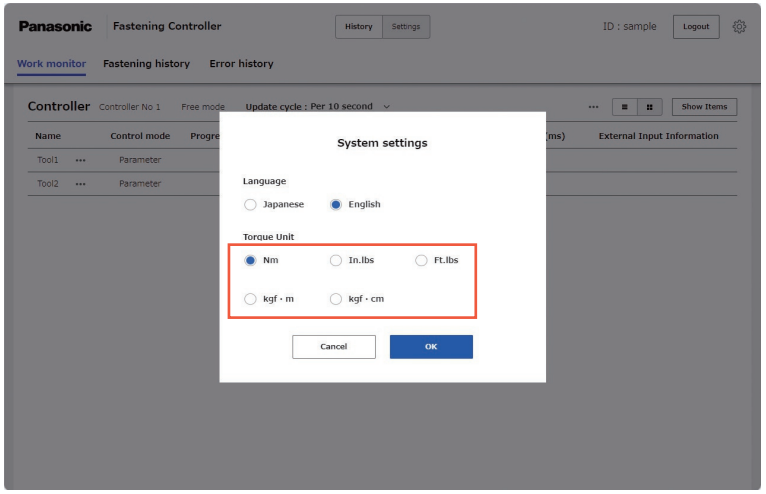

1 In the top page (the initial page of the setting screen), click the option key on the upper right and select “System Settings”.

The “System settings” screen is displayed.

2 Select the torque unit in the “System settings” screen.

You can select the torque unit from “Nm”, “In.lbs”, “Ft.lbs”, “kgf·m”, and “kgf·cm”.

* Some unit displays may experience numerical corrections.

How to Clean

Wiping with Soft Cloth

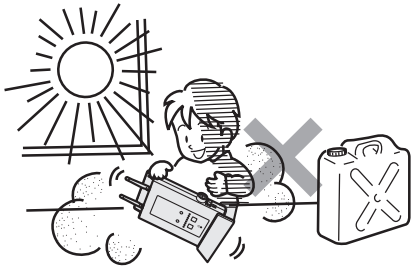

Do not use wet cloth, thinner, alcohol, benzine, or other volatile liquids.
(Cause of discoloration, deformation, or crack)

How to Store

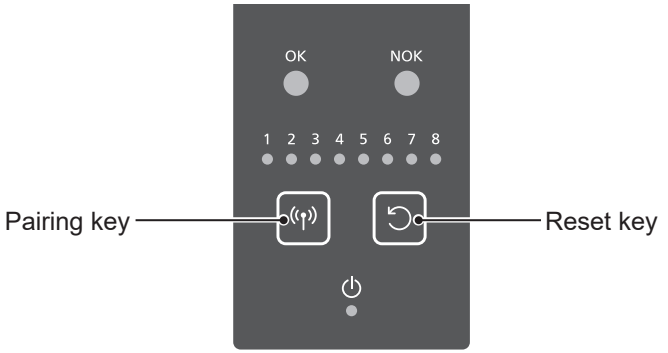

Avoid the following conditions during storage.

- Car cabin or other hot places
- Places exposed to direct sunlight
- Places exposed to water or dampness
- Places with a lot of foreign bodies or dust
- Places within reach of children
- Places with gasoline or other flammables
- Places with risk of fall

Initialising the Controller

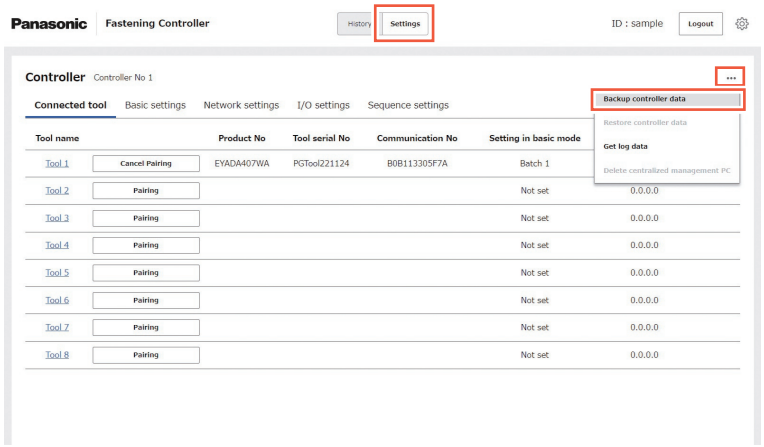

To initialise (factory-reset) the controller, hold down the Pairing key and Reset key together 10 seconds or more.

* It may take more than 5 minutes depending on the storage usage.
* You cannot conduct it when the keys on the unit are disabled. Refer to P64

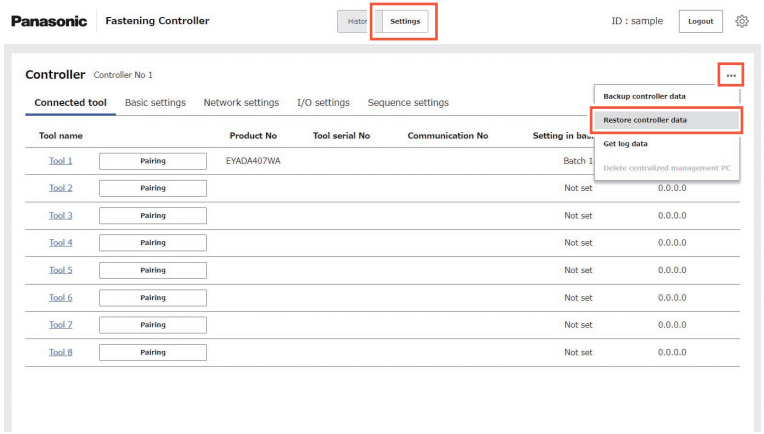

Making a Backup of the Settings

In the top page (the initial page of the setting screen), click [Settings] on the top.
Click ··· (controller option key) and then [Backup controller data].
You can back up the settings of the controller and tools.
* The fastening history data are not backed up. Export them in the CSV format as necessary.

Restoring the Settings

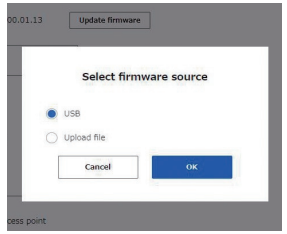

In the top page (the initial page of the setting screen), click [Settings] on the top.
Click ··· (controller option key) and then [Restore controller data].
You can restore the settings of the controller and tools from their backup.
* You cannot conduct it during fastening control.
* You cannot conduct it when pairing with tools is registered. Cancel the pairing.

Updating the Firmware

You can update the firmware of the controller and the tool's communication part.

Use either of the following to update the firmware.

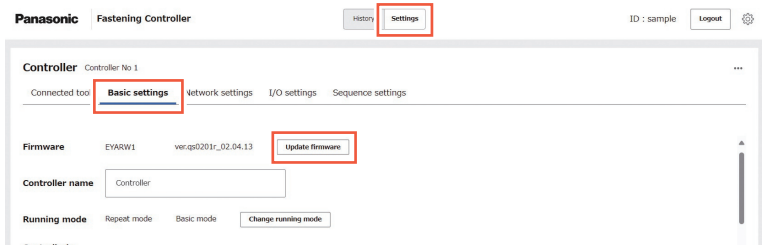

① Using the USB port of the controller.
  * A USB flash drive with a password lock cannot be used.
  * Save only one firmware data file directly in a USB flash drive without creating a folder.

② Writing from the PC for configuration.
  * When selecting "Upload file", select the firmware data file saved on the PC in the selection screen.

For the current firmware version, access our web site. Refer to P2
Or contact our sales person.

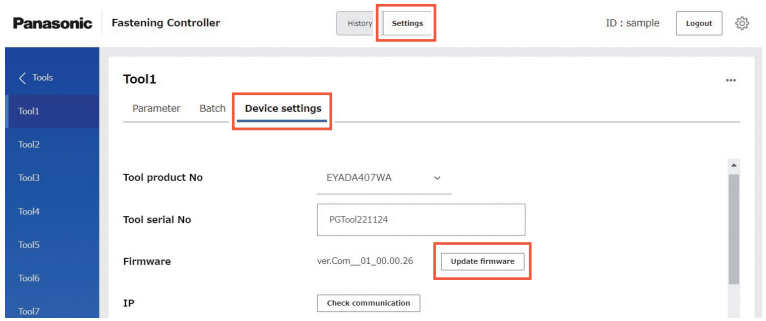

■ For the controller

In the top page (the initial page of the setting screen), click [Settings] on the top, select the "Basic settings" tab, and click [Update firmware].

■ For the tool's communication part

In the top page (the initial page of the setting screen), click [Settings] on the top and select the "Connected tool" tab.
In the "Connected tool" screen, click the desired tool number.
From the "Device settings" tab in the screen for the tool number, click [Update firmware].

Replacing the Coin Cell Battery

To keep the clock (RTC) of the controller running, replace the coin cell battery by referring to the replacement guide below.

■ Battery type

CR2450

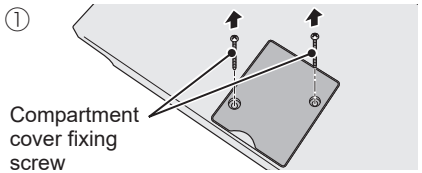

■ Replacement guide

The coin cell battery is used to keep the clock running when the controller is off.
To minimise its consumption, in principle, do not turn the controlled off.

Power is on 12 hours per day (business days only)	Power is always on
About 3 years	About 8 years

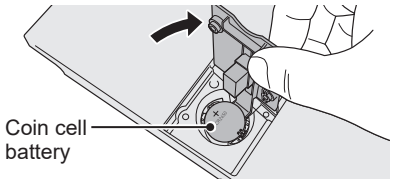

Replace it with the following procedure or contact your dealer.
It is recommended that a person who has electrical knowledge should do the work.

1 Remove the 2 compartment cover fixing screws and then remove the compartment cover.

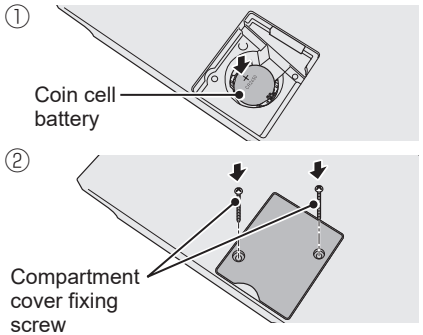

2 Using the compartment cover, take out the coin cell battery.

Pick up the coin cell battery with the hook of the compartment cover.

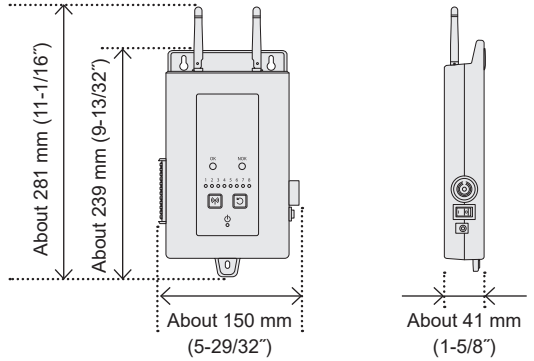

3 Put a new coin cell battery and attach the compartment cover with the 2 compartment cover fixing screws.

Controller Specifications

Receiving fastening completion and failure signals during indoor product assembly work

Model No.	EYARW1
Power Supply	100 V-240 V AC, 50/60 Hz
Wireless Communication Standard	Wireless LAN (IEEE.802.11 a/b/g/n)
Frequency Band	2.4 GHz: 2.412 GHz to 2.462 GHz 5 GHz: 5.180 GHz to 5.240 GHz
Channel	2.4 GHz: 1 to 11 channels 5 GHz: 36, 40, 44, 48 channels
Coverage	2.4 GHz: About 16 m (52.5 ft) 5 GHz: About 10 m (32.8 ft)
Number of Tools That Can Be Registered	8 (maximum)
Input/output (I/O) Terminals	8 inputs and 8 outputs
I/O input terminal rating	24 V DC, 5 mA
I/O output terminal rating	30 V DC, 3 A
I/O power supply rating	24 V DC, 50 mA
Power Consumption	About 30 W
Operating Temperature and Humidity Ranges	0 °C (32 °F) to 45 °C (113 °F), 20% to 90%
Size (Estimated Dimensions) Total Length × Total Height × Width	About 150 × 239 × 41 mm (5-29/32″ × 9-13/32″ × 1-5/8″) (height including antennas: 281 mm (11-1/16″)) 
Mass (Weight)	About 550 g (1.1 lbs) (main unit only)
Communication interface	Ethernet × 2, USB-A × 1
Number of Data That Can Be Stored	About 200,000 fastening history logs
Compatible Tool Models	EYADA112WA/WB *1, EYADA212WA/WB, EYADA218WA/WB, EYADA407WA/WB

*1 This is only supported by the firmware version 2.02.00 or later.

Wireless Specifications

Frequencies by channel

Frequency Band	Channel	Frequency
2.4 GHz	Channel 1	2.412 GHz
	Channel 2	2.417 GHz
	Channel 3	2.422 GHz
	Channel 4	2.427 GHz
	Channel 5	2.432 GHz
	Channel 6	2.437 GHz
	Channel 7	2.442 GHz
	Channel 8	2.447 GHz

WebUI Specifications

Compatible OS	Windows 10 or later (supporting any of the web browsers below)
Supported Web Browser	Microsoft Edge version 102 or later or Google Chrome version 102 or later
Supported language	English, Japanese
Recommended screen resolution	1024 × 768 or more

CAUTION

- Some PCs are not available even if they meet the operating environment.
- Depending on the use environment etc. of your PC, the descriptions and screens in this Operating Instructions might be different from the actual descriptions and screens.
  Please be forewarned.
- The contents of this Operating Instructions are subject to change without prior notice.
- Any reproduction of the contents of this Operating Instructions in whole or in part is prohibited without permission.
- Descriptions on how to operate Windows in this Operating Instructions use the procedures and screens of Windows 10.
- WebUI does not work on OS other than the compatible OS.
- Operation is not guaranteed for all the PCs meeting the recommended environment.

■ Terms of use (Read before use)

<Limitations>
WebUI is configuration software for EYARW1.

CAUTION

- Observe the following when using the feature.
  You are deemed to agree the following terms of use by using the feature.

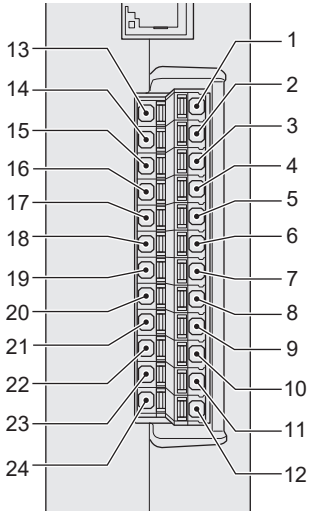

[Use conditions]

Panasonic makes no warranty of any kind regarding the feature.
Panasonic bears no responsibility for any damage including but not limited to direct loss, indirect loss, spreading loss, consequential loss, and special loss caused by use or operation of the feature.
Unauthorised reproduction and distribution of the feature is prohibited.

■ Statement of explanatory text for various requirements

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: To assume continued compliance, install and use in accordance with provided instructions. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Contains FCC ID: Z64-WL18DBMOD Contains IC: 451I-WL18DBMOD

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment has been approved for mobile operation requiring minimum 20 cm (7-7/8″) spacing be provided between antenna(s) and all person's body (excluding extremities of hands, wrist and feet) during wireless modes of operation. This equipment may not be collocated or operated with any other antenna or transmitter.

This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment and meets RSS-102 of the ISED radio frequency (RF) Exposure rules. This equipment should be installed and operated keeping the radiator at least 20 cm (7-7/8″) or more away from person's body.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

For indoor use only.

PRECAUTIONS FOR WIRELESS COMMUNICATION

Cautions for using a WLAN device

The device uses a frequency band shared with other types of equipment including industrial, scientific, and medical devices (e.g., a microwave) and radio stations such as a premises radio station (licensed) and low-power radio station (unlicensed) for mobile identification used in factory manufacturing lines and an amateur radio station (licensed).

1. Before using the device, confirm that there is no premises or low-power radio station for mobile identification or no amateur radio station operating in the vicinity.
2. If the device causes harmful interference with a premises radio station for mobile identification, stop use of the band immediately and consult the support centre below for the solution of the interference problem (e.g., installing a partition).
3. If the device causes harmful interference with a premises or low-power radio station for mobile identification or an amateur radio station or such other problems, consult the support centre.

■ There may be noise, shorter radio coverage, or malfunction occurring in the following environmental conditions.

- There is an obstruction (e.g., a metal or reinforced concrete object) that prevents smooth radio propagation between the wireless-enabled tool unit and the controller.
- The antennas of the controller are covered with metal.
- An operator’s body is interfering with radio propagation between an operator (the wireless-enabled tool unit) and the controller.
- There is a microwave, PC, or any other device causing noise in the vicinity.
- A cell-phone or PHS phone is used near the wireless-enabled tool unit and the controller.

Software License Terms

This product incorporates the following software:

(1) the software developed independently by or for Panasonic Corporation,
(2) the software owned by third party and licensed to Panasonic Corporation,
(3) the software licensed under the GNU General Public License, Version 1.0 (GPL V1.0),
(4) the software licensed under the GNU General Public License, Version 2.0 (GPL V2.0),
(5) the software licensed under the GNU General Public License, Version 3.0 (GPL V3.0),
(6) the software licensed under the GNU LESSER General Public License, Version 2.1 (LGPL V2.1),
(7) the software licensed under the GNU LESSER General Public License, Version 3.1 (LGPL V3.1),

Environnement d’exploitation

Vous devez utiliser un navigateur web pour configurer le contrôleur.
Préparez un ordinateur répondant aux exigences suivantes.

Environnement d’exploitation

Système d’exploitation compatible	Windows 10 ou version ultérieure (supportant l’un des navigateurs Web ci-dessous)
Navigateur Web	Microsoft Edge version 102 ou ultérieure ou Google Chrome version 102 ou ultérieure

- Certains ordinateurs ne sont pas disponibles même s’ils sont conformes à l’environnement d’exploitation.
- Selon l’environnement d’utilisation, etc. de votre PC, les descriptions et les écrans de ces Instructions d’utilisation peuvent être différents des descriptions et écrans réels. Soyez avertis.
- Le contenu de ces Instructions d’utilisation peut faire l’objet de modifications sans préavis.
- Toute reproduction totale ou partielle du contenu de ces Instructions d’utilisation est interdite sans autorisation.
- Les figures dans ces Instructions d’utilisation sont à titre de référence uniquement.

[Remarque]
Maintenez toujours le micrologiciel à jour.
Vous pouvez trouver les dernières données du micrologiciel sur le site Web suivant qui donne accès aux Instructions d’utilisation.
Pour savoir comment mettre à jour le micrologiciel, consultez « Mise à jour du micrologiciel ». **Se reporter à P83**

Comment accéder aux Instructions d’utilisation

La version actuelle des Instructions d’utilisation du contrôleur et d’autres ressources peuvent être téléchargées à partir du site Web ci-dessous.

https://panasonic.net/electricworks/ecm/powerelctrictools/download/

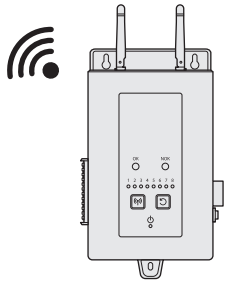

Marque commerciale

- Microsoft et Windows sont des marques déposées ou des marques de Microsoft Corporation aux États-Unis et/ou dans d’autres pays.
- Les captures d’écran sont utilisées conformément aux directives de Microsoft Corporation.

Tous les autres noms y compris les noms de sociétés et les noms de produits dans ces Instructions d’utilisation sont des marques commerciales ou des marques déposées de leurs sociétés respectives.
™ et ® peuvent être omis dans ces Instructions d’utilisation.

Utilisation prévue

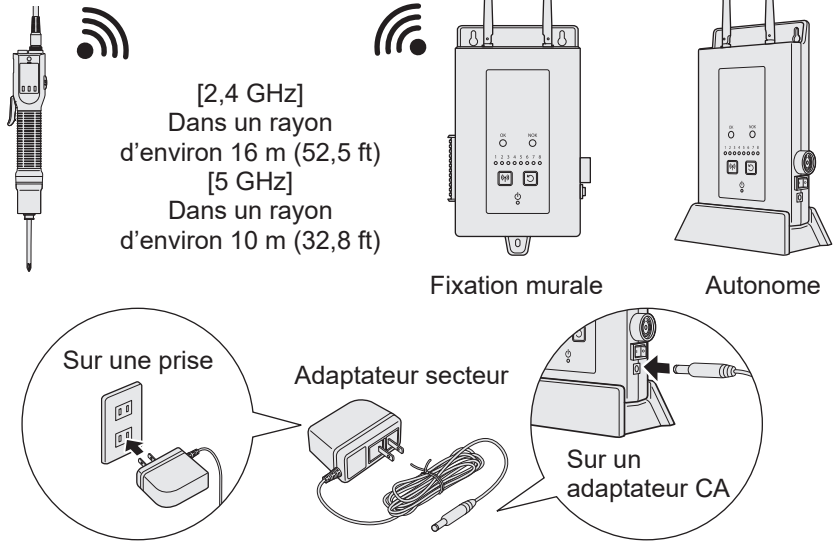

Ce produit est un contrôleur qui communique sans fil avec les outils.
Il peut recevoir des données d’historique de fixation des outils, effectuer les réglages des outils et contrôler la quantité à fixer.

01	Raccorder jusqu’à 8 outils
02	Prendre en charge les bandes 2,4 GHz et 5 GHz
03	Prise en charge d’une fonction de contrôle de la fixation et d’une fonction de sauvegarde de l’historique

Configuration

Installez le contrôleur dans une plage où la communication sans fil avec les outils est possible.
Mettez l’appareil sous tension via une prise secteur et raccordez-le à des appareils externes via des interfaces de communication si nécessaire.

- Le contrôleur contient une pile bouton pour maintenir la fonction d’horloge (RTC) en marche.
  Il est recommandé de garder l’appareil sous tension pour réduire la consommation de la pile bouton interne.
- La couverture sans fil peut changer en fonction de l’environnement.

Vous trouverez ci-dessous les instructions que vous devez toujours respecter afin d'éviter les dommages corporels et matériels.

■ **La gravité des dommages causés par une utilisation incorrecte est présentée dans la section suivante.**

⚠ **AVERTISSEMENT**	Cela pourrait entraîner des blessures graves, voire mortelles.
⚠ **MISE EN GARDE**	Risque de blessures légères ou de dommages matériels.

■ **Le contenu qui doit être observé est présenté avec les symboles suivants. (Voici quelques exemples)**

	Vous ne DEVEZ PAS effectuer l'action.
	Vous DEVEZ effectuer l'action.

⚠ AVERTISSEMENT

Obligatoire

- **Assurez-vous qu'il n'y a pas d'objets enfouis tels que les conduits, les conduites d'eau et les conduites de gaz dans le lieu d'installation.**
  Tout contact avec des objets enfouis de ce type peut provoquer une électrocution ou une fuite électrique ou de gaz.
- **Insérez la prise d'alimentation à fond.**
  Une insertion incomplète peut provoquer une électrocution ou une génération de chaleur, entraînant un incendie.
  N'utilisez pas une prise endommagée ou une prise de courant mal fixée.
- **Dépoussiérez la prise d'alimentation régulièrement.**
  La poussière accumulée sur la prise peut absorber l'humidité et entraîner une mauvaise isolation et provoquer un incendie. Débranchez la prise d'alimentation et essuyez-la avec un chiffon sec.
- **Utilisez uniquement le cordon d'alimentation spécifié.**
  L'utilisation de toute autre fiche peut provoquer une électrocution, un court-circuit ou un incendie.
- **Maintenez le lieu de travail suffisamment lumineux.**
  Une mauvaise visibilité dans un lieu de travail sombre peut entraîner un accident ou des blessures.

⚠ AVERTISSEMENT

Interdit

- **N'utilisez pas de prise ou de dispositif de câblage excédant la valeur nominale. Utilisez une tension de 100 V-240 V CA uniquement.**
  Tout dépassement de la valeur nominale en raison d'une prise surchargée peut provoquer une génération de chaleur et par conséquent un risque d'incendie.
- **N'endommagez pas le cordon d'alimentation ou la prise. (Évitez d'endommager, de casser, de modifier, de placer à proximité d'une source de chaleur, de plier en forçant, de tordre, de tirer, de placer une charge lourde dessus, de pincer ou de coincer)**
  L'utilisation d'un cordon ou d'une prise endommagé peut entraîner une électrocution, un court-circuit ou un incendie.
  Vérifiez périodiquement le cordon et la fiche et s'ils sont endommagés, consultez votre revendeur.
- **N'utilisez pas le contrôleur avec une alimentation CC, un générateur de moteur ou un transformateur.**
- **N'utilisez pas le contrôleur dans un endroit contenant du liquide ou du gaz inflammable.**
  Cela pourrait causer une génération de chaleur, de la fumée, un incendie ou une explosion.
- **N'installez pas le contrôleur sur une paroi de mortier.**
  Le visser sur une paroi de mortier peut générer de la chaleur à l'intérieur de la grille, ce qui peut provoquer un incendie en cas de fuite électrique.
- **Débranchez la prise d'alimentation entre les utilisations.**
  Si la prise reste branchée, cela peut provoquer une mauvaise isolation et entraîner une électrocution ou un incendie en cas de fuite électrique.

Aucun démontage

- **Ne modifiez pas le contrôleur. Ne démontez pas et ne réparez pas le contrôleur.**
  Cela pourrait provoquer un incendie, une électrocution ou des blessures. Pour les réparations, consultez votre revendeur ou notre centre de service à la clientèle.

Maintenir au sec

Évitez l'utilisation suivante d'outils chargés.

- **Ne les utilisez pas et ne les laissez pas exposés à la pluie ou à l'humidité.**
- **Ne les utilisez pas sous l'eau.**
  Cela pourrait provoquer une formation de fumée, un incendie ou une explosion.

Pas de main humide

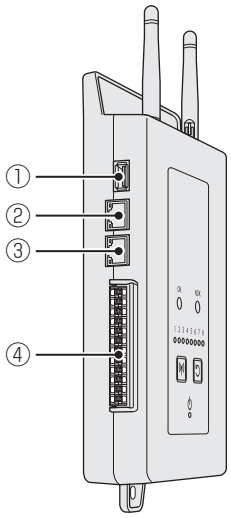

- **Ne branchez pas et ne débranchez pas la prise d'alimentation sur/de la prise de courant avec la main mouillée.**
  Cela pourrait provoquer une électrocution.

⚠ MISE EN GARDE

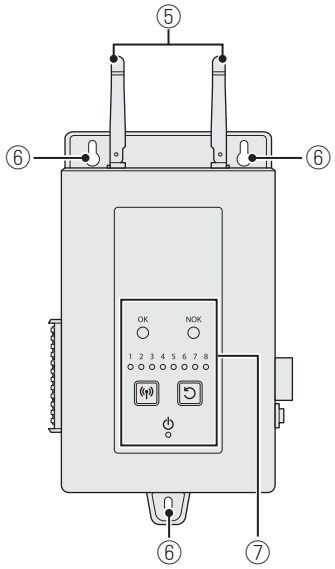

Interdit	● **N'utilisez pas le contrôleur à d'autres fins que celles prévues.** Cela pourrait provoquer des blessures.
	● **Ne placez pas le contrôleur dans un endroit accessible par un enfant.** Cela pourrait entraîner un accident ou des problèmes.
	● **N'utilisez pas le contrôleur s'il présente des traces d'huile ou tout autre corps étranger fixé dessus.** Ces traces d'huile ou autres corps étrangers pourraient pénétrer à l'intérieur, provoquant une génération de chaleur, un incendie ou une explosion.
	● **N'entreposez pas l'unité principale dans un endroit où la température pourrait s'élever jusqu'à 45 °C (113 °F) ou plus.** Cela pourrait provoquer un fonctionnement anormal.
	● **Ne travaillez pas dans une position inhabituelle.** Sinon, vous risquez de tomber et de vous blesser. Tenez-vous toujours sur un sol stable et gardez un bon équilibre.
	● **N'utilisez pas le contrôleur lorsque vous êtes fatigué.** Cela pourrait provoquer un accident ou des blessures.
	● **Ne laissez pas un enfant ou toute autre personne qui n'est pas un opérateur s'approcher du lieu de travail ou toucher le contrôleur.** Cela pourrait provoquer des blessures.
	● **N'utilisez pas le contrôleur avec des appareils incompatibles.** Cela pourrait provoquer un dysfonctionnement et entraîner un accident.
Obligatoire	● **Pour installer le contrôleur sur un mur, fixez-le avec des vis pour l'empêcher de tomber.** Vous risquez d'être blessé s'il tombe.
	● **Pour débrancher la prise d'alimentation, tenez-la toujours sans tirer sur le cordon.** Si vous tirez sur le cordon, cela peut provoquer une électrocution ou un court-circuit.
	● **Avant l'utilisation, vérifiez si le contrôleur et d'autres pièces ne sont pas endommagés et vérifiez si leur fonctionnement est normal.** Sinon, cela peut entraîner une rupture et des blessures.
	● **Gardez le lieu de travail propre.** Un lieu de travail ou un plan de travail désordonné peut entraîner un accident.
	● **Réfléchissez bien aux méthodes de travail et de manipulation, faites attention à l'environnement environnant et faites preuve de bon sens pendant le travail.** Le non-respect de cette consigne pourrait provoquer un accident ou des blessures.

Configuration du système

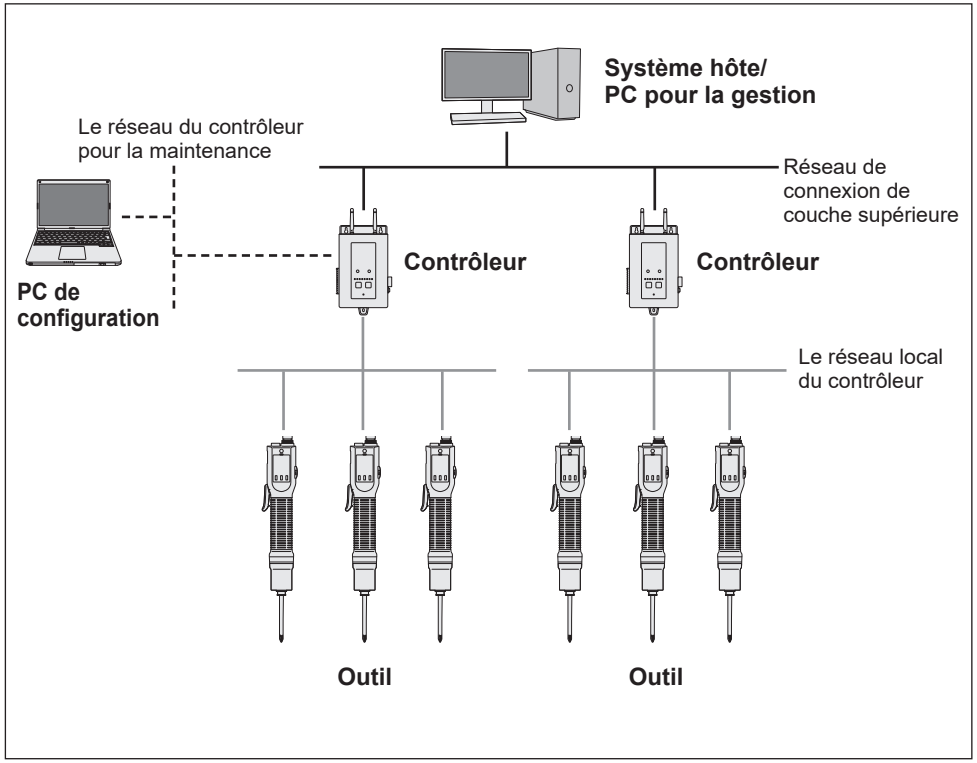

*1 Ceci est pris en charge uniquement par la version de micrologiciel 2.03.00 ou ultérieure.

Configurations de réseau typiques

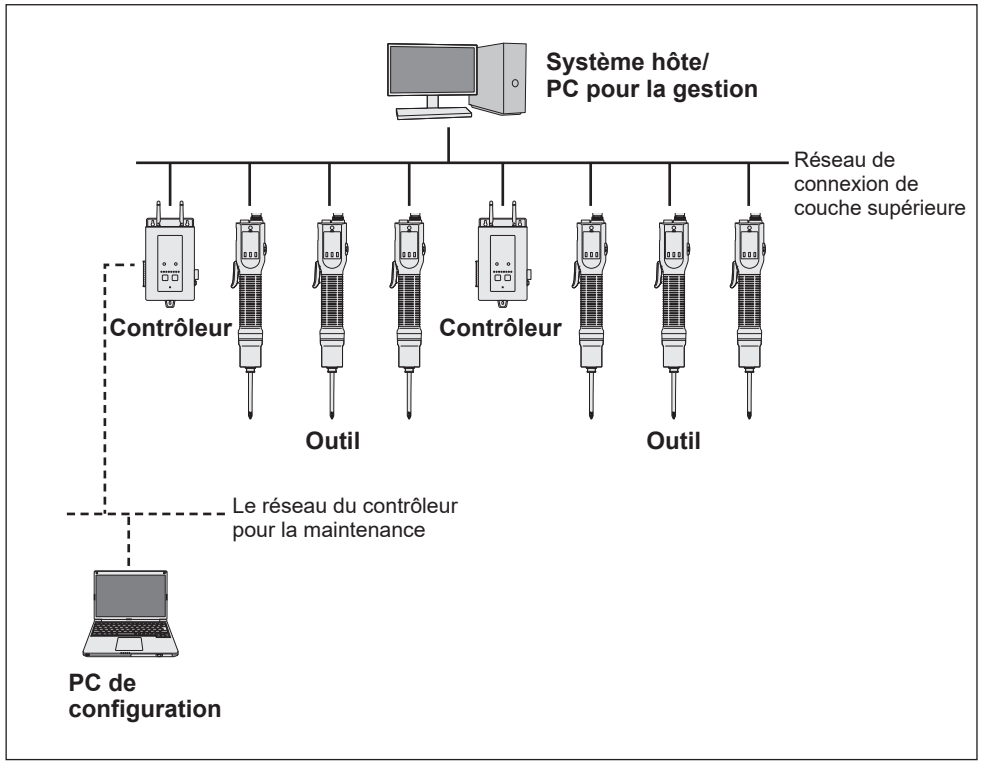

Le contrôleur peut être utilisé dans les 2 configurations ci-dessous.

■ Sans gérer les adresses IP de l'outil

*** Attribution automatique (utilisation du point d'accès intégré dans le contrôleur)**

■ Gestion des adresses IP de l'outil (en utilisant le point d'accès intégré dans le contrôleur)

* Utilisez le système au sein de votre réseau local (sans connexion Internet).

* Assurez-vous de vérifier le réglage de l'adresse IP pour le réseau du contrôleur avant de commencer à l'utiliser. (Modifiez la valeur par défaut si nécessaire)

Liste des modèles d'outil applicables

Modèles pouvant être enregistrés	EYADA112WA/WB*1 EYADA212WA/WB EYADA218WA/WB EYADA407WA/WB

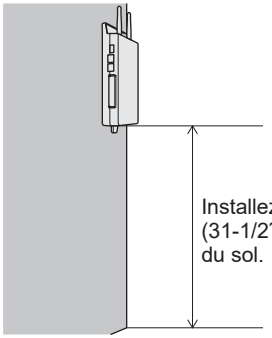

*1 Ceci est pris en charge uniquement par la version de micrologiciel 2.02.00 ou ultérieure.

Précautions pour l'installation

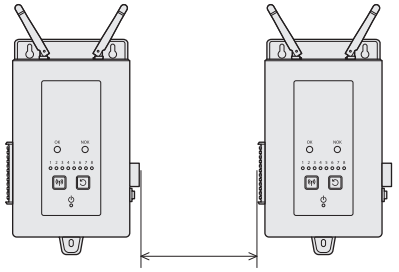

Installez le contrôleur à 80 cm (31-1/2″) ou plus au-dessus du sol. Maintenez un espace de 10 cm (3-15/16″) ou plus entre les contrôleurs installés. (une distance de 1 m (39-3/8″) ou plus est recommandée)
Dégagez toute obstruction aux antennes du contrôleur installé.
Le contrôleur a 2 antennes en diversité. Dégagez toute obstruction des deux antennes.

⚠ MISE EN GARDE

Pour garantir une installation en toute sécurité, utilisez des vis à bois d'un diamètre nominal compris entre 3,5 (1/8″) et 4,1 mm (5/32″).

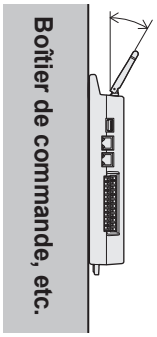

Installez le contrôleur à 80 cm (31-1/2″) ou plus au-dessus du sol.

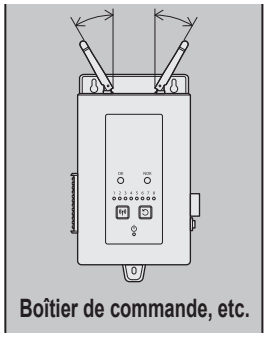

Maintenez un espace de 10 cm (3-15/16″) ou plus entre les contrôleurs installés.

Réglez l'inclinaison des antennes si la communication est instable.
* En particulier pour le contrôleur installé sur un panneau métallique, le réglage de l'inclinaison des antennes peut améliorer la stabilité de la communication.

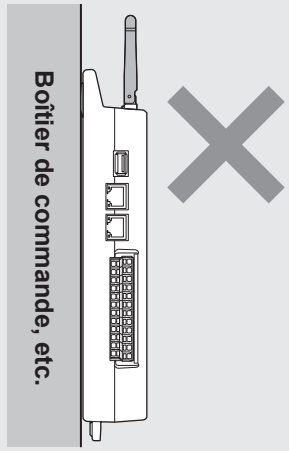

Inclinez les antennes de 30º à 45º par rapport au mur.

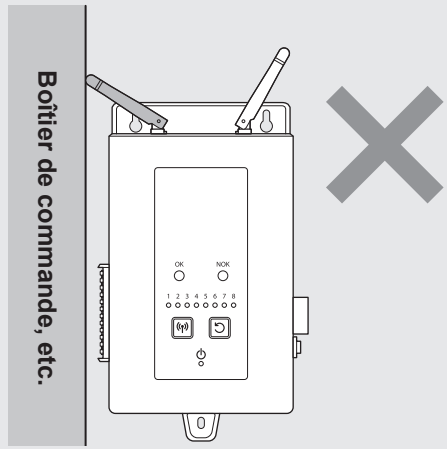

Inclinez les antennes de 30º à 45º vers l'extérieur, vue de l'avant.

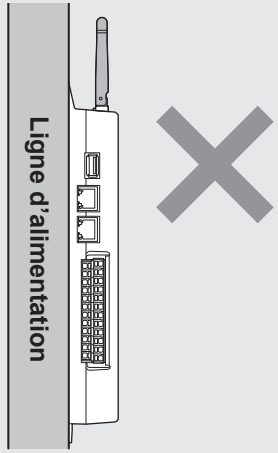

■ Évitez l'installation suivante.

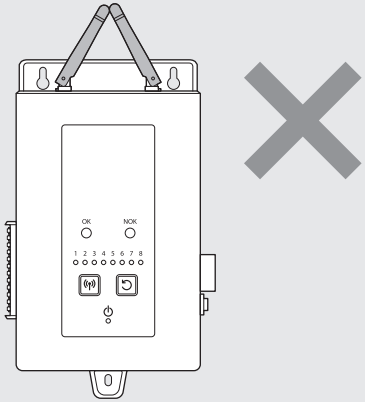

L'antenne est en parallèle avec le boîtier de commande (panneau métallique) à l'arrière.

L'antenne est en contact avec le boîtier de commande (panneau métallique).

Le contrôleur est installé très près d'une ligne d'alimentation.

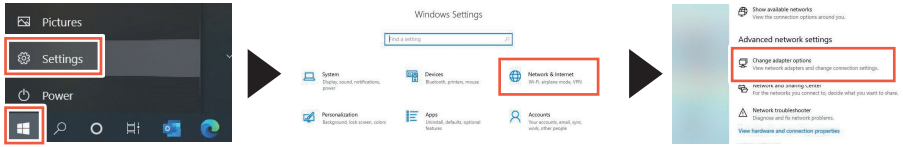

Les antennes sont en contact l'une avec l'autre.

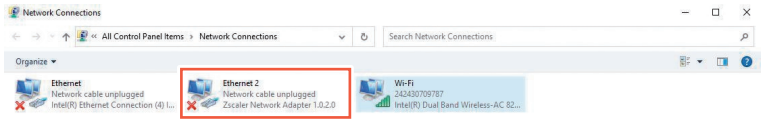

Réglages réseau sur le PC de configuration

Configurez les paramètres réseau sur le PC de configuration comme indiqué ci-dessous lorsque vous le connectez ainsi que le contrôleur pour la première fois.

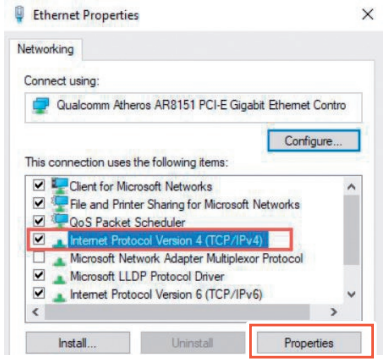

1 Cliquez sur en bas à gauche de l'écran et cliquez sur (Settings) – [Network & Internet] - [Change adapter options].

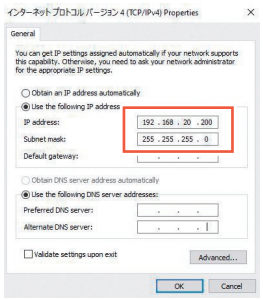

2 Cliquez avec le bouton droit sur l'appareil à connecter et cliquez sur [Properties].

3 Sélectionnez « Internet Protocol Version 4 » et cliquez sur [Properties].

4 Réglez « IP address » et « Subnet mask » comme ci-dessous.

IP address	192	. 168	. 20	. 200
Subnet mask	255	. 255	. 255	. 0

* Si vous avez modifié l'adresse IP du contrôleur après la connexion initiale, activez la connexion en rétablissant les paramètres réseau (adresse IP et masque de sous-réseau) sur le PC de configuration. À ce stade, configurez l'adresse IP de sorte que le contrôleur et le PC de configuration appartiennent au même réseau.
* Notez et conservez les paramètres réseau du PC de configuration (adresse IP et masque de sous-réseau) avant de les modifier.
* Il est recommandé de laisser la passerelle par défaut non spécifiée (vide).

Affichage de l'écran de configuration

Pour configurer le contrôleur, accédez à travers un navigateur Web.
Affichez l'écran de configuration du contrôleur comme ci-dessous.

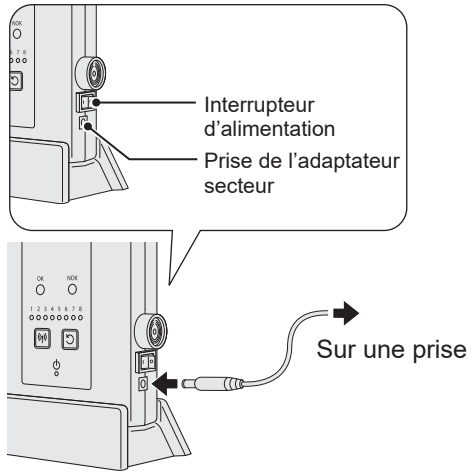

Lorsque vous utilisez le contrôleur pour la première fois, retirez le film de protection de la pile bouton.

1 Activez le contrôleur.

① Connectez l'adaptateur AC fourni au contrôleur et branchez la fiche d'alimentation sur une prise de courant.

② Mettez l'interrupteur d'alimentation du contrôleur sur Marche.

* Le démarrage prend quelques dizaines de secondes.
* Au démarrage, le témoin de fixation OK, le témoin de fixation NOK, et le témoin de communication (N° 1 à N° 8) clignotent simultanément.
* Ne connectez pas de câbles LAN.

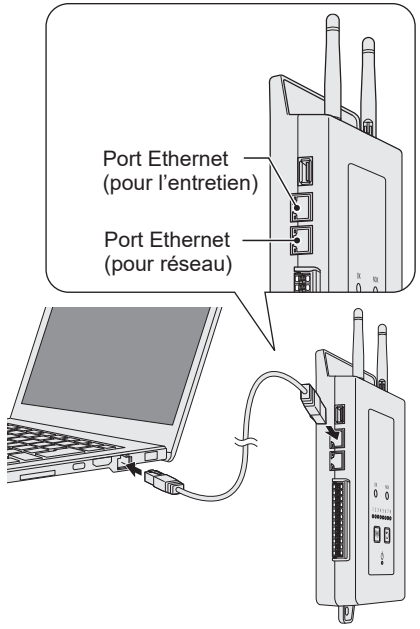

2 Connectez le contrôleur au PC de configuration à l'aide d'un câble LAN.

① Connectez un câble LAN au port Ethernet du contrôleur.

* Le contrôleur possède 2 ports Ethernet : un pour la maintenance et un autre pour le réseau.
Utilisez celui réservé à la maintenance pour la première connexion.

② Connectez au PC de configuration avec le câble LAN.

3 Démarrez un navigateur Web sur le PC de configuration et accédez au contrôleur.

① Démarrez un navigateur web sur le PC de configuration. (Microsoft Edge est recommandé)

② Entrez l'adresse IP du contrôleur dans la barre d'adresse du navigateur web.

* L'adresse IP par défaut pour le port Ethernet (pour la maintenance) est « 192.168.20.10 ».

Dans la barre d'adresse du navigateur Web, entrez « http://192.168.20.10/controller » pour accéder.
* La saisie de « 192.168.20.10/controller » uniquement autorise aussi l'accès.

* Pour savoir comment accéder via le port Ethernet (pour le réseau), voir « Connexion via le réseau ». Se reporter à P21

* L'adresse IP doit également être réglée sur le PC de configuration.

③ Dans l'écran de connexion affiché, saisissez l'ID utilisateur et le mot de passe.
* L'ID utilisateur et le mot de passe pour la connexion initiale sont indiqués ci-dessous.

④ La page du haut (la page initiale de l'écran de configuration) s'affiche.

ID utilisateur et mot de passe pour la connexion initiale

Connectez-vous avec l'ID utilisateur et le mot de passe ci-dessous.

■ **ID utilisateur:** **root**

■ **Mot de passe:** **abcABC123**

* Le type de compte pour la connexion initiale est « default ».
Pour les types de compte, voir « Types de compte (autorités) ».
Se reporter à P19

* Seule la création de compte est possible lorsque vous vous connectez avec l'ID utilisateur et le mot de passe ci-dessus. Créez un nouveau compte avant de commencer l'utilisation.

* Pour des raisons de sécurité, le changement du mot de passe ci-dessus est recommandé après la connexion initiale.

Types de compte (autorités)

Voici les types de compte. Utilisez-les conformément aux applications.

Type de compte	Fonction
Par défaut	• Pour la connexion initiale. Se reporter à P18 Ajout ou modification d'un compte utilisateur.
Administrator	• Affichage de l'historique de fixation. • Configuration du contrôleur. • Configuration des outils. • Ajout ou modification d'un compte utilisateur. * Créez au moins un compte administrateur.
General	• Affichage de l'historique des fixations (y compris l'affichage du moniteur de travail).

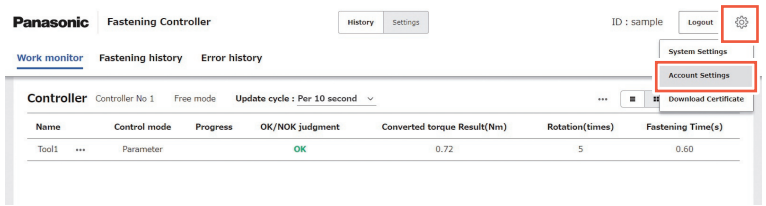

Jusqu'à 10 comptes peuvent être enregistrés.
Ainsi, plusieurs opérateurs peuvent se connecter simultanément.
* Un seul compte peut se connecter en tant qu'administrateur en même temps. Lorsque plusieurs accès sont tentés, la dernière session est prioritaire.

Création d'un compte utilisateur

Créez un nouveau compte avant de commencer l'utilisation.

1 Dans la page supérieure (la page initiale de l'écran de configuration), cliquez sur la touche d'option dans le coin supérieur droit et sélectionnez « Account Settings ».

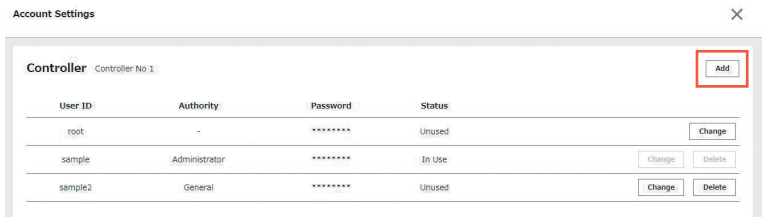

L'écran « Account Settings » s'affiche.

2 Dans l'écran « Account settings », cliquez sur [Add].

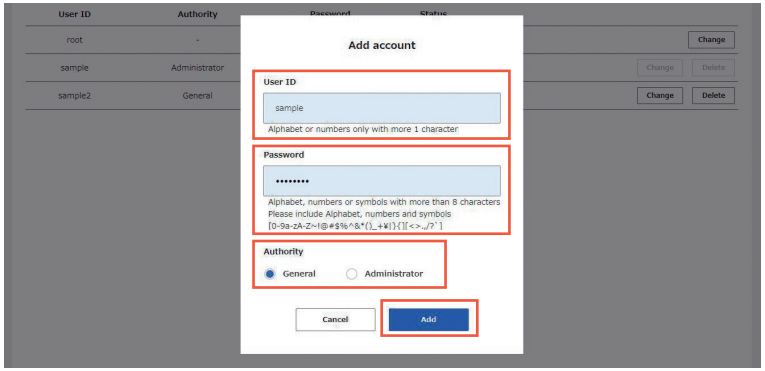

L'écran « Add account » s'affiche.

• Cliquez sur [Change] pour changer le compte et sur [Delete] pour supprimer le compte.

3 Entrez « User ID » et « Password », sélectionnez « Authority » et cliquez sur [Add].

* Créez un compte administrateur pour configurer les outils.
* Pour un mot de passe, utilisez toujours une combinaison de 3 types de caractères ou parmi les majuscules, minuscules, chiffres et symboles.

[Référence] Si vous avez perdu l'ID utilisateur ou le mot de passe

■ Compte général

[Méthode 1] Connectez-vous en tant qu'administrateur et modifiez le compte concerné.
* Un utilisateur général ne peut pas modifier l'ID utilisateur et le mot de passe et doit demander à un administrateur de les modifier.

[Méthode 2] Connectez-vous avec un nouveau compte administrateur et modifiez le compte concerné.
* Connectez-vous avec l'ID utilisateur et le mot de passe pour la connexion initiale et créez un nouveau compte administrateur.
Se reporter à P18

■ Compte Administrateur

A) Lorsque plusieurs comptes administrateur ont été créés

[Méthode 1] Connectez-vous avec un autre compte administrateur et modifiez le compte concerné.

[Méthode 2] Connectez-vous avec un nouveau compte administrateur et modifiez le compte concerné.
* Connectez-vous avec l'ID utilisateur et le mot de passe pour la connexion initiale et créez un nouveau compte administrateur.
Se reporter à P18

[Méthode 3] Initialisez les paramètres si vous avez perdu les identifiants et les mots de passe de tous les comptes administrateur. **Se reporter à P81**

B) Lorsqu'un seul compte administrateur a été créé

[Méthode 1] Connectez-vous avec un nouveau compte administrateur et modifiez le compte concerné.
* Connectez-vous avec l'ID utilisateur et le mot de passe pour la connexion initiale et créez un nouveau compte administrateur.
Se reporter à P18

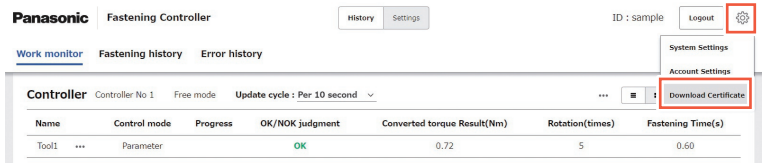

[Méthode 2] Initialisez les paramètres si vous avez perdu les identifiants et les mots de passe de tous les comptes administrateur. **Se reporter à P81**

Obtention d'un certificat

Un certificat est nécessaire pour accéder au contrôleur via le port Ethernet (pour le réseau).
Vous pouvez obtenir un certificat comme ci-dessous.

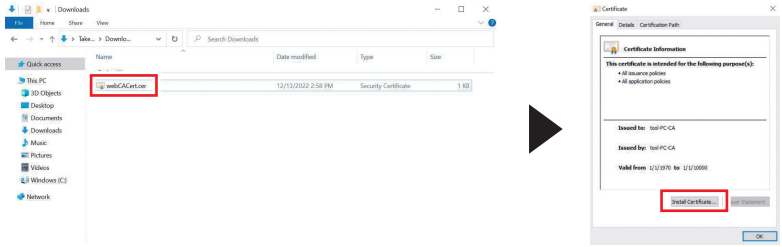

1 Dans la page supérieure (la page initiale de l'écran de configuration), cliquez sur la touche d'option dans le coin supérieur droit et sélectionnez « Download Certificate ».

Une référence de certificat est téléchargée sur le PC de configuration.

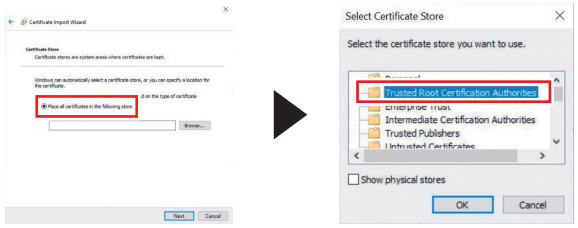

2 Installez le certificat dans le « PC de configuration utilisé pour accéder au contrôleur via le réseau ».

① Double-cliquez sur la référence du certificat téléchargé et sélectionnez « Install certificate ».

② Sélectionnez « Place all certificates in the following store» puis sélectionnez « Trusted Root Certification Authorities ».

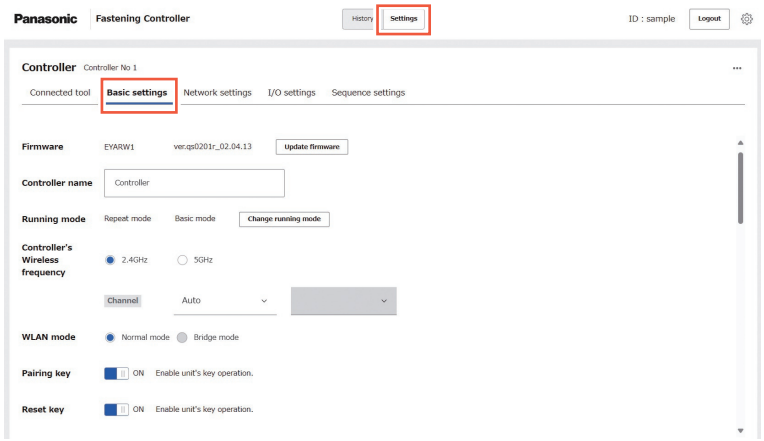

Connexion via le réseau

Dans la barre d'adresse du navigateur Web, entrez « https://XXX.XXX.XXX.XXX/controller » pour connecter le contrôleur via le port Ethernet (pour le réseau).
* « XXX.XXX.XXX.XXX » est une adresse IP.
* L'adresse IP par défaut est « 192.168.0.10 ». Si vous avez modifié l'adresse par défaut, entrez celle qui a été modifiée. **Se reporter à P28**

Paramètres de base

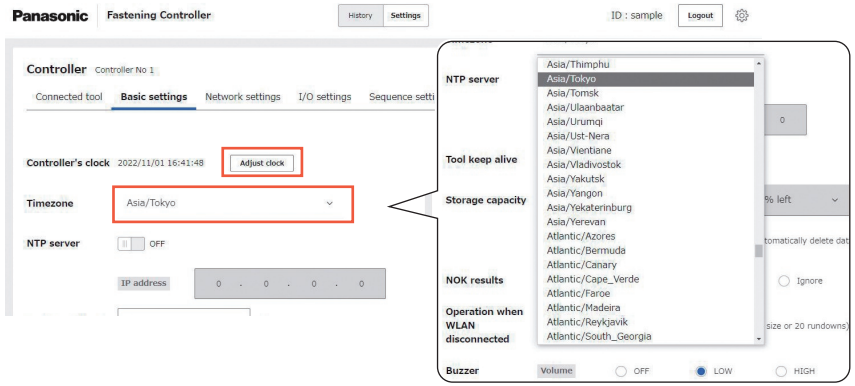

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Basic settings ».
Vous pouvez configurer le contrôleur.

■ Réglage de l'heure

Sélectionnez « Timezone » puis cliquez sur [Adjust clock].
L'heure est actualisée.

- L'heure n'est pas encore réglée au moment de l'expédition. Assurez-vous de régler l'heure lorsque vous utilisez le contrôleur pour la première fois.

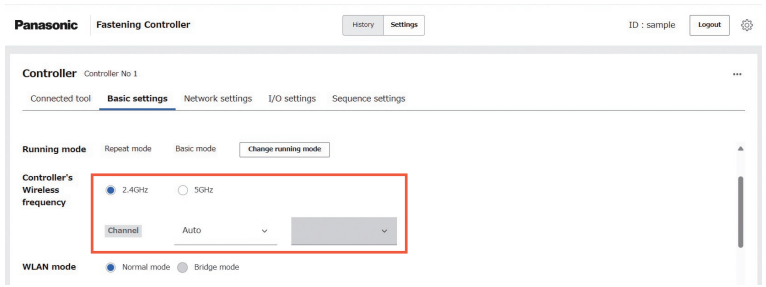

* Si vous utilisez un serveur NTP, entrez l'adresse IP.

■ Réglage de la fréquence radio et du canal

Vous pouvez régler la fréquence à utiliser.
Sélectionnez « 2.4GHz » ou « 5GHz » puis le canal à utiliser.

* Les canaux sélectionnables varient entre « 2.4GHz » et « 5GHz ».
* Lorsque « Channel » est réglé sur « Auto », le contrôleur sélectionne automatiquement les canaux disponibles dans l'environnement lors de sa mise sous tension.
  Le réglage peut être efficace contre les interférences radio.
* Lorsque vous installez plusieurs contrôleurs les uns à côté des autres, ne réglez pas les canaux adjacents.

■ Éléments de réglage

Firmware

La version du micrologiciel du contrôleur est affichée.
Cliquez sur [Update firmware] pour mettre à jour le micrologiciel.
Pour savoir comment mettre à jour, voir « Mise à jour du micrologiciel ».
Se reporter à P83

Controller name

Vous pouvez enregistrer le nom du contrôleur.
Utilisez un maximum de 32 caractères alphanumériques.

[Plage de réglage] Jusqu'à 32 caractères alphanumériques

* Pour les symboles, seul «-» (tiret), «_» (tiret du bas), et « » (espace demi-largeur) peuvent être utilisés.

Running mode

Sélectionnez le mode de fonctionnement du contrôleur.
[Par défaut] Free mode
[Plage de réglage] Free mode / Repeat mode (Basic mode / Sequence mode) / External control mode

Controller's Wireless frequency

Sélectionnez le canal de fréquence du contrôleur à utiliser pour la communication sans fil.
[Par défaut] 2.4GHz
[Plage de réglage] 2.4GHz (Auto / Channel 1 à 13) / 5GHz (Auto / Channel 36, 40, 44, 48)

WLAN mode

Vous pouvez définir comment gérer l'adresse IP de l'outil.
[Par défaut] Normal mode
[Plage de réglage] Normal mode / Bridge mode
* Normal mode : Sans gérer les adresses IP de l'outil (attribution automatique)
Bridge mode: En gérant (spécifiant) les adresses IP de l'outil

Pairing key

Vous pouvez activer la touche d'appariement.
[Par défaut] ON (activé)
[Plage de réglage] OFF (désactivé) / ON (activé)

Reset key

Vous pouvez activer la touche de réinitialisation.
[Par défaut] ON (activé)
[Plage de réglage] OFF (désactivé) / ON (activé)

Controller's clock

Réglez l'horloge du contrôleur.
Cliquez sur [Adjust clock] pour actualiser l'heure.

Timezone

Vous pouvez régler un fuseau horaire souhaité lors du réglage de l'horloge du contrôleur.

NTP server

Définissez un serveur NTP si vous utilisez le réglage automatique de l'horloge.

Tool keep alive

Réglez la fréquence à laquelle le contrôleur vérifie la disponibilité des outils en mode de communication sans fil.
Les outils qui ne répondent pas sont détectés comme étant hors ligne, puis sont déconnectés.

[Par défaut] 30 s
[Plage de réglage] 10 s à 3600 s

Storage capacity

Activez ou désactivez la notification de faible capacité d'entreposage et réglez le comportement en cas de manque de capacité.

[Par défaut] Notification - OFF,
Fonctionnement lorsque la capacité est insuffisante - Automatically delete data
[Plage de réglage] Notification - OFF/ON (capacité restante 10/20/30/40/50 %),
Fonctionnement lorsque la capacité est insuffisante - Suspend operation / Automatically delete data

Le réglage par défaut est « Automatically delete data ».
Réfléchissez bien à la manière de traiter les données avant de sélectionner « Suspend operation » si nécessaire.

NOK results

Sélectionnez comment gérer les résultats d'échec de fixation.

[Par défaut] Store data only
[Plage de réglage] Store data only / Ignore

Operation when WLAN disconnected

Sélectionnez le comportement en cas d'interruption temporaire de la communication sans fil.

[Par défaut] Suspend tool
[Plage de réglage] Suspend tool / Enable fastening (Until batch size or 20 rundowns)
Pour plus de détails, voir « COMPORTEMENT DE L'OUTIL AVEC LA COMMUNICATION SANS FIL DÉCONNECTÉE ». **Se reporter à P68**

Buzzer

Sélectionnez le volume et la signification du signal sonore.

[Par défaut] Volume - LOW,
Beep - Tous cochés
[Plage de réglage] Volume - OFF/LOW/HIGH,
Beep - Cochez ou décochez chaque élément

Barcode reader settings

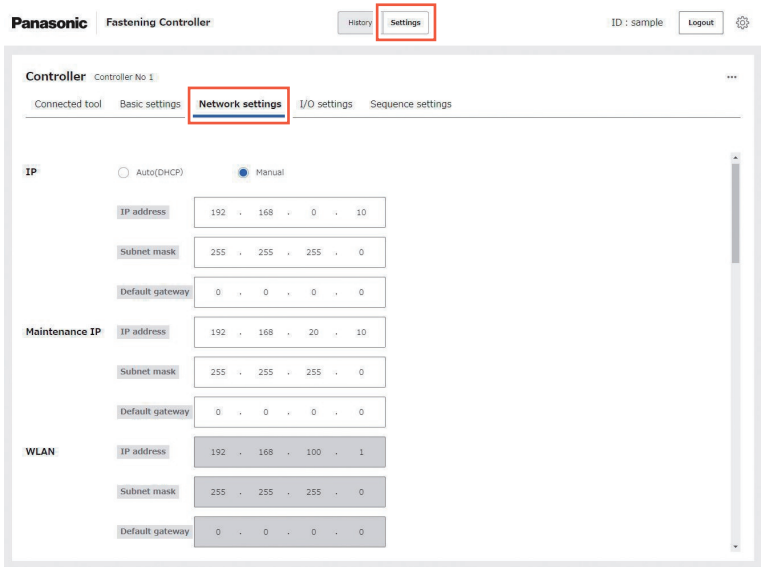

Vous pouvez connecter un lecteur de codes-barres pour ajouter des informations de lecture aux données d'historique des fixations.

[Reading Test] Affiche les informations lues par le lecteur de codes-barres.

[Bluetooth settings] Ces paramètres sont utilisés lorsque vous connectez un lecteur de codes-barres de type Bluetooth.
Le bouton « Search » permet d'afficher les périphériques connectables.
Utilisez « Pairing » pour sélectionner un périphérique à connecter.
S'il est déjà connecté, l'adresse MAC/le nom du périphériques s'affiche.
Vous pouvez le déconnecter en sélectionnant « Cancel registration ».

Paramètres réseau

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Paramètres] en haut et sélectionnez l'onglet « Paramètres réseau ».
Vous pouvez régler les paramètres réseau du contrôleur.

■ Éléments de réglage

IP

Configurez l'adresse IP du port Ethernet (pour le réseau).

[Par défaut] Manual
[Plage de réglage] Auto (DHCP) / Manual

* Pour « Manual »

[Par défaut] IP address - 192.168.0.10
Subnet mask - 255.255.255.0
Default gateway - 0.0.0.0

Maintenance IP

Configurez l'adresse IP du port Ethernet (pour la maintenance).

[Par défaut] IP address - 192.168.20.10
Subnet mask - 255.255.255.0
Default gateway - 0.0.0.0

WLAN

Configurez l'adresse IP (du côté du contrôleur) pour la communication sans fil avec les outils.

[Par défaut] IP address - 192.168.100.1
Subnet mask - 255.255.255.0
Default gateway - 0.0.0.0

Access point

Définissez le point d'accès interne pour la communication sans fil avec les outils.

[Par défaut] SSID - Numéro de modèle du contrôleur-adresse MAC
Security-WPA2
[Plage de réglage] SSID - Un maximum de 32 caractères alphanumériques
Security-WPA2

• Pour les adresses IP pour « IP » et « Maintenance IP », n'utilisez pas le même sous-réseau.
(Lorsque vous définissez une valeur par défaut (255.255.255.0) dans« Subnet mask », définissez des valeurs différentes dans la partie correspondante à « 192.168.0 » ou « 192.168.20 ».)

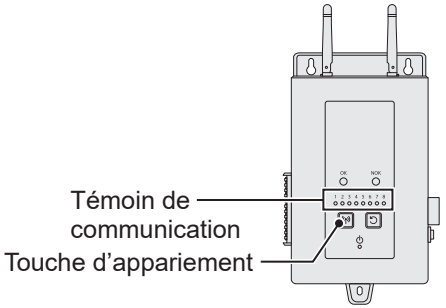

Démarrage du mode d'appariement sur le contrôleur

Vous pouvez mettre le contrôleur en mode d'appariement avec « Utilisation de la touche sur l'unité » ou « Réglage dans l'écran de configuration ».
Pendant 2 minutes en mode d'appariement, démarrez le mode d'appariement sur un outil dans la zone de couverture pour établir l'appariement.
Si l'appariement n'est pas établi dans le délai, le mode d'appariement se termine.

* Après avoir tenté de démarrer l'appariement, cela peut prendre un certain temps pour que le contrôleur entre en mode d'appariement.

■ Utilisation de la touche sur l'unité

Utilisez la touche d'appariement sur l'unité du contrôleur.
Sélectionnez le témoin de communication du numéro sans enregistrement (témoin éteint) et maintenez la touche d'appariement enfoncée pour entrer en mode d'appariement.
Voir la procédure suivante pour plus de détails.

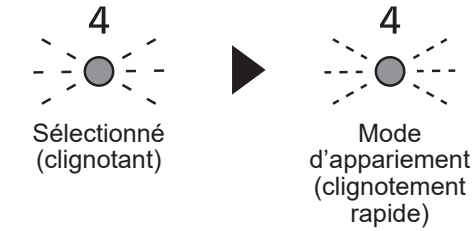

(Pour enregistrer l'outil N° 4)

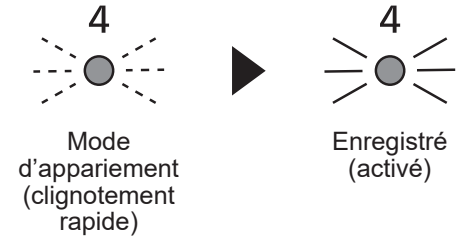

1 Appuyez sur la touche d'appariement sur le contrôleur 4 fois pour sélectionner l'outil Nº 4.
Le témoin de communication Nº 4 clignote.

2 Lorsque le N° 4 est sélectionné, maintenez la touche d'appariement enfoncée sur le contrôleur pour entrer en mode d'appariement de l'outil N° 4.
En mode d'appariement, le témoin de communication Nº 4 commence à clignoter rapidement.

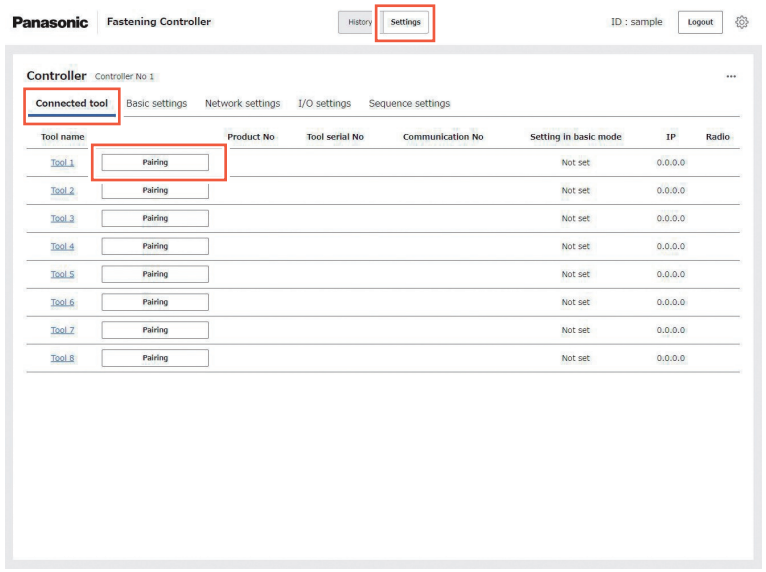

3 Actionnez l'outil N° 4 pour établir l'appariement.
Le témoin de communication N° 4 reste allumé.
Pour savoir comment utiliser l'outil, voir « Démarrage du mode d'appariement sur un outil ».
Se reporter à P32

■ Réglage dans l'écran de configuration

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Connected tool ».
Dans l'écran « Connected tool », cliquez sur [Pairing] du numéro d'outil souhaité.
Une fois que le contrôleur entre en mode d'appariement, effectuez la procédure dans « Démarrage du mode d'appariement sur un outil ». Se reporter à P32

<Pour référence> Remplacement par un outil de rechange

Lors du remplacement d'un outil apparié défectueux par un nouvel outil du même modèle, annulez l'appariement Se reporter à P32 puis effectuez l'appariement Se reporter à P30 afin que les paramètres de fixation et les autres réglages puissent être automatiquement transférés.

* Pour apparier avec un outil ayant un numéro de produit différent, annulez l'appariement pour supprimer les informations d'appariement actuelles avant de l'apparier avec. Se reporter à P36

Affichage lorsque l'appariement est terminé

Une fois l'appariement terminé, si l'écran de configuration n'affiche pas les informations de l'outil apparié, procédez à la mise à jour de l'affichage dans l'écran de configuration.

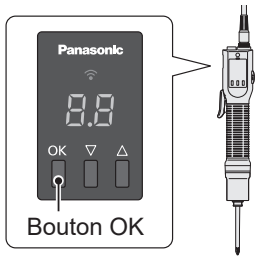

Démarrage du mode d'appariement sur un outil

Mettez le contrôleur en mode d'appariement avant de démarrer le mode d'appariement sur un outil.

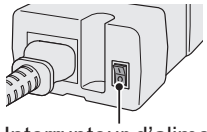

■ Procédure

1 **Tout en maintenant enfoncé le bouton OK de l'outil, activez l'interrupteur d'alimentation sur l'adaptateur secteur.**

L'outil entre en mode d'appariement.
La communication sans fil est automatiquement établie et l'enregistrement de l'appariement est terminé.
* Pour plus de détails, voir les Instructions d'utilisation de l'outil.
* Si l'appariement échoue, annulez l'appariement sur le contrôleur puis réessayez.

Adaptateur secteur (vendu séparément)

Interrupteur d'alimentation

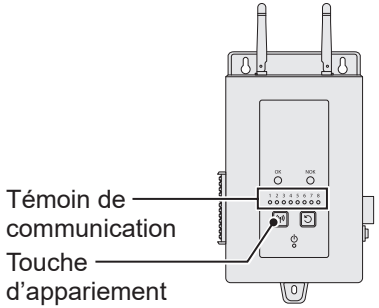

Connectez le cordon de la visseuse à l'adaptateur secteur et l'outil puis connectez la prise d'alimentation à la prise avant de démarrer le fonctionnement.

Annulation de l'appariement

Vous pouvez annuler l'enregistrement de l'appariement sur le contrôleur avec « Utilisation de la touche sur l'unité » ou « Réglage dans l'écran de configuration ».

■ Utilisation de la touche sur l'unité

Utilisez la touche d'appariement sur l'unité du contrôleur.
Sélectionnez le témoin de communication du numéro d'outil dont vous souhaitez annuler l'enregistrement (témoin allumé) et maintenez la touche d'appariement enfoncée pour annuler l'enregistrement d'appariement.
Voir la procédure suivante pour plus de détails.

(Pour annuler l'outil N° 4)

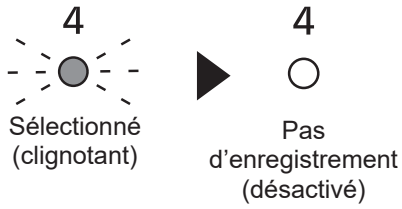

1 **Appuyez sur la touche d'appariement sur le contrôleur 4 fois pour sélectionner l'outil Nº 4.**

Le témoin de communication Nº 4 clignote.

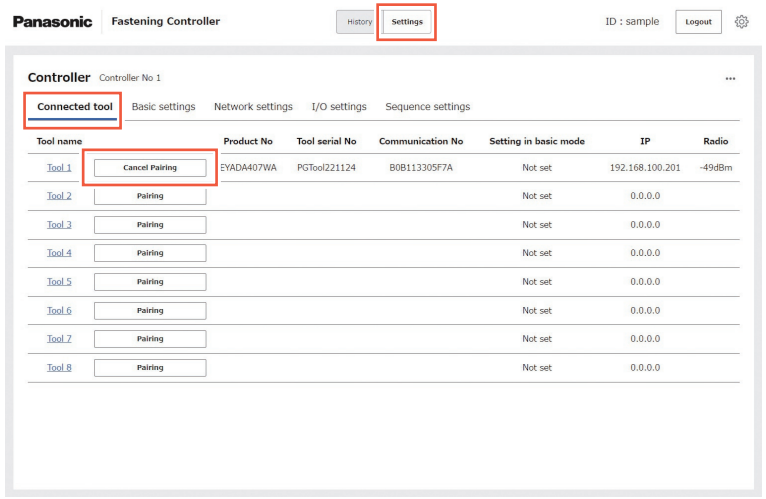

2 **Lorsque le N° 4 est sélectionné, maintenez la touche d'appariement enfoncée sur le contrôleur pour annuler l'enregistrement de l'appariement de l'outil N° 4.**

Lorsque l'appariement est annulé, le témoin de communication N° 4 arrête de clignoter et s'éteint.

■ Réglage dans l'écran de configuration

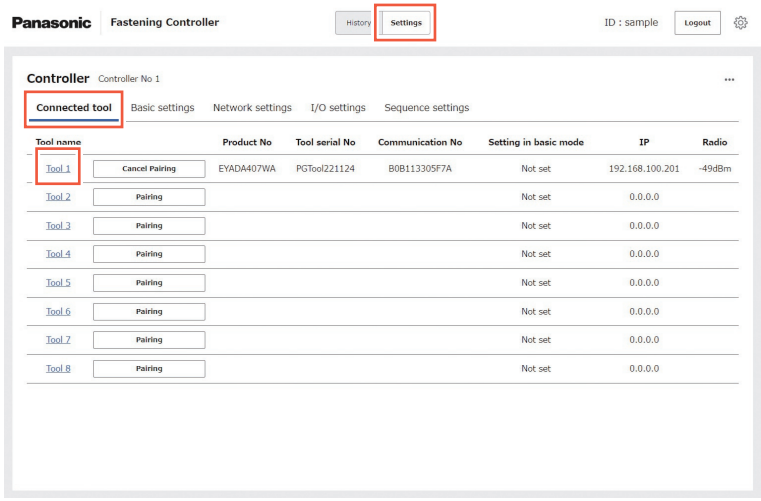

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Connected tool ».
Dans l'écran « Connected tool », cliquez sur [Cancel Pairing] du numéro d'outil souhaité.

* Si le contrôleur ne peut pas communiquer avec l'outil en raison de l'arrêt de l'outil ou d'une autre raison, vérifiez [Force to unpair] dans la boîte de dialogue de confirmation d'annulation de l'appariement.

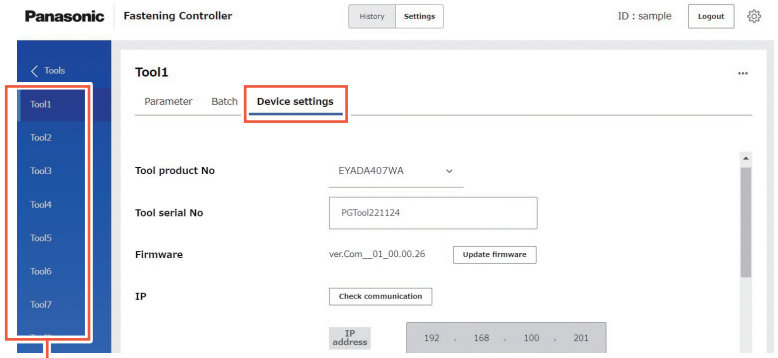

Affichage de l’écran Outil

Dans la page du haut (la page initiale de l’écran de configuration), cliquez sur [Settings] en haut et sélectionnez l’onglet « Connected tool ».
Dans l’écran « Connected tool », cliquez sur le numéro d’outilsouhaité.
L’écran correspondant au numéro d’outil s’affiche.

Affichage de l’écran de configuration de l’outil

Dans l’onglet « Device settings » sur l’écran du numéro d’outil, vous pouvez effectuer les réglages de base de l’outilet entrez les paramètres communs.
* Pour changer l’outil, sélectionnez celui souhaité dans la liste d’outils.

Liste d’outils

Éléments de réglage de l’outil

Tool product No

Sélectionnez le numéro de produit d’outil.

[Par défaut] Vide
[Plage de réglage] Sélectionnable dans le menu déroulant

* Automatiquement sélectionné si vous établissez l’appariement au préalable.
* Le numéro de produit de l’outil ne peut pas être modifié après l’appariement. Annulez l’appariement, puis modifiez-le.

Tool serial No

Vous pouvez régler et afficher l’identification de l’unité de l’outil.

[Par défaut] Numéro de série à 8 chiffres
(année de fabrication à 2 chiffres + mois à 2 chiffres + lot de production à 4 chiffres)
[Plage de réglage] 13 à 16 caractères alphanumériques

* Le numéro de modèle peut ne pas être reconnu correctement si les informations sont modifiées.
Ne le modifiez pas sauf si cela est nécessaire par la règle de gestion.

Firmware

La version du micrologiciel de la pièce de communication de l’outil est affichée.
Cliquez sur [Update firmware] pour mettre à jour le micrologiciel.
Pour savoir comment mettre à jour, voir « Mise à jour du micrologiciel ».
Se reporter à P83

IP

Définissez l’adresse IP (du côté de l’outil) pour la communication sans fil avec les outils.

[Par défaut] IP address - 192.168.100.201 (Outil 1) à 208 (Outil 8)
Subnet mask - 255.255.255.0
Default gateway - 0.0.0.0

Tool’s clock

L’horloge de l’outil s’affiche. Cliquez sur [Adjust to controller] pour ajuster l’heure.

• Pour les autres éléments de réglage, voir les Instructions d’utilisation de l’outil.

Suppression des informations d'enregistrement

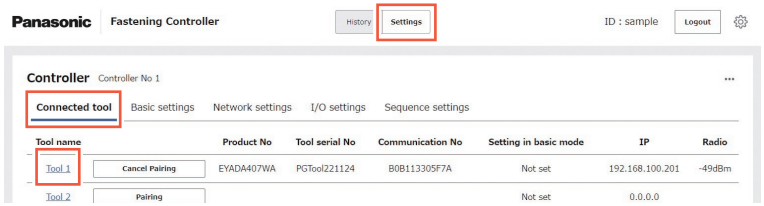

Pour arrêter l'utilisation d'un outil ou apparier un outil avec un numéro de produit différent, supprimez les informations d'appariement.
* Annulez l'appariement au préalable.

1 Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Connected tool ».

L'écran « Connected tool » s'affiche.

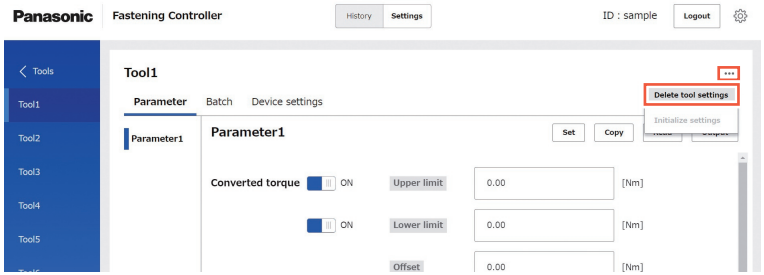

2 Dans l'écran « Connected tool », cliquez sur le numéro d'outil souhaité.

L'écran correspondant au numéro d'outil s'affiche.

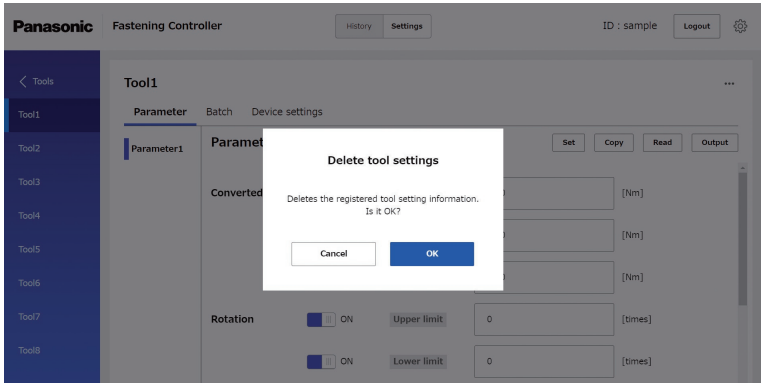

3 Cliquez sur ··· (touche d'option d'outil) puis [Delete tool settings].

L'écran « Delete tool settings » s'affiche.

4 Dans l'écran « Delete tool settings », cliquez sur [OK].

Réinitialisation aux réglages d'usine

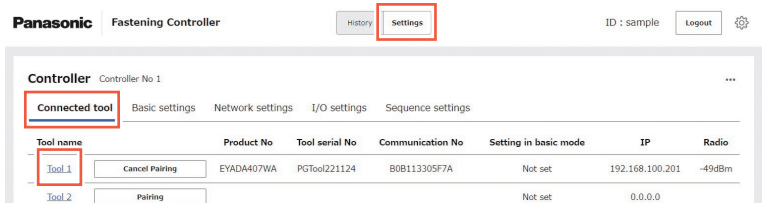

Vous pouvez réinitialiser un outil à ses réglages d'usine.
* La réinitialisation annule l'appariement.

1 Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Connected tool ».

L'écran « Connected tool » s'affiche.

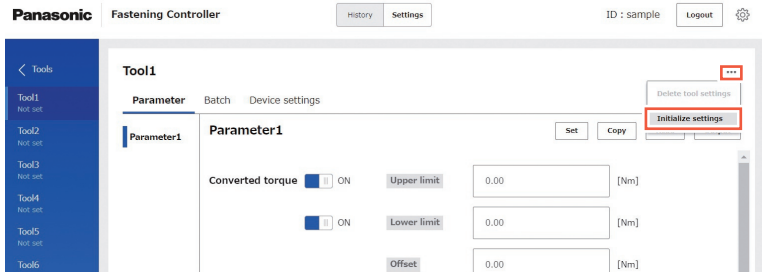

2 Dans l'écran « Connected tool », cliquez sur le numéro d'outilsouhaité.

L'écran correspondant au numéro d'outil s'affiche.

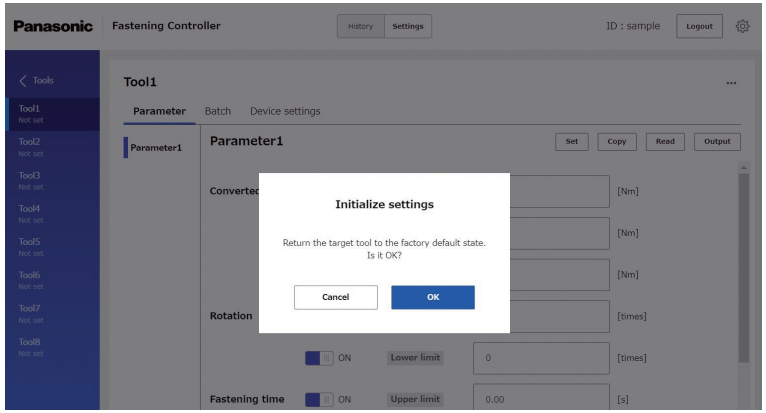

3 Cliquez sur ··· (touche d'option d'outil) puis [Initialize settings].

L'écran « Initialize settings » s'affiche.

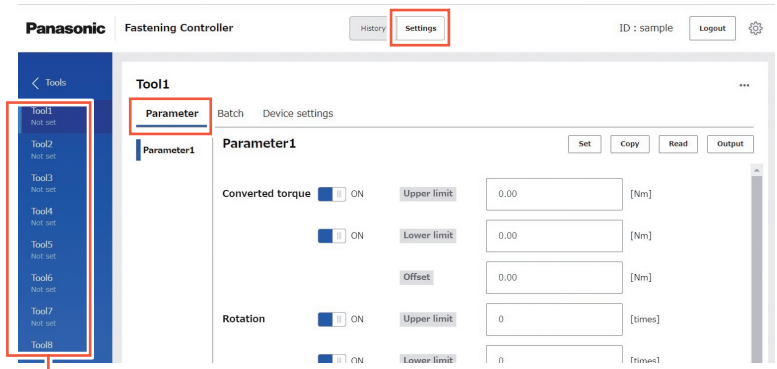

4 Dans l'écran « Initialize settings », cliquez sur [OK].

Réglage des paramètres

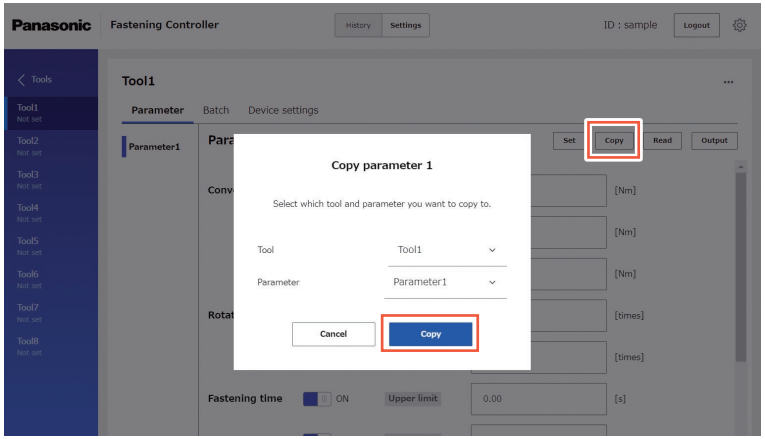

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Connected tool».
Dans l'écran « Connected tool », cliquez sur le numéro d'outilsouhaité.
Dans l'écran pour le numéro d'outil, sélectionnez l'onglet « Parameter » pour effectuer les réglages.
Un seul type de paramètre peut être enregistré pour chaque outil.
* Pour changer l'outil, sélectionnez celui souhaité dans la liste d'outils.

Liste d'outils

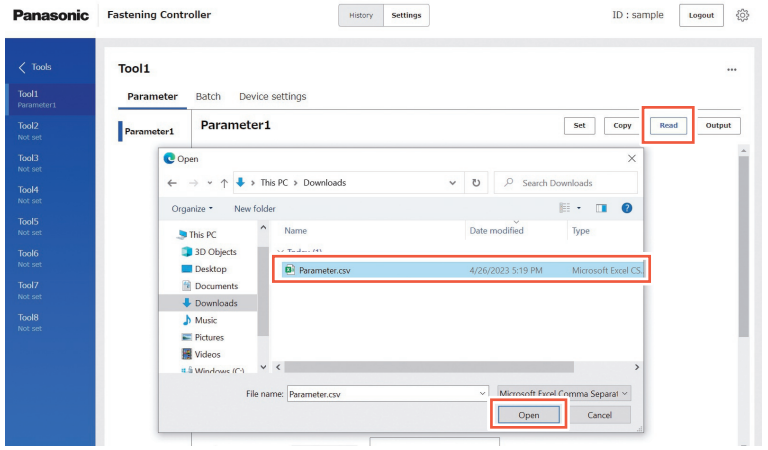

Copie des paramètres

Vous pouvez copier le paramètre défini pour créer un nouveau paramètre ou l'utiliser sur un autre outil.
Dans l'onglet « Parameter » de l'écran du numéro d'outil, cliquez sur [Copy] pour afficher l'écran de copie du paramètre. Dans l'écran, sélectionnez la destination et cliquez sur [Copy].

Chargement des paramètres

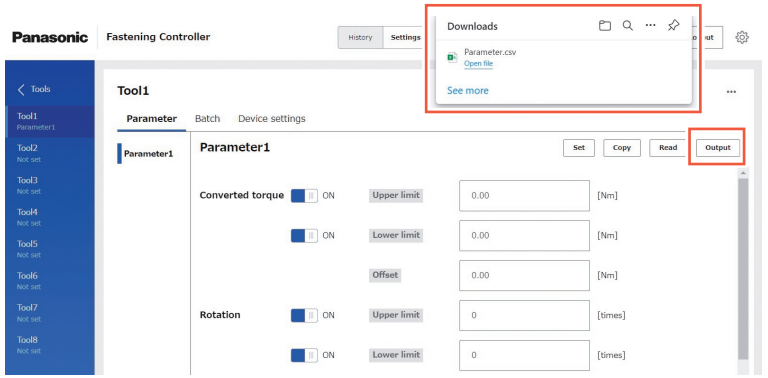

Vous pouvez enregistrer un paramètre en chargeant un fichier de paramètre enregistré dans le PC de configuration dans le contrôleur.
Dans l'onglet « Parameter » de l'écran du numéro d'outil, cliquez sur [Read] et ouvrez le fichier de paramètres.

Exportation des paramètres

Vous pouvez exporter le paramètre créé vers le PC de configuration.
Vous pouvez utiliser le fichier exporté comme sauvegarde pour le copier vers un autre contrôleur, ou le déplacer vers un autre PC de configuration.
Dans l'onglet « Parameter » de l'écran du numéro d'outil, cliquez sur [Output] et enregistrez le fichier de paramètres.

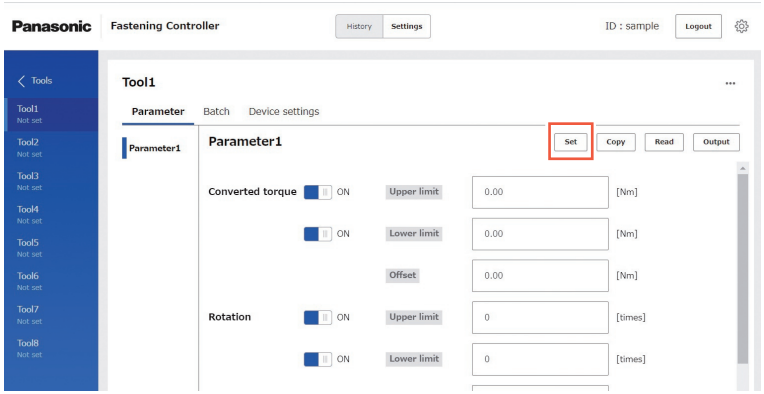

Ne modifiez pas le fichier de paramètres exporté.
Sinon, il risque de ne pas être lu correctement.

Enregistrement des paramètres

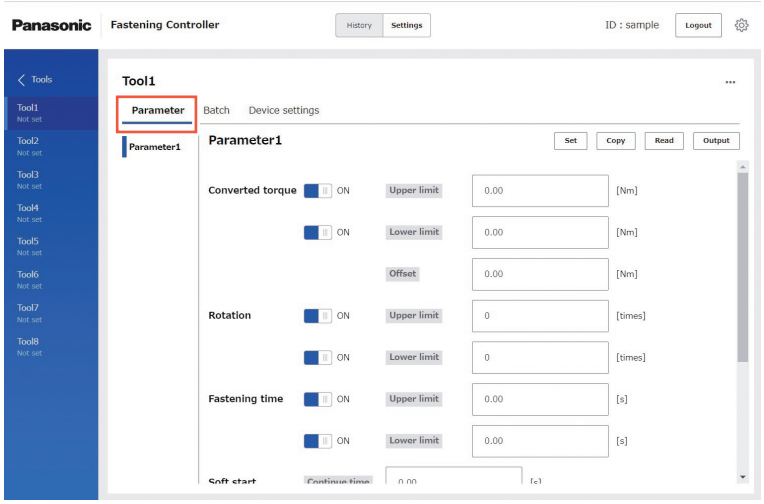

Enregistrez un paramètre pour l'utiliser afin de contrôler un outil en « Free mode » du mode de fonctionnement du contrôleur.
* Il n'est pas utilisé en « Repeat mode » et en « External control mode ».
(Pour le « Free mode », le « Repeat mode », et le « External control mode », voir « Configuration du mode de fonctionnement ». **Se reporter à P44**

Dans l'onglet « Parameter » de l'écran du numéro d'outil, cliquez sur [Set].

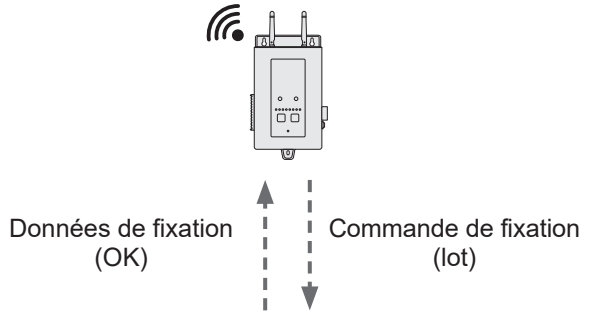

Éléments de paramètres

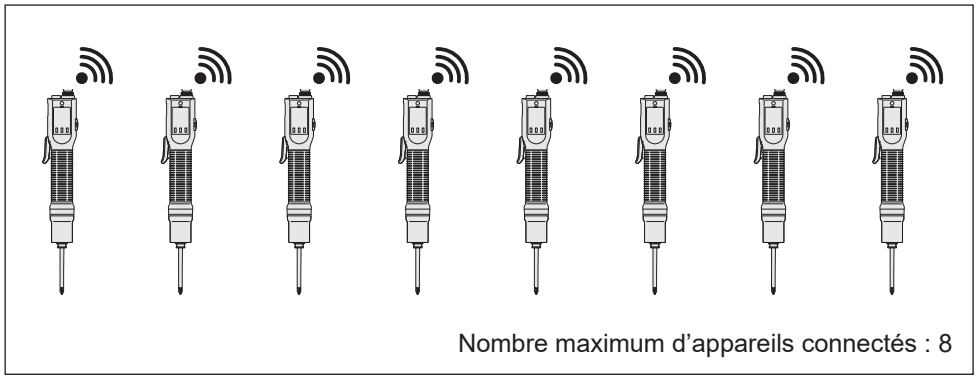

Réglez les éléments de paramètre de fixation.
Pour plus de détails, voir les Instructions d'utilisation de l'outil.

Contrôle de la fixation avec les outils

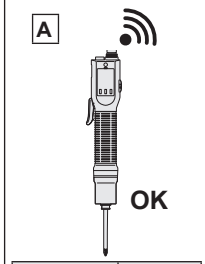

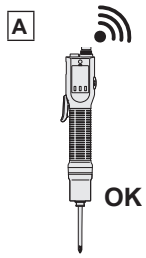

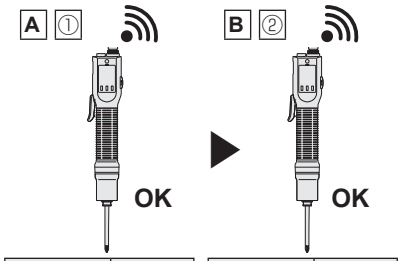

Le contrôleur peut contrôler jusqu'à 8 outils connectés pour la fixation.
Il reçoit les données de fixation de chaque tâche de fixation et compte la quantité fixée.

Combinaisons de commande de fixation typiques

Vous pouvez créer différentes combinaisons de paramètres de commande de fixation. Voir les combinaisons typiques ci-dessous.

Mode	[Free mode]	[Repeat mode]	
		[Basic mode]	[Sequence mode]
Critère de réussite	– (La quantité n'est pas spécifiée)	La fixation de la quantité cible est terminée	Les outils effectuent la fixation des quantités ciblées respectives dans l'ordre spécifié
[Batch] Pour fixer plus d'une vis avec le même réglage	 Réglage d'embrayage: [Graduation] 1 / Quantité ciblée: ∞ — Parameter	 Réglage d'embrayage: [Graduation] 1 / Quantité ciblée: 10 — Batch	 Réglage d'embrayage: [Graduation] 1 / Quantité ciblée: 10; Réglage d'embrayage: [Graduation] 2 / Quantité ciblée: 5 — Batch et Sequence
Remarque	–	–	* Une séquence peut contenir jusqu'à 10 étapes.

• L'embrayage est réglé manuellement avec la poignée d'embrayage sur l'outil (ne peut pas être changé automatiquement).

Nombre de combinaisons pouvant être enregistrées

Voir le nombre de combinaisons qui peuvent être enregistrées dans le contrôleur comme indiqué ci-dessous.

Mode du contrôleur		Réglage de l'outil	Nombre de combinaisons pouvant être enregistrées
Free mode		**Parameter**	○ 5 combinaisons par outil * Ceci est pris en charge uniquement par la version de micrologiciel 2.02.00 ou ultérieure. * Pour les versions précédentes, seulement un type peut être enregistré pour chaque outil.
Repeat mode	**Basic mode (commande indépendante)**	**Batch**	○ 5 combinaisons par outil
	Sequence mode (Contrôle séquentiel)	**Batch**	○ 5 combinaisons
External control mode		–	○ (Instructions E/S uniquement)

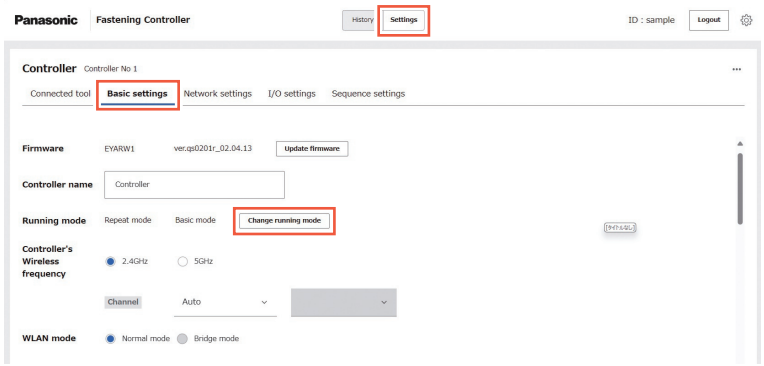

• Au plus cinq processus de lot différents peuvent être enregistrés. Par conséquent, il est possible de passer à un processus de lot avec un nombre différent de vis fixées, tel que « fixation d'une vis » et « fixation de trois vis ».

Configuration du mode de fonctionnement

Configurez le mode de fonctionnement du contrôleur comme indiqué ci-dessous.

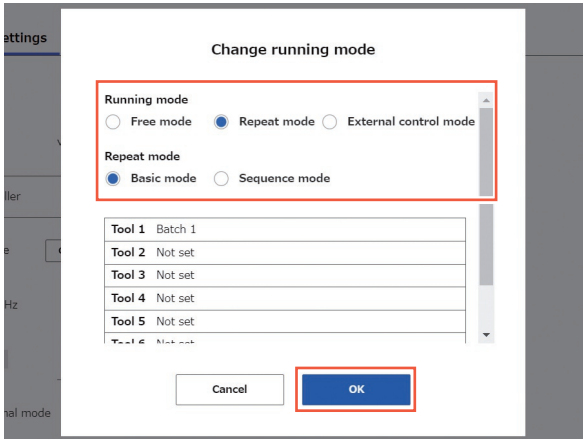

1 Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Basic settings ».

2 Dans l'onglet « Basic settings », cliquez sur [Change running mode].
L'écran « Change running mode » s'affiche.

3 Sélectionnez un « Running mode » et cliquez sur [OK].
Le mode de fonctionnement est réglé.
Sélectionnez un mode de fonctionnement entre « Free mode », « Repeat mode », et « External control mode ».
Pour le « Repeat mode », sélectionnez « Basic mode » ou « Sequence mode ».

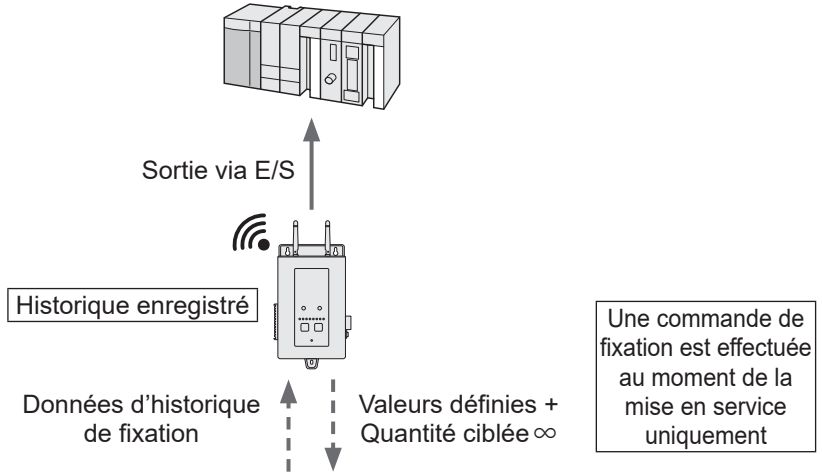

Se reporter à P45 à 48

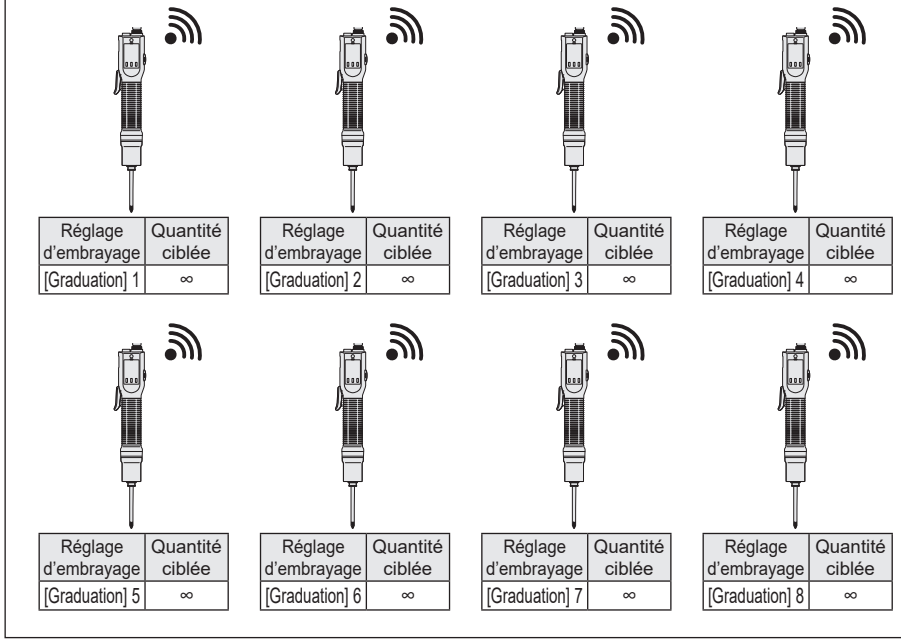

* Enregistrez le « Parameter » avant de régler sur « Free mode ».
* Enregistrez un « Batch » avant de régler sur « Repeat mode ».

■ Free mode

Ce mode permet une fixation inconditionnelle sans spécifier la quantité à fixer.
Les outils utilisent des paramètres pré-enregistrés pour la fixation.
Jusqu'à 8 outils peuvent effectuer une opération indépendante.
Les paramètres de sortie E/S sont activés.
* Utilisez le mode lorsque la quantité fixée est comptée par un appareil externe.

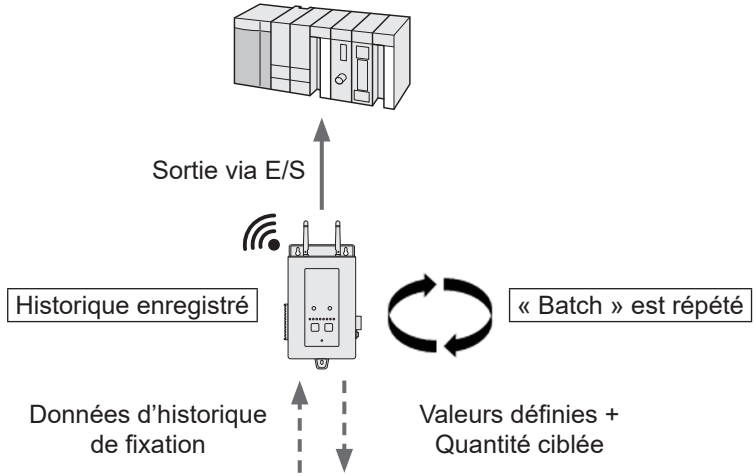

Jusqu'à 8 outils peuvent être commandés en même temps

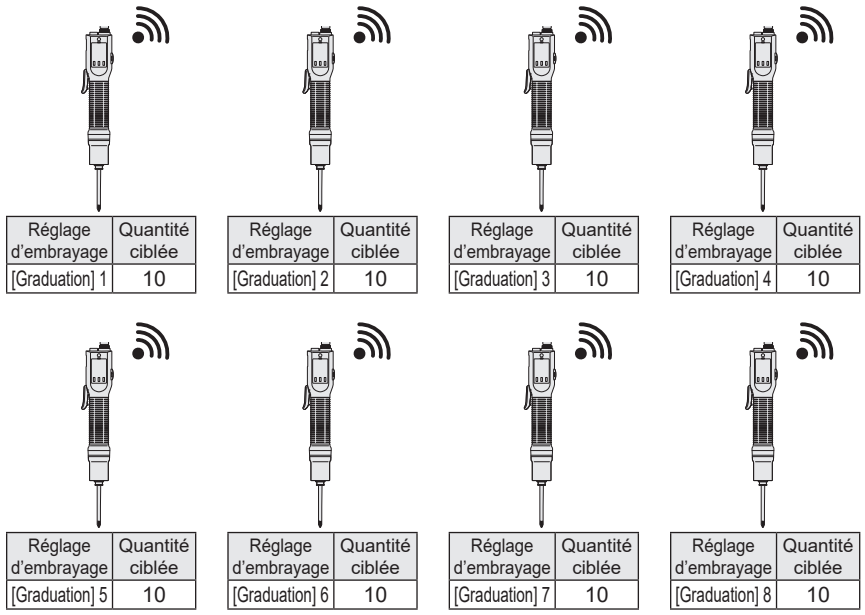

■ Repeat mode (Basic mode)

Ce mode répète un processus de « Batch ».
Les outils utilisent des réglages de « Batch » pour la fixation.
Jusqu'à 8 outils peuvent effectuer une opération indépendante.
Les paramètres de sortie E/S sont activés.

Jusqu'à 8 outils peuvent être commandés en même temps

Réglage d'embrayage	Quantité ciblée
[Graduation] 8	10

■ Repeat mode (Sequence mode)

Ce mode répète un processus de « Sequence » dans lequel les outils disponibles sont contrôlés dans l'ordre.
Les outils utilisent des réglages de « Sequence » pré-enregistrés pour la fixation séquentielle.
Jusqu'à 10 étapes peuvent être réglées. Une séquence prend en charge jusqu'à 8 outils, mais permet à un seul outil de fonctionner à la fois.
Les paramètres de sortie E/S sont activés.

■ External control mode

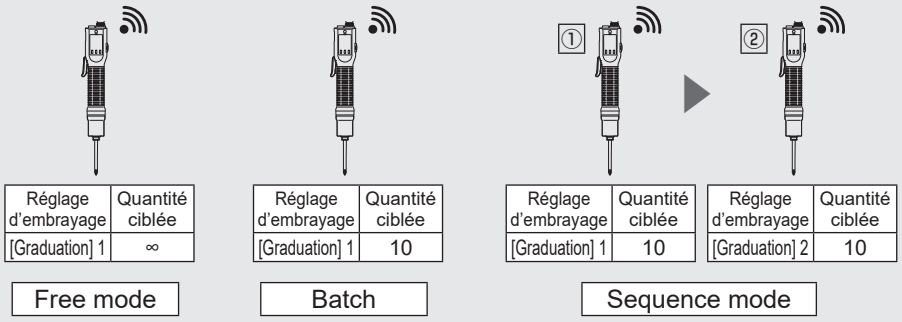

Ce mode permet le contrôle de la fixation commandé par un appareil externe (PLC, etc.).

● Contrôle via E/S

La fixation est commandée par les entrées via le port E/S d'un périphérique externe. Jusqu'à 8 outils peuvent être contrôlés indépendamment ou séquentiellement.

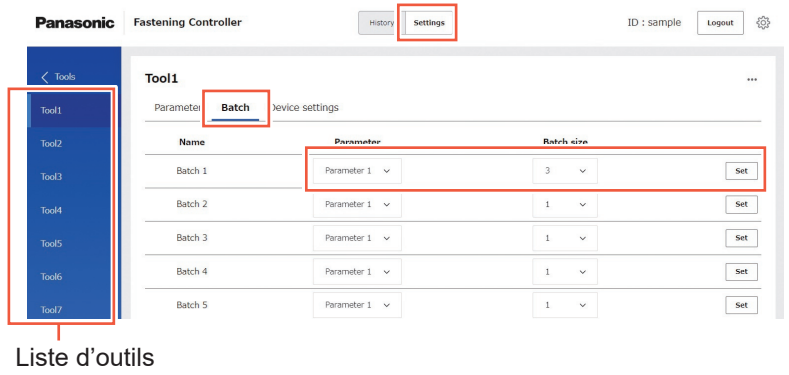

* Plusieurs outils peuvent être contrôlés en même temps (sauf pour « Sequence »)

* Si le contrôleur s'éteint pendant la fixation, celle-ci ne reprend pas après l'activation du contrôleur. La fixation recommence lorsqu'elle est commandée par un périphérique externe.
* Les paramètres de sortie E/S sont activés.

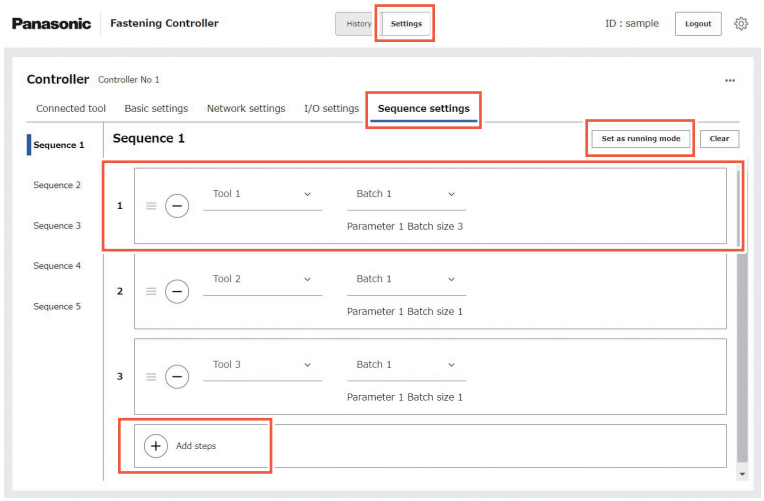

Création (configuration) d'un lot

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Connected tool ». Dans l'écran « Connected tool », cliquez sur le numéro d'outilsouhaité.
Dans l'écran du numéro d'outil, sélectionnez l'onglet « Batch » et effectuez les réglages.
Sélectionnez un paramètre dans le menu déroulant « Parameter » et configurez « Batch size »(quantité à fixer, jusqu'à 99). Cliquez sur [Set] pour définir les valeurs pour « Repeat mode (Basic mode) ».
* Pour changer l'outil, sélectionnez celui souhaité dans la liste d'outils.
* Jusqu'à 5 lots peuvent être enregistrés.

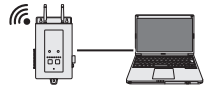

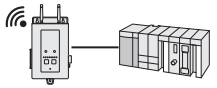

Création (configuration) d'une séquence

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Sequence settings ».
Dans l'écran « Sequence settings », sélectionnez un outil dans le menu déroulant « Tool » et configurez « Batch ».
Cliquez sur [Set as running mode] pour régler les valeurs pour « Repeat mode (Sequence mode) ».
* Jusqu'à 5 séquences peuvent être enregistrées.
* Jusqu'à 10 étapes peuvent être enregistrées.
* Le même outil peut être utilisé plus d'une fois dans une séquence.

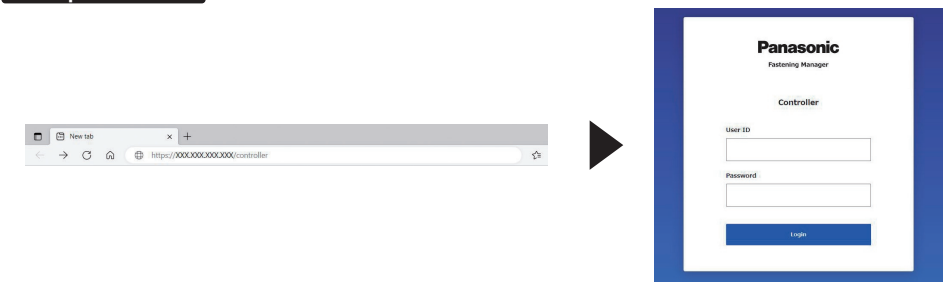

Types d'appareils externes pris en charge

Le contrôleur prend en charge les types de périphériques externes suivants.

Fonction	PC de configuration	API
Illustration		
Méthode de communication	Ethernet	E/S
Protocole de communication	http/https	— (Signal MARCHE/ARRÊT seulement)
Utilisation principale	• Affichage et stockage de l'historique de fixation • Modification des paramètres	• Signaux de sortie terminée et de défaillance • Changement de l'ordre de fixation
Données pouvant être exportées	• Numéros de série d'outils • Temps • Résultats d'exécution et d'échec • Valeurs de couple, angles	• Résultats d'exécution et d'échec • Batch/sequence terminer • Batch/sequence sélectionné • Outil actif
Commutation de l'ordre de fixation	—	• Batch/sequence sélectionné
Autre	S'affiche dans un navigateur Web. Microsoft Edge est recommandé.	8 ports chacun pour l'entrée et la sortie

Connexion au PC de configuration dans un emplacement distant

Le PC de configuration avec le certificat installé peut se connecter à distance à des contrôleurs.
Notez qu'un seul accès à la fonction de configuration est accepté à la fois.
Pour vous connecter, saisissez l'adresse IP du contrôleur dans un navigateur Web.
Se reporter à P21

Connexion via E/S

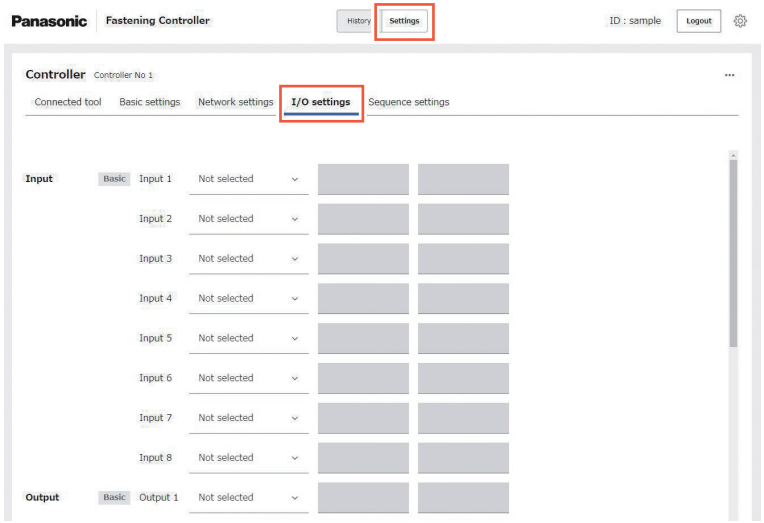

Vous pouvez attribuer des commandes prises en charge à 8 ports d'entrée et 8 ports de sortie comme vous le souhaitez.
Attribuez-les dans l'écran « I/O settings ».
Vous trouverez ci-dessous les commandes qui peuvent être attribuées aux ports.

Entrée	Commande prise en charge
1	Batch (Outil 1 à 5) Sequence (1 à 5) Batch reset (1 à 8) Reset Suspend tool (1 à 8) Suspend controller
2	
3	
4	
5	
6	
7	
8	

Sortie	Commande prise en charge
1	OK (Outil 1 à 8) NOK (Outil 1 à 8) Batch complete (Outil 1 à 5) Sequence complete (1 à 5) Tool active (Outil 1 à 8) Batch selected (Outil 1 à 5) Sequence selected (1 à 5)
2	
3	
4	
5	
6	
7	
8	

Configuration E/S

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « I/O settings ».

* Il est possible d'attribuer un comportement ou un événement non encore enregistré. (Excepté pour la sélection de séquence)

Commandes attribuées aux ports d'entrée

Vous trouverez ci-dessous les commandes qui peuvent être attribuées aux ports d'entrée. Lorsqu'un signal d'un appareil externe est entré dans l'un des ports, la commande attribuée est exécutée.

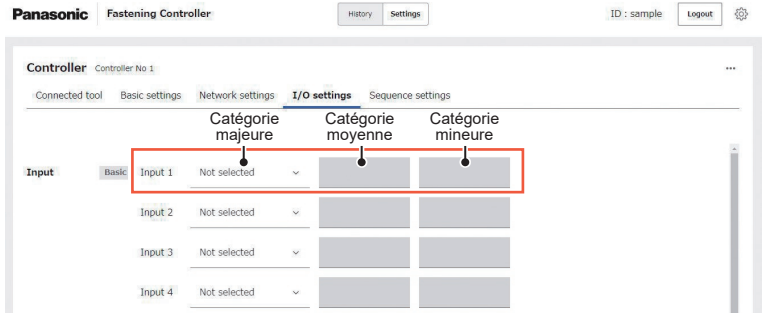

Catégorie majeure (comportement)	Catégorie moyenne (Outil)	Catégorie mineure (N° de lot, etc.)
Batch	Outil 1 à 8	1-5
Sequence	—	1-5
Suspend tool*1	Outil 1 à 8	—
Suspend controller*1	—	—
Batch reset	Outil 1 à 8	—
Reset	—	—

*1 Activé uniquement lorsque le signal d'entrée est maintenu.

Remarques lorsque la commande « Suspend tool » ou « Suspend controller » est entrée

- Lorsque la commande « Suspend controller » est activée, aucun ordre de fixation n'est accepté.
- Pour le numéro d'outil avec la commande « Suspend tool » activée, aucune commande de fixation « Batch » n'est acceptée.
- Pour les numéros d'outil autres qu'avec la commande « Suspend tool » activée, une commande de fixation « Batch » est acceptée.
- Lorsque la commande « Suspend tool » est activée, aucune commande de fixation « Sequence » n'est acceptée.
  À ce stade, le processus continue jusqu'à ce qu'il atteigne l'outil avec la commande « Suspend tool » activée.
- « Batch reset » et « Reset » sont traités de la même manière qu'une commande de fixation.

Après avoir sélectionné un comportement dans la catégorie majeure, sélectionnez un outil puis un numéro (par exemple, numéro de lot) si nécessaire.

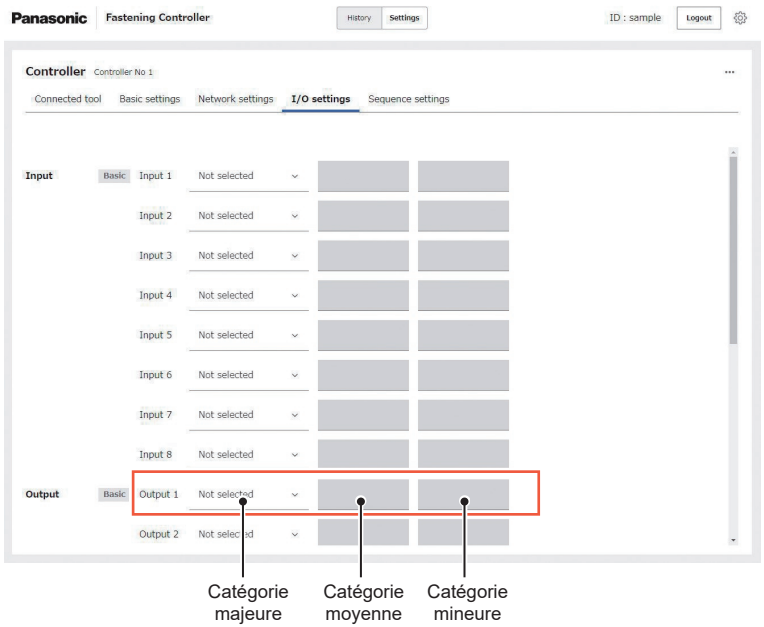

* Aucune action n'est effectuée si un signal non attribué est entré. (Aucune erreur ne se produit)

Commandes attribuées aux ports de sortie

Vous trouverez ci-dessous les commandes qui peuvent être attribuées aux ports de sortie.
Lorsqu'un événement pertinent est survenu, le contrôleur émet un signal du port correspondant à un périphérique externe tel que spécifié par la commande attribuée.

Catégorie majeure (Événement)	Catégorie moyenne (Outil)	Catégorie mineure (N° de lot, etc.)
OK	Outil 1 à 8	—
NOK	Outil 1 à 8	—
Batch complete	Outil 1 à 8	1-5
Sequence complete	—	1-5
Tool active	Outil 1 à 8	—
Batch selected	Outil 1 à 8	1-5
Sequence selected	—	1-5

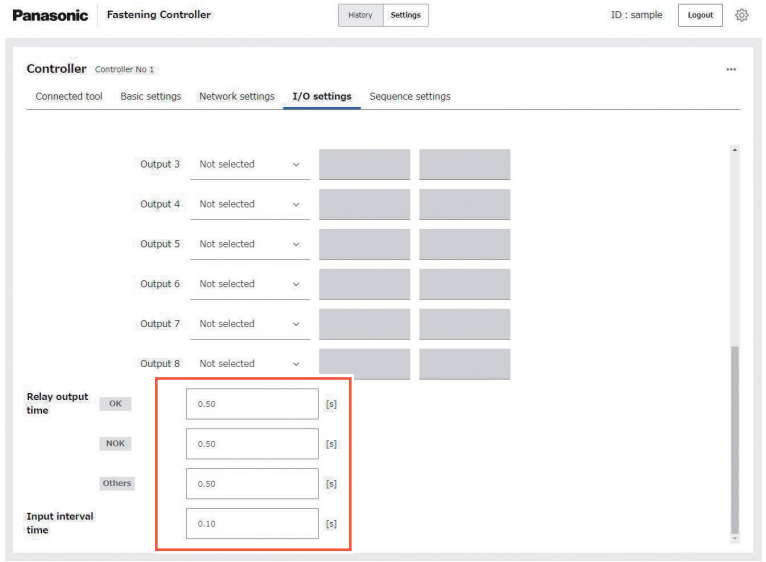

Après avoir sélectionné un événement dans la catégorie majeure, sélectionnez un outil puis un numéro (par exemple, numéro de lot) si nécessaire.

* Si le contrôleur s'éteint pendant l'exécution d'une commande de sortie, le processus ne reprend pas après la mise sous tension du contrôleur. (Veuillez noter que les données d'historique de fixation sont enregistrées.)

Autres paramètres

Vous pouvez définir d'autres paramètres associés à l'E/S comme indiqué ci-dessous.

Relay output time (OK)

Sélectionnez le délai d'émission par le relais du signal d'exécution de fixation.
[Par défaut] 0.5 s
[Plage de réglage] 0.01 s à 10 s

Relay output time (NOK)

Sélectionnez le délai d'émission par le relais du signal d'échec de fixation.
[Par défaut] 0.5 s
[Plage de réglage] 0.01 s à 10 s

Relay output time (Others)

Sélectionnez le délai d'émission par le relais de tout signal autre que ceux d'exécution et d'échec de fixation.
[Par défaut] 0.5 s
[Plage de réglage] 0.01 s à 10 s

Input interval time

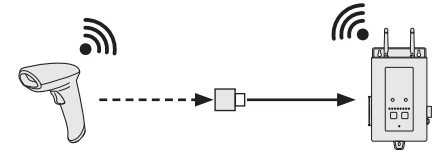

Sélectionnez le délai pendant lequel les signaux d'entrée successifs ne sont pas comptés (acceptés).
Configurez de manière à éviter un double comptage causé par le bruit, etc.
[Par défaut] 0.1 s
[Plage de réglage] 0.01 s à 10 s

CONNEXION À UN LECTEUR DE CODE-BARRES

Ceci est pris en charge uniquement par la version de micrologiciel 2.03.00 ou ultérieure. Pour savoir comment mettre à jour le micrologiciel, consultez « Mise à jour du micrologiciel ». **Se reporter à P83**

Configuration

Vous pouvez connecter un lecteur de codes-barres disponible dans le commerce pour enregistrer les informations lues tout en les reliant aux données d'historique des fixations. Cela peut être utilisé pour lier des produits à l'historique des fixations.

Connexion	Mode de communication	Remarque
	Sans fil 2,4 GHz ou Bluetooth	• Lit les informations sur le produit (telles que les numéros de série de fabrication) et les reflète dans les données d'historique.

N'utilisez de lecteurs de codes-barres câblés de type USB.

Appareils applicables

Les lecteurs de codes-barres suivants sont compatibles avec le contrôleur.

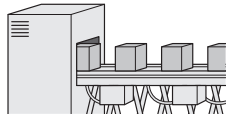

Élément	Description
Interface de communication	USB-HID
Disposition du clavier	U.S.A.
Caractères pris en charge	Caractères alphanumériques, symboles **Codes pris en charge** / **Description du code (informations anticipées)** Nombres : 0-9 Caractères alphabétiques : A-Z, a-z Symboles : !"#$%&'()*+,-./:;<=>?@[¥]^_`{|}~
Codes 1D acceptables	JAN, EAN, UPC, CODE39, ITF
Codes 2D acceptables	Code QR Modèle 1/2, Micro QR
Nombre acceptable de caractères	100 caractères (maximum)

Modèles recommandés
Bluetooth: Honeywell Xenon XP 1952g, ZEBRA DS2278

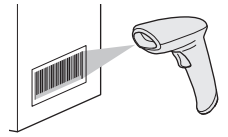

Processus de travail

En suivant la procédure ci-dessous, vous pouvez enregistrer les informations sur le produit tout en les liant aux données d'historique des fixations.

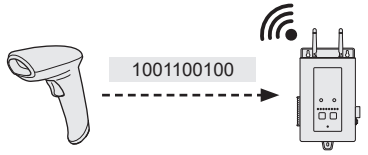

1 **Les produits circulent par la ligne.**

2 **Lisez les informations sur le produit avec un lecteur de codes-barres.**

3 **Les informations lues par le lecteur de codes-barres sont envoyées au contrôleur.**

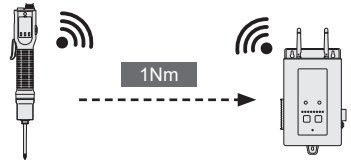

4 **Un ordre de fixation est envoyé du contrôleur aux outils.**
* Cette étape peut précéder ou suivre l'étape 3.

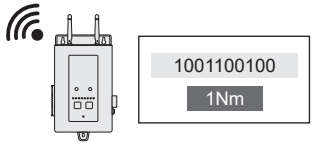

5 **Effectuez le travail de fixation à l'aide des outils.**

6 **Le résultat du travail de fixation (comme le couple) est envoyé au contrôleur.**

7 **Les informations lues conservées dans le contrôleur et le résultat du travail de fixation sont liés les uns aux autres et enregistrés dans la mémoire.**

8 **Répétez les étapes 5 à 7 jusqu'à ce que les informations de lecture du code-barres soient mises à jour (ou que le travail soit terminé).**

Procédure de réglage

La procédure de réglage varie en fonction des spécifications du lecteur de codes-barres.

■ Méthode sans fil 2,4 GHz (avec récepteur sans fil dédié)

Connectez-le en suivant la procédure ci-dessous.
(Les étapes 2 à 3 ne sont pas nécessaires.)

■ Méthode Bluetooth (sans récepteur sans fil dédié)

Préparez séparément un récepteur sans fil Bluetooth et connectez-le en suivant la procédure ci-dessous.

Récepteurs sans fil Bluetooth disponibles

- Version Bluetooth : Compatible avec Ver4.0
- Compatible avec les systèmes d'exploitation Linux (uniquement ceux qui ne nécessitent pas de pilotes dédiés)

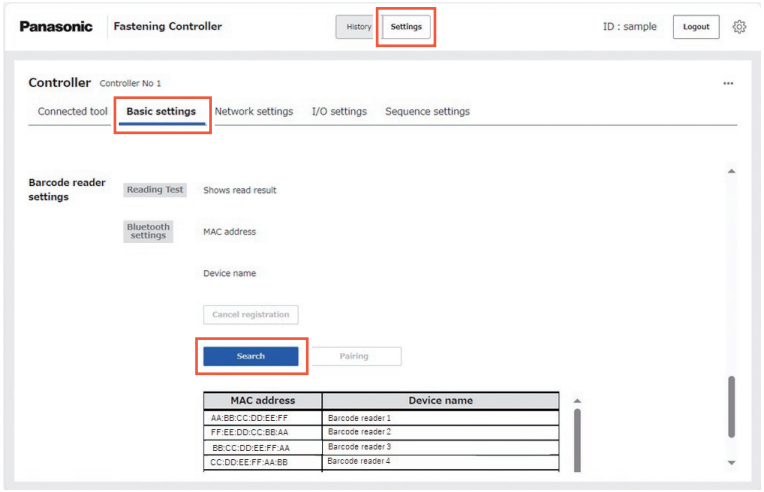

Modèles recommandés

EDIMAX BT-8500

1 Connectez le récepteur sans fil du lecteur de codes-barres au port USB-A du contrôleur.

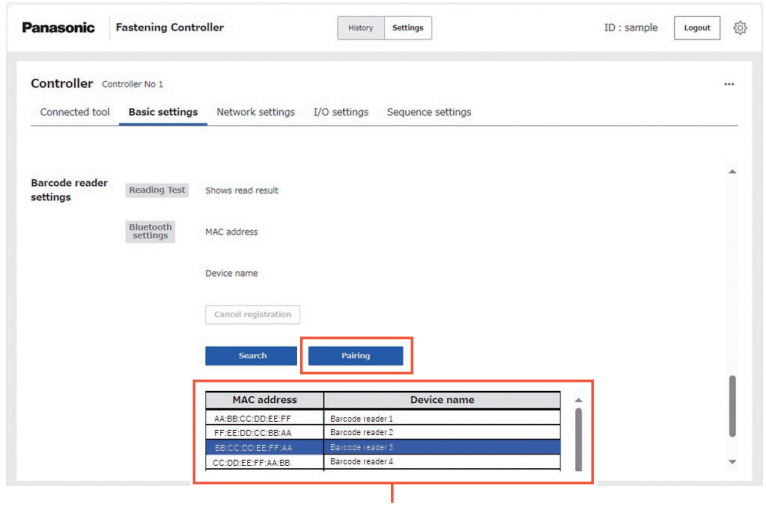

2 Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut, sélectionnez l'onglet « Basic settings » et cliquez sur « Search » à partir de « Barcode reader settings ».

* Mettez également le lecteur de codes-barres en mode appairage conformément à ses spécifications.

3 Sélectionnez le lecteur de codes-barres à connecter dans la liste des noms de périphériques et appuyez sur « Pairing ».

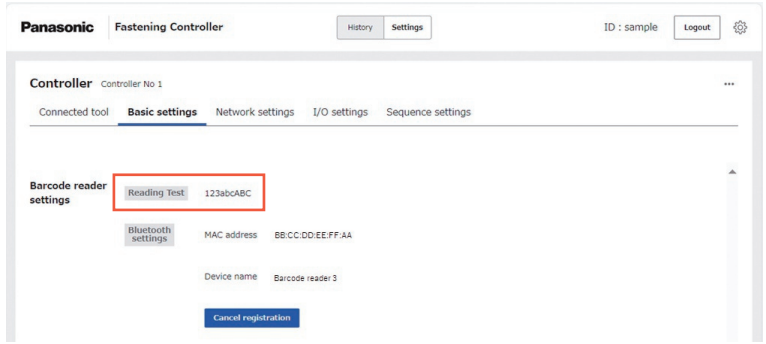

Il sera apparié au lecteur de codes-barres.

Liste des noms d'appareils

- L'état de la recherche est conservé pendant environ 10 secondes.
- Une fois l'appairage enregistré, il est automatiquement reconnecté la deuxième fois et les fois suivantes.
  * Selon les spécifications du lecteur de codes-barres, un nouvel appairage peut être nécessaire.
  * Si l'appairage échoue, annulez l'appairage sur le contrôleur puis réessayez.

4 Lisez les informations du code-barres et vérifiez que les informations s'affichent correctement dans « Reading Test ».

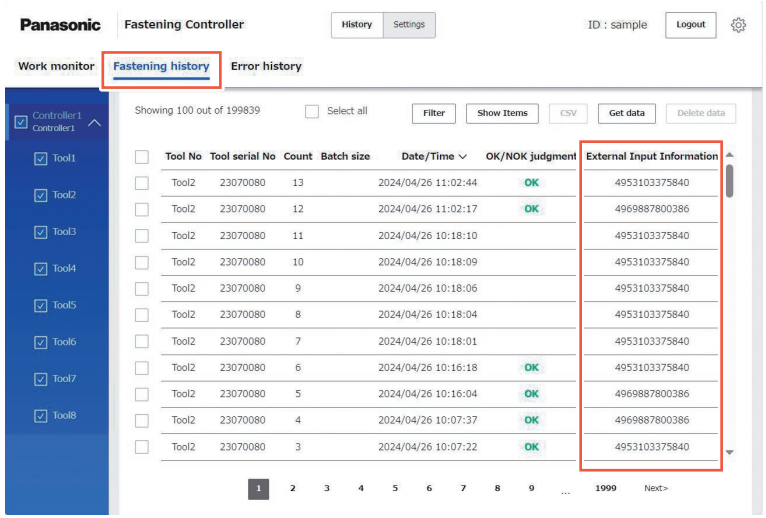

5 Effectuez le travail de fixation avec le lecteur de codes-barres après avoir lu les informations.

Les données lues seront affichées dans « External Input Information » des données d'historique des fixations.

Remarques pendant le fonctionnement

- Le « Témoin de fixation OK » clignote lors de la réception de la lecture du code-barres.
  Pendant le fonctionnement, vérifiez que l'état de réception de lecture de code-barres est actif avant de travailler.

Remarques sur les valeurs de lecture

Les valeurs lues sont :

- Reflétées dans les résultats de travail de tous les outils enregistrés par le contrôleur après la lecture.
- Non conservées lorsque le contrôleur est désactivé.
- Remplacé par des informations nouvellement lues.
- Conservées jusqu'à ce que les conditions suivantes soient remplies.

Running mode	Conditions de conservation des données
Free mode	Les données sont conservées jusqu'à leur mise à jour.
Repeat mode (Basic mode)	Jusqu'à la fin du « Batch ». Ou les données sont conservées jusqu'à leur mise à jour.
Repeat mode (Sequence mode)	Jusqu'à la fin de la « Sequence ». Ou les données sont conservées jusqu'à leur mise à jour.
External control mode * Contrôle via E/S	Jusqu'à la fin du « Batch »/« Sequence ». Ou les données sont conservées jusqu'à leur mise à jour.

- Selon les spécifications du lecteur de codes-barres que vous utilisez, des paramètres détaillés peuvent être nécessaires pour la connexion avec le contrôleur. Avant d'utiliser cette fonction, lisez attentivement les Instructions d'utilisation et les paramètres de votre appareil.
- Si les données sont lues en continu dans un délai de 0,5 seconde, les informations seront consolidées ; par conséquent, espacez les lectures.
- Un seul lecteur de codes-barres peut être utilisé simultanément avec le contrôleur. La connexion de plusieurs lecteurs peut entraîner un dysfonctionnement.

Licences

TÉMOINS LUMINEUX ET SIGNAL SONORE

Témoins lumineux et un signal sonore

Les témoins lumineux et l'avertisseur sonore indiquent l'état du contrôleur.

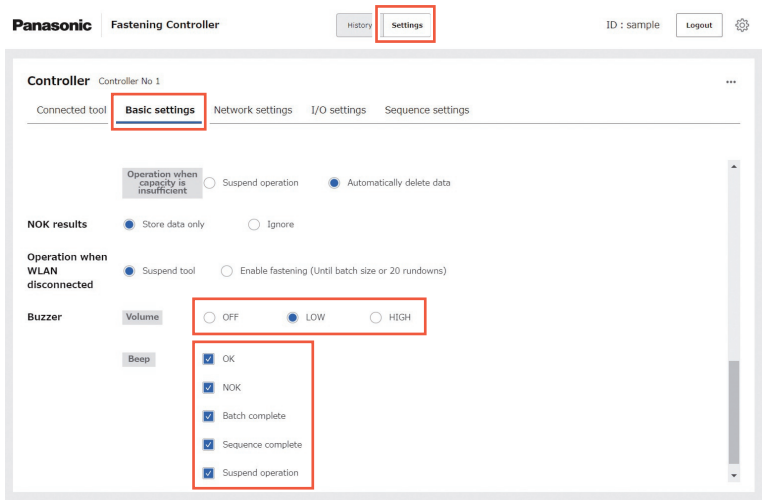

> **⚠ MISE EN GARDE**
> N'éteignez pas l'interrupteur d'alimentation lorsque le témoin clignote pendant le démarrage.
> Une initialisation peut être nécessaire.

État	Témoin lumineux	Alarme sonore
Mise sous tension	Témoin d'alimentation (jaune) Reste allumé	–
Un outil à apparier sélectionné	Témoin de communication (bleu) Clignote lentement	–
Appariement établi	Témoin de communication (bleu) Clignote rapidement	–
Appariement terminé	Témoin de communication (bleu) Reste allumé	Un bip court ■
Appariement non établi	Témoin de communication (bleu) Clignote très lentement	–
Appariement déconnecté	Témoin de communication (bleu) Éteint	–
Exécution de la fixation	Témoin OK (vert) Reste allumé	Un bip court ■
Échec de la fixation	Témoin NOK (rouge) Reste allumé	Un bip long ▬
Exécution de Batch	Témoin OK (vert) Clignote deux fois	Deux bips courts ■ ■
Séquence terminée	Témoin OK (vert) Clignote trois fois	Trois bips courts ■ ■ ■
Erreur	Témoin d'alimentation (jaune) Clignote	Deux bips longs ▬ ▬

Configuration du signal sonore

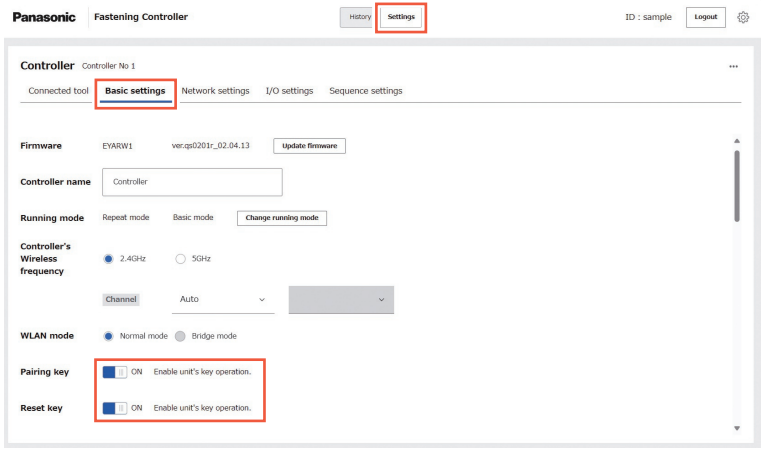

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Basic settings ».
Dans « Buzzer », réglez « Volume » et « Beep ».

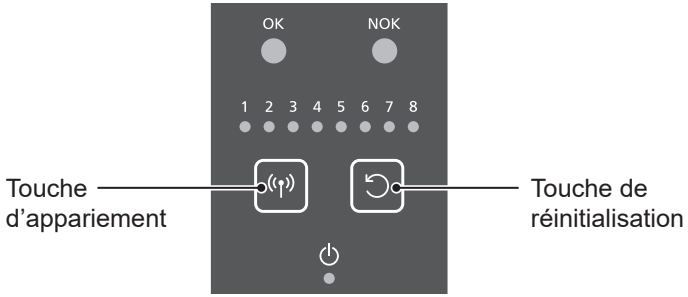

Élément	Description
Volume	3 niveaux (OFF / LOW / HIGH) (LOW : 75 dB, HIGH : 85 dB)
Beep	Sélectionné sur le PC de configuration (OK / NOK / Batch complete / Sequence complete / Suspend operation)

RÉGLAGE DES TOUCHES DE COMMANDE

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Basic settings ».
Dans « Pairing key » et « Reset key », vous pouvez désactiver la touche d'appariement et la touche de réinitialisation sur le boîtier de commande.

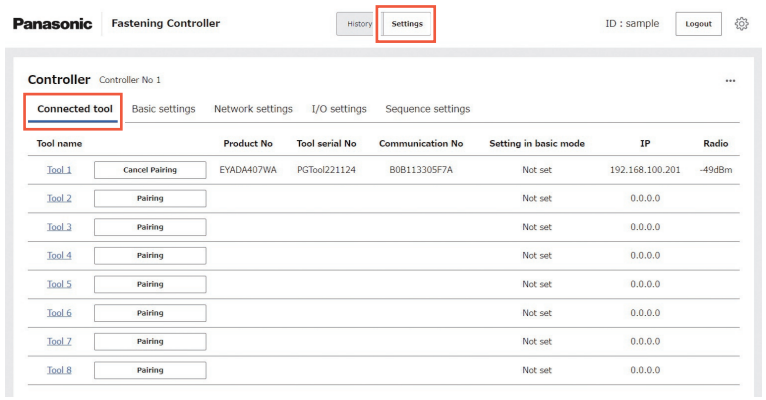

Pairing key
Activez ou désactivez la touche d'appariement sur le boîtier de commande. [Par défaut] ON [Plage de réglage] ON (activé) / OFF (désactivé)
Reset key
Activez ou désactivez la touche de réinitialisation sur le boîtier de commande. [Par défaut] ON [Plage de réglage] ON (activé) / OFF (désactivé)

VÉRIFICATION DES INFORMATIONS DES OUTILS CONNECTÉS

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Connected tool ».
Vous pouvez voir les informations et l'état des outils connectés au contrôleur.

Les éléments ci-dessous sont affichés.

Tool name
Le numéro d'outil enregistré (1 à 8) s'affiche.
Tool serial No
Vous pouvez régler et afficher l'identification de l'unité de l'outil. Par défaut : numéro de série à 8 chiffres (année de fabrication à 2 chiffres + mois à 2 chiffres + lot de production à 4 chiffres)
Product No
Le numéro de produit d'outil s'affiche.
Communication No
L'identification de l'unité (adresse MAC) de la pièce de communication de l'outil est affichée.
Setting in basic mode
Un comportement lorsque le Running mode réglé sur « Repeat mode (Basic mode) » est affiché.
IP
L'adresse IP de l'outil est affichée.
Radio
La puissance d'un signal radio (RSSI) reçu de l'outil est affichée. * La puissance de la dernière communication est affichée.

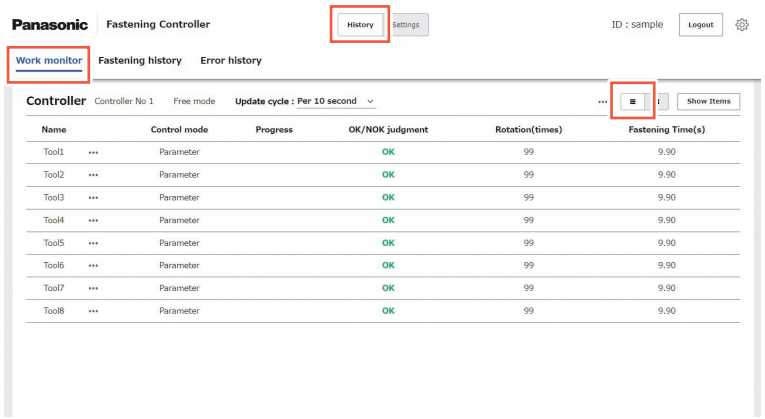

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [History] en haut et sélectionnez l'onglet « Work monitor ».
Les derniers journaux de l'historique de fixation par outil sont affichés. Vous pouvez les utiliser pour travailler en vous référant aux résultats du travail.

* Plusieurs PC de configuration peuvent les afficher en même temps. (Jusqu'à 8 accès. Les accès multiples depuis le même compte sont acceptés.)
* Pour se connecter avec plus d'un compte, l'utilisation de différents PC est recommandée.
* Pour utiliser plusieurs comptes sur le même ordinateur, il est recommandé d'utiliser des navigateurs Web différents.
* Un seul accès à la fonction de configuration est accepté à la fois.

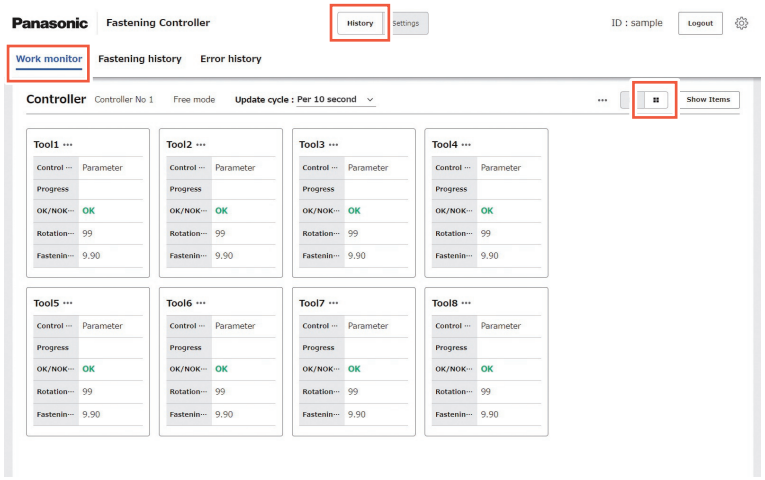

Changer le format d'affichage

Vous pouvez choisir entre « Affichage de liste » et « Affichage de grille ».
Utilisez l'icône de vue en haut à droite de l'écran.

■ Affichage de liste

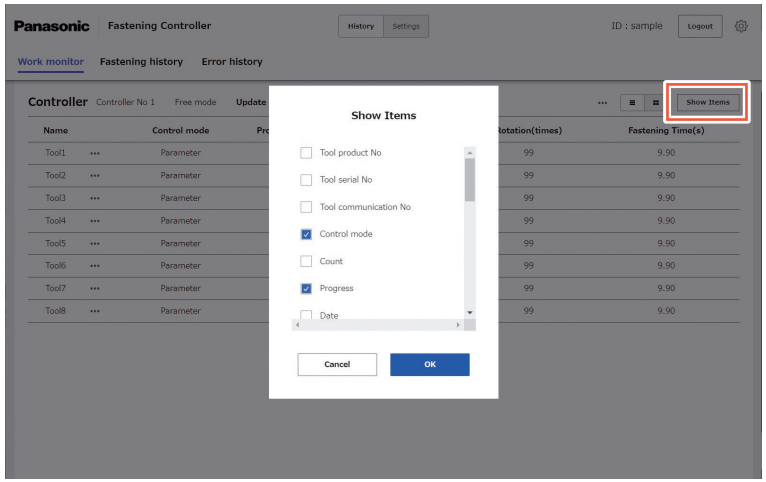

■ Affichage de grille

Sélection des éléments à afficher

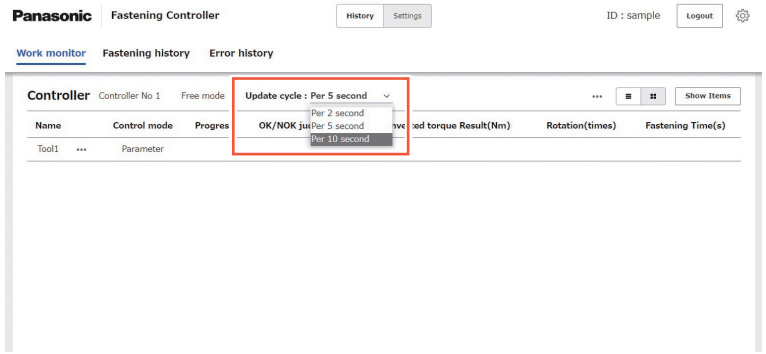

Sélectionnez les éléments à afficher à l'aide de « Show Items ».

* Dans « Affichage de liste », vous pouvez faire défiler vers le bas et sélectionner de nombreux éléments à afficher.
* Dans « Affichage de grille », vous pouvez afficher jusqu'à 5 éléments.

Sélection du cycle d'actualisation d'affichage

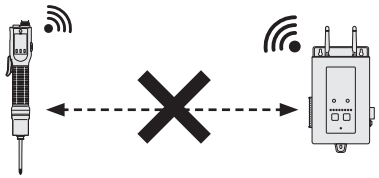

Vous pouvez configurer la mise à jour automatique de l'affichage.
Sélectionnez le cycle de mise à jour entre « Per 2 second »,« Per 5 second », et « Per 10 second » comme ci-dessous.

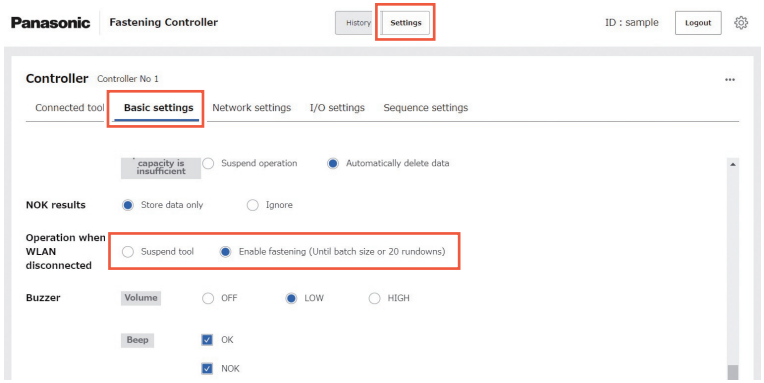

* Si un grand nombre d'outils ou de PC de configuration sont connectés, le cycle de mise à jour de « Per 10 second » est recommandé. (Cela peut prendre un certain temps pour traiter les données).

COMPORTEMENT DE L'OUTIL AVEC LA COMMUNICATION SANS FIL DÉCONNECTÉE

Vous pouvez continuer la fixation avec les mêmes paramètres en cas d'interruption temporaire de la communication sans fil entre un outil et le contrôleur.
Les résultats du travail des outils lors de la déconnexion de la communication sans fil sont notifiés au contrôleur « Lorsque l'outil est reconnecté » ou « Lors de la première fixation après le rétablissement de la connexion de l'outil ».

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Basic settings ».
Si vous configurez « Operation when WLAN disconnected » sur « Suspend tool », la fixation en cours se termine après l'interruption, mais aucune autre fixation n'est effectuée.
Si vous réglez « Enable fastening », aucune autre fixation n'est effectuée une fois que la quantité fixée a atteint la limite supérieure.

Avec « Enable fastening », les quantités limites supérieures par mode sont les suivantes.

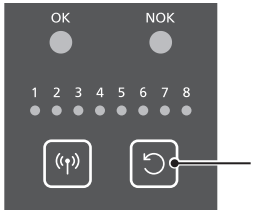

Mode		Comportement
Free mode		Continue la fixation jusqu'à 20 vis
Repeat mode	Basic mode	Continue la fixation jusqu'à la fin du lot ou jusqu'à 20 vis
	Sequence mode	Continue la fixation jusqu'à la fin du lot ou jusqu'à 20 vis * Les outils autres que ceux concernés continuent de fonctionner normalement.
External control mode		Continue la fixation jusqu'à la fin du lot ou jusqu'à 20 vis

RÉINITIALISATION DU COMPTAGE PENDANT LE FONCTIONNEMENT

Pour modifier les réglages, arrêtez la commande de fixation avec le contrôleur s'il est en cours de fonctionnement. Une boîte de dialogue de confirmation apparaît lorsque vous appliquez la modification.
Vous pouvez réinitialiser les quantités comptées avec « Utilisation de la touche sur l'unité » ou « Réglage dans l'écran de configuration ».
* Ceci ne s'applique pas au « Free mode ».

Utilisation de la touche sur l'unité

Maintenez enfoncée la touche de réinitialisation sur le contrôleur pendant 3 secondes ou plus.
* Les quantités de tous les outils sont réinitialisées.

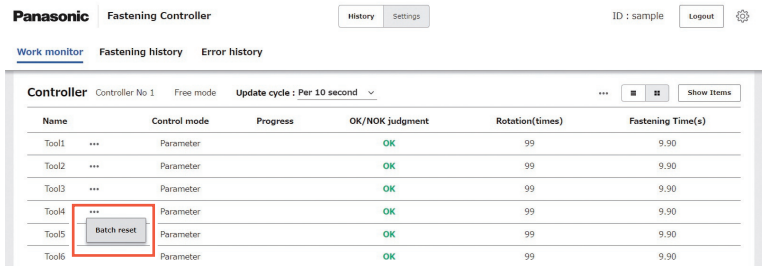

Réglage dans l'écran de configuration

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [History] en haut et sélectionnez l'onglet « Work monitor ».

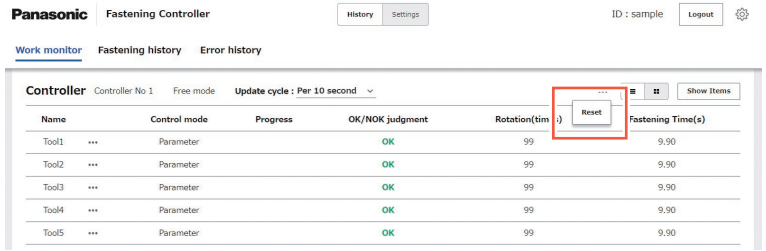

■ Pour réinitialiser les quantités par outil

Dans l'écran « Work monitor », cliquez sur ··· (touche d'option outil) puis sur [Batch reset] du numéro d'outil souhaité.

■ Pour réinitialiser les quantités de tous les outils collectivement

Dans l'écran « Work monitor », cliquez sur ··· (touche d'optioncontrôleur), puis sur [Reset] en haut à droite.

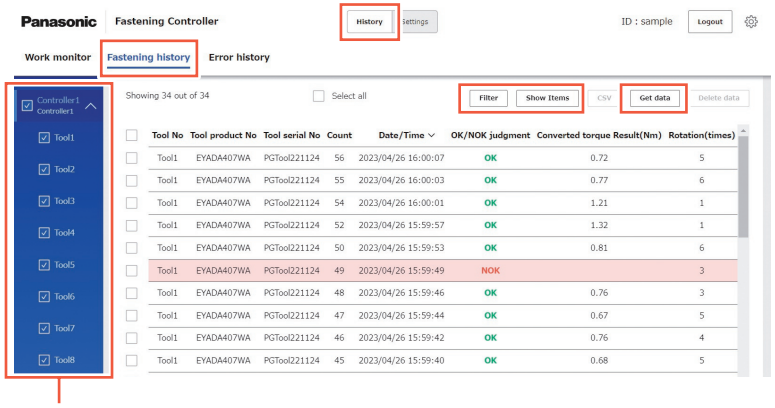

* En Sequence mode, les quantités sont réinitialisées jusqu'au premier outil.

Affichage des données d'historique de fixation

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [History] en haut et sélectionnez l'onglet « Fastening history ».
Vous pouvez visualiser les données d'historique de fixation envoyées par les outils au contrôleur.

Pour afficher les données, sélectionnez le contrôleur souhaité et les outils dans la liste d'outils sur la gauche et cliquez sur [Get data] en haut à droite.
Les journaux d'historique de fixation s'affichent de la plus récente à la plus ancienne.

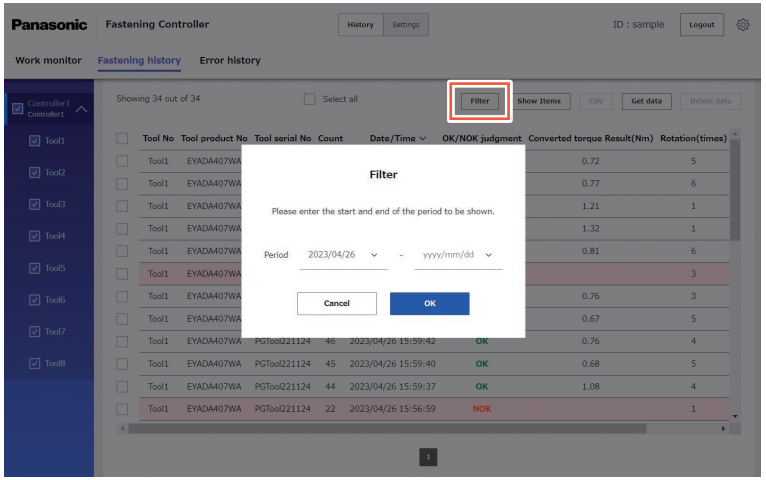

* Pour le contenu des éléments de l'historique de fixation, voir les Instructions d'utilisation de l'outil.

Liste d'outils

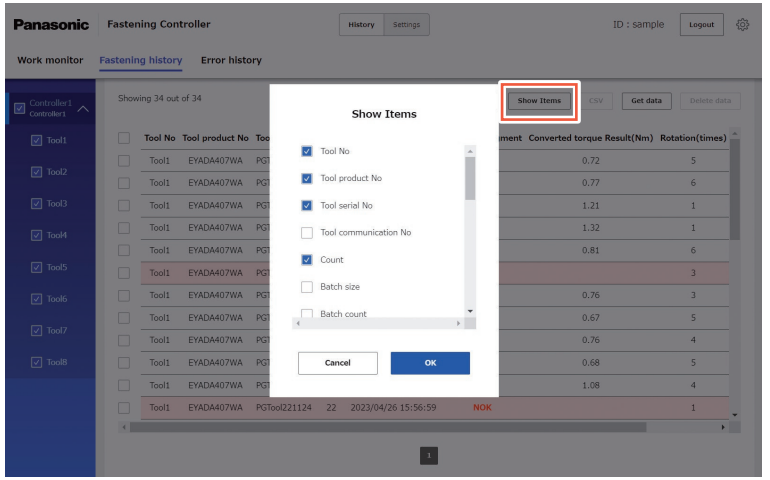

■ Extraction des journaux de l'historique de fixation par période

Cliquez sur [Filter] et spécifiez la période de temps pour réduire l'affichage des journaux d'historique de fixation.

■ Configuration des éléments à afficher

Pour modifier les éléments affichés, cliquez sur [Show Items] et sélectionnez les éléments souhaités.

Capacité des données d'historique de fixation

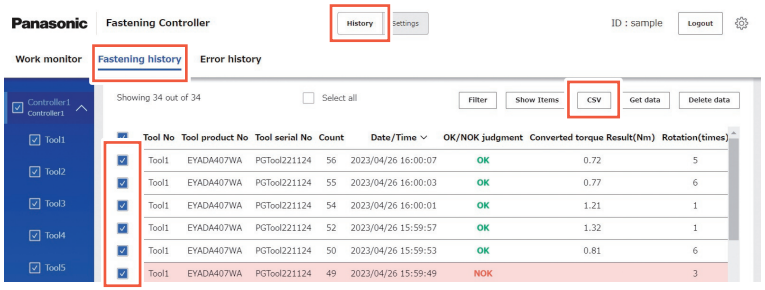

Le contrôleur peut stocker un maximum d'environ 200,000 journaux d'historique de fixation.
Il suspend le fonctionnement ou supprime automatiquement les journaux (par écrasement) s'il reçoit plus de journaux.
Il est recommandé d'exporter périodiquement les journaux au format CSV si nécessaire en vous référant au guide ci-dessous.

■ Temps estimé pour atteindre la capacité de stockage totale

	Quantité par jour par outil		
Nombre d'outils	**1,000**	**3,000**	**5,000**
2	Environ 100 jours	Environ 33 jours	Environ 20 jours
4	Environ 50 jours	Environ 16 jours	Environ 10 jours
8	Environ 25 jours	Environ 8 jours	Environ 5 jours

Exportation des données d'historique de fixation au format CSV

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [History] en haut et sélectionnez l'onglet « Fastening history ».
Sélectionnez les journaux souhaités et cliquez sur [CSV].
Les journaux d'historique de fixation sont exportés au format CSV.
Les données exportées incluent tous les éléments de chaque outil, quel que soit le paramètre « Show Items ».

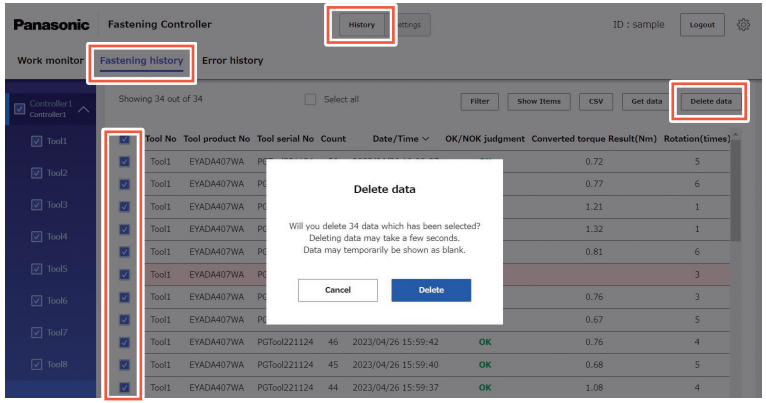

Vous pouvez choisir entre « Decimal point is a period, delimiter is a comma» et « Decimal point is a comma, delimiter is a semicolon ».

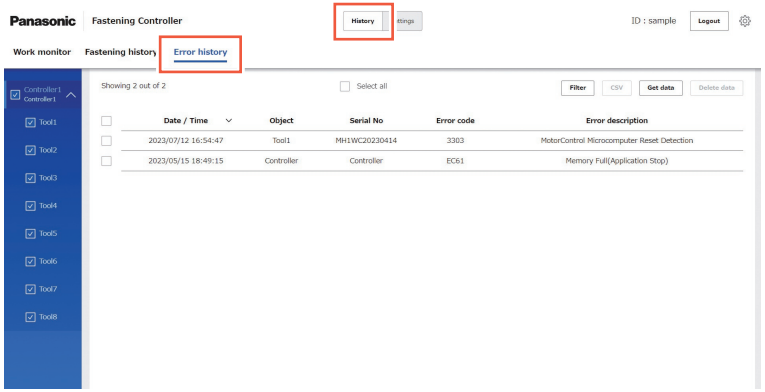

Suppression des données d'historique de fixation

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [History] en haut et sélectionnez l'onglet « Fastening history ».
Sélectionnez les journaux souhaités et cliquez sur [Delete data].
Les journaux de l'historique de fixation sont supprimés.

Affichage de l'historique des erreurs

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [History] en haut et sélectionnez l'onglet « Error history ».
L'historique des erreurs qui se sont produites s'affiche.

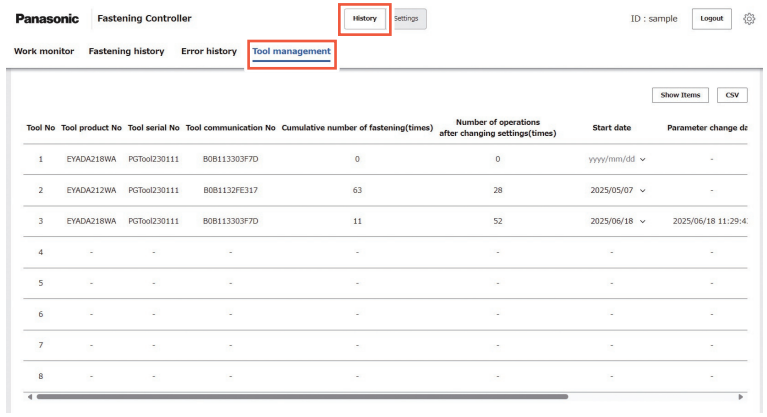

Les éléments ci-dessous sont affichés.
* Pour le contenu de l'erreur, voir « CODE D'ERREUR ». Se reporter à P92

Date / Time
La date et l'heure d'occurrence de l'erreur s'affichent.
Object
Le dispositif (le contrôleur ou l'un des outils de 1 à 8) provoquant une erreur est affiché.
Serial No
Le numéro de série de l'appareil (le contrôleur ou l'un des outils 1 à 8) à l'origine d'une erreur s'affiche.
Error code
Un code d'erreur qui s'est produite s'affiche.
Error description
Le contenu d'une erreur qui s'est produite s'affiche.

Affichage des éléments de gestion

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [History] en haut et sélectionnez l'onglet « Tool management ».

Vous pouvez afficher les éléments de gestion pour chaque « Tool No ».

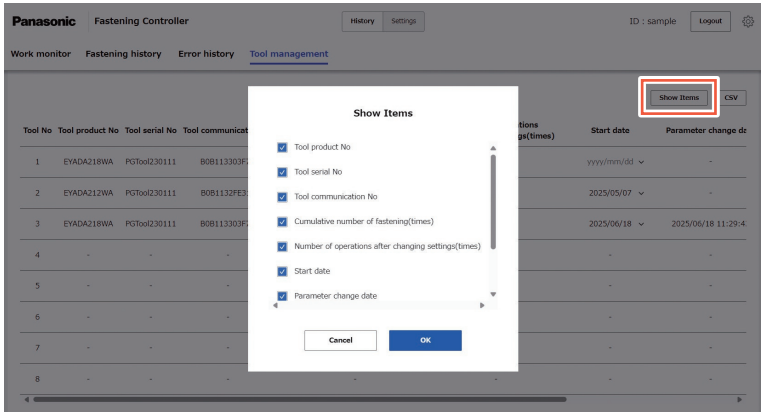

Les éléments affichés sont les suivants.
Les informations les plus récentes peuvent être consultées à l'écran.
Chaque élément est affiché en fonction des données de résultat de travail de l'outil.
Notez que toutes les informations seront effacées lorsque l'outil est remplacé ou qu'un nouvel outil est appairé.
* Les informations ne sont pas effacées lorsque l'appairage contrôleur - outil est annulé.

Tool product No
Affiche le numéro de produit de l'outil appairé.
Tool serial No
Affiche les informations d'identification individuelles de l'outil.
Tool communication No
L'identification de l'unité (adresse MAC) de la partie communication de l'outil est affichée.
Cumulative number of fastening (times)
Affiche le nombre cumulé d'opérations de fixation effectuées par l'outil.
Number of operations after changing settings (times)
Affiche le nombre cumulé d'opérations après modification des paramètres de l'outil.

Start date
Définit la date de début d'utilisation de l'outil. Les réglages ne peuvent être effectués qu'avec un compte administrateur. [Valeur définie] 0100/01/01 au 9999/12/31
Offset change date
Affiche la date et l'heure auxquelles les paramètres de l'outil, y compris « Offset », « Slope » ou « Offset », « Intercept », ont été modifiés.
Parameter change date
Affiche la date et l'heure auxquelles les paramètres de l'outil ont été modifiés.
Changed parameter No
Affiche le numéro de paramètre modifié. Il sera également affiché dans ce champ si les « Device settings » sont modifiés.
Cumulative fastening time (h)
Affiche le temps de fonctionnement cumulé de l'outil.
Cumulative pulsing time (h)
Affiche le temps de fonctionnement cumulé impliquant l'impulsion de l'outil.

■ Configuration des éléments à afficher

Pour modifier les éléments affichés, cliquez sur [Show Items] et sélectionnez les éléments souhaités.

Configurez la Date de Début d'Utilisation de l'Outil

* Cette opération ne peut être effectuée qu'avec un compte administrateur.

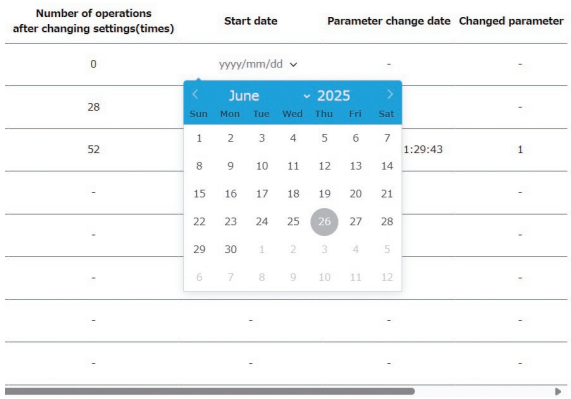

Se reporter à P19

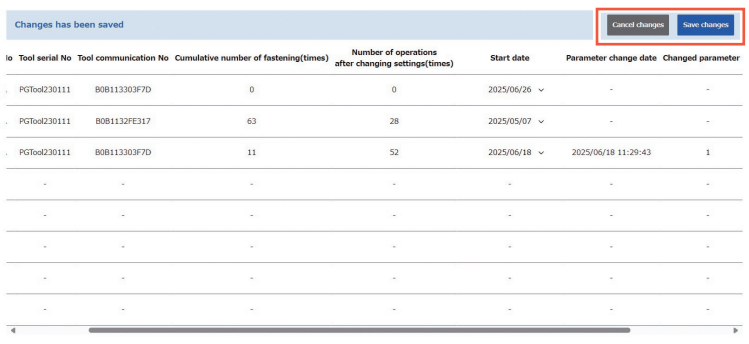

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [History] en haut et sélectionnez l'onglet « Tool management ».

Cliquez sur l'élément « Start date » pour chaque outil.
La date de début d'utilisation peut être définie à partir de l'interface utilisateur de type calendrier.

Après avoir sélectionné la date de début, cliquez sur « Save changes » pour confirmer les modifications.
Avant confirmation, vous pouvez modifier la « Start date » ou modifier la « Start date » d'autres outils.

Cliquer sur « Cancel changes » permet de revenir à l'état précédent.

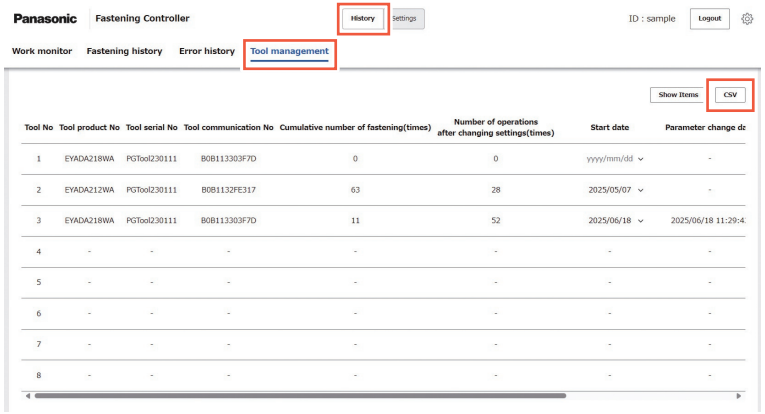

Exporter les données de gestion de l'outil au format CSV

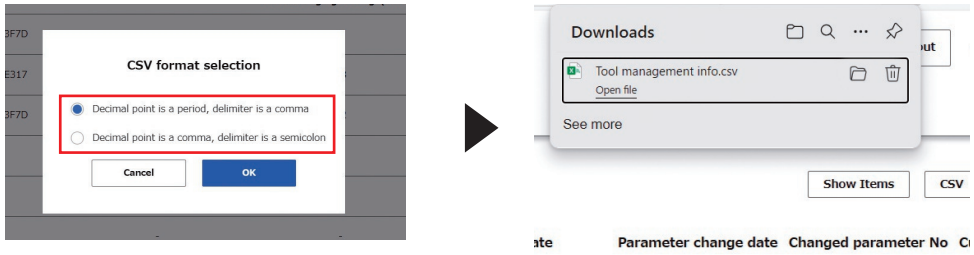

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [History] en haut et sélectionnez l'onglet « Tool management ».

Cliquez sur « CSV ».
Les données affichées à l'écran seront exportées au format CSV.

Les données exportées incluent tous les éléments de chaque outil, quel que soit le paramètre « Show Items ».

Le format CSV peut être sélectionné à partir de « Decimal point is a period, delimiter is a comma » ou « Decimal point is a comma, delimiter is a semicolon ».

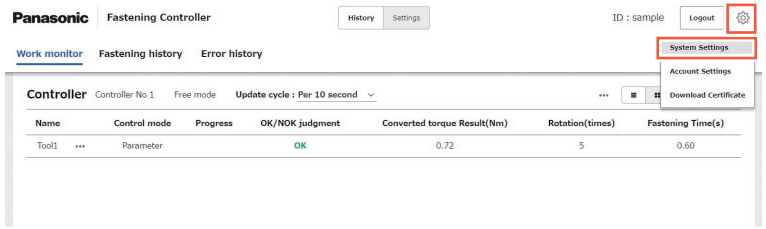

Changement de langue

Vous pouvez sélectionner « Japanese » ou « English ».

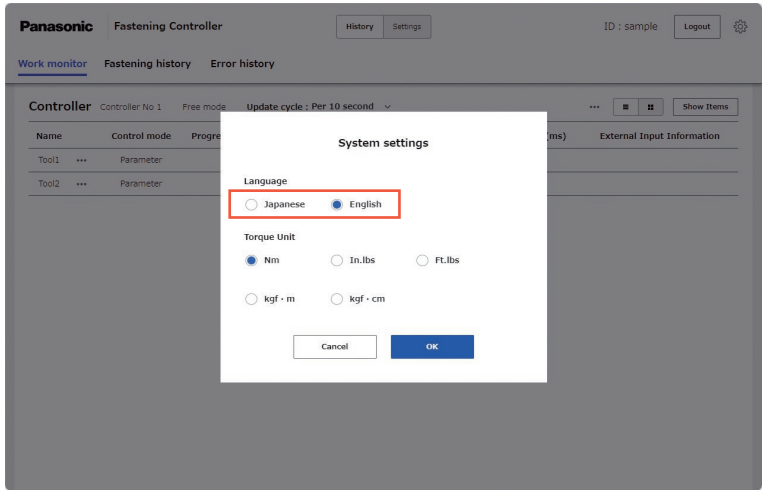

1 Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur la touche d'option dans le coin supérieur droit et sélectionnez « System Settings ».

L'écran « System Settings » s'affiche.

2 Sélectionnez la langue dans l'écran « System settings ».

Vous pouvez sélectionner « Japanese » ou « English ».

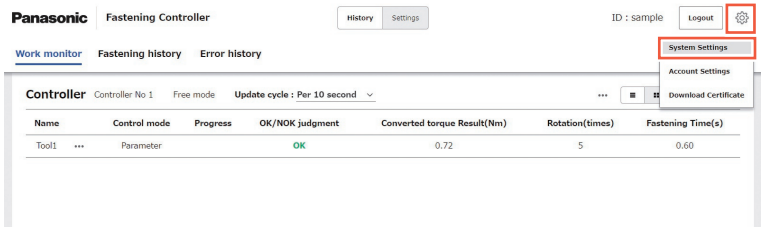

Changement de l’unité de couple pour l’affichage

Vous pouvez sélectionner « Nm », « In.lbs », « Ft.lbs », « kgf·m » ou « kgf·cm ».

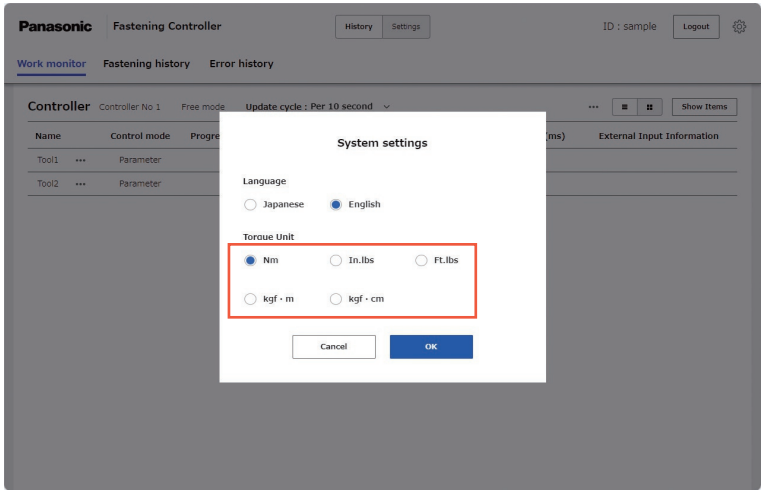

1 Dans la page du haut (la page initiale de l’écran de configuration), cliquez sur la touche d’option dans le coin supérieur droit et sélectionnez « System Settings ».

L’écran « System settings » s’affiche.

2 Sélectionnez l’unité de couple dans l’écran « System settings ».

Vous pouvez sélectionner l’unité de couple entre « Nm », « In.lbs », « Ft.lbs », « kgf·m », et « kgf·cm ».

* Certains affichages d’unité peuvent subir des corrections numériques.

Comment nettoyer

Essuyage avec un chiffon doux

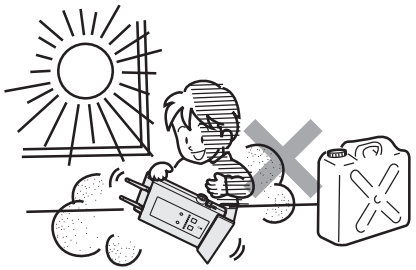

N’utilisez pas de chiffon humide, de diluant, d’alcool, de benzine ou d’autres liquides volatiles. (Cause de décoloration, déformation ou fissures)

Comment entreposer

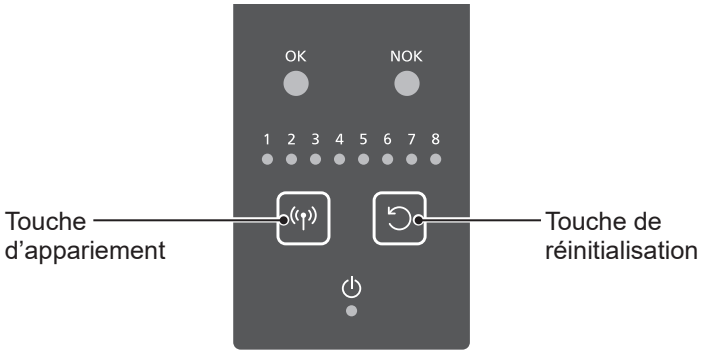

Évitez les conditions suivantes pendant l’entreposage.

- Habitacle de voiture ou autres endroits chauds
- Endroits exposés aux rayons directs du soleil
- Endroits exposés à l’eau ou à l’humidité
- Endroits contenant beaucoup de corps étrangers ou de poussière
- Endroits à portée des enfants
- Endroits contenant de l’essence ou d’autres produits inflammables
- Endroits présentant un risque de chute

Initialisation du contrôleur

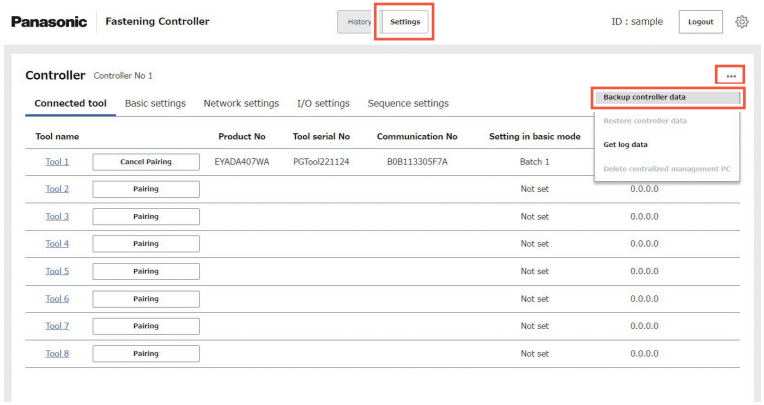

Pour initialiser (réinitialisation des réglages usine) le contrôleur, maintenez la touche d’appariement et la touche de réinitialisation enfoncées simultanément pendant 10 secondes ou plus.

* Cela peut prendre plus de 5 minutes en fonction de l’utilisation de l’entreposage.
* Vous ne pouvez pas effectuer cette opération lorsque les touches sur l’appareil sont désactivées. Se reporter à P64

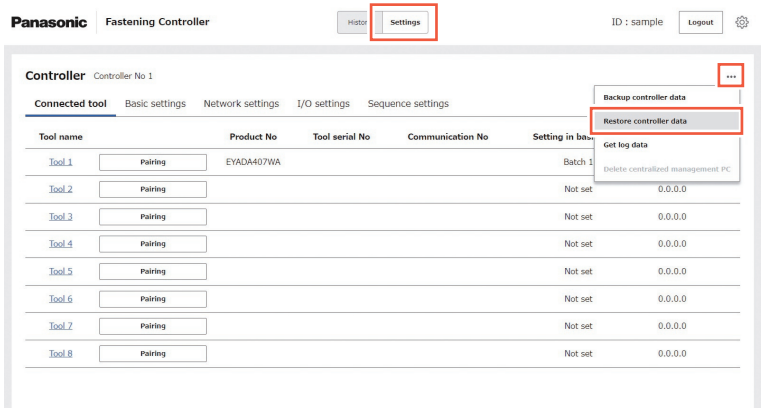

Effectuer une sauvegarde des paramètres

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut.
Cliquez sur ··· (touche d'option contrôleur), puis sur [Backup controller data].
Vous pouvez sauvegarder les réglages du contrôleur et des outils.
* Les données d'historique de fixation ne sont pas sauvegardées. Exportez-les au format CSV si nécessaire.

Restauration des paramètres

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut.
Cliquez sur ··· (touche d'option contrôleur), puis sur [Restore controller data].
Vous pouvez restaurer les paramètres du contrôleur et des outils à partir de leur sauvegarde.
* Vous ne pouvez pas le faire pendant le contrôle de fixation.
* Vous ne pouvez pas l'effectuer lorsque l'appariement avec les outils est enregistré. Annulez l'appariement.

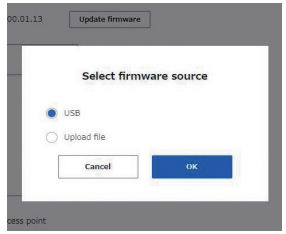

Mise à jour du micrologiciel

Vous pouvez mettre à jour le micrologiciel du contrôleur et la pièce de communication de l'outil.

Utilisez l'une des méthodes suivantes pour mettre à jour le micrologiciel.
① Utilisation du port USB du contrôleur.
* Une clé USB verrouillée par mot de passe ne peut pas être utilisée.
* Sauvegardez un seul fichier de données de micrologiciel directement sur une clé USB sans créer de dossier.

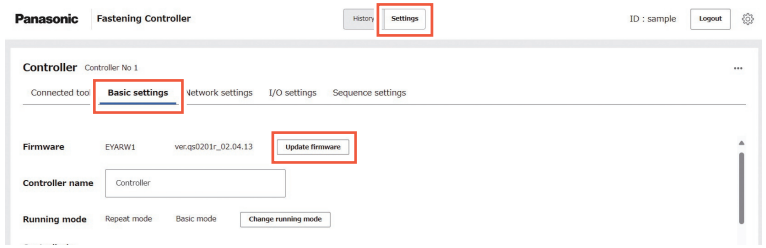

② Écriture à partir du PC de configuration.
* Lors de la sélection de « Upload file », sélectionnez le fichier de données de micrologiciel enregistré sur le PC dans l'écran de sélection.

Pour la version actuelle du micrologiciel, accédez à notre site Web. Se reporter à P2
Ou contactez notre commercial.

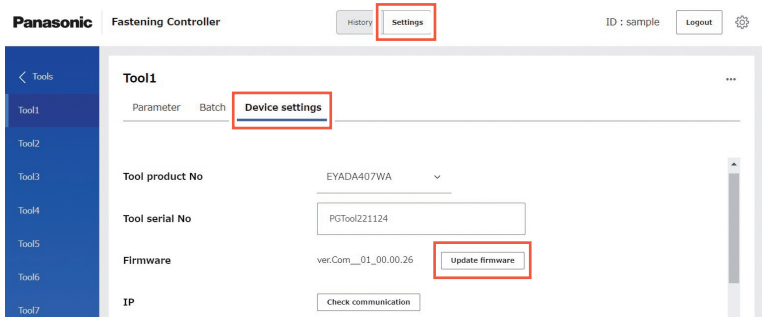

■ Pour le contrôleur

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut, sélectionnez l'onglet « Basic settings » et cliquez sur [Update firmware].

■ Pour la pièce de communication de l'outil

Dans la page du haut (la page initiale de l'écran de configuration), cliquez sur [Settings] en haut et sélectionnez l'onglet « Connected tool ».
Dans l'écran « Connected tool », cliquez sur le numéro d'outilsouhaité.
Dans l'onglet « Device settings » dans l'écran du numéro d'outil, cliquez sur [Update firmware].

Remplacement de la pile bouton

Pour maintenir l'horloge (RTC) du contrôleur en marche, remplacez la pile bouton en vous référant au guide de remplacement ci-dessous.

■ Type de batterie

CR2450

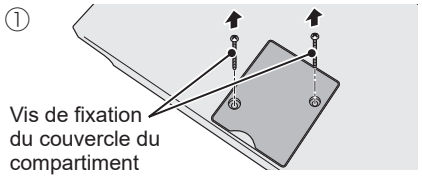

■ Guide de remplacement

La pile bouton est utilisée pour maintenir l'horloge en marche lorsque le contrôleur est éteint.
Pour réduire sa consommation, en principe, ne désactivez pas le contrôleur.

L'alimentation est activée 12 heures par jour (jours ouvrables uniquement)	L'alimentation est toujours activée
Environ 3 ans	Environ 8 ans

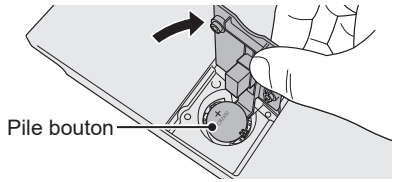

Remplacez-la par la procédure suivante ou contactez votre revendeur.
Il est recommandé de faire effectuer ce travail par une personne compétente en électricité.

1 Retirez les 2 vis de fixation du couvercle du compartiment puis retirez le couvercle du compartiment.

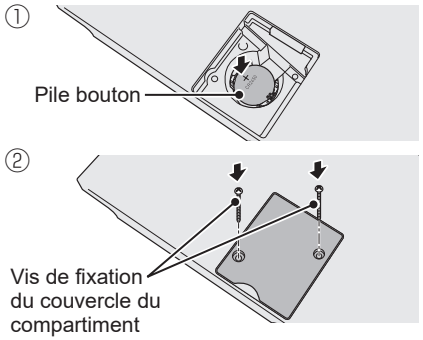

2 À l'aide du couvercle du compartiment, retirez la pile bouton.

Soulevez la pile bouton avec le crochet du couvercle du compartiment.

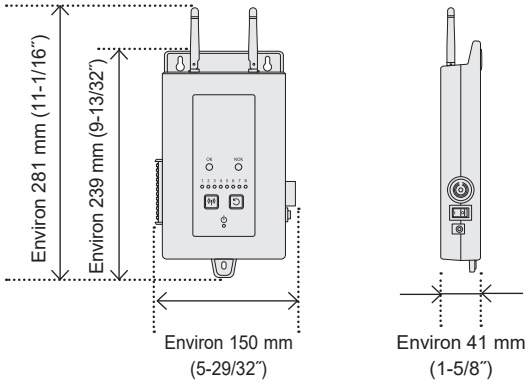

3 Placez une pile bouton neuve et fixez le couvercle du compartiment avec les 2 vis de fixation du couvercle du compartiment.

Spécifications du contrôleur

Réception des signaux d'exécution et d'échec de fixation pendant le travail de montage du produit intérieur

Nº de modèle	EYARW1
Alimentation électrique	100 V-240 V CA, 50/60 Hz
Norme de communication sans fil	Réseau local sans fil (IEEE.802.11 a/b/g/n)
Bande de fréquence	2,4 GHz : 2,412 GHz à 2,462 GHz 5 GHz : 5,180 GHz à 5,240 GHz
Canal	2,4 GHz : 1 à 11 canaux 5 GHz : 36, 40, 44, 48 canaux
Couverture	2,4 GHz : environ 16 m (52,5 ft) 5 GHz : environ 10 m (32,8 ft)
Nombre d'outils pouvant être enregistrées	8 (maximum)
Bornes d'entrée/sortie (E/S)	8 entrées et 8 sorties
Tension nominale de la borne d'entrée E/S	24 V CC, 5 mA
Tension nominale de la borne de sortie E/S	30 V CC, 3 A
Tension nominale de l'alimentation E/S	24 V CC, 50 mA
Consommation électrique	Environ 30 W
Plages de température et d'humidité de fonctionnement	0 °C (32 °F) à 45 °C (113 °F), 20 % à 90 %
Taille (dimensions estimées) Longueur totale × Hauteur totale × Largeur	Environ 150 × 239 × 41 mm (5-29/32″ × 9-13/32″ × 1-5/8″) (hauteur y compris les antennes : 281 mm (11-1/16″)) 
Masse (Poids)	Environ 550 g (1,1 lbs) (unité principale uniquement)
Interface de communication	Ethernet × 2, USB-A × 1
Nombre de données pouvant être stockées	Environ 200,000 journaux d'historique de fixation
Modèles d'outils compatibles	EYADA112WA/WB *1, EYADA212WA/WB, EYADA218WA/WB, EYADA407WA/WB

*1 Ceci est pris en charge uniquement par la version de micrologiciel 2.02.00 ou ultérieure.

Spécifications sans fil

Fréquences par canal

Bande de fréquence	Canal	Fréquence
2,4 GHz	Canal 1	2,412 GHz
	Canal 2	2,417 GHz
	Canal 3	2,422 GHz
	Canal 4	2,427 GHz
	Canal 5	2,432 GHz
	Canal 6	2,437 GHz
	Canal 7	2,442 GHz
	Canal 8	2,447 GHz
	Canal 9	2,452 GHz
	Canal 10	2,457 GHz
	Canal 11	2,462 GHz
5 GHz	Canal 36	5,180 GHz
	Canal 40	5,200 GHz
	Canal 44	5,220 GHz
	Canal 48	5,240 GHz

Spécifications d’interface utilisateur Web

Système d’exploitation compatible	Windows 10 ou version ultérieure (supportant l’un des navigateurs Web ci-dessous)
Navigateur Web pris en charge	Microsoft Edge version 102 ou ultérieure ou Google Chrome version 102 ou ultérieure
Langue prise en charge	Anglais, japonais
Résolution d’écran recommandée	1024 × 768 ou plus

MISE EN GARDE

- Certains ordinateurs ne sont pas disponibles même s’ils sont conformes à l’environnement d’exploitation.
- Selon l’environnement d’utilisation, etc. de votre PC, les descriptions et les écrans de ces Instructions d’utilisation peuvent être différents des descriptions et écrans réels. Soyez avertis.

■ Déclaration du texte explicatif pour diverses exigences

Cet appareil est conforme au chapitre 15 du règlement de la FCC. Le fonctionnement est soumis aux deux conditions suivantes: (1) cet appareil ne peut pas provoquer de brouillage préjudiciable et (2) cet appareil doit pouvoir accepter n’importe quel brouillage reçu incluant ceux qui pourraient provoquer un fonctionnement non désiré.

Avertissement de la FCC : afin d’assurer la continuité de la conformité, installez et utilisez selon les instructions données. Tout changement ou modification non expressément approuvé par les parties responsables de la conformité pourraient faire perdre à l’utilisateur le droit de faire fonctionner cet équipement.

Cet équipement a été testé et déclaré conforme aux limites des appareils numériques de classe B, conformément a la chapitre 15 du règlement de la FCC. Ces limites ont été définies pour fournir une protection raisonnable contre les brouillages préjudiciables dans une installation résidentielle. Cet équipement produit, utilise et peut émettre des énergies de fréquence radio et s’il n’est pas installé et utilisé conformément aux instructions, il pourra provoquer des brouillages préjudiciables aux communications radio. Il n’y a toutefois aucune garantie que ces brouillages ne se produisent pas lors d’une installation particulière. Si cet équipement provoque des brouillages préjudiciables à la réception de la radio ou de la télévision, ce qui peut être vérifié en mettant en marche puis en arrêtant l’équipement, l’utilisateur est encouragé à essayer d’éliminer le brouillage selon l’une des mesures suivantes :

- Réorienter ou déplacer l’antenne réceptrice.
- Augmenter l’espacement entre l’équipement et le récepteur.
- Brancher l’équipement à une prise d’un circuit différent de celui auquel le récepteur est branché.
- Consulter le distributeur ou un technicien de radio/télévision expérimenté pour obtenir une aide.

Contient l’ID FCC : Z64-WL18DBMOD Contient IC : 451I-WL18DBMOD

Cet émetteur ne doit pas être installé ou utilisé en conjonction avec une autre antenne ou un autre émetteur.

Cet appareil est conforme aux limites d’exposition aux radiations fixées par la FCC pour un environnement non contrôlé. Cet équipement a été approuvé pour un fonctionnement mobile nécessitant un espacement minimum de 20 cm (7-7/8″) entre la ou les antennes et le corps de toute personne (à l’exclusion des extrémités des mains, des poignets et des pieds) pendant les modes de fonctionnement sans fil. Cet équipement ne peut être colocalisé ou utilisé avec une autre antenne ou un autre émetteur.

Cet équipement est conforme aux limites d’exposition aux rayonnements énoncées pour un environnement noncontrôlé et respecte les règles d’exposition aux fréquences radioélectriques (RF) CNR-102 de l’ISDE. Cet équipement doit être installé et utilisé en gardant une distance de 20 cm (7-7/8″) ou plus entre le radiateur et le corps humain.

Cet appareil contient un (des) émetteur(s)/récepteur(s) exempté(s) de licence qui est (sont) conforme(s) au(x) CNR exempté(s) de licence du ministère de l’Innovation, des Sciences et du Développement économique du Canada. L’utilisation est soumise aux deux conditions suivantes :

1. Ce dispositif ne doit pas causer d’interférences.
2. Ce dispositif doit accepter toute interférence, y compris les interférences qui peuvent causer un fonctionnement indésirable de l’appareil.

Pour une utilisation en intérieur uniquement.

PRÉCAUTIONS POUR LA COMMUNICATION SANS FIL

Mises en garde pour l'utilisation d'un périphérique WLAN

L'appareil utilise une bande de fréquence partagée avec d'autres types d'équipement incluant des appareils industriels, scientifiques et médicaux (par ex. un four à micro-ondes) et des stations de radio telles qu'une station de radio amateur (sous licence) et une station radio de faible puissance (sans licence) pour l'identification mobile utilisée dans les lignes de fabrication d'usine et une station de radio amateur (sous licence).

1. Avant d'utiliser l'appareil, vérifiez qu'il n'y a aucune station de radio à faible puissance pour l'identification mobile ou qu'aucune station de radio amateur ne fonctionne à proximité.
2. Si l'appareil provoque des interférences nuisibles avec une station de radio locale pour l'identification mobile, cessez immédiatement d'utiliser la bande et consultez le centre d'assistance ci-dessous pour résoudre le problème d'interférence (par exemple, en installant une cloison).
3. Si l'appareil cause des interférences nuisibles avec une station de radio à faible puissance ou à proximité pour l'identification mobile ou une station de radio amateur ou d'autres problèmes, consultez le centre d'assistance.

■ Il se peut qu'il y ait du bruit, une couverture radio plus courte ou un dysfonctionnement dans les conditions environnementales suivantes.

- Il y a une obstruction (par exemple un objet en métal ou en béton armé) qui empêche la propagation radio régulière entre l'unité d'outils sans fil et le contrôleur.
- Les antennes du contrôleur sont recouvertes de métal.
- Le corps d'un opérateur interfère avec la propagation radio entre un opérateur (l'unité d'outil sans fil) et le contrôleur.
- Un appareil micro-ondes, un PC ou tout autre appareil causant du bruit se trouve à proximité.
- Un téléphone portable ou un téléphone PHS est utilisé à proximité de l'outil sans fil et du contrôleur.

Conditions de licence logicielle

Ce produit intègre le logiciel suivant :

(1) le logiciel développé indépendamment par ou pour Panasonic Corporation,
(2) le logiciel détenu par un tiers et sous licence de Panasonic Corporation,
(3) le logiciel sous licence en vertu de la GNU General Public License, Version 1.0 (GPL V1.0),
(4) le logiciel sous licence en vertu de la GNU General Public License, Version 2.0 (GPL V2.0),
(5) le logiciel sous licence en vertu de la GNU General Public License, Version 3.0 (GPL V3.0),
(6) le logiciel sous licence en vertu de la GNU LESSER General Public License, Version 2.1 (LGPL V2.1),
(7) le logiciel sous licence en vertu de la GNU LESSER General Public License, Version 3.1 (LGPL V3.1),
(8) le logiciel sous licence en vertu de la SMAIL General Public License(SMAIL),
(9) le logiciel sous licence en vertu de la Mozilla Public License Version 1.1 (MPL V1.1),
(10) le logiciel sous licence en vertu de la Mozilla Public License Version 2.0 (MPL V2.0), et/ou
(11) un logiciel libre autre que le logiciel sous licence en vertu de GPL V1.0, GPL V2.0, GPL V3.0, LGPL V2.1, LGPL V3.1, SMAIL, MPL V1.1 et/ou MPL V2.0.

Les logiciels de la catégorie (3) - (11) sont distribués dans l'espoir qu'ils seront utiles mais SANS AUCUNE GARANTIE, sans même la garantie implicite de QUALITÉ MARCHANDE ou d'ADÉQUATION POUR UN USAGE PARTICULIER.

Pour plus de détails sur les détenteurs des droits d'auteur et les licences, reportez-vous à la page 95 et aux pages suivantes.

Au moins 3 ans à partir de la livraison de ce produit, Panasonic transmettra à tout tiers qui nous contacte via les informations de contact fournies ci-dessous, pour un coût inférieur à celui de l'exécution physique d'une distribution de code source, une copie complète lisible par une machine du code source correspondant, couvert par une licence GPL V1.0, GPL V2.0, GPL V3.0, LGPL V2.1, LGPL V3.1, SMAIL ou d'autres licences avec l'obligation de le faire, ainsi que l'avis de droit d'auteur respectif.

Informations de contact : oss-cd-powertools-gl@ml.jp.panasonic.com

Entorno de funcionamiento

Debe utilizar un navegador web para configurar el controlador.
Prepare un PC que cumpla con los siguientes requisitos.

Entorno de funcionamiento

SO compatible	Windows 10 o posterior (compatible con cualquiera de los siguientes navegadores web)
Navegador web	Microsoft Edge versión 102 o posterior o Google Chrome versión 102 o posterior

- Algunos PC no están disponibles incluso si cumplen con el entorno operativo.
- En función del entorno de uso, etc., de su PC, las descripciones y pantallas de este Manual de instrucciones podrían ser diferentes de las descripciones y pantallas reales. Por favor, téngalo en cuenta.
- El contenido de este Manual de instrucciones está sujeto a cambios sin previo aviso.
- Cualquier reproducción del contenido de este Manual de instrucciones, en su totalidad o en parte, está prohibida sin permiso.
- Las cifras en este Manual de instrucciones son solo como referencia.

[Nota]
Mantenga siempre actualizado el firmware.
Encontrará los datos más recientes sobre el firmware en la siguiente página web, que proporciona acceso al Manual de instrucciones.
Para saber cómo actualizar el firmware, consulte “Actualización del firmware”.
Consulte P83

Cómo acceder al Manual de instrucciones

La versión actual del Manual de instrucciones del controlador y otros recursos se pueden descargar desde el siguiente sitio web.

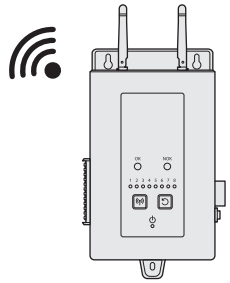

https://panasonic.net/electricworks/ecm/powerelctrictools/download/

Marca comercial
- Microsoft y Windows son marcas registradas o marcas comerciales de Microsoft Corporation en EE. UU. y/o en otros países.
- Las capturas de pantalla se utilizan de acuerdo con las directrices de Microsoft Corporation.

Otros nombres, incluyendo nombres de empresas y productos en este Manual de instrucciones, son marcas comerciales o marcas comerciales registradas de sus respectivas compañías.
™ y ® pueden omitirse en estas Manual de instrucciones.

Uso previsto

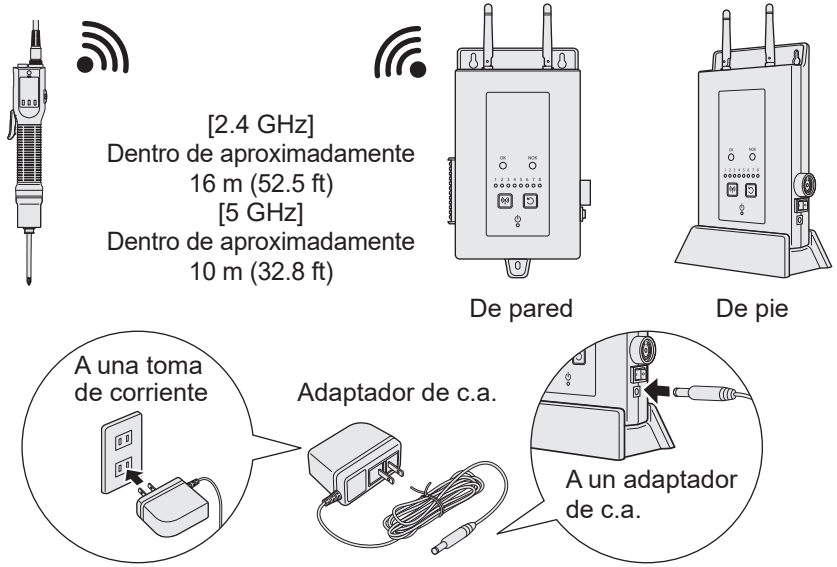

Este producto es un controlador que se comunica inalámbricamente con herramientas. Puede recibir datos del historial de sujeción de las herramientas, realizar ajustes en las herramientas y controlar la cantidad a fijar.

01	Conecte hasta 8 herramientas
02	Compatibilidad con bandas de 2.4 GHz y 5 GHz
03	Admite una función de control de la fijación y una función de almacenamiento del historial

Configuración

Instale el controlador en un rango en el que la comunicación inalámbrica con las herramientas sea posible.
Suministre alimentación a través de una toma de c.a. y conéctela a dispositivos externos a través de interfaces de comunicación según sea necesario.

- El controlador contiene una pila de botón para mantener la función del reloj (RTC) en funcionamiento.
  Se recomienda mantener la alimentación encendida para reducir el consumo de la pila de botón interna.
- La cobertura inalámbrica puede cambiar según el entorno.

A continuación se indican las instrucciones que debe seguir siempre para evitar daños personales y materiales.

■ **A continuación se presenta la gravedad de los daños causados por un uso incorrecto.**

⚠ **ADVERTENCIA**	Puede provocar la muerte o lesiones graves.
⚠ **PRECAUCIÓN**	Puede causar lesiones menores o daños a la propiedad.

■ **El contenido que se debe observar se presenta con los siguientes símbolos. (Lo siguiente son ejemplos)**

	NO DEBE realizar la acción.
	DEBE realizar la acción.

⚠ ADVERTENCIA

Obligatorio

- **Asegúrese de que no haya objetos enterrados, como conductos, tuberías de agua y tuberías de gas, en el lugar de instalación.**
  Tocar estos objetos enterrados puede causar una descarga eléctrica o causar fugas eléctricas o de gas.
- **Inserte el enchufe de alimentación hasta el fondo.**
  La inserción incompleta puede causar descargas eléctricas o generación de calor y provocar un incendio.
  No utilice un enchufe dañado o un enchufe suelto.
- **Limpie el polvo del enchufe de alimentación de forma habitual.**
  El polvo acumulado en el enchufe puede absorber la humedad y provocar un aislamiento deficiente con el consiguiente riesgo de incendio.
  Desconecte el enchufe de alimentación y límpielo con un paño seco.
- **Utilice únicamente el cable de alimentación especificado.**
  El uso de cualquier otro enchufe puede causar descargas eléctricas, cortocircuitos o incendios.
- **Mantenga el lugar de trabajo suficientemente iluminado.**
  Una mala visibilidad en un lugar de trabajo oscuro puede provocar un accidente o lesiones.

⚠ ADVERTENCIA

Prohibido

- **No utilice enchufes o dispositivos de cableado que superen el valor nominal. Utilice solo 100 V-240 V c.a.**
  Si se sobrepasa el valor nominal debido a una sobrecarga de la toma de corriente, se puede generar calor y provocar un incendio.
- **No dañe el cable de alimentación ni el enchufe. (Evite dañarlo, romperlo, modificarlo, acercarlo a una fuente de calor, doblarlo con fuerza, retorcerlo, tirar de él, colocarle una carga pesada, pellizcarlo o atarlo)**
  El uso de un cable o enchufe dañado puede provocar una descarga eléctrica, un cortocircuito o un incendio.
  Compruebe el cable y el enchufe periódicamente y si presentan daños, consulte a su distribuidor.
- **No utilice el controlador con una fuente de alimentación de CC, generador de motor o transformador.**
- **No utilice el controlador en un lugar con líquido o gas inflamable.**
  Hacerlo puede causar la generación de calor, humo, fuego o explosión.
- **No instale el controlador en una pared de mortero.**
  Atornillarlo en una pared de mortero puede provocar la generación de calor de la malla metálica del interior, con el consiguiente riesgo de incendio en caso de fuga eléctrica.
- **Desconecte el enchufe de alimentación entre usos.**
  Mantenerlo conectado puede causar un aislamiento deficiente que provoque descargas eléctricas o incendios por fugas eléctricas.

No desmontar

- **No modifique el controlador. No desmonte ni repare el controlador.**
  De lo contrario, podrían producirse incendios, descargas eléctricas o lesiones.
  Para la reparación, consulte a su distribuidor o a nuestro Centro de Atención al Cliente.

Mantener seco

Evite el siguiente uso de las herramientas cargadas.

- **No las utilice ni las deje expuestas a la lluvia o a la humedad.**
- **No las utilice sumergidas bajo el agua.**
  De lo contrario, podría provocar humo, incendios o explosiones.

Sin manos húmedas

- **No conecte ni desconecte el enchufe de la toma de corriente con las manos mojadas.**
  Si lo hace, podría provocar una descarga eléctrica.

⚠ PRECAUCIÓN

Prohibido

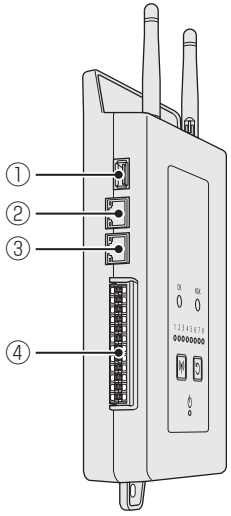

- **No utilice el controlador para ningún otro propósito que no sea el previsto.**
  De lo contrario, podrían producirse lesiones.
- **No coloque el controlador en un lugar accesible para los niños.**
  De lo contrario, podría provocar un accidente o problemas.
- **No utilice el controlador con aceite u otro material extraño adherido al mismo.**
  Dicho aceite u otro material extraño puede penetrar en el interior, provocando calor, fuego o explosión.
- **No guarde el cuerpo principal en un lugar donde la temperatura pueda subir a 45 °C (113 °F) o más.**
  Si lo hace, podría provocar un funcionamiento anómalo.
- **No trabaje en una posición inusual.**
  De lo contrario, podría caerse y sufrir lesiones.
  Siempre colóquese sobre una base estable y mantenga un buen equilibrio.
- **No utilice el controlador cuando esté cansado.**
  Si lo hace, podría provocar un accidente o lesiones.
- **No permita que un niño ni cualquier otra persona que no sea un operador se acerquen al lugar de trabajo o toque el controlador.**
  De lo contrario, podrían producirse lesiones.
- **No utilice el controlador con dispositivos incompatibles.**
  De lo contrario, podría provocar un funcionamiento incorrecto y provocar un accidente.

Obligatorio

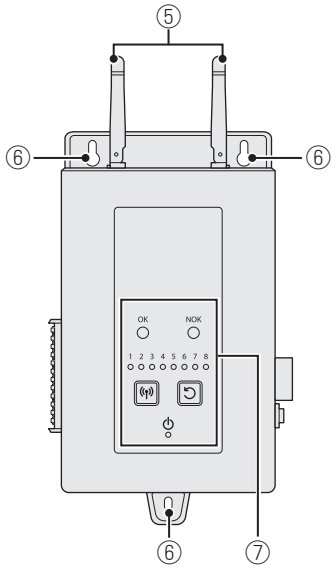

- **Para instalar el controlador en una pared, asegúrelo con los tornillos para evitar que se caiga.**
  Podría sufrir lesiones si se cae.
- **Para desconectar el enchufe de alimentación, sujete siempre la clavija de alimentación sin tirar del cable.**
  Si tira del cable, podría provocar una descarga eléctrica o un cortocircuito.
- **Antes de su uso, compruebe si el controlador y otras piezas están dañadas y confirme su funcionamiento normal.**
  De lo contrario, podría producirse una rotura, con el consiguiente riesgo de lesiones.
- **Mantenga el lugar de trabajo limpio.**
  Un lugar o una mesa de trabajo desordenados pueden provocar un accidente.
- **Piense bien cómo manejar y trabajar, preste atención al entorno que le rodea y utilice el sentido común durante el trabajo.**
  De lo contrario, podría provocar un accidente o lesiones.

Cuerpo principal

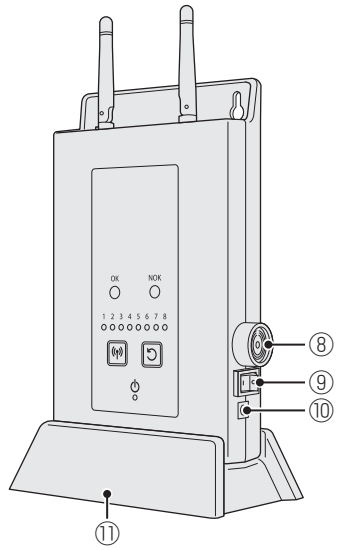

■ Lado izquierdo

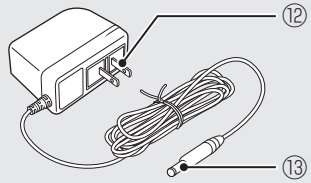

■ Lado delantero

■ Lado derecho

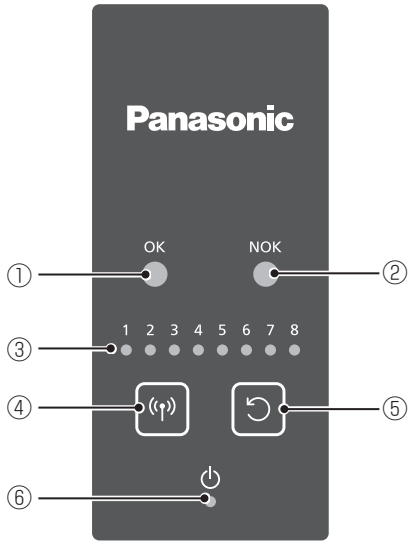

■ Adaptador de c.a.

①	Puerto USB (USB-A)
②	Puerto Ethernet (para el mantenimiento)
③	Puerto Ethernet (para la red)
④	1～24 Puerto de E/S
⑤	Antena de diversidad
⑥	Orificio para colgar en la pared
⑦	Panel de control

⑧	Zumbador
⑨	Interruptor de alimentación
⑩	Toma del adaptador de c.a.
⑪	Soporte del controlador
⑫	Enchufe de alimentación
⑬	Conector de alimentación

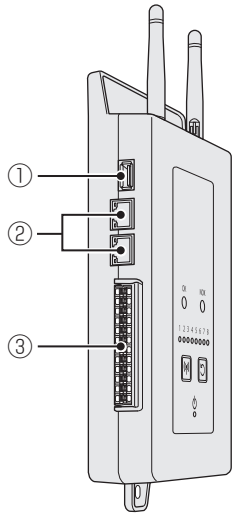

■ Panel de control

①	Lámpara de fijación OK Parpadea en verde: Estado de recepción de lectura del código de barras. Verde sólido: Se ha recibido una señal de finalización de fijación. Apagado: Todavía no se ha recibido una señal de finalización de fijación.
②	Lámpara de fijación NOK Rojo sólido: Se ha recibido una señal de fallo de fijación. Apagado: Todavía no se ha recibido la señal de fallo de fijación.

③	Lámpara de comunicación (N.º 1 a N.º 8) Azul sólido: Se ha registrado una herramienta. Azul parpadeante: Una herramienta se está registrando o está fuera de cobertura. Apagado: Aún no se ha registrado ninguna herramienta.
④	Tecla de emparejamiento
⑤	Tecla de reinicio
⑥	Lámpara de alimentación Amarillo sólido: Encendido (modo de recepción) Apagado: Apagado Amarillo parpadeante: Error

■ Interfaz de comunicación

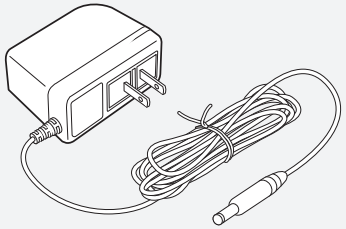

Interfaz		Detalles
①	USB	Utilice este puerto para conectar una unidad flash USB para actualizar el firmware. * Conecte directamente una unidad flash USB (sin extensión) Un receptor inalámbrico está conectado a este puerto para conectar un lector de códigos de barras. * Sólo hay disponibles lectores de códigos barras inalámbricos. • USB2.0 USB-A × 1
②	Ethernet (para mantenimiento y red)	Utilice este puerto para conectarse a un PC para la configuración o un sistema anfitrión. * Conecte el puerto Ethernet (para mantenimiento) directamente a un PC para la configuración. (No utilice un concentrador) • 10Base-T/100Base-TX × 2 • Longitud del cable: menos de 30 m (98.4 ft)
③	Terminal de entrada/ salida (E/S)	Utilice este puerto para conectar a un dispositivo externo (p. ej., un PLC). • 8 entradas y 8 salidas • Longitud del cable: 10 m (32.8 ft) o menos • Clasificación del terminal de entrada: 24 V CC, 50 mA • Clasificación del terminal de salida: 30 V CC, 3 A

Símbolos de seguridad instructivos

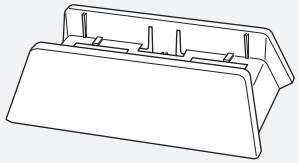

Símbolo	Significado
	Para reducir el riesgo de lesiones, el usuario debe leer y entender el manual de instrucciones.
	Para uso en interiores solamente.

Accesorio

■ **Adaptador de c.a. × 1**
(WEYFRW1K7651)

■ **Soporte del controlador × 1**
(EYFRW1F7001)

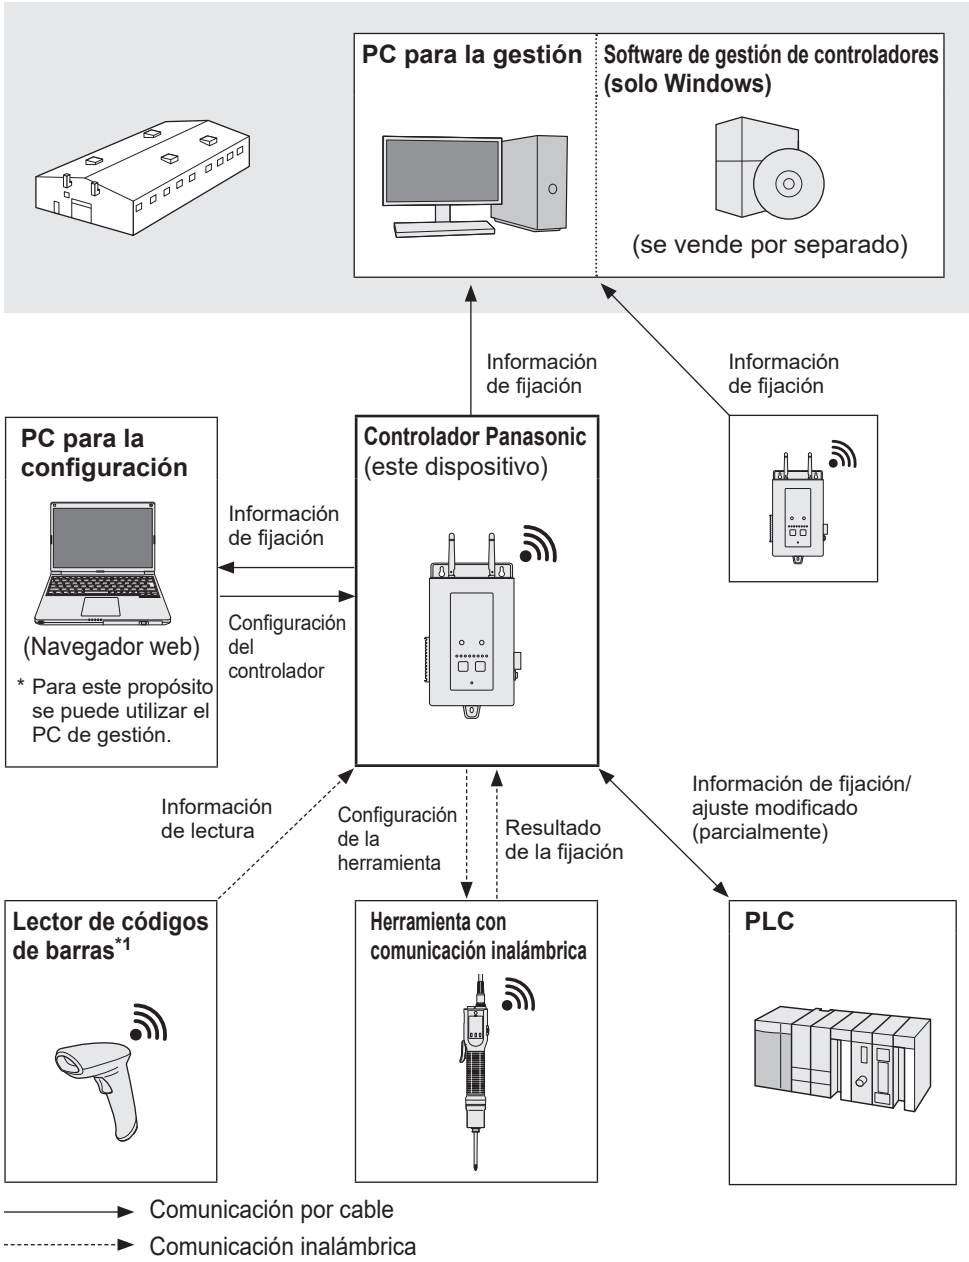

Consumibles

■ **Pila de botón** (CR2450) × 1
Para saber cómo sustituirla, consulte “Sustitución de la pila de botón”.
Consulte P84

Configuración del sistema

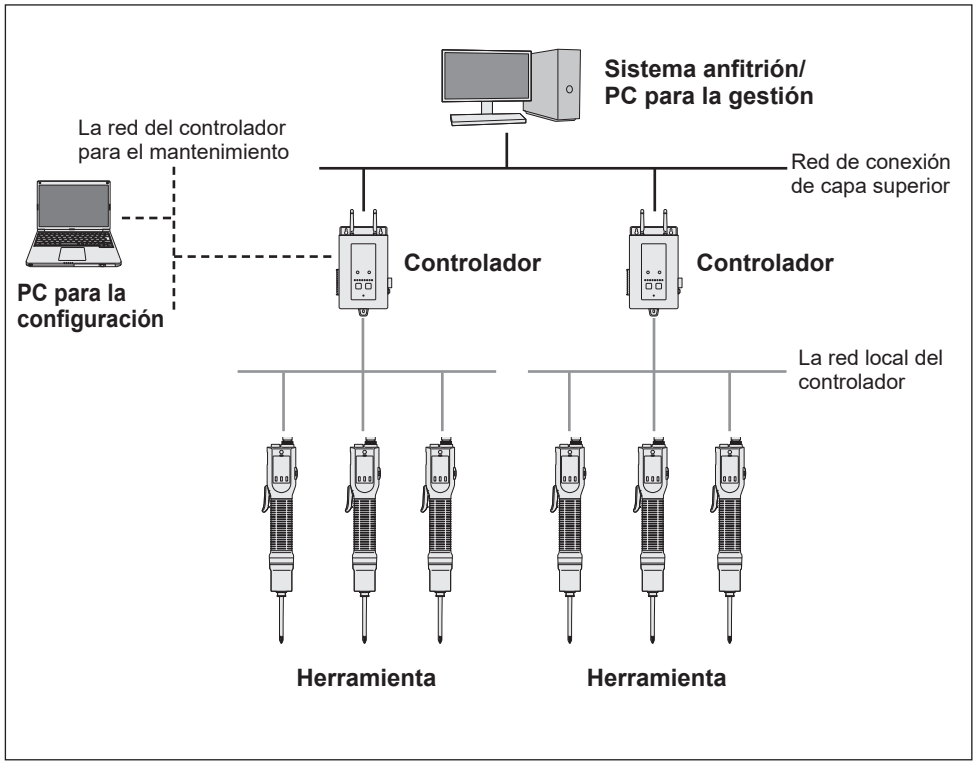

*1 Esto solo es compatible con la versión de firmware 2.03.00 o posterior.

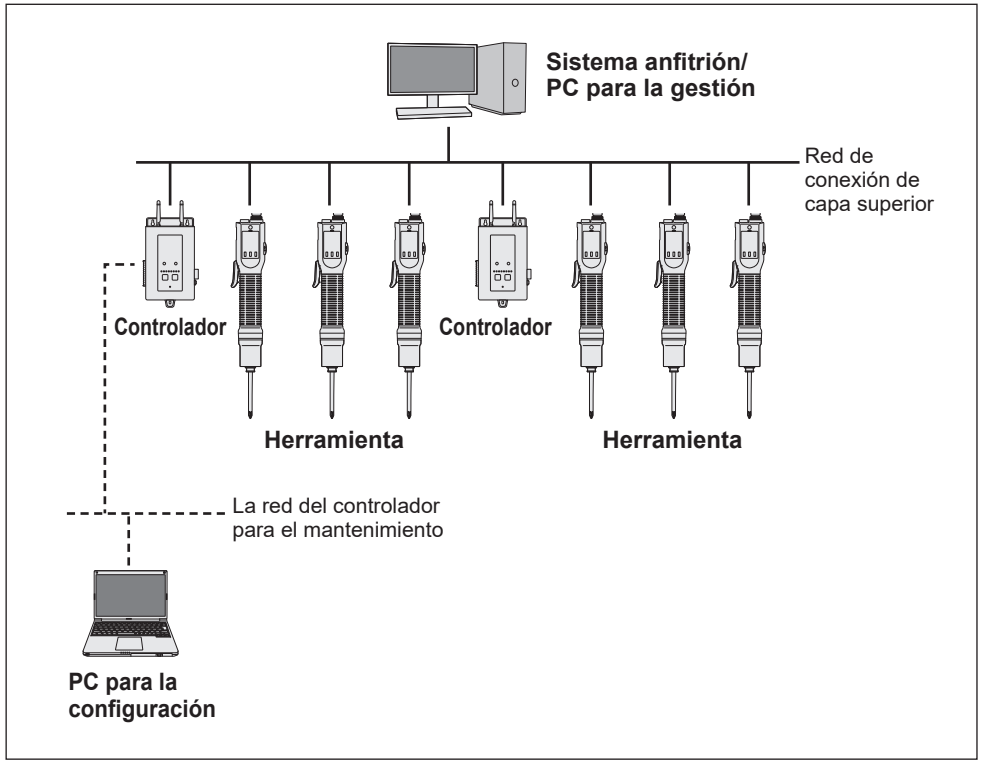

Configuraciones de red típicas

El controlador se puede utilizar en las 2 configuraciones siguientes.

■ No gestionar las direcciones IP de las herramientas
*** Asignación automática (utilizando el punto de acceso incorporado en el controlador)**

■ Gestión de las direcciones IP de las herramientas (utilizando el punto de acceso integrado en el controlador)

* Utilice el sistema dentro de su red local (sin conexión a Internet).

* Asegúrese de comprobar la configuración de la dirección IP para la red del controlador antes de empezar a utilizarlo. (Cambie el valor predeterminado si es necesario)

Lista de modelos de herramienta aplicables

Modelos que pueden registrarse	EYADA112WA/WB*1 EYADA212WA/WB EYADA218WA/WB EYADA407WA/WB

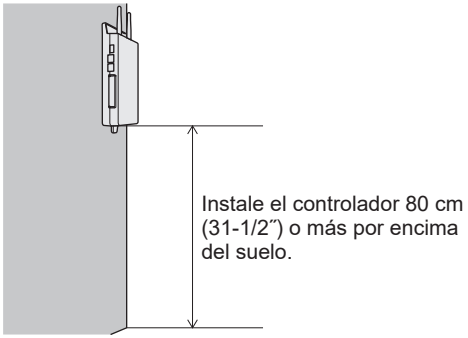

*1 Esto solo es compatible con la versión de firmware 2.02.00 o posterior.

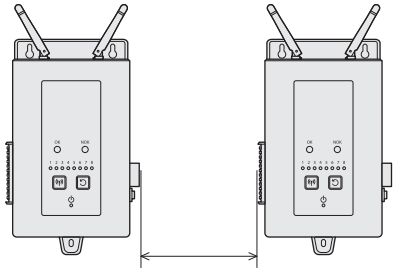

Precauciones para la instalación

Instale el controlador 80 cm (31-1/2″) o más por encima del suelo. Mantenga 10 cm (3-15/16″) o más entre los controladores instalados. (1 m (39-3/8″) o más recomendado)
Mantenga los obstáculos alejados de las antenas del controlador instalado.
El controlador posee 2 antenas de diversidad. Mantenga los obstáculos alejados de ambas antenas.

⚠ PRECAUCIÓN

Para una instalación segura, utilice tornillos de madera con un diámetro nominal de 3.5 mm (1/8″) a 4.1 mm (5/32″).

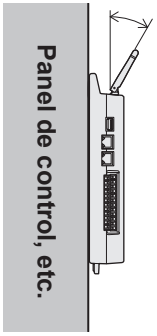

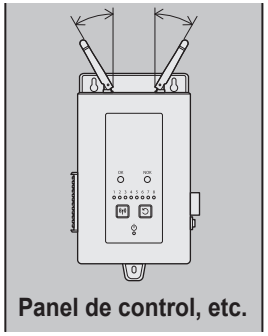

Mantenga 10 cm (3-15/16″) o más entre los controladores instalados.

Ajuste los ángulos de las antenas si la comunicación es inestable.
* Especialmente en el caso del controlador instalado en un panel metálico, el ajuste de los ángulos de las antenas puede mejorar la estabilidad de la comunicación.

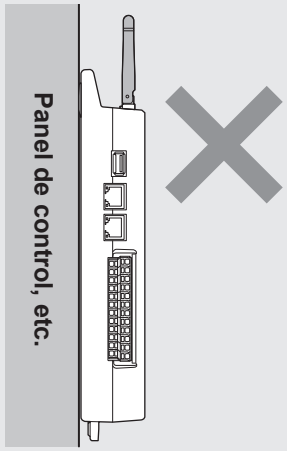

Incline las antenas de 30 a 45° con respecto a la pared.

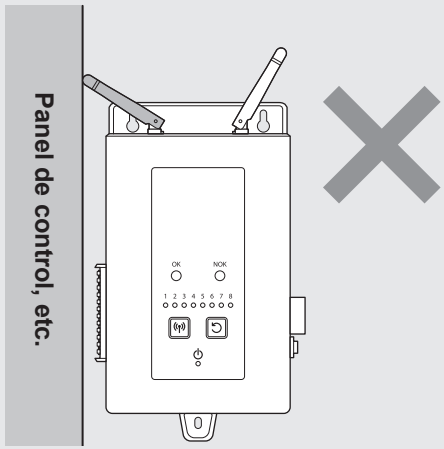

Incline las antenas de 30 a 45° hacia afuera, vistas desde la parte delantera.

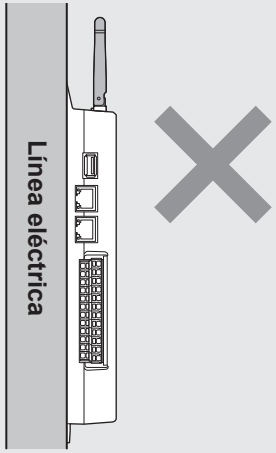

■ Evite la siguiente instalación.

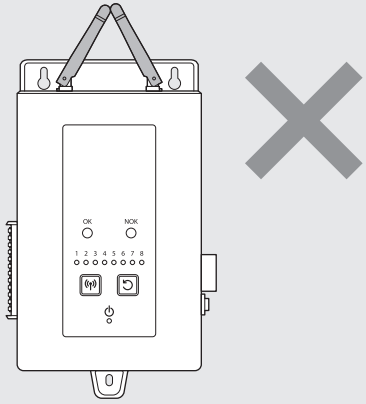

La antena está en paralelo con el panel de control (panel metálico) en la parte trasera.

La antena está en contacto con el panel de control (panel metálico).

El controlador se instala muy cerca de una línea eléctrica.

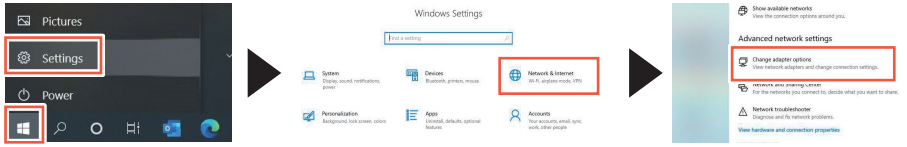

Las antenas están en contacto entre sí.

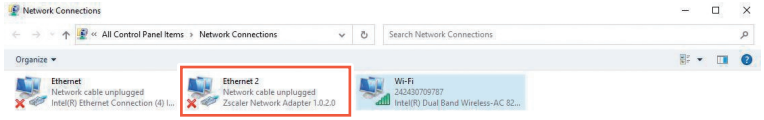

Ajustes de red en el PC para la configuración

Establezca los ajustes de red en el PC para la configuración como se indica a continuación cuando lo conecte y el controlador por primera vez.

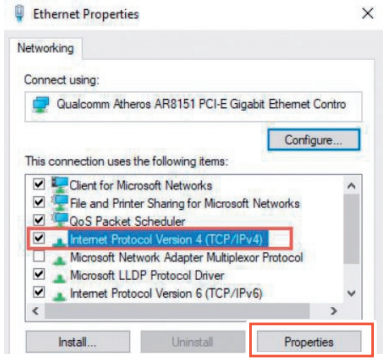

1 Haga clic en en la parte inferior izquierda de la pantalla y haga clic en (Settings) - [Network & Internet] - [Change adapter options].

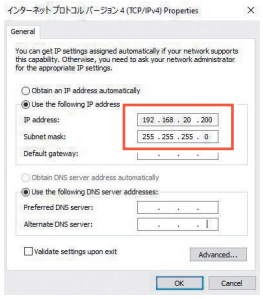

2 Haga clic con el botón derecho en el dispositivo a conectar y haga clic en [Properties].

3 Seleccione “Internet Protocol Version 4” y haga clic en [Properties].

4 Ajuste la “IP address” y la “Subnet mask” como se indica a continuación.

IP address	192	. 168	. 20	. 200
Subnet mask	255	. 255	. 255	. 0

* Si ha cambiado la dirección IP del controlador tras la conexión inicial, habilite la conexión devolviendo los ajustes de red (dirección IP y máscara de subred) a su estado inicial en el PC para la configuración. En ese momento, configure la dirección IP de modo que el controlador y el PC para la configuración pertenezcan a la misma red.
* Anote y conserve los ajustes de red del PC para la configuración (dirección IP y máscara de subred) antes de modificarlos.
* Se recomienda dejar la puerta de enlace predeterminada sin especificar (en blanco).

Visualización de la pantalla de ajustes

Para configurar el controlador, acceda a él a través de un navegador web.
Visualice la pantalla de ajuste del controlador tal como se indica a continuación.

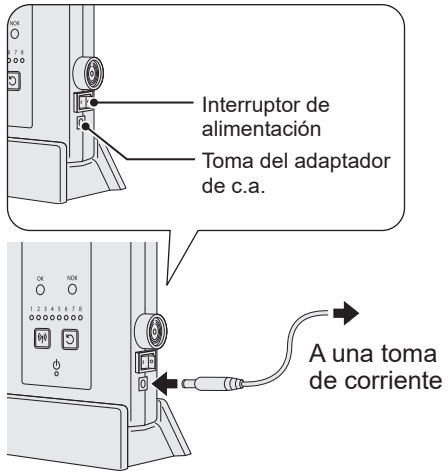

Cuando utilice el controlador por primera vez, retire la película protectora de la pila de botón.

1 Encienda el controlador.

① Conecte el adaptador de c.a. al controlador y conecte el enchufe de alimentación a una toma de corriente.

② Encienda el Interruptor de alimentación del controlador.

* Tarda unas decenas de segundos en iniciarse.
* Durante la puesta en marcha, la lámpara de fijación OK, la lámpara de fijación NOK y las lámparas de comunicación (del N.º 1 al N.º 8) parpadean simultáneamente.
* No conecte cables LAN.

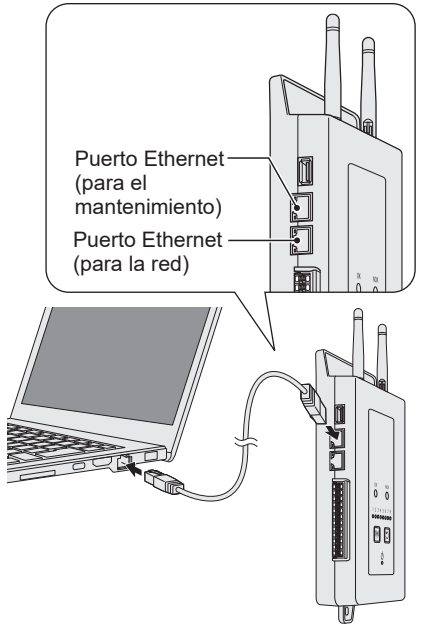

2 Conecte el controlador al PC para la configuración con un cable LAN.

① Conecte un cable LAN al puerto Ethernet del controlador.

* El controlador tiene 2 puertos Ethernet: uno para el mantenimiento y uno para las redes.
Utilice el de mantenimiento para la primera conexión.

② Conéctese al PC para la configuración con el cable LAN.

OPERACIÓN

3 Inicie un navegador web en el PC para la configuración y acceda al controlador.

① Inicie un navegador web en el PC para la configuración. (Se recomienda Microsoft Edge)

② Introduzca la dirección IP del controlador en la barra de direcciones del navegador web.

* La dirección IP predeterminada para el puerto Ethernet (para mantenimiento) es “192.168.20.10”.

En la barra de direcciones del navegador web, introduzca “http://192.168.20.10/controller”
* Introducir solo “192.168.20.10/controller” también permite el acceso.

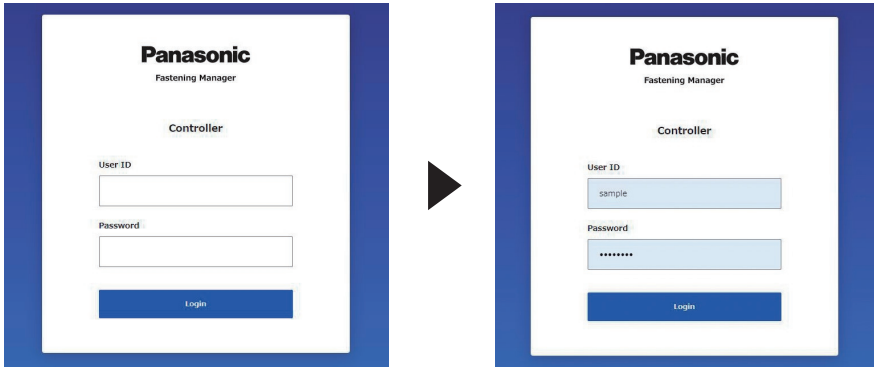

* Para obtener información sobre cómo acceder a través del puerto Ethernet (para la red), consulte “Conexión a través de la red”. Consulte P21

* La dirección IP también debe ajustarse en el PC para la configuración.

③ En la pantalla de inicio de sesión que aparece, introduzca la ID de usuario y la contraseña.

* La ID de usuario y la contraseña para el inicio de sesión inicial se muestran a continuación.

④ Se muestra la página superior (la página inicial de la pantalla de ajustes).

ID de usuario y contraseña para el inicio de sesión inicial

Inicie sesión con la ID de usuario y la contraseña siguientes.

■ **ID de usuario:** **root**

■ **Contraseña:** **abcABC123**

* El tipo de cuenta para el inicio de sesión inicial es “default”.
Para los tipos de cuenta, consulte “Tipos de cuenta (Autoridades)”. Consulte P19

* Solamente es posible la creación de la cuenta cuando inicia sesión con la ID de usuario y la contraseña anteriores. Cree una nueva cuenta antes de iniciar el uso.

* Por seguridad, se recomienda cambiar la contraseña anterior después del inicio de sesión inicial.

Tipos de cuenta (Autoridades)

A continuación se indican los tipos de cuenta. Utilícelas de acuerdo con las aplicaciones.

Tipo de cuenta	Función
Predeterminado	• Para el inicio de sesión inicial. Consulte P18 Añadir o cambiar una cuenta de usuario.
Administrator	• Visualización del historial de fijación. • Configuración del controlador. • Configuración de herramientas. • Añadir o cambiar una cuenta de usuario. * Cree al menos una cuenta de administrador.
General	• Visualización del historial de fijación (incluyendo la visualización del monitor de trabajo).

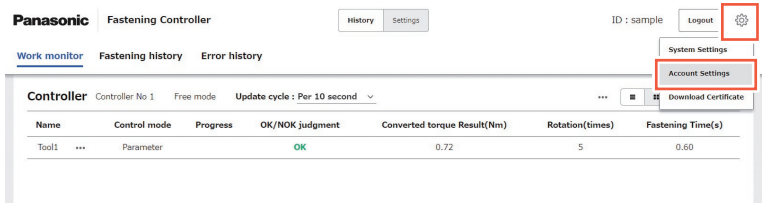

Se pueden registrar hasta 10 cuentas.
De este modo, más de un operador puede iniciar sesión simultáneamente.
* Solo una cuenta puede iniciar sesión como administrador al mismo tiempo. Cuando se intentan realizar múltiples accesos, la última sesión tiene prioridad.

Creación de una cuenta de usuario

Cree una nueva cuenta antes de iniciar el uso.

1 En la página superior (la página inicial de la pantalla de ajustes), haga clic en la tecla de opción de la parte superior derecha y seleccione “Account Settings”.

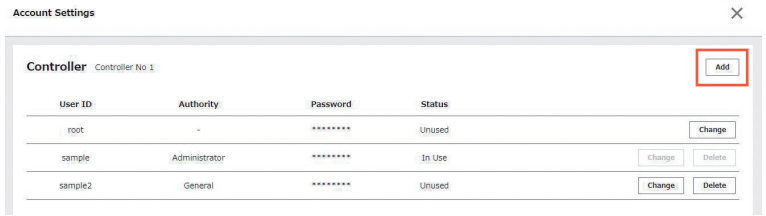

Se visualiza la pantalla “Account Settings”.

2 En la pantalla “Account Settings”, haga clic en [Add].

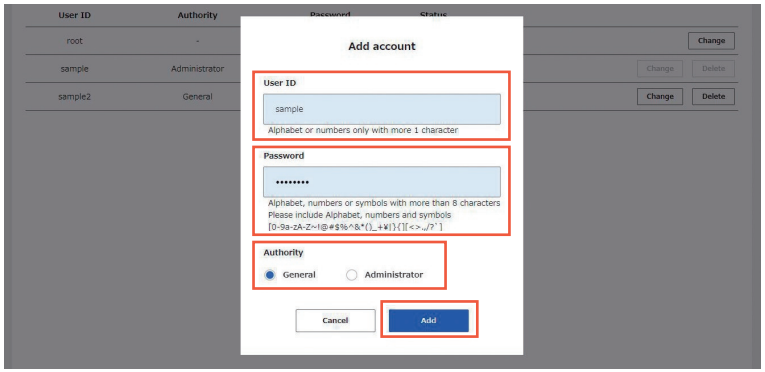

Se visualiza la pantalla “Add account”.

• Haga clic en [Change] para cambiar la cuenta y [Delete] para eliminarla.

3 Introduzca la “User ID” y la “Password”, seleccione “Authority” y haga clic en [Add].

* Cree una cuenta de administrador para configurar las herramientas.
* Para una contraseña, utilice siempre una combinación de 3 o más tipos: mayúsculas, minúsculas, números y símbolos.

[Referencia] Si pierde la ID de usuario o la contraseña

■ Cuenta general

[Método 1] Inicie sesión como administrador y realice cambios en la cuenta correspondiente.
* Un usuario general no puede cambiar la ID del usuario y la contraseña y debe solicitar a un administrador que los cambie.

[Método 2] Inicie sesión con una cuenta de administrador recién creada y realice cambios en la cuenta en cuestión.
* Inicie sesión con la ID del usuario y la contraseña del inicio de sesión inicial y cree una nueva cuenta de administrador. **Consulte P18**

■ Cuenta de administrador

A) Cuando se han creado varias cuentas de administrador

[Método 1] Inicie sesión con otra cuenta de administrador y realice cambios en la cuenta en cuestión.

[Método 2] Inicie sesión con una cuenta de administrador recién creada y realice cambios en la cuenta en cuestión.
* Inicie sesión con la ID del usuario y la contraseña del inicio de sesión inicial y cree una nueva cuenta de administrador. **Consulte P18**

[Método 3] Inicialice los ajustes si ha perdido las ID y las contraseñas de todas las cuentas de administrador. **Consulte P81**

B) Cuando solo se ha creado una cuenta de administrador

[Método 1] Inicie sesión con una cuenta de administrador recién creada y realice cambios en la cuenta en cuestión.
* Inicie sesión con la ID del usuario y la contraseña del inicio de sesión inicial y cree una nueva cuenta de administrador. **Consulte P18**

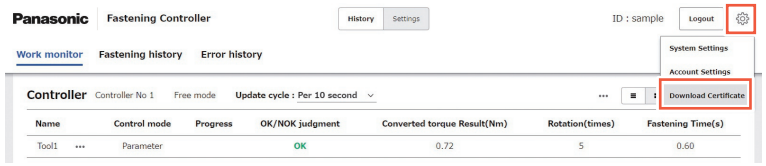

[Método 2] Inicialice los ajustes si ha perdido las ID y las contraseñas de todas las cuentas de administrador. **Consulte P81**

Obtener un certificado

Es necesario un certificado para acceder al controlador a través del puerto Ethernet (para la red). Puede obtener un certificado como se indica a continuación.

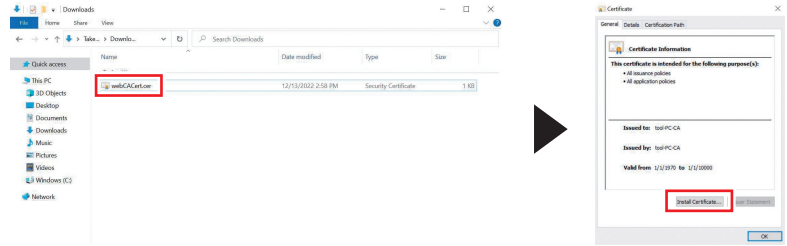

1 En la página superior (la página inicial de la pantalla de ajustes), haga clic en la tecla de opción de la parte superior derecha y seleccione “Download Certificate”.

Se ha descargado un dato de certificado en el PC para la configuración.

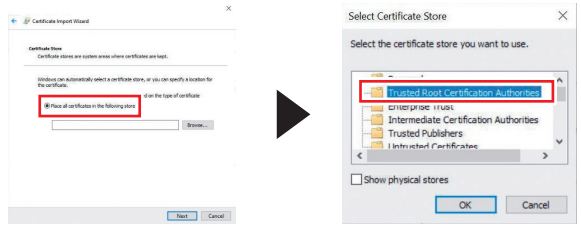

2 Instale el certificado en el “PC para la configuración utilizado para acceder al controlador a través de la red”.

① Haga doble clic en el dato del certificado descargado y seleccione “Install Certificate”.

② Seleccione “Place all certificates in the following store” y luego seleccione “Trusted Root Certification Authorities”.

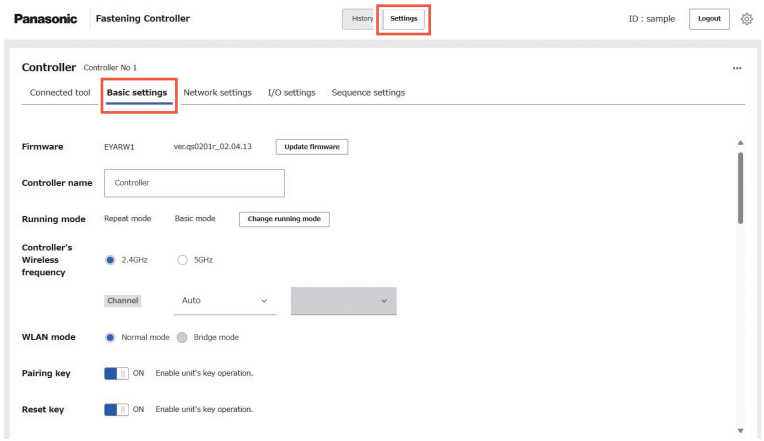

Conexión a través de la red

En la barra de direcciones del navegador web, introduzca “https://XXX.XXX.XXX.XXX/controller” para conectar el controlador a través del puerto Ethernet (para red).
* “XXX.XXX.XXX.XXX” es una dirección IP.
* La dirección IP predeterminada es “192.168.0.10”. Si ha cambiado la dirección predeterminada, introduzca la que ha cambiado. **Consulte P28**

Ajustes básicos

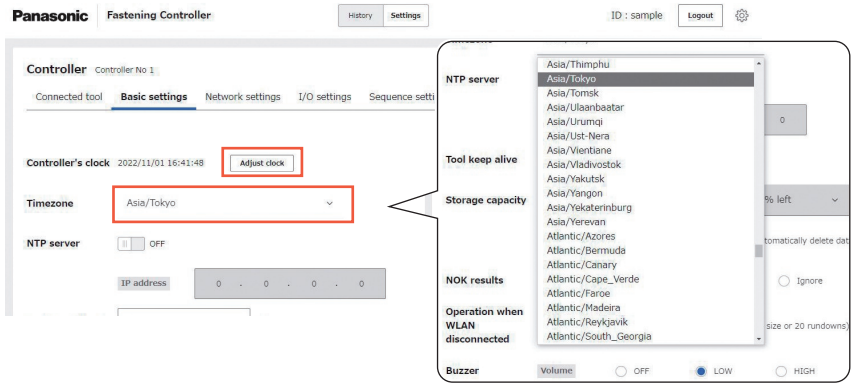

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior y seleccione la pestaña “Basic settings”.
Puede configurar el controlador.

■ Ajuste de la hora

Seleccione “Timezone” y haga clic en [Adjust clock].
La hora se actualiza.

- La hora no está ajustada todavía en el momento del envío. Asegúrese de ajustar la hora cuando utilice el controlador por primera vez.

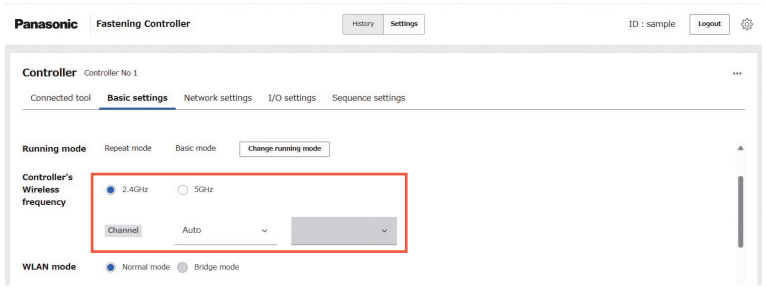

* Si utiliza un servidor NTP, introduzca la dirección IP.

■ Ajuste de la frecuencia de radio y del canal

Puede establecer la frecuencia a utilizar.
Seleccione “2.4GHz” o “5GHz” y, a continuación, el canal que desea utilizar.

* Los canales seleccionables difieren entre “2.4GHz” y “5GHz”.
* Cuando se establece “Channel” en “Auto”, el controlador selecciona automáticamente los canales disponibles en el entorno circundante cuando se enciende.
  El ajuste puede ser efectivo contra interferencias de radio.
* Cuando instale múltiples controladores uno cerca de otro, no establezca canales adyacentes.

■ Elementos de ajuste

Firmware

Se muestra la versión de firmware del controlador.
Haga clic en [Update firmware] para actualizar el firmware.
Para saber cómo actualizar, consulte “Actualización del firmware”. Consulte P83

Controller name

Puede registrar el nombre del controlador.
Use un máximo de 32 caracteres alfanuméricos.
[Predeterminado] Controller
[Rango de ajuste] Hasta 32 caracteres alfanuméricos

* Para los símbolos, solo se pueden utilizar “-” (guión), “_” (guión bajo) y “ ” (espacio de media anchura).

Running mode

Seleccione el modo de funcionamiento del controlador.
[Predeterminado] Free mode
[Rango de ajuste] Free mode / Repeat mode (Basic mode / Sequence mode) / External control mode

Controller’s Wireless frequency

Seleccione el canal de frecuencia del controlador a utilizar para la comunicación inalámbrica.
[Predeterminado] 2.4GHz
[Rango de ajuste] 2.4GHz (Auto / Channel 1 a 13) / 5GHz (Auto / Channel 36, 40, 44, 48)

WLAN mode

Puede configurar cómo gestionar la dirección IP de la herramienta.
[Predeterminado] Normal mode
[Rango de ajuste] Normal mode / Bridge mode

* Normal mode: cuando no se gestionan las direcciones IP de la herramienta (asignación automática)
Bridge mode: Cuando se gestionan (especifican) las direcciones IP de la herramienta.

Pairing key

Puede habilitar la tecla Emparejamiento.
[Predeterminado] ON (habilitado)
[Rango de ajuste] OFF (deshabilitado) / ON (habilitado)

Reset key

Puede habilitar la tecla Reiniciar.
[Predeterminado] ON (habilitado)
[Rango de ajuste] OFF (deshabilitado) / ON (habilitado)

Controller's clock

Ajuste el reloj del controlador.
Haga clic en [Adjust clock] para actualizar la hora.

Timezone

Puede ajustar la zona horaria deseada al ajustar el reloj del controlador.

NTP server

Establezca un servidor NTP si utiliza el ajuste automático del reloj.

Tool keep alive

Establezca el intervalo de tiempo en el que el controlador comprueba la disponibilidad de las herramientas en el modo de comunicación inalámbrica.
Las herramientas que no responden se detectan como fuera de línea y se desconectan.

[Predeterminado] 30 s
[Rango de ajuste] de 10 s a 3600 s

Storage capacity

Habilita o deshabilita la notificación de baja capacidad de almacenamiento y ajusta el comportamiento en caso de escasez de capacidad.

[Predeterminado] Notificación -OFF,
Funcionamiento cuando la capacidad es insuficiente -Automatically delete data
[Rango de ajuste] Notificación -OFF/ON (capacidad restante 10/20/30/40/50%)
Funcionamiento cuando la capacidad es insuficiente -Suspend operation / Automatically delete data

El ajuste predeterminado es “Automatically delete data”.
Piense bien cómo manejar los datos antes de seleccionar “Suspend operation” según sea necesario.

NOK results

Seleccione cómo manejar los resultados de los fallos de fijación.

[Predeterminado] Store data only
[Rango de ajuste] Store data only / Ignore

Operation when WLAN disconnected

Seleccione el comportamiento en caso de interrupción temporal de la comunicación inalámbrica.

[Predeterminado] Suspend tool
[Rango de ajuste] Suspend tool / Enable fastening (Until batch size or 20 rundowns)
Para más información, consulte “COMPORTAMIENTO DE LAS HERRAMIENTAS CON LA COMUNICACIÓN INALÁMBRICA DESCONECTADA”. **Consulte P68**

Buzzer

Seleccione el volumen y el significado del zumbador.

[Predeterminado] Volume - LOW,
Beep - Todo marcado
[Rango de ajuste] Volume - OFF/LOW/HIGH,
Beep - Marque o desmarque cada elemento

Barcode reader settings

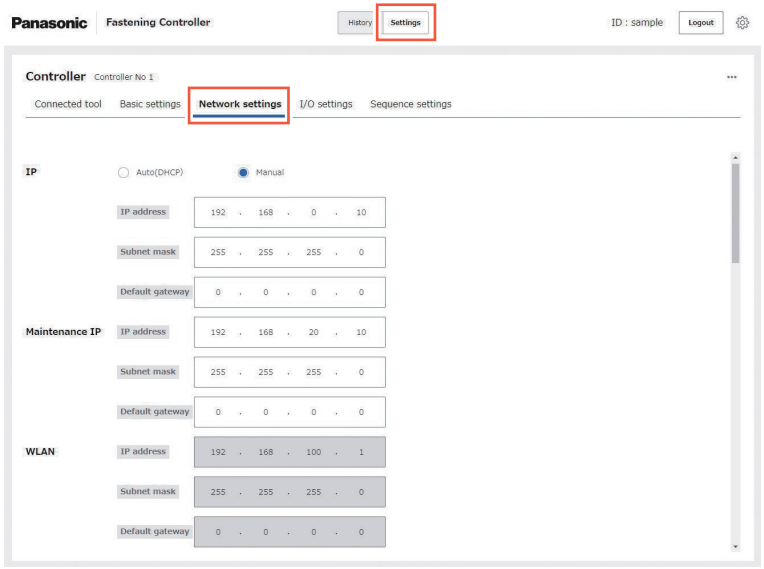

Puede conectar un lector de códigos barras para añadir información de lectura a los datos del historial de fijación.

[Reading Test] Muestra la información leída por el lector de códigos de barras.

[Bluetooth settings] Estos ajustes se utilizan al conectar un lector de códigos de barras tipo Bluetooth.
El botón “Search” muestra los dispositivos conectables.
Utilice “Pairing” para seleccionar un dispositivo a conectar.
Si ya está conectado, se mostrará la dirección MAC/nombre del dispositivo.
Puede desconectarlo seleccionando “Cancel registration”.

Ajustes de red

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior y seleccione la pestaña “Network settings”. Puede realizar los ajustes de red del controlador.

■ Elementos de ajuste

IP
Establezca la dirección IP del Puerto Ethernet (para la red). [Predeterminado] Manual [Rango de ajuste] Auto (DHCP) / Manual * Para “Manual” [Predeterminado] IP address - 192.168.0.10 Subnet mask - 255.255.255.0 Default gateway - 0.0.0.0
Maintenance IP
Establezca la dirección IP del Puerto Ethernet (para el mantenimiento). [Predeterminado] IP address - 192.168.20.10 Subnet mask - 255.255.255.0 Default gateway - 0.0.0.0

WLAN
Ajuste la dirección IP (en el lado del controlador) para la comunicación inalámbrica con las herramientas. [Predeterminado] IP address - 192.168.100.1 Subnet mask - 255.255.255.0 Default gateway - 0.0.0.0
Access point
Establezca el punto de acceso interno para la comunicación inalámbrica con las herramientas. [Predeterminado] SSID - Número de modelo del controlador-Dirección MAC Security - WPA2 [Rango de ajuste] SSID - Un máximo de 32 caracteres alfanuméricos Security - WPA2

- Para las direcciones IP para “IP” y “Maintenance IP”, no utilice la misma subred. (Cuando configure un valor predeterminado (255.255.255.0) en “Subnet mask”, ajuste valores diferentes en la parte correspondiente a “192.168.0” o “192.168.20”).

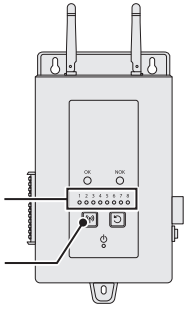

Inicio del modo Emparejamiento en el controlador

Puede poner el controlador en el modo de emparejamiento mediante “Uso de la tecla en la unidad” o “Ajuste en la pantalla de ajustes”.
Durante 2 minutos del modo de emparejamiento, inicie el modo de emparejamiento en una herramienta dentro de la cobertura para establecer automáticamente el emparejamiento.
Si el emparejamiento no se establece dentro del tiempo, el modo de emparejamiento finalizará.

* Después de intentar iniciar el emparejamiento, puede pasar algún tiempo hasta que el controlador entre en el modo de emparejamiento.

■ Uso de la tecla en la unidad

Utilice la tecla Emparejamiento en la unidad del controlador.
Seleccione la lámpara de comunicación del número sin registro (luz apagada) y mantenga pulsada la tecla de emparejamiento para acceder al modo de emparejamiento.
Consulte el siguiente procedimiento para obtener más detalles.

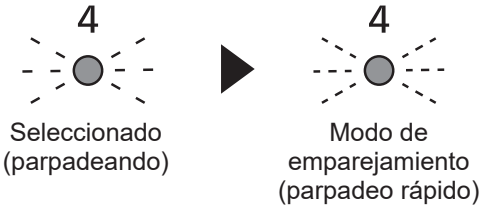

(Para registrar la herramienta N.º 4)

1 Pulse la tecla Emparejamiento en el controlador 4 veces para seleccionar la herramienta N.º 4.
La lámpara de comunicación N.º 4 parpadea.

2 Mientras el N.º 4 está seleccionado, mantenga pulsada la tecla Emparejamiento en el controlador para entrar en el modo de emparejamiento de la herramienta N.º 4.
En el modo de emparejamiento, la Lámpara de comunicación N.º 4 comienza a parpadear rápidamente.

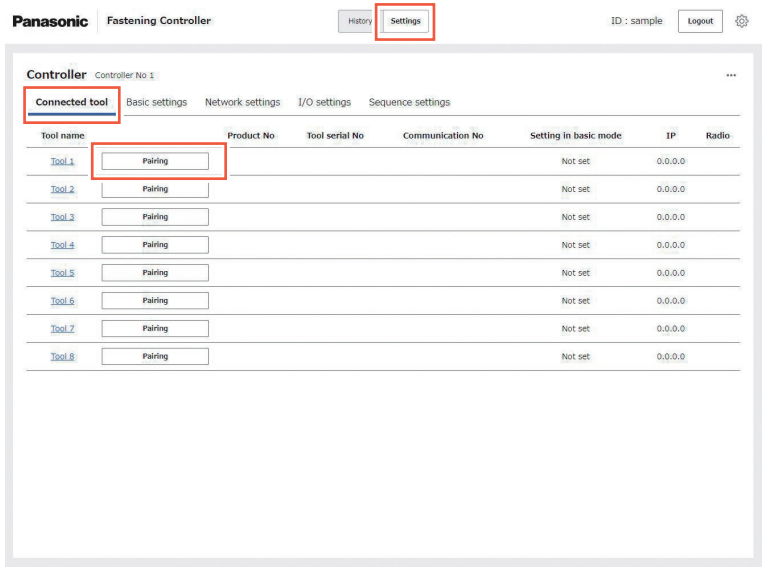

3 Opere la herramienta N.º 4 para establecer el emparejamiento.
La lámpara de comunicación N.º 4 permanece encendida.
Para saber cómo operar la herramienta, consulte “Inicio del modo de emparejamiento en una herramienta”. Consulte P32

■ Ajuste en la pantalla de ajustes

En la página superior (la página inicial de la pantalla de configuración), haga clic en [Settings] en la parte superior y seleccione la pestaña “Connected tool”.
En la pantalla “Connected tool”, haga clic en [Pairing] del número de herramienta deseado.
Después de que el controlador entre en el modo de emparejamiento, realice el procedimiento descrito en “Inicio del modo de emparejamiento en una herramienta”. Consulte P32

<Para referencia > Sustituir con una herramienta de recambio

Cuando sustituya una herramienta emparejada defectuosa por una nueva con el mismo número de modelo, cancele el emparejamiento Consulte P32 y, a continuación, realice el emparejamiento Consulte P30 para que los parámetros de fijación y otros ajustes puedan transferirse automáticamente.

* Para emparejar con una herramienta con un número de producto diferente, cancele el emparejamiento para borrar la información de emparejamiento actual antes de emparejar con ella. Consulte P36

Pantalla después de completar el emparejamiento

Después de completar el emparejamiento, si la pantalla de ajuste no muestra la información de la herramienta emparejada, realice la actualización de la visualización en la pantalla de ajuste.

Inicio del modo de emparejamiento en una herramienta

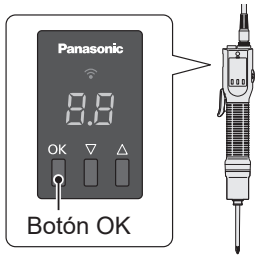

Ponga el controlador en el modo de emparejamiento antes de iniciar el modo de emparejamiento en una herramienta.

■ Procedimiento

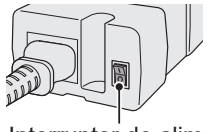

1 **Mientras mantiene pulsado el botón OK de la herramienta, encienda el interruptor de alimentación del adaptador de corriente.**

La herramienta entra en el modo de emparejamiento.
La comunicación inalámbrica se establece automáticamente y se completa el registro de emparejamiento.

* Para más información, consulte el Manual de instrucciones de la herramienta.
* Si el emparejamiento falla, cancele el emparejamiento en el controlador y, a continuación, vuelva a intentarlo.

Adaptador de corriente (se vende por separado)

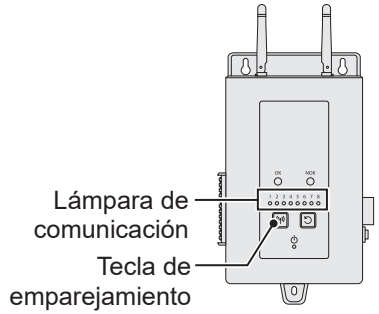

Conecte el cable del destornillador al adaptador de corriente y la herramienta y, a continuación, conecte el enchufe de alimentación a la toma de corriente antes de comenzar la operación.

Cancelación del emparejamiento

Puede cancelar el registro de emparejamiento en el controlador mediante “Uso de la tecla en la unidad” o “Ajuste en la pantalla de ajustes”.

■ Uso de la tecla en la unidad

Utilice la tecla Emparejamiento en la unidad del controlador.
Seleccione la lámpara de comunicación del número de herramienta con la que desea cancelar el registro (luz encendida) y mantenga pulsada la tecla de emparejamiento para cancelar el registro.
Consulte el siguiente procedimiento para obtener más detalles.

(Para cancelar la herramienta N.º 4)

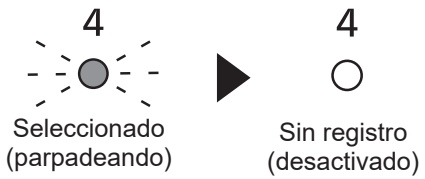

1 **Pulse la tecla Emparejamiento en el controlador 4 veces para seleccionar la herramienta N.º 4.**

La lámpara de comunicación N.º 4 parpadea.

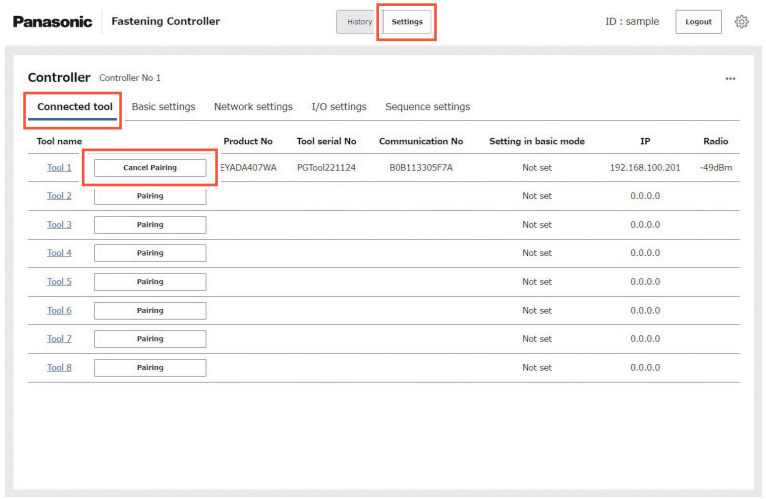

2 **Mientras el N.º 4 está seleccionado, mantenga pulsada la tecla Emparejamiento en el controlador para cancelar el registro de emparejamiento de la herramienta N.º 4.**

Cuando se cancela el emparejamiento, la lámpara de comunicación N.º 4 deja de parpadear y se apaga.

■ Ajuste en la pantalla de ajustes

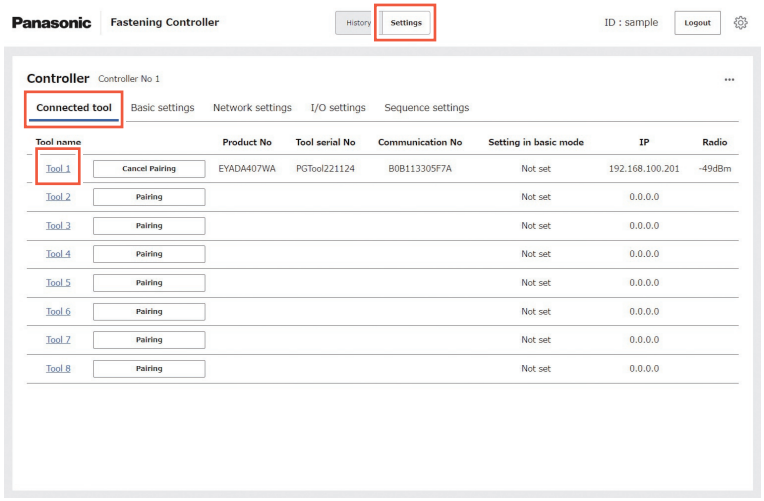

En la página superior (la página inicial de la pantalla de configuración), haga clic en [Settings] en la parte superior y seleccione la pestaña “Connected tool”.
En la pantalla “Connected tool”, haga clic en [Cancel Pairing] del número de herramienta deseado.

* Si el controlador no puede comunicarse con la herramienta debido a que la herramienta está apagada o a cualquier otro motivo, marque [Force to unpair] en el cuadro de diálogo de confirmación de cancelación del emparejamiento.

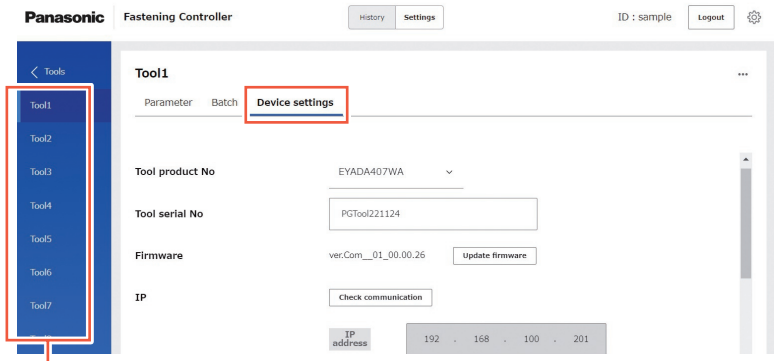

Visualización de la pantalla Herramienta

En la página superior (la página inicial de la pantalla de configuración), haga clic en [Settings] en la parte superior y seleccione la pestaña “Connected tool”.
En la pantalla “Connected tool”, haga clic en el número de herramienta deseado.
Se visualiza la pantalla para el número de herramienta.

Visualización de la pantalla de ajustes de la herramienta

Desde la pestaña “Device settings” de la pantalla correspondiente al número de herramienta, puede realizar los ajustes básicos de la herramienta e introducir parámetros comunes.
* Para cambiar la herramienta, seleccione la deseada en la lista de herramientas.

Lista de herramientas

Elementos de ajuste de la herramienta

Tool product No

Seleccione el número de producto de la herramienta.

[Predeterminado] En blanco
[Rango de ajuste] Seleccionable desde el menú desplegable

* Se selecciona automáticamente si se establece el emparejamiento de antemano.
* El número de producto de la herramienta no se puede cambiar después del emparejamiento. Cancele el emparejamiento y, a continuación, cámbielo.

Tool serial No

Puede ajustar y visualizar la identificación de la unidad de la herramienta.

[Predeterminado] 8 dígitos del número de serie
(2 dígitos del año de fabricación + 2 dígitos del mes + 4 dígitos del lote de producción)
[Rango de ajuste] De 13 a 16 caracteres alfanuméricos

* Es posible que el número de modelo no se reconozca correctamente si se cambia la información.
No la cambie a menos que lo requiera la regla de administración.

Firmware

Se muestra la versión de firmware de la parte de comunicación de la herramienta.
Haga clic en [Update firmware] para actualizar el firmware.
Para saber cómo actualizar, consulte “Actualización del firmware”. **Consulte P83**

IP

Ajuste la dirección IP (en el lado de la herramienta) para la comunicación inalámbrica con las herramientas.

[Predeterminado] IP address - 192.168.100.201 (Herramienta 1) a 208 (Herramienta 8)
Subnet mask - 255.255.255.0
Default gateway - 0.0.0.0

Tool’s clock

Se visualiza el reloj de la herramienta. Haga clic en [Adjust to controller] para ajustar la hora.

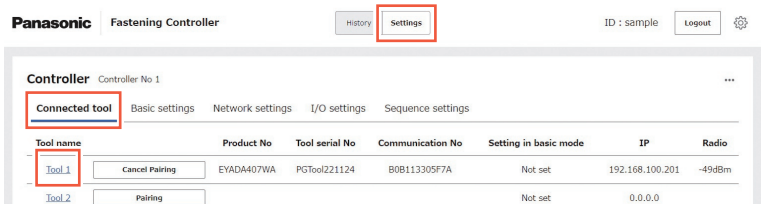

• Para otros elementos de ajuste, consulte el Manual de instrucciones de la herramienta.

Eliminación de la información de registro

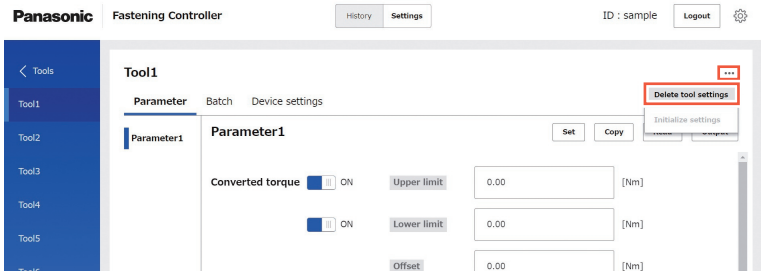

Para detener el uso de la herramienta o emparejar una herramienta con un número de producto diferente, borre la información de emparejamiento.
* Cancele el emparejamiento de antemano.

1 En la página superior (la página inicial de la pantalla de configuración), haga clic en [Settings] en la parte superior y seleccione la pestaña “Connected tool”.
Aparece la pantalla “Connected tool”.

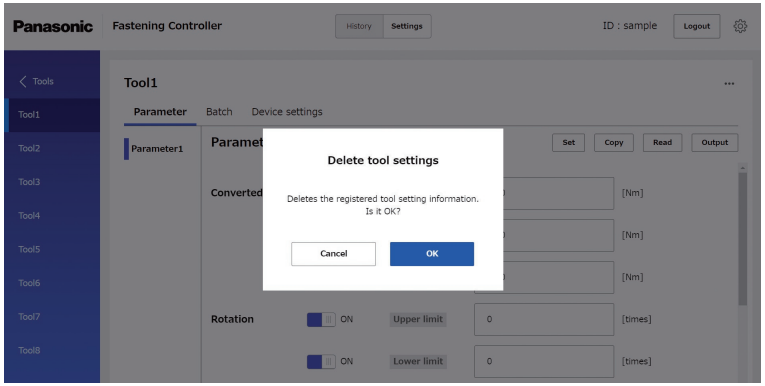

2 En la pantalla “Connected tool”, haga clic en el número de herramienta deseado.
Se visualiza la pantalla para el número de herramienta.

3 Haga clic en ··· (tecla de opción de la herramienta) y, a continuación, [Delete tool settings].
Se visualiza la pantalla “Delete tool settings”.

4 En la pantalla “Delete tool settings”, haga clic en [OK].

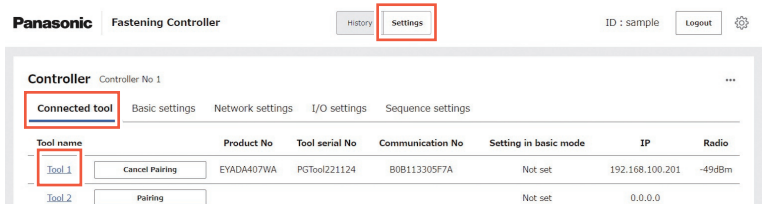

Restablecer los ajustes de fábrica

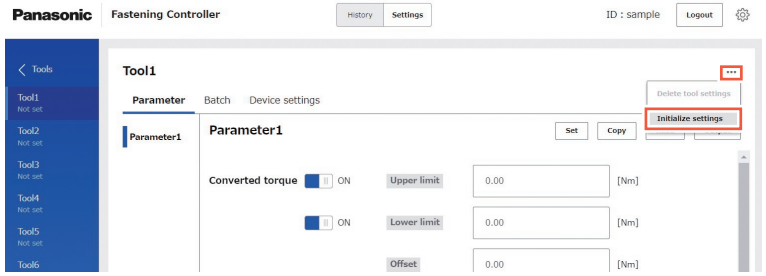

Puede restaurar una herramienta a sus ajustes de fábrica.
* Al restablecer se cancela el emparejamiento.

1 En la página superior (la página inicial de la pantalla de configuración), haga clic en [Settings] en la parte superior y seleccione la pestaña “Connected tool”.
Aparece la pantalla “Connected tool”.

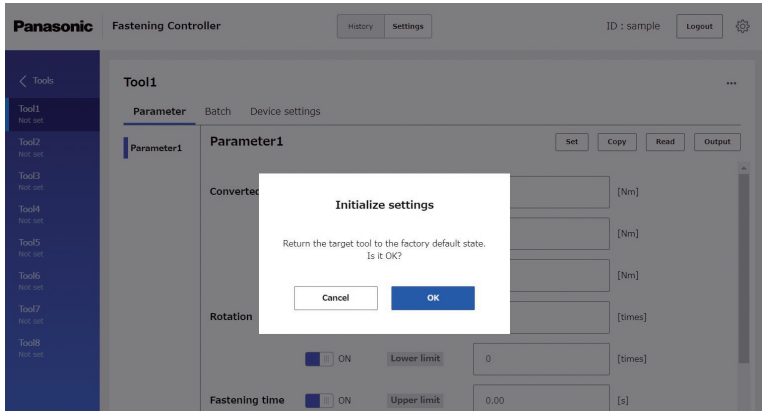

2 En la pantalla “Connected tool”, haga clic en el número de herramienta deseado.
Se visualiza la pantalla para el número de herramienta.

3 Haga clic en ··· (tecla de opción de la herramienta) y, a continuación, [Initialize settings].
Se visualiza la pantalla “Initialize settings”.

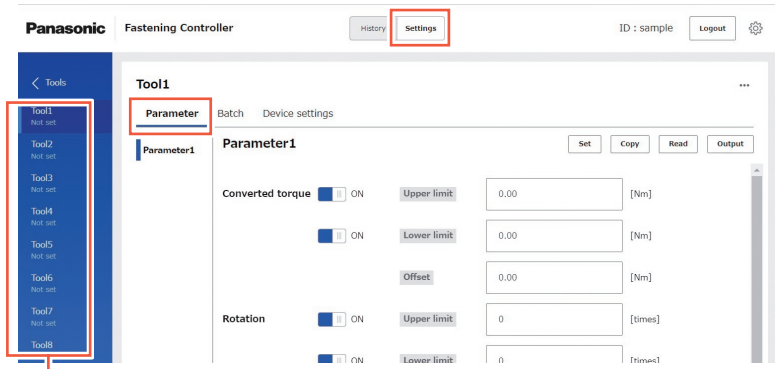

4 En la pantalla “Initialize settings”, haga clic en [OK].

Ajuste de parámetros

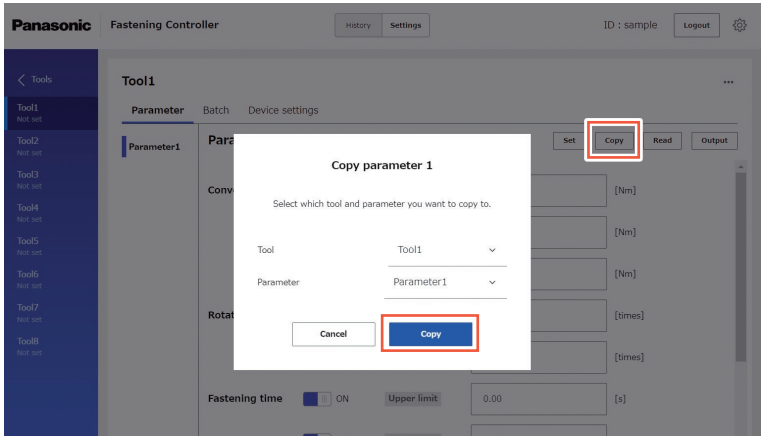

En la página superior (la página inicial de la pantalla de configuración), haga clic en [Settings] en la parte superior y seleccione la pestaña “Connected tool”.
En la pantalla “Connected tool”, haga clic en el número de herramienta deseado.
En la pantalla del número de herramienta, seleccione “Parameter” para realizar los ajustes.
Solo se puede registrar un tipo de parámetro para cada herramienta.
* Para cambiar la herramienta, seleccione la deseada en la lista de herramientas.

Lista de herramientas

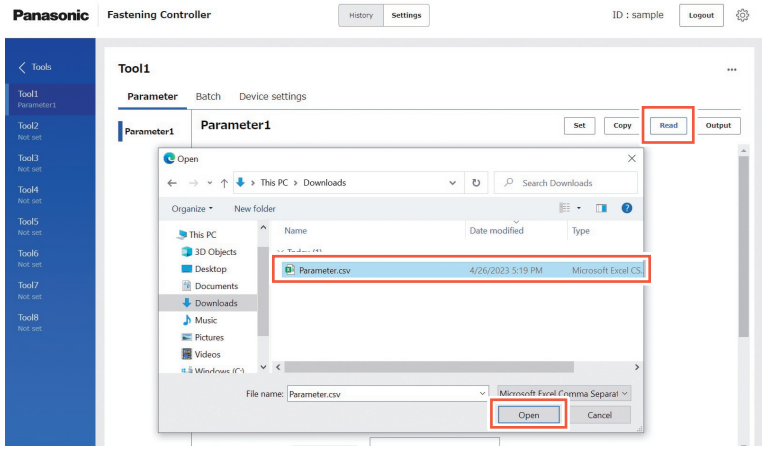

Copia de parámetros

Puede copiar el parámetro establecido para crear un nuevo parámetro a partir de él o utilizarlo en otra herramienta.
En la pestaña “Parameter” de la pantalla para el número de herramienta, haga clic en [Copy] para visualizar la pantalla para copiar el parámetro. En la pantalla, seleccione el destino y haga clic en [Copy].

Carga de parámetros

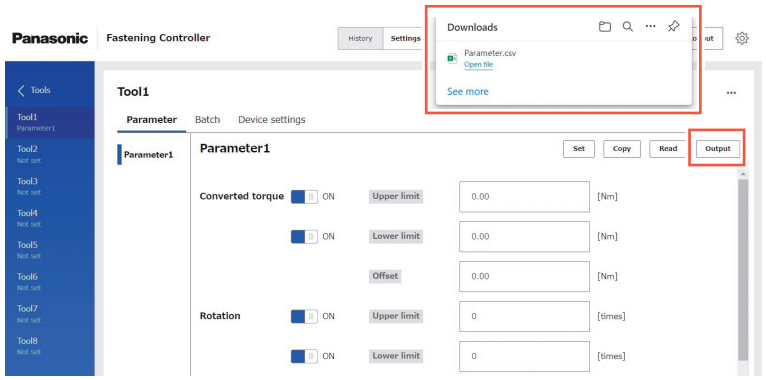

Puede registrar un parámetro cargando un archivo de parámetro guardado en el PC para la configuración en el controlador.
Desde la pestaña “Parameter” en la pantalla para el número de herramienta, haga clic en [Read] y abra el archivo del parámetro.

Exportar parámetros

Puede exportar el parámetro creado al PC para la configuración.
Puede utilizar el archivo exportado como copia de seguridad, para copiarlo a otro controlador o moverlo a otro PC para la configuración.
Desde la pestaña “Parameter” en la pantalla para el número de herramienta, haga clic en [Output] y guarde el archivo del parámetro.

No edite el archivo del parámetro exportado.
De lo contrario, es posible que no se lea correctamente.

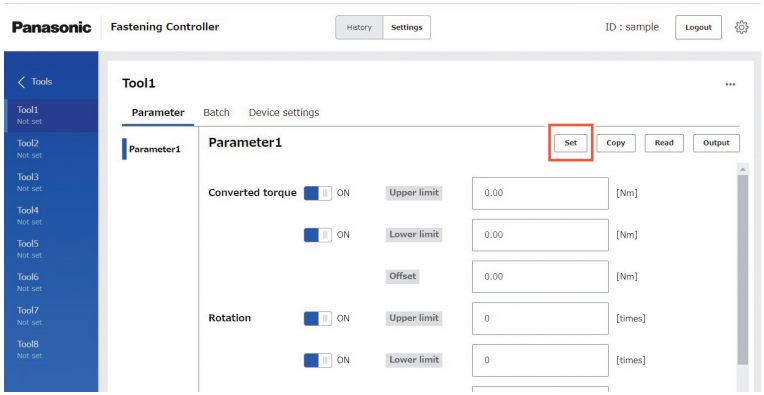

Registro de parámetros

Registre un parámetro para utilizarlo para controlar una herramienta en el “Free mode” del modo de funcionamiento de controlador.

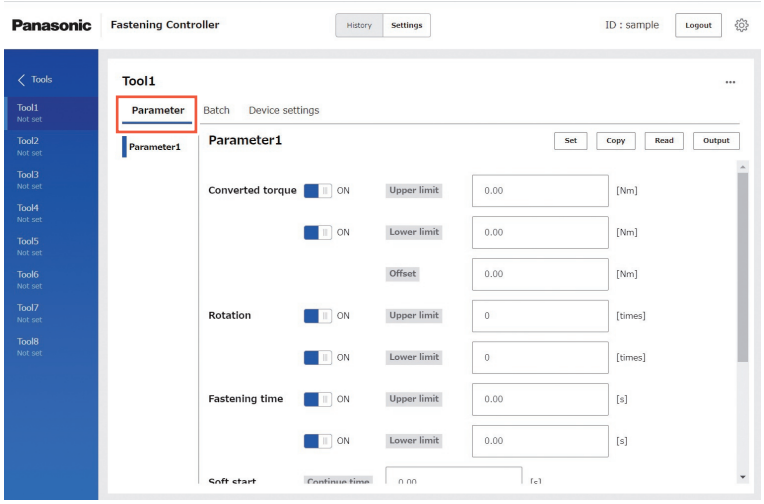

* No se utiliza en “Repeat mode” y “External control mode”.
  (Para “Free mode”, “Repeat mode” y “External control mode”, consulte “Ajuste del modo de funcionamiento”. **Consulte P44**

Desde la pestaña “Parameter” en la pantalla para el número de herramienta, haga clic en [Set].

Elementos del parámetro

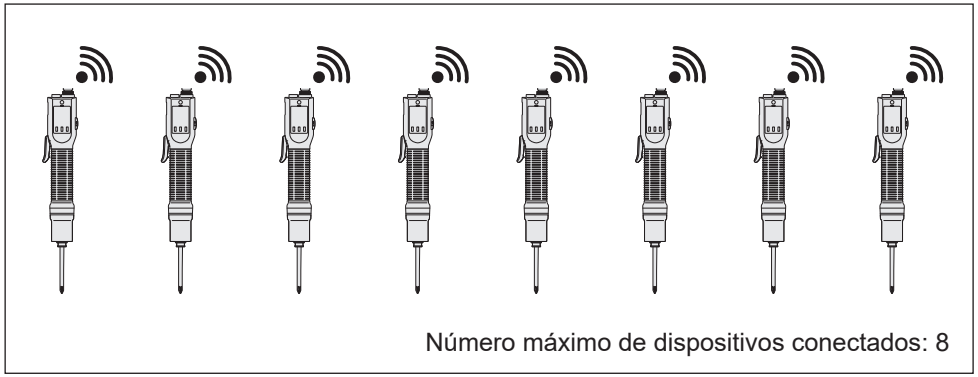

Ajuste los elementos de los parámetros de fijación.
Para más información, consulte el Manual de instrucciones de la herramienta.

Control de la fijación mediante herramientas

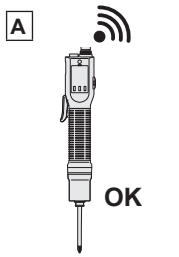

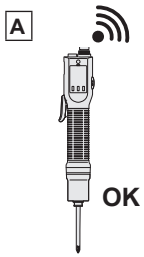

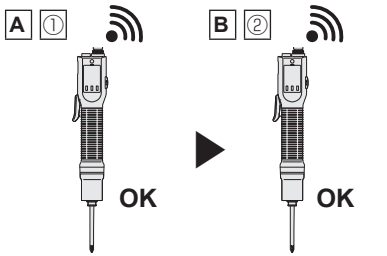

El controlador puede controlar hasta 8 herramientas conectadas para la fijación.
Recibe datos de fijación de cada tarea de sujeción y cuenta la cantidad fijada.

Combinaciones de control de fijación típicas

Puede crear distintas combinaciones de ajustes de control de fijación. Consulte las combinaciones típicas a continuación.

Modo	[Free mode]	[Repeat mode]	
		[Basic mode]	[Sequence mode]
Criterio de aprobado	– (La cantidad no se especifica)	Se completa la fijación de la cantidad objetivo	Las herramientas completan la fijación de las cantidades objetivo respectivas en el orden especificado
[Batch] Para fijar más de un tornillo con el mismo ajuste	 Ajuste del embrague: [Escala] 1; Cantidad objetivo: ∞ — Parameter	 Ajuste del embrague: [Escala] 1; Cantidad objetivo: 10 — Batch	 Ajuste del embrague: [Escala] 1; Cantidad objetivo: 10 / Ajuste del embrague: [Escala] 2; Cantidad objetivo: 5 — Batch y Sequence
Observación	–	–	* Una secuencia puede contener hasta 10 pasos.

• El embrague se ajusta manualmente con la manivela de embrague de la herramienta (no se puede cambiar automáticamente).

Número de combinaciones que se pueden registrar

Consulte el número de combinaciones que se pueden registrar en el controlador tal como se indica a continuación.

Modo del controlador		Ajuste de la herramienta	Número de combinaciones que se pueden registrar
Free mode		**Parameter**	○ 5 combinaciones por herramienta * Esto solo es compatible con la versión de firmware 2.02.00 o posterior. * Para versiones anteriores, solo se puede registrar un tipo para cada herramienta.
Repeat mode	**Basic mode (control independiente)**	**Batch**	○ 5 combinaciones por herramienta
	Sequence mode (control secuencial)	**Batch**	○ 5 combinaciones
External control mode		–	○ (solo instrucción de E/S)

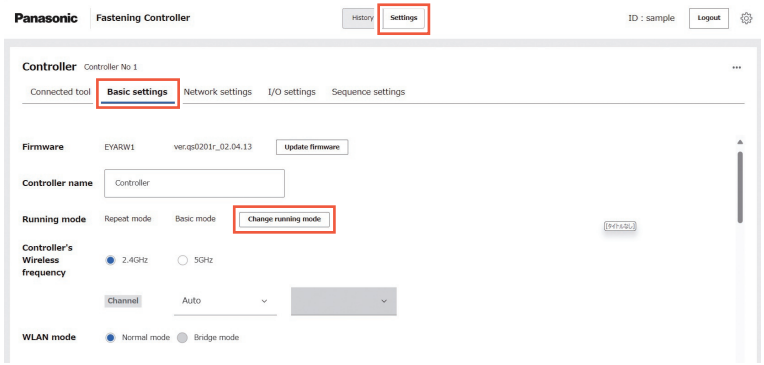

• Se pueden registrar hasta cinco procesos de lote diferentes. Por lo tanto, es posible cambiar a un proceso por lotes con diferente número de tornillos fijados, como "fijación de un tornillo" y "fijación de tres tornillos".

Ajuste del modo de funcionamiento

Ajuste el modo de funcionamiento del controlador como se indica a continuación.

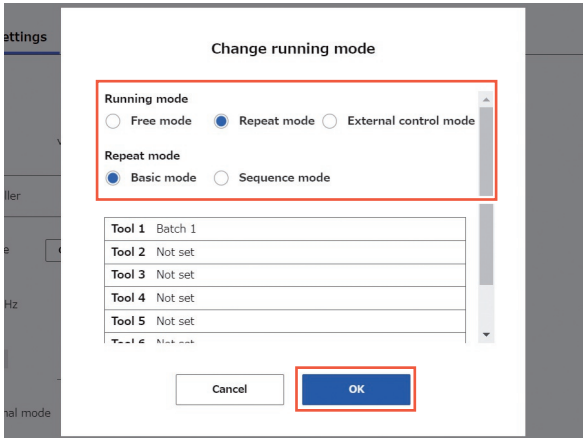

1 En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior y seleccione la pestaña “Basic settings”.

2 En la pestaña “Basic settings”, haga clic en [Change running mode].
Se visualiza la pantalla “Change running mode”.

3 Seleccione un “Running mode” y haga clic en [OK].
Se establece el modo de funcionamiento.
Seleccione un modo de funcionamiento de entre “Free mode”, “Repeat mode” y “External control mode”.
Para “Repeat mode”, seleccione “Basic mode” o “Sequence mode”.

Consulte P45 a 48

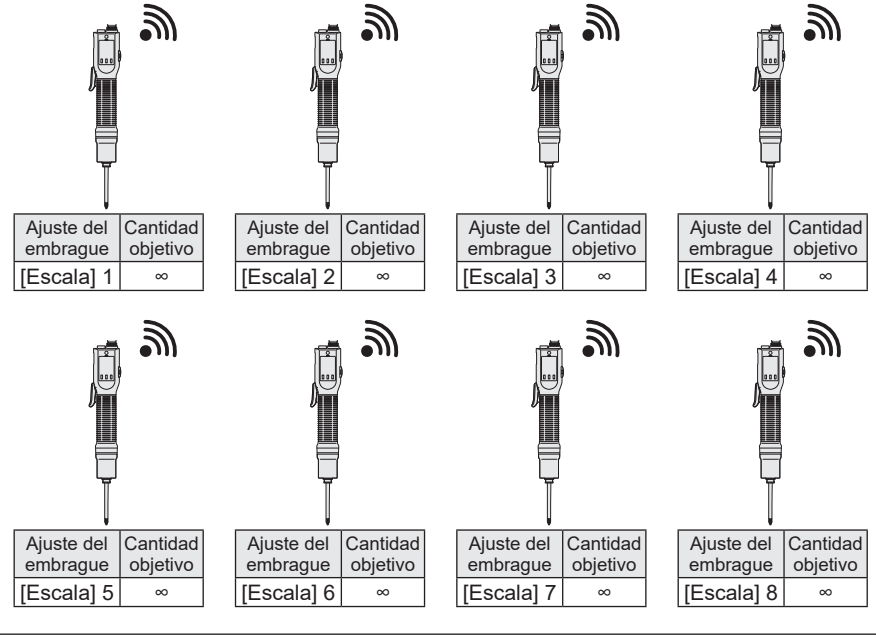

* Registre el “Parameter” antes de ajustarlo en el “Free mode”.
* Registre un “Batch” antes de ajustarlo en el “Repeat mode”.

■ Free mode

Este modo permite una fijación incondicional sin especificar la cantidad a fijar.
Las herramientas usan parámetros preregistrados para la fijación.
Hasta 8 herramientas pueden llevar a cabo una operación independiente.
Se activan los ajustes de salida de E/S.
* Utilice el modo cuando la cantidad fijada sea contada por un dispositivo externo.

Se pueden controlar hasta 8 herramientas al mismo tiempo

Ajuste del embrague	Cantidad objetivo

Ajuste del embrague	Cantidad objetivo
[Escala] 8	∞

■ Repeat mode (Basic mode)

Este modo repite un proceso “Batch”.
Las herramientas utilizan los ajustes preregistrados “Batch” para la fijación.
Hasta 8 herramientas pueden llevar a cabo una operación independiente.
Se activan los ajustes de salida de E/S.

Se pueden controlar hasta 8 herramientas al mismo tiempo

Ajuste del embrague	Cantidad objetivo
[Escala] 8	10

■ Repeat mode (Sequence mode)

Este modo repite un proceso “Sequence” donde las herramientas disponibles se controlan en orden.
Las herramientas utilizan ajustes “Sequence” preregistrados para la fijación secuencial.
Se pueden ajustar hasta 10 pasos. Una secuencia soporta hasta 8 herramientas pero solo permite que una herramienta funcione a la vez.
Se activan los ajustes de salida de E/S.

■ External control mode

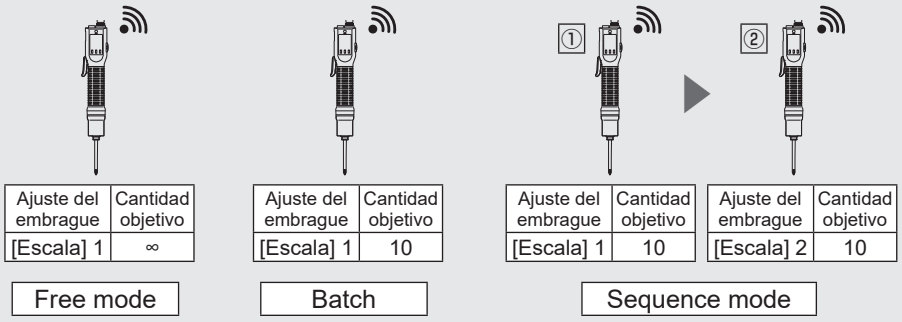

Este modo permite fijar el control según lo solicitado por un dispositivo externo (PLC, etc.).

● Control mediante E/S

La fijación se controla mediante entradas a través del puerto de E/S desde un dispositivo externo.
Se pueden controlar hasta 8 herramientas independiente o secuencialmente.

* Se puede controlar más de una herramienta al mismo tiempo (excepto para “Sequence”)

Ajuste del embrague	Cantidad objetivo
[Escala] 1	∞

Free mode

Ajuste del embrague	Cantidad objetivo
[Escala] 1	10

Ajuste del embrague	Cantidad objetivo
[Escala] 2	10

Sequence mode

* Si el controlador se apaga durante la fijación, ésta no se reanuda tras encender el controlador. La fijación vuelve a comenzar cuando se solicita por un dispositivo externo.
* Se activan los ajustes de salida de E/S.

Creación (ajuste) de un lote

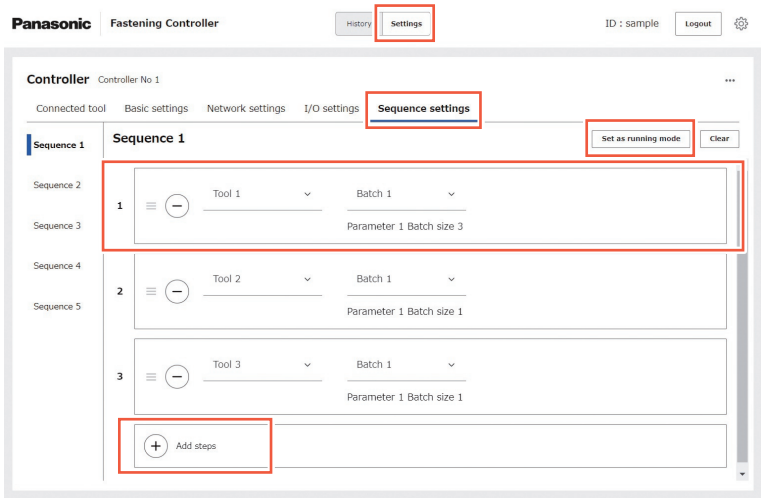

En la página superior (la página inicial de la pantalla de configuración), haga clic en [Settings] en la parte superior y seleccione la pestaña “Connected tool”. En la pantalla “Connected tool”, haga clic en el número de herramienta deseado.
En la pantalla del número de herramienta, seleccione la pestaña “Batch” para realizar los ajustes.
Seleccione un parámetro desde el menú desplegable “Parameter” y ajuste “Batch size” (cantidad a fijar, hasta 99). Haga clic en [Set] para ajustar los valores para “Repeat mode (Basic mode)”.
* Para cambiar la herramienta, seleccione la deseada en la lista de herramientas.
* Se pueden registrar hasta 5 lotes.

Lista de herramientas

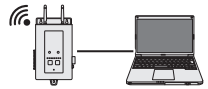

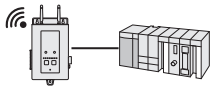

Creación (ajuste) de una secuencia

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior y seleccione la pestaña “Sequence settings”.
En la pantalla “Sequence settings”, seleccione una herramienta del menú desplegable “Tool” y ajuste “Batch”.
Haga clic en [Set as running mode] para ajustar los valores de “Repeat mode (Sequence mode)”.
* Se pueden registrar hasta 5 secuencias.
* Se pueden registrar hasta 10 pasos.
* Se puede utilizar la misma herramienta más de una vez en una secuencia.

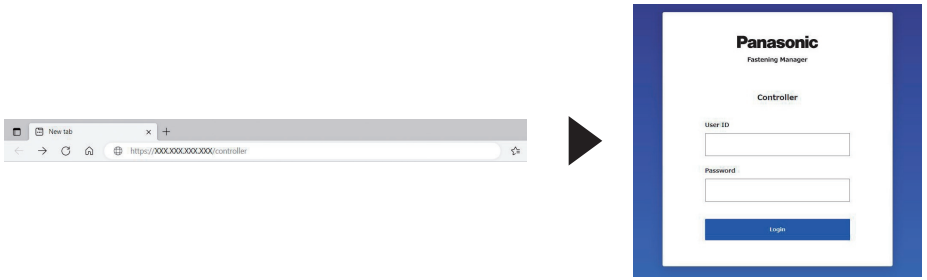

Tipos de dispositivos externos compatibles

El controlador es compatible con los siguientes tipos de dispositivos externos.

Función	PC para la configuración	PLC
Ilustración		
Método de comunicación	Ethernet	E/S
Protocolo de comunicación	http/https	— (Solo señal ON/OFF)
Uso principal	• Visualización y almacenamiento del historial de fijación • Cambio de los ajustes	• Emisión de las señales de finalización y fallo • Conmutación del orden de fijación
Datos que se pueden exportar	• Números de serie de las herramientas • Hora • Resultados de finalización y fallos • Valores de par, ángulos	• Resultados de finalización y fallos • Batch/sequence completa • Batch/sequence seleccionado • Herramienta activa
Cambio del orden de fijación	—	• Batch/sequence seleccionado
Otros	Se muestra en un navegador web. Se recomienda Microsoft Edge.	8 puertos para cada entrada y salida

Conexión al PC para configuración en una ubicación remota

El PC para la configuración con el certificado instalado puede conectarse remotamente a los controladores.
Tenga en cuenta que solo se acepta un acceso a la función de configuración a la vez.
Para conectarse, introduzca la dirección IP del controlador deseado en un navegador web. **Consulte P21**

Conexión a través de la E/S

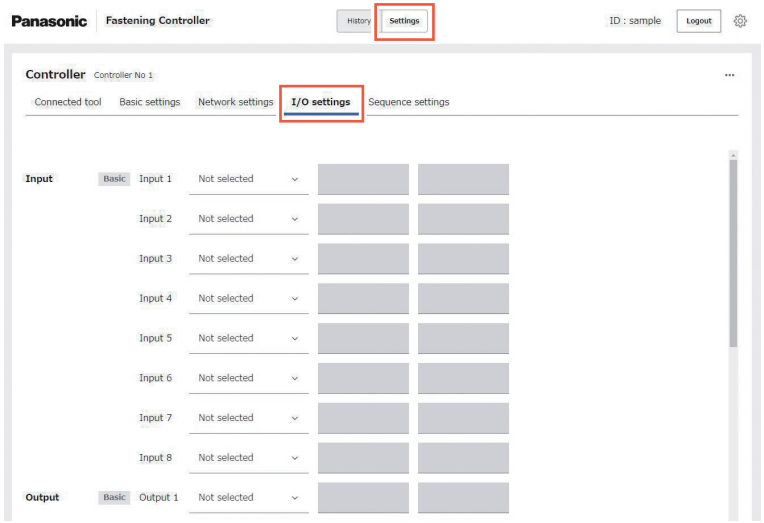

Puede asignar comandos compatibles a 8 puertos de entrada y 8 puertos de salida como desee.
Asígnelos en la pantalla “I/O settings”.
A continuación se indican los comandos que se pueden asignar a los puertos.

Entrada	Comando compatible
1	Batch (Herramienta 1 a 5) Sequence (1 a 5) Batch reset (1 a 8) Reset Suspend tool (1 a 8) Suspend controller
2	
3	
4	
5	
6	
7	
8	

Salida	Comando compatible
1	OK (Herramienta 1 a 8) NOK (Herramienta 1 a 8) Batch complete (Herramienta 1 a 5) Sequence complete (1 a 5) Tool active (Herramienta 1 a 8) Batch selected (Herramienta 1 a 5) Sequence selected (1 a 5)
2	
3	
4	
5	
6	
7	
8	

Ajuste de E/S

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior y seleccione la pestaña “I/O settings”.

* Es posible asignar un comportamiento o un evento aún no registrado. (Excepto para la selección de secuencia)

Comandos asignados a los puertos de entrada

A continuación se indican los comandos que se pueden asignar a los puertos de entrada. Se ejecuta el comando asignado cuando una señal de un dispositivo externo se introduce en uno de los puertos.

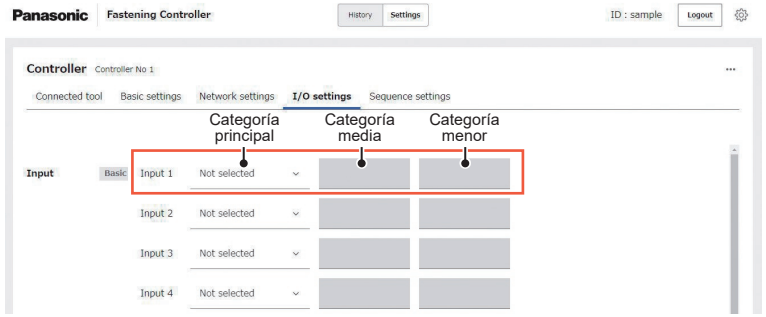

Categoría principal (comportamiento)	Categoría media (herramienta)	Categoría menor (N.º de lote, etc.)
Batch	Herramienta del 1 al 8	1-5
Sequence	—	1-5
Suspend tool*1	Herramienta del 1 al 8	—
Suspend controller*1	—	—
Batch reset	Herramienta del 1 al 8	—
Reset	—	—

*1 Habilitado solo mientras se mantiene la señal de entrada.

Notas cuando se introduce el comando “Suspend tool” o “Suspend controller”

- Mientras “Suspend controller” está activo, no se acepta ninguna orden de fijación.
- Para el número de herramienta con “Suspend tool” activo, no se acepta ninguna orden de fijación “Batch”.
- Para otros números de herramienta con “Suspend tool” activo, se acepta una orden de fijación “Batch”.
- Mientras “Suspend tool” está activo, no se acepta ninguna orden de fijación “Sequence”. En ese momento, el proceso continúa hasta llegar a la herramienta con “Suspend tool” activo.
- “Batch reset” y “Reset” son tratados de la misma forma que en una orden de sujeción.

Después de seleccionar un comportamiento en la categoría principal, seleccione una herramienta y, a continuación, un número (por ejemplo, número de lote) según sea necesario.

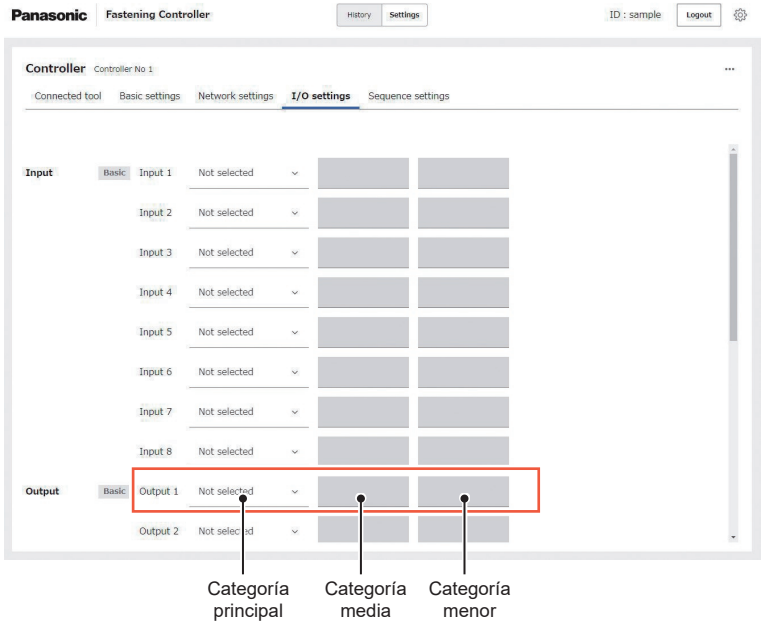

* No se realiza ninguna acción si se introduce una señal no asignada. (No ocurre ningún error)

Comandos asignados a los puertos de salida

A continuación se indican los comandos que se pueden asignar a los puertos de salida. Cuando se ha producido un evento relevante, el controlador envía una señal desde el puerto correspondiente a un dispositivo externo según lo especificado por el comando asignado.

Categoría principal (evento)	Categoría media (herramienta)	Categoría menor (N.º de lote, etc.)
OK	Herramienta del 1 al 8	—
NOK	Herramienta del 1 al 8	—
Batch complete	Herramienta del 1 al 8	1-5
Sequence complete	—	1-5
Tool active	Herramienta del 1 al 8	—
Batch selected	Herramienta del 1 al 8	1-5
Sequence selected	—	1-5

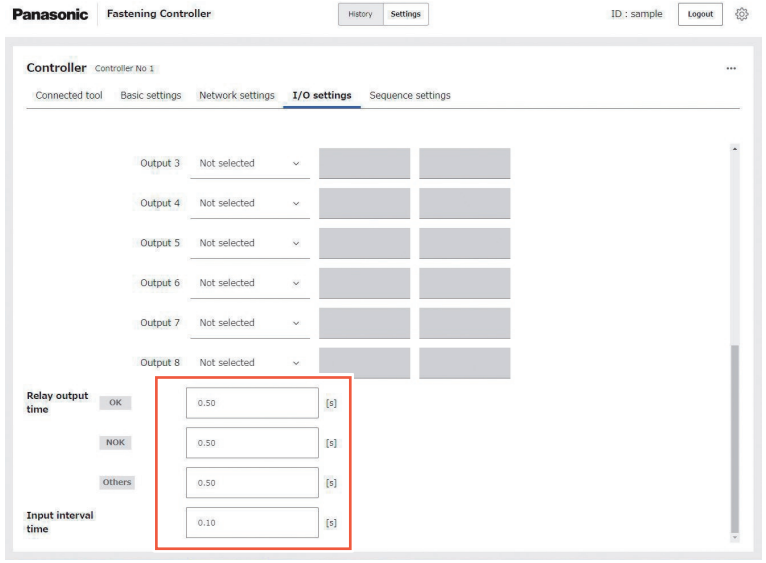

Después de seleccionar un evento en la categoría principal, seleccione una herramienta y, a continuación, un número (por ejemplo, número de lote) según sea necesario.

* Si el controlador se apaga mientras se ejecuta un comando de salida, el proceso no se reanuda una vez que el controlador se encienda. (Tenga en cuenta que se guardan los datos del historial de fijación).

Otros ajustes

Puede establecer otros ajustes relacionados con la E/S como se indica a continuación.

Relay output time (OK)

Seleccione el tiempo que debe transcurrir hasta que el relé emita una señal de finalización de la fijación.
[Predeterminado] 0.5 s
[Rango de ajuste] de 0.01 s a 10 s

Relay output time (NOK)

Seleccione el tiempo que debe transcurrir hasta que el relé emita una señal de fallo de fijación.
[Predeterminado] 0.5 s
[Rango de ajuste] de 0.01 s a 10 s

Relay output time (Others)

Seleccione el tiempo que debe transcurrir hasta que el relé emita una señal distinta de las de finalización de la fijación y fallo.
[Predeterminado] 0.5 s
[Rango de ajuste] de 0.01 s a 10 s

Input interval time

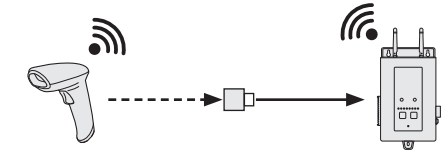

Seleccione el tiempo durante el cual no se cuentan (aceptan) las señales de entrada sucesivas.
Ajústelo para evitar el doble recuento causado por el ruido, etc.
[Predeterminado] 0.1 s
[Rango de ajuste] de 0.01 s a 10 s

CONEXIÓN AL LECTOR DE CÓDIGOS DE BARRAS

Esto solo es compatible con la versión de firmware 2.03.00 o posterior.
Para saber cómo actualizar el firmware, consulte “Actualización del firmware”.
Consulte P83

Configuración

Puede conectar un lector de códigos de barras comercial para guardar la información de lectura y vincularla a los datos del historial de fijación.
Puede utilizarse para vincular productos al historial de fijaciones.

Conexión	Método de comunicación	Nota
	Inalámbrico de 2.4 GHz o Bluetooth	• Lee la información del producto (como los números de serie de fabricación) y la refleja en los datos del historial.

No utilice lectores de códigos de barras USB con cable.

Dispositivos aplicables

Los siguientes lectores de códigos barras son compatibles con el controlador.

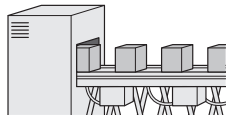

Elemento	Descripción
Interfaz de comunicación	USB-HID
Disposición del teclado	EE. UU.
Caracteres compatibles	Caracteres alfanuméricos, símbolos **Códigos compatibles** / **Descripción del código (información anticipada)** Números: 0-9 Caracteres alfabéticos: A-Z, a-z Símbolos: !"#$%&'()*+,-./:;<=>?@[¥]^_`{|}~
Códigos 1D aceptables	JAN, EAN, UPC, CODE39, ITF
Códigos 2D aceptables	Código QR Modelo 1/2, Micro QR
Número aceptable de caracteres	100 caracteres (máximo)

Modelos recomendados
Bluetooth: Honeywell Xenon XP 1952g, ZEBRA DS2278

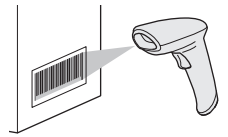

Flujo del proceso de trabajo

Siguiendo el procedimiento que se indica a continuación, puede guardar la información del producto y vincularla a los datos del historial de fijación.

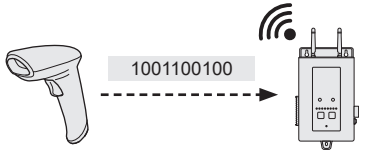

1 **Los productos fluyen a través de la línea.**

2 **Lea la información del producto con un lector de códigos de barras.**

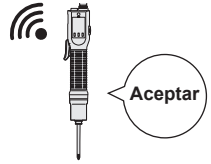

3 **La información leída por el lector de códigos de barras se envía al controlador.**

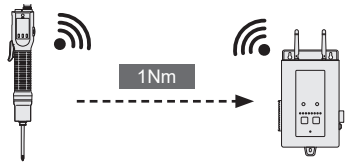

4 **Se envía una orden de fijación desde el controlador a las herramientas.**
* Este paso puede suceder antes o después del paso 3.

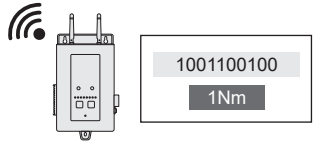

5 **Realice los trabajos de fijación utilizando las herramientas.**

6 **El resultado del trabajo de fijación (como el par de apriete) se envía al controlador.**

7 **La información de lectura conservada en el controlador y el resultado del trabajo de fijación se vinculan entre sí y se guardan en la memoria.**

8 **Repita los pasos 5 a 7 hasta que se actualice la información de lectura del código de barras (o hasta que finalice el trabajo).**

Procedimiento de ajuste

El procedimiento de ajuste varía en función de las especificaciones del lector de códigos de barras.

■ Método inalámbrico de 2.4 GHz (con receptor inalámbrico dedicado)

Conéctelo siguiendo el procedimiento que se indica a continuación.
(Los pasos 2 a 3 no son necesarios).

■ Método Bluetooth (sin receptor inalámbrico dedicado)

Prepare un receptor inalámbrico Bluetooth por separado y conéctelo siguiendo el procedimiento que se indica a continuación.

Receptores inalámbricos Bluetooth disponibles

- Versión de Bluetooth: Compatible con la versión 4.0
- Compatible con el SO Linux (solo aquellos que no requieren controladores dedicados)

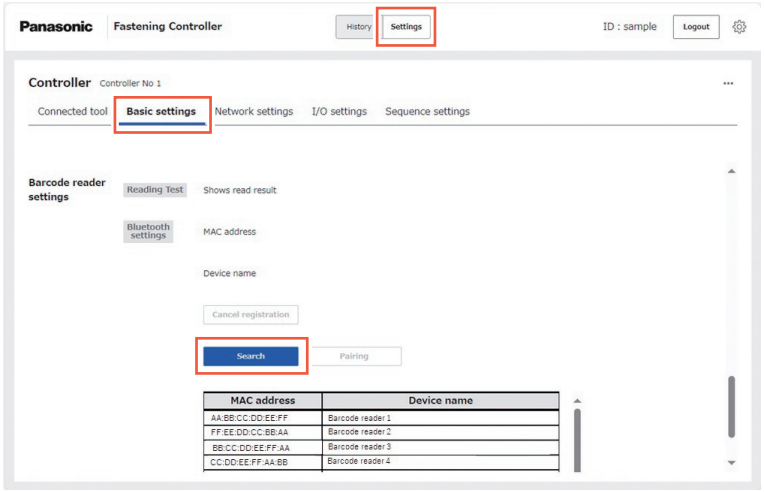

Modelos recomendados

EDIMAX BT-8500

1 Conecte el receptor inalámbrico del lector de códigos de barras al puerto USB-A del controlador.

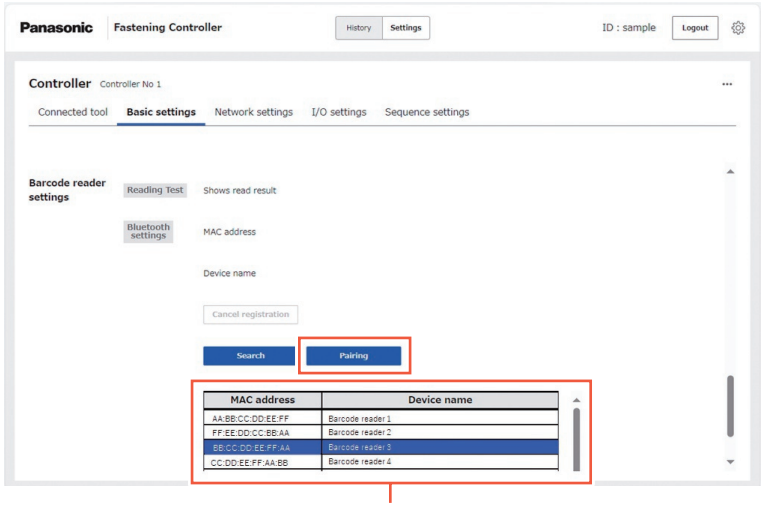

2 En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior, seleccione la pestaña “Basic settings” y haga clic en “Search” desde “Barcode reader settings”.

* Ponga también el lector de código de barras en el modo de emparejamiento según sus especificaciones.

3 Seleccione el lector de códigos de barras a conectar desde la lista de nombres de dispositivos y pulse “Pairing”.

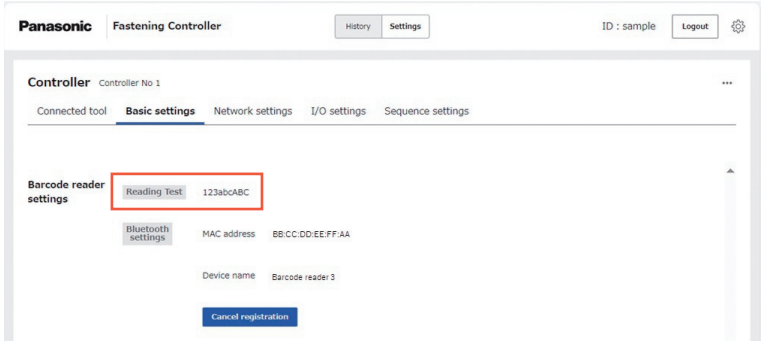

Se emparejará con el lector de códigos de barras.

Lista de nombres de dispositivos

- El estado de búsqueda se mantiene durante unos 10 segundos.
- Una vez registrado el emparejamiento, se volverá a conectar automáticamente la segunda y siguientes veces.
  * En función de las especificaciones del lector de códigos de barras, podría ser necesario volver a realizar el emparejamiento.
  * Si el emparejamiento falla, cancele el emparejamiento en el controlador y, a continuación, vuelva a intentarlo.

4 Lea la información del código de barras y compruebe que la información se muestra correctamente en “Reading Test”.

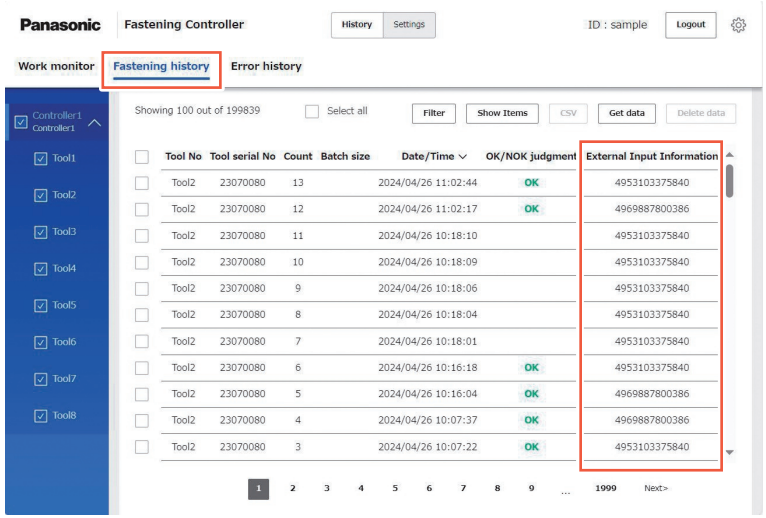

5 Realice los trabajos de fijación con el lector de códigos de barras que ha leído la información.

Los datos leídos se mostrarán en “External Input Information” de los datos del historial de fijación.

Notas durante el funcionamiento

- La “Lámpara de fijación OK” parpadeará en el estado de recepción de la lectura del código de barras.
  Durante el funcionamiento, compruebe que el estado de recepción de la lectura del código de barras está activo antes de trabajar.

Notas sobre los valores de lectura

Los valores leídos son:

- Reflejado en los resultados de trabajo de todas las herramientas registradas por el controlador tras la lectura.
- No se retienen cuando el controlador está desactivado.
- Sobrescritos por la nueva información leída.
- Retenidos hasta que se cumplan las siguientes condiciones.

Running mode	Condiciones de retención de datos
Free mode	Los datos se conservan hasta que se actualizan.
Repeat mode (Basic mode)	Hasta la finalización de “Batch”. O los datos se conservan hasta que se actualizan.
Repeat mode (Sequence mode)	Hasta la finalización de “Sequence”. O los datos se conservan hasta que se actualizan.
External control mode * Control mediante E/S	Hasta la finalización de “Batch”/“Sequence”. O los datos se conservan hasta que se actualizan.

- Dependiendo de las especificaciones del dispositivo del lector de códigos de barras que esté utilizando, es posible que se requieran ajustes detallados para la conexión con el controlador. Antes de utilizar esta función, lea atentamente el Manual de instrucciones y los ajustes de su dispositivo.
- Si los datos se leen de forma continua en 0.5 segundos, la información se consolidará; por lo tanto, espacie las lecturas.
- Solo un lector de códigos de barras puede funcionar simultáneamente con el controlador. La conexión de varios lectores puede provocar un mal funcionamiento.

Licencias

Los diversos nombres, nombres de empresas y nombres de productos contenidos en este manual son marcas comerciales o marcas comerciales registradas de sus respectivas empresas. En este documento se han omitido algunos símbolos de TM o ®.

LÁMPARAS INDICADORAS Y ZUMBADOR

Lámparas indicadoras y un zumbador

Las lámparas indicadoras y el zumbador muestran el estado del controlador.

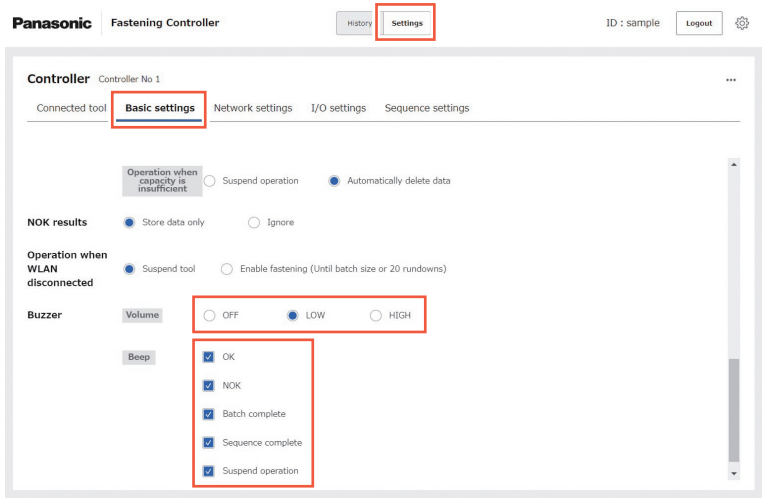

> **⚠ PRECAUCIÓN**
> No apague el interruptor de alimentación mientras la lámpara esté parpadeando. Es posible que se requiera la inicialización.

Estado	Lámpara indicadora	Zumbador
Alimentación encendida	Lámpara de alimentación (amarilla) Permanece encendida	–
Una herramienta a emparejar seleccionada	Lámpara de comunicación (azul) Parpadea lentamente	–
Emparejamiento establecido	Lámpara de comunicación (azul) Parpadea rápidamente	–
Emparejamiento completado	Lámpara de comunicación (azul) Permanece encendida	Un pitido corto ■
Emparejamiento no establecido	Lámpara de comunicación (azul) Parpadea muy lentamente	–
Emparejamiento desconectado	Lámpara de comunicación (azul) Apagada	–
Finalización de la fijación	Lámpara OK (verde) Permanece encendida	Un pitido corto ■
Fallo de fijación	Lámpara NOK (roja) Permanece encendida	Un pitido largo ▬
Finalización del Batch	Lámpara OK (verde) Parpadea dos veces	Dos pitidos cortos ■ ■
Secuencia completa	Lámpara OK (verde) Parpadea tres veces	Tres pitidos cortos ■ ■ ■
Error	Lámpara de alimentación (amarilla) Parpadea	Dos pitidos largos ▬ ▬

Ajuste del zumbador

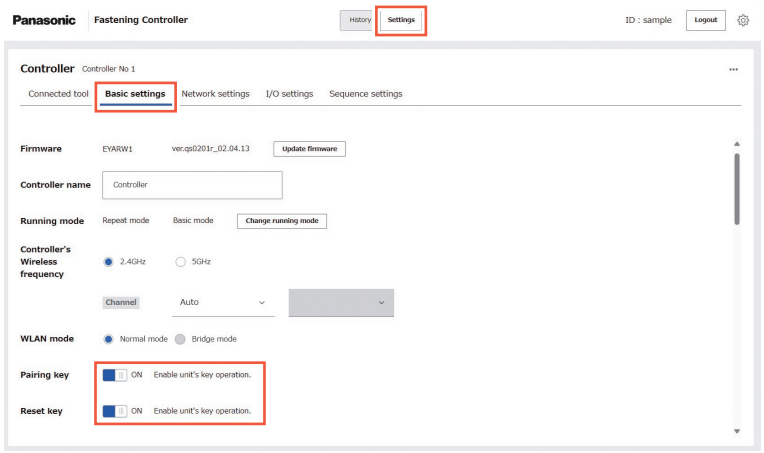

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior y seleccione la pestaña “Basic settings”.
En “Buzzer”, ajuste “Volume” y “Beep”.

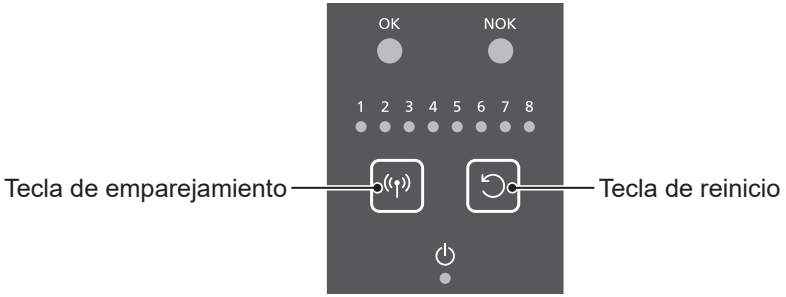

Elemento	Descripción
Volume	3 niveles (OFF / LOW / HIGH) (LOW: 75 dB, HIGH: 85 dB)
Beep	Seleccionado en PC para la configuración (OK / NOK / Batch complete / Sequence complete / Suspend operation)

AJUSTE DE LAS TECLAS DE FUNCIONAMIENTO

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior y seleccione la pestaña “Basic settings”.
En “Pairing key” y “Reset key”, puede deshabilitar Pairing key y Reset key en el panel de control.

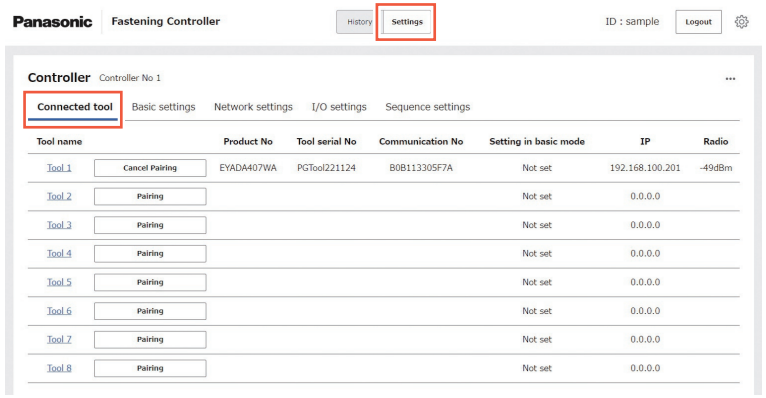

Pairing key
Active o desactive la tecla Emparejamiento en el panel de control. [Predeterminado] ON [Rango de ajuste] ON (habilitado) / OFF (deshabilitado)
Reset key
Active o desactive la tecla Reiniciar en el panel de control. [Predeterminado] ON [Rango de ajuste] ON (habilitado) / OFF (deshabilitado)

COMPROBACIÓN DE LA INFORMACIÓN DE LAS HERRAMIENTAS CONECTADAS

En la página superior (la página inicial de la pantalla de configuración), haga clic en [Settings] en la parte superior y seleccione la pestaña “Connected tool”.
Puede ver la información y el estado de las herramientas conectadas al controlador.

A continuación se muestran los elementos visualizados.

Tool name
Se visualiza el número de la herramienta registrada (del 1 al 8).
Tool serial No
Puede ajustar y visualizar la identificación de la unidad de la herramienta. Predeterminado: 8 dígitos del número de serie (2 dígitos del año de fabricación + 2 dígitos del mes + 4 dígitos del lote de producción)
Product No
Se muestra el número de producto de la herramienta.
Communication No
Se muestra la identificación de la unidad (dirección MAC) de la parte de comunicación de la herramienta.
Setting in basic mode
Se muestra un comportamiento cuando Running mode está ajustado en “Repeat mode (Basic mode)”.
IP
Se muestra la dirección IP de la herramienta.
Radio
Se muestra la intensidad de la señal de radio (RSSI) recibida de la herramienta. * Se muestra la fuerza en la última comunicación.

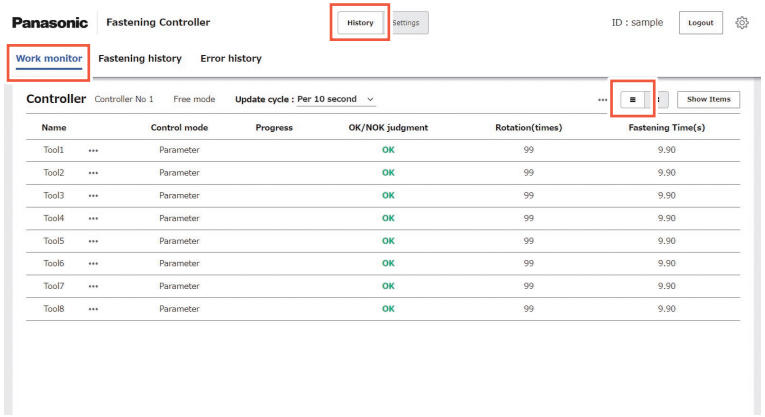

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [History] en la parte superior y seleccione la pestaña “Work monitor”.
Se muestran los últimos registros del historial por herramienta. Puede utilizarlos para trabajar consultando los resultados del trabajo.

* Más de un PC para la configuración puede mostrarlos al mismo tiempo. (Hasta 8 accesos. Se aceptan múltiples accesos desde la misma cuenta).
* Para iniciar sesión con más de una cuenta, se recomienda el uso de diferentes PC.
* Para usar más de una cuenta en el mismo PC, se recomienda el uso de diferentes navegadores web.
* Solo se acepta un acceso a la función de configuración a la vez.

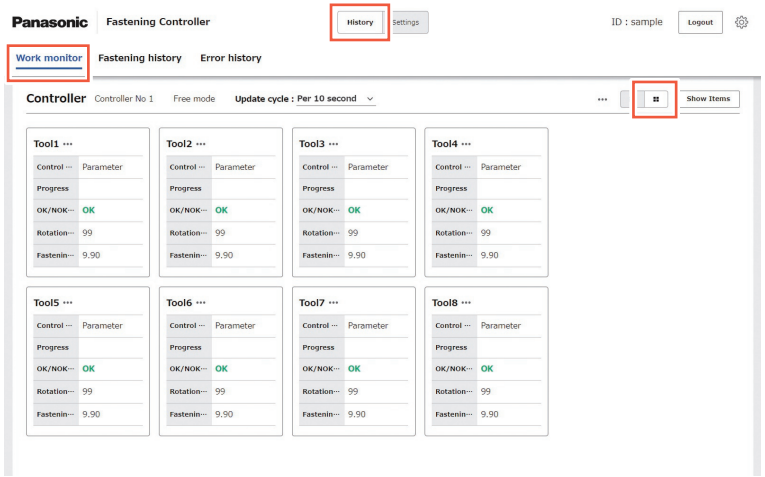

Cambio del formato de visualización

Puede seleccionar “Vista de lista” y “Vista de cuadrícula”.
Use el icono de vista en la parte superior derecha de la pantalla.

■Vista de lista

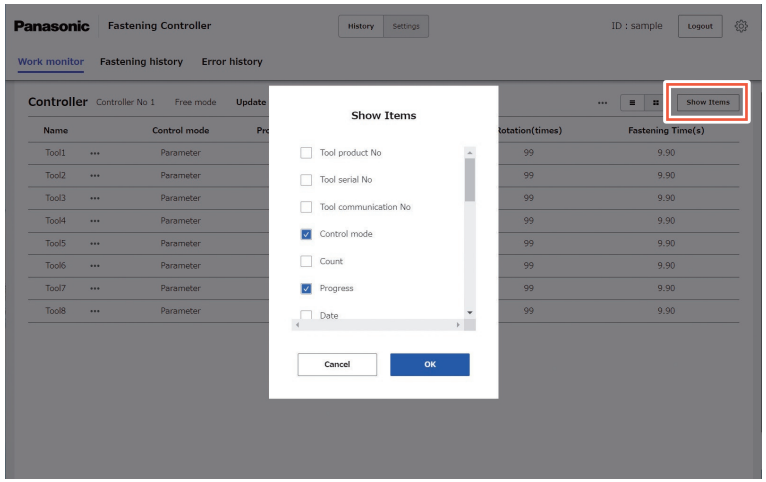

■Vista de cuadrícula

Selección de elementos a mostrar

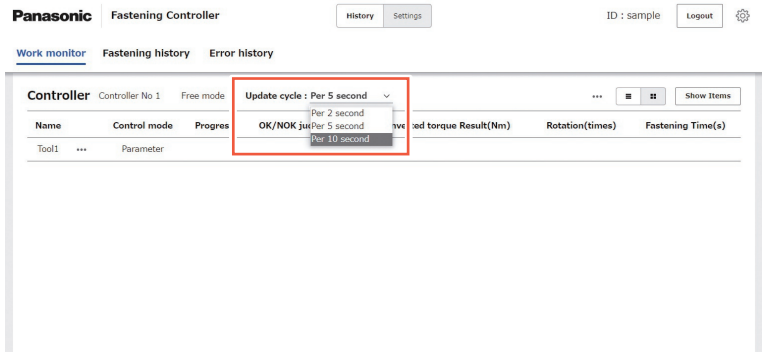

Seleccione los elementos que desea mostrar utilizando “Show Items”.

* En “Vista de lista”, puede desplazarse hacia abajo y seleccionar muchos elementos para mostrarlos.
* En “Vista de cuadrícula”, puede mostrar hasta 5 elementos.

Selección del ciclo de actualización de la pantalla

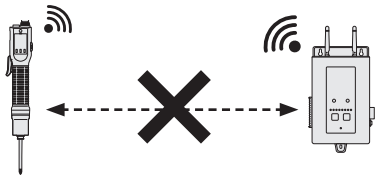

Puede establecer la actualización automática de la pantalla.
Seleccione el ciclo de actualización de “Per 2 second”, “Per 5 second” y “Per 10 second” como se indica a continuación.

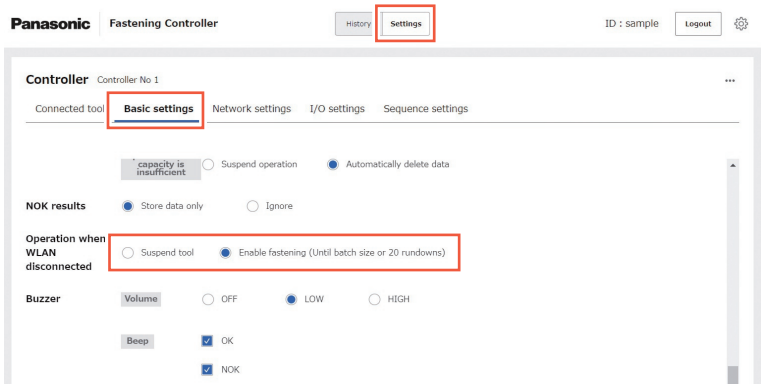

* Si se conecta un gran número de herramientas o PC para la configuración, se recomienda el ciclo de actualización de “Per 10 second”. (Puede tardar algún tiempo en procesar los datos).

COMPORTAMIENTO DE LAS HERRAMIENTAS CON LA COMUNICACIÓN INALÁMBRICA DESCONECTADA

Puede continuar la fijación con los mismos parámetros en caso de interrupción temporal de la comunicación inalámbrica entre una herramienta y el controlador.
Los resultados del trabajo de las herramientas durante la desconexión de la comunicación inalámbrica se notifican al controlador “Cuando la herramienta se vuelve a conectar” o “En la primera fijación tras recuperar la conexión de la herramienta”.

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior y seleccione la pestaña “Basic settings”.
Si ajusta “Operation when WLAN disconnected” en “Suspend tool”, la fijación en curso finaliza tras la interrupción, pero no se realiza ninguna otra fijación.
Si ajusta “Enable fastening”, no se realizan más fijaciones una vez que la cantidad fijada ha alcanzado el límite superior.

Con “Enable fastening”, las cantidades del límite superior por modo son las siguientes.

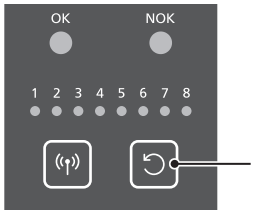

Modo		Comportamiento
Free mode		Continúa fijando hasta 20 tornillos
Repeat mode	Basic mode	Continúa apretando hasta el final del lote o hasta 20 tornillos
	Sequence mode	Continúa fijando hasta el final del lote o hasta 20 tornillos * Herramientas distintas de las afectadas siguen funcionando con normalidad.
External control mode		Continúa apretando hasta el final del lote o hasta 20 tornillos

REINICIO DEL RECUENTO DURANTE EL FUNCIONAMIENTO

Para cambiar los ajustes, detenga el control de fijación mediante el controlador si está en curso. Aparece un cuadro de diálogo de confirmación cuando se aplica el cambio.
Puede reiniciar las cantidades contadas por “Uso de la tecla en la unidad” o “Ajuste en la pantalla de ajustes”.
* Esto no se aplica a “Free mode”.

Uso de la tecla en la unidad

Mantenga pulsada la tecla Reiniciar en el controlador 3 segundos o más.
* Se reinician las cantidades de todas las herramientas activas.

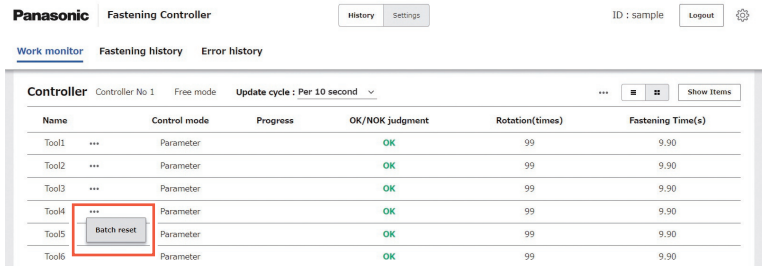

Ajuste en la pantalla de ajustes

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [History] en la parte superior y seleccione la pestaña “Work monitor”.

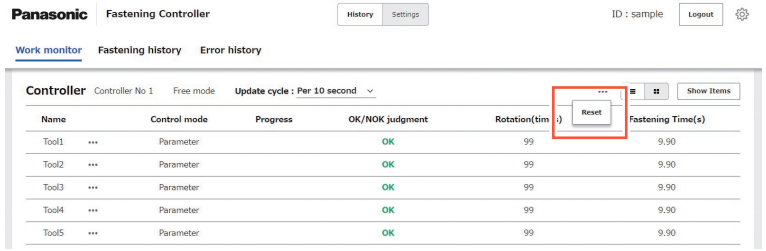

■ Para restablecer las cantidades por herramienta

En la pantalla “Work monitor”, haga clic en ··· (tecla de opción de la herramienta) y luego en [Batch reset] del numero de herramienta deseado.

■ Para restablecer las cantidades de todas las herramientas de forma colectiva

En la pantalla “Work monitor”, haga clic en ··· (tecla de opción del controlador) y luego en [Reset] en la parte superior derecha.

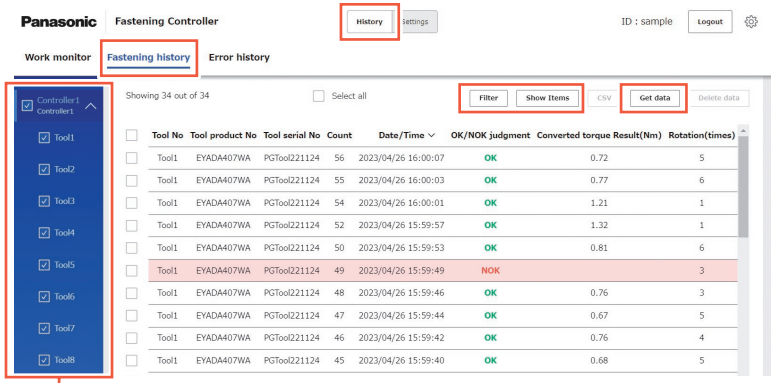

* En el Sequence mode, las cantidades se restablecen hasta la primera herramienta.

Visualización de los datos del historial de fijación

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [History] en la parte superior y seleccione la pestaña “Fastening history”.
Puede ver los datos del historial de fijación enviados desde las herramientas al controlador.
Para visualizar los datos, seleccione el controlador y las herramientas deseados en la lista de herramientas a la izquierda y haga clic en [Get data] en la parte superior derecha.
Los registros del historial de fijación se muestran del más reciente al más antiguo.

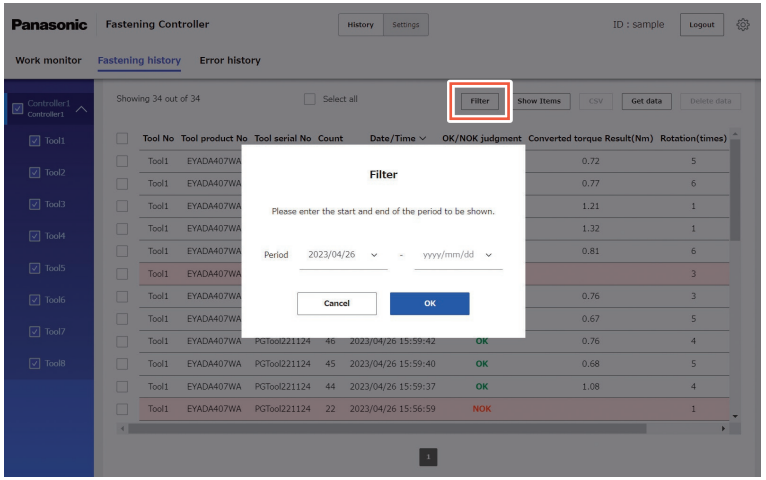

* Para el contenido de los elementos del historial de fijación, consulte el Manual de instrucciones de la herramienta.

Lista de herramientas

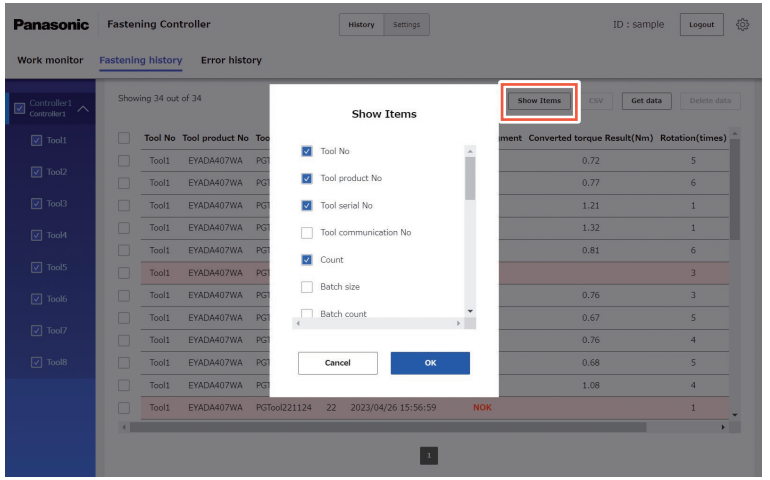

■ Extracción de los registros del historial de fijación por período de tiempo

Haga clic en [Filter] y especifique el período de tiempo para limitar los registros del historial de fijación a visualizar.

■ Elementos de ajuste a visualizar

Para cambiar los elementos visualizados, haga clic en [Show Items] y seleccione los elementos deseados.

Capacidad para los datos del historial de fijación

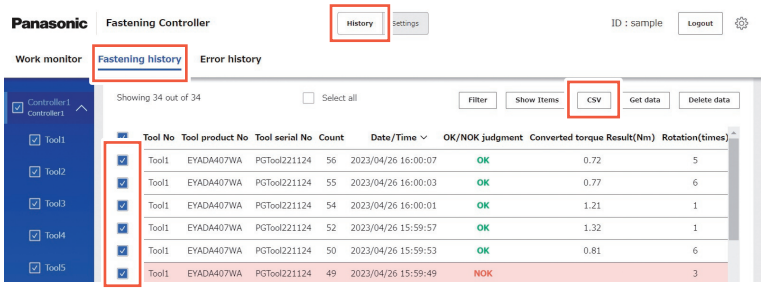

El controlador puede almacenar un máximo de unos 200 000 registros del historial de fijación.
Suspende el funcionamiento o borra automáticamente los registros (sobrescribiéndolos) si recibe más registros.
Se recomienda exportar periódicamente los registros en formato CSV según sea necesario consultando la guía que figura a continuación.

■ Tiempo estimado para alcanzar la plena capacidad de almacenamiento

	Cantidad por día por herramienta		
Número de herramientas	1 000	3 000	5 000
2	Aproximadamente 100 días	Aproximadamente 33 días	Aproximadamente 20 días
4	Aproximadamente 50 días	Aproximadamente 16 días	Aproximadamente 10 días
8	Aproximadamente 25 días	Aproximadamente 8 días	Aproximadamente 5 días

Exportación de los datos del historial de fijación en formato CSV

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [History] en la parte superior y seleccione la pestaña “Fastening history”.
Seleccione los registros deseados y haga clic en [CSV].
Los registros del historial de fijación se exportan en formato CSV.
Los datos exportados incluyen todos los elementos de cada herramienta, independientemente de la configuración de “Show Items”.

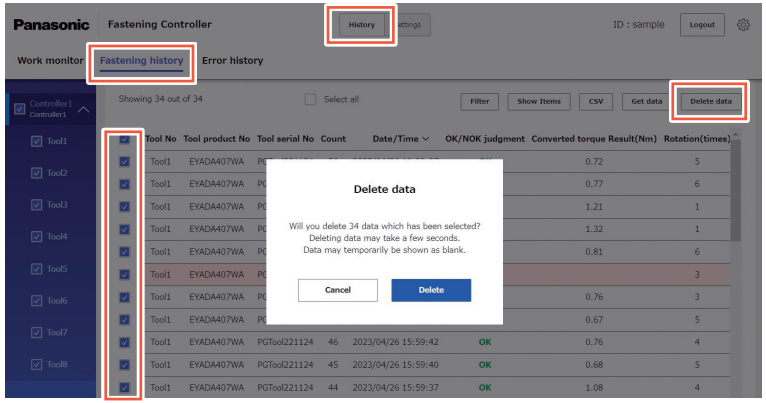

Puede seleccionar entre “Decimal point is a period, delimiter is a comma” y “Decimal point is a comma, delimiter is a semicolon”.

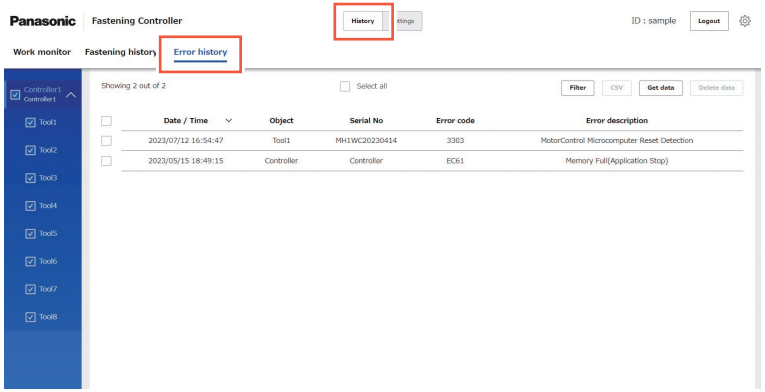

Borrado de los datos del historial de fijación

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [History] en la parte superior y seleccione la pestaña “Fastening history”.
Seleccione los registros deseados y haga clic en [Delete data].
Se borran los registros del historial de fijación.

Visualización del historial de errores

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [History] en la parte superior y seleccione la pestaña “Error history”.
Se muestra el historial de errores que se han producido.

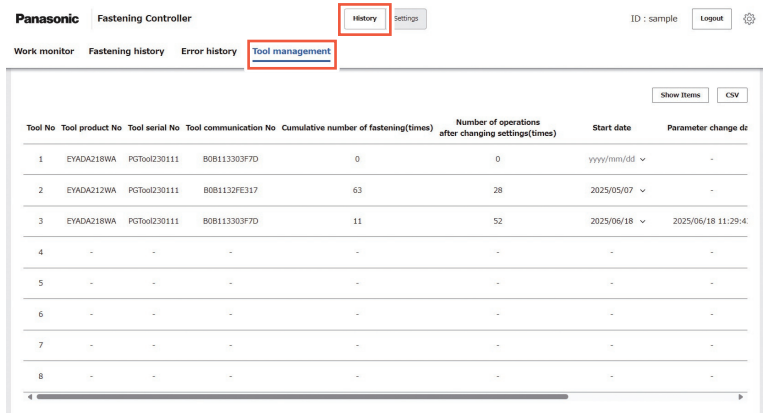

A continuación se muestran los elementos visualizados.
* Para el contenido del error, consulte “CÓDIGO DE ERROR”. **Consulte P92**

Date / Time
Se muestran la fecha y la hora de la ocurrencia del error.
Object
Se muestra el dispositivo (e controlador o cualquiera de las herramientas del 1 al 8) que causa un error.
Serial No
Se muestra el número de serie del dispositivo (el controlador o cualquiera de las herramientas 1 a 8) que causa un error.
Error code
Se visualiza un código de error que ha ocurrido.
Error description
Se muestra el contenido de un error que se ha producido.

Visualización de elementos de gestión

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [History] en la parte superior y seleccione la pestaña “Tool management”.

Puede ver los elementos de gestión de cada “Tool No”.

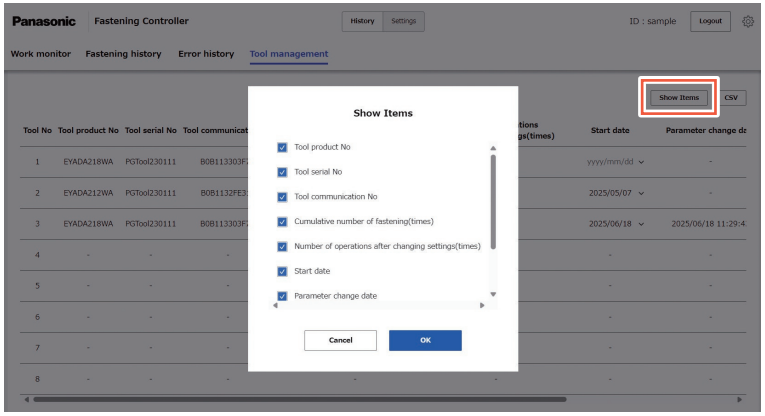

A continuación se muestran los elementos visualizados.
La información más reciente se puede comprobar en pantalla.
Cada elemento se muestra en función de los datos de resultados de trabajo de la herramienta.
Tenga en cuenta que toda la información se borrará cuando se sustituya la herramienta o se empareje una nueva herramienta.
* La información no se borra cuando se cancela el emparejamiento entre el controlador y la herramienta.

Tool product No
Muestra el número de producto de la herramienta emparejada.
Tool serial No
Muestra la información de identificación individual de la herramienta.
Tool communication No
Se muestra la identificación de la unidad (dirección MAC) de la parte de comunicación de la herramienta.
Cumulative number of fastening (times)
Muestra el número acumulado de operaciones de fijación realizadas por la herramienta.
Number of operations after changing settings (times)
Muestra el número acumulado de operaciones después de cambiar la configuración de la herramienta.

Start date
Establece la fecha de inicio de uso de la herramienta. La configuración solo se puede realizar con una cuenta de administrador. [Valor de ajuste] De 0100/01/01 a 9999/12/31
Offset change date
Muestra la fecha y hora en la que se cambió la configuración de la herramienta, incluyendo “Offset” “Slope” u “Offset” “Intercept”.
Parameter change date
Muestra la fecha y hora en la que se cambió la configuración de la herramienta.
Changed parameter No
Muestra el número de parámetro cambiado. También se mostrará en este campo si se cambian los “Device settings”.
Cumulative fastening time (h)
Muestra el tiempo de trabajo acumulado de la herramienta.
Cumulative pulsing time (h)
Muestra el tiempo de trabajo acumulado que implica la pulsación de la herramienta.

■ Elementos de ajuste a visualizar

Para cambiar los elementos visualizados, haga clic en [Show Items] y seleccione los elementos deseados.

Configure la fecha de inicio de uso de la herramienta

* Esta operación solo se puede realizar con una cuenta de administrador.

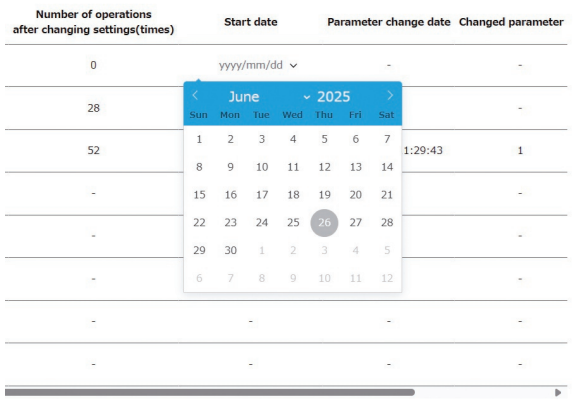

Consulte P19

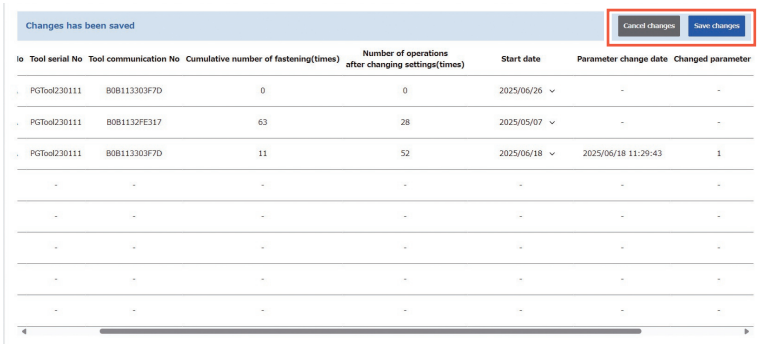

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [History] en la parte superior y seleccione la pestaña “Tool management”.

Haga clic en el elemento “Start date” de cada herramienta.
La fecha de inicio de uso se puede establecer desde la interfaz de usuario de tipo calendario.

Después de seleccionar la fecha de inicio, haga clic en “Save changes” para confirmar los cambios.
Antes de la confirmación, puede modificar la “Start date” o cambiar la “Start date” de otras herramientas.

Hacer clic en “Cancel changes” permite volver al estado anterior.

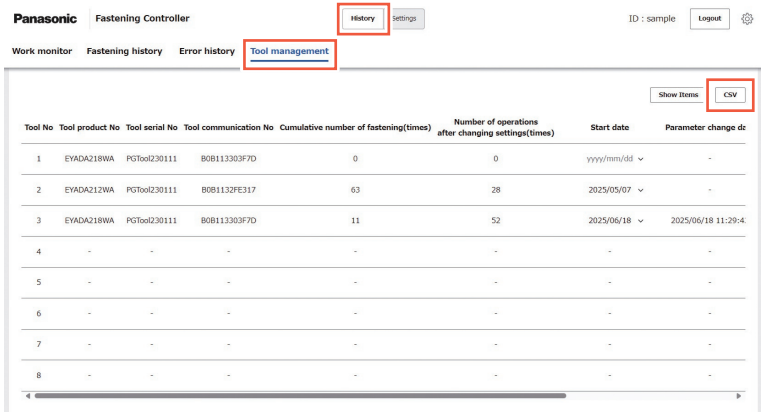

Exportar datos de gestión de la herramienta en formato CSV

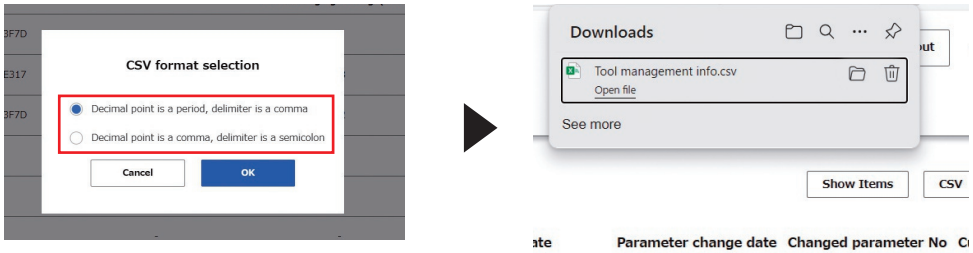

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [History] en la parte superior y seleccione la pestaña “Tool management”.

Haga clic en “CSV”.
Los datos mostrados en la pantalla se exportarán en formato CSV.

Los datos exportados incluyen todos los elementos de cada herramienta, independientemente de la configuración de “Show Items”.

El formato CSV se puede seleccionar entre “Decimal point is a period, delimiter is a comma” o “Decimal point is a comma, delimiter is a semicolon”.

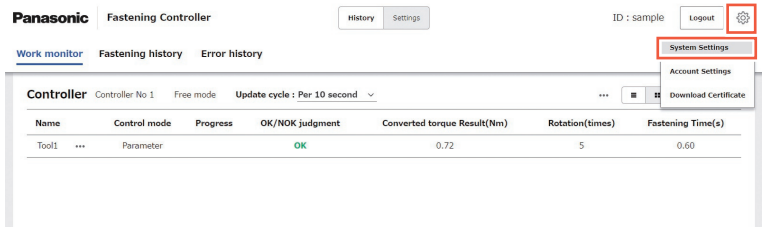

Cambio del idioma

Puede seleccionar “Japanese” o “English”.

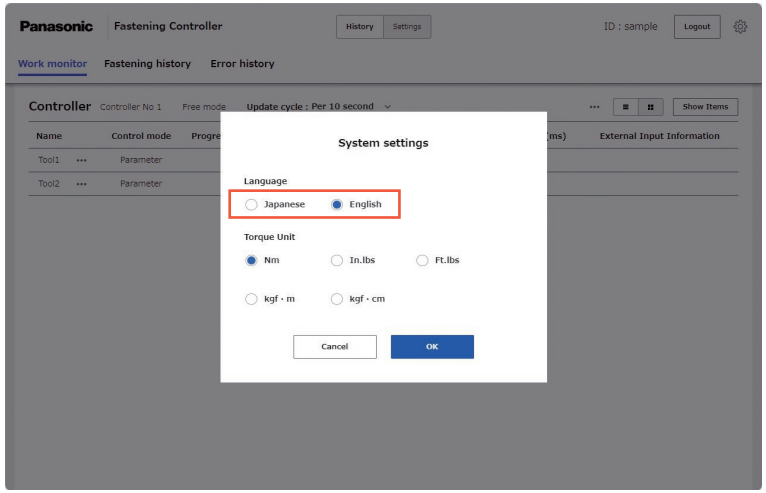

1 En la página superior (la página inicial de la pantalla de ajustes), haga clic en la tecla de opción de la parte superior derecha y seleccione “System Settings”.

Se visualiza la pantalla “System settings”.

2 Seleccione el idioma en la pantalla “System settings”.

Puede seleccionar “Japanese” o “English”.

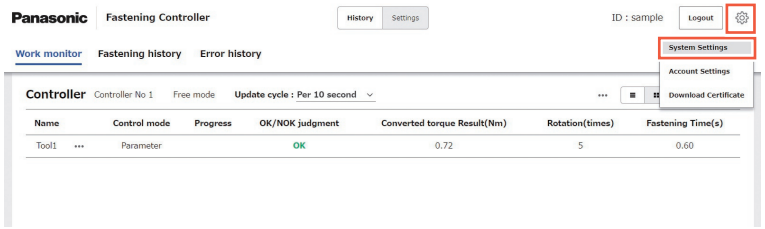

Cambio de la unidad de par de torsión a visualizar

Puede seleccionar “Nm”, “In.lbs”, “Ft.lbs”, “kgf·m” o “kgf·cm”.

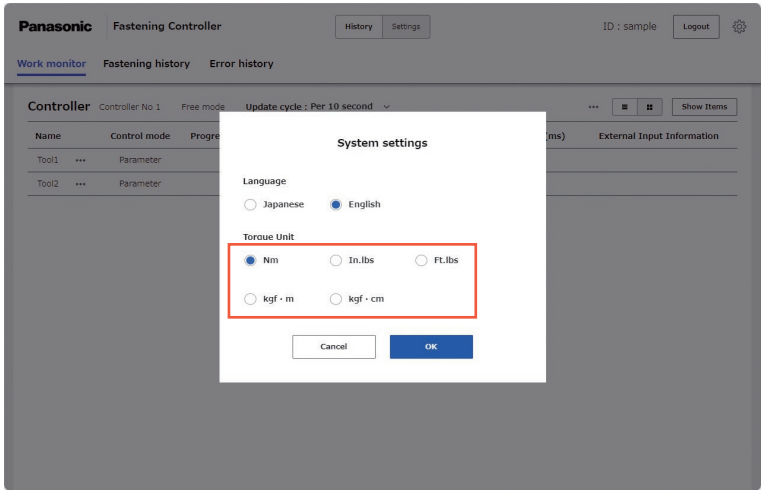

1 En la página superior (la página inicial de la pantalla de ajustes), haga clic en la tecla de opción de la parte superior derecha y seleccione “System Settings”.

Se visualiza la pantalla “System settings”.

2 Seleccione la unidad del par en la pantalla “System settings”.

Puede seleccionar la unidad de par de entre “Nm”, “In.lbs”, “Ft.lbs”, “kgf·m” y “kgf·cm”.

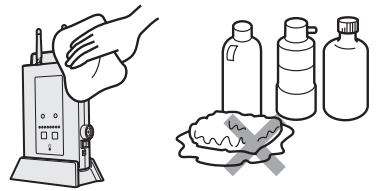

* Las pantallas de algunas unidades pueden experimentar correcciones numéricas.

Cómo limpiar

Limpieza con un paño suave

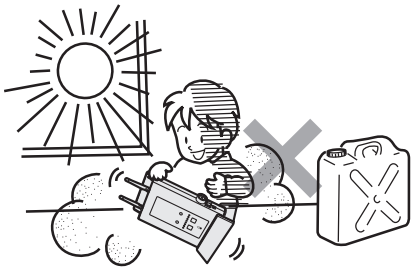

No utilice paños húmedos, diluyente, alcohol, bencina u otros líquidos volátiles.
(Causa de decoloración, deformación o grietas)

Cómo almacenar

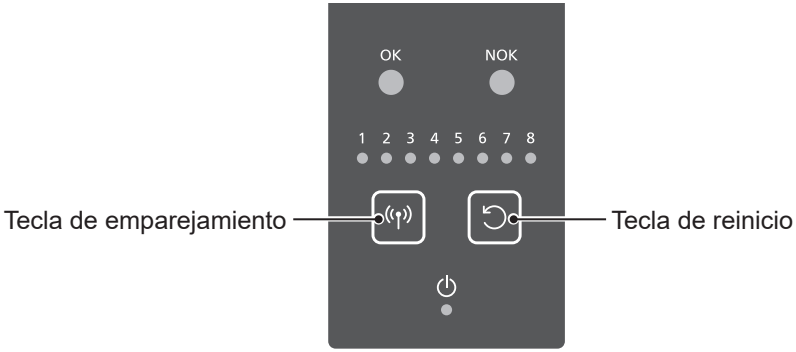

Evite las siguientes condiciones durante el almacenamiento.

- Cabina del coche u otros lugares calientes
- Lugares expuestos a la luz solar directa
- Lugares expuestos al agua o a la humedad
- Lugares con mucho polvo o cuerpos extraños
- Lugares al alcance de los niños
- Lugares con gasolina u otros productos inflamables
- Lugares con riesgo de caída

Inicialización del controlador

Para inicializar (restablecimiento de fábrica) el controlador, mantenga pulsadas simultáneamente la tecla Emparejamiento y la tecla Reiniciar 10 segundos o más.

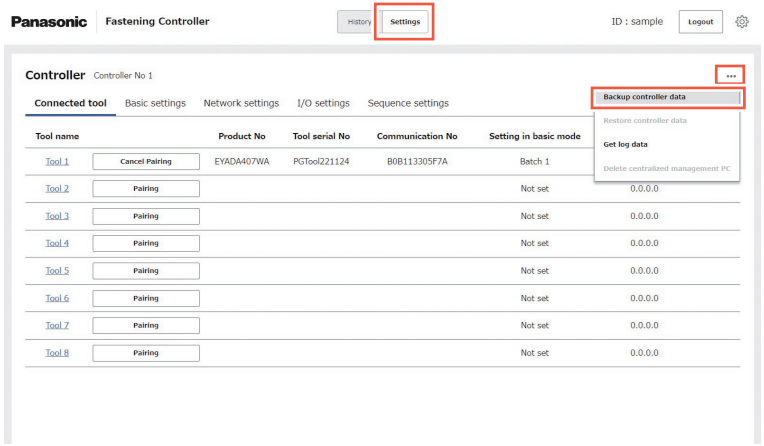

* Puede tardar más de 5 minutos dependiendo del uso de almacenamiento.
* No puede realizarla cuando las teclas de la unidad están deshabilitadas.

Consulte P64

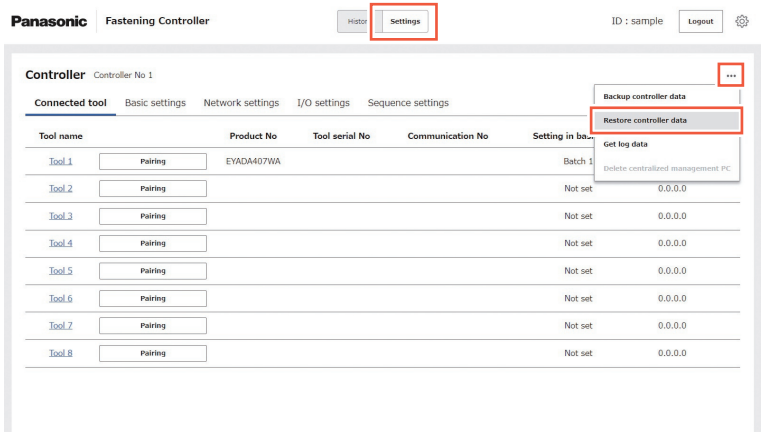

Realización de una copia de seguridad de los ajustes

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior.
Haga clic en ··· (tecla de opción del controlador) y luego en [Backup controller data].
Puede realizar una copia de seguridad de los ajustes del controlador y de las herramientas.
* No se realiza una copia de seguridad de los datos del historial de fijación. Expórtelos en formato CSV si es necesario.

Restauración de los ajustes

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior.
Haga clic en ··· (tecla de opción del controlador) y luego en [Restore controller data].
Puede restaurar los ajustes del controlador y las herramientas desde su copia de seguridad.
* No puede realizarlo durante el control de fijación.
* No puede realizarlo al registrar el emparejamiento con herramientas. Cancele el emparejamiento.

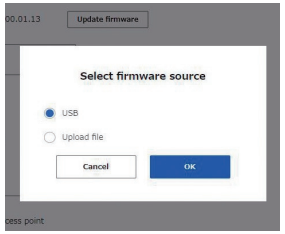

Actualización del firmware

Puede actualizar el firmware del controlador y la parte de comunicación de la herramienta.

Utilice una de las siguientes opciones para actualizar el firmware.
① Uso del puerto USB del controlador.
* No se puede utilizar una memoria USB con bloqueo por contraseña.
* Guarde solo archivo de datos de firmware directamente en una unidad flash USB sin crear una carpeta.

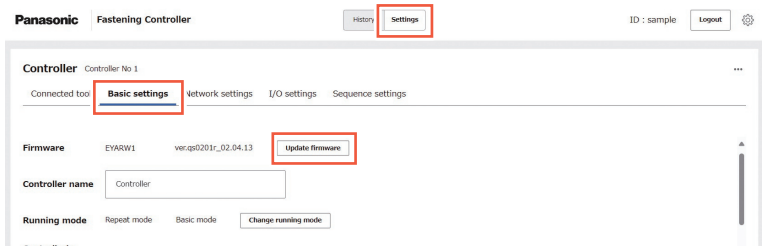

② Escritura desde el PC para la configuración.
* Al seleccionar “Upload file”, seleccione el archivo de datos de firmware guardado en el PC en la pantalla de selección.

Para obtener la versión actual del firmware, visite nuestro sitio web. Consulte P2
O póngase en contacto con nuestra persona de ventas.

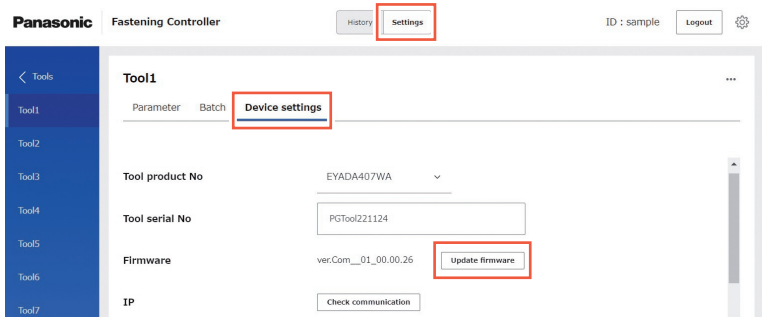

■ Para el controlador

En la página superior (la página inicial de la pantalla de ajustes), haga clic en [Settings] en la parte superior, seleccione la pestaña “Basic settings” y haga clic en [Update firmware].

■ Para la parte de comunicación de la herramienta

En la página superior (la página inicial de la pantalla de configuración), haga clic en [Settings] en la parte superior y seleccione la pestaña “Connected tool”.
En la pantalla “Connected tool”, haga clic en el número de herramienta deseado.
Desde la pestaña “Device settings” en la pantalla para el número de herramienta, haga clic en [Update firmware].

Sustitución de la pila de botón

Para mantener en funcionamiento el reloj (RTC) del controlador, sustituya la pila de botón consultando la siguiente guía de sustitución.

■ Tipo de pila

CR2450

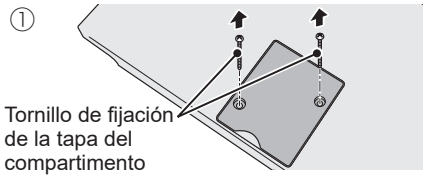

■ Guía de sustitución

La pila de botón se utiliza para mantener el reloj en funcionamiento cuando el controlador está apagado.
Para minimizar su consumo, en principio, no apague el control.

La alimentación está encendida 12 horas al día (solo los días laborales)	La alimentación está siempre encendida
Aproximadamente 3 años	Aproximadamente 8 años

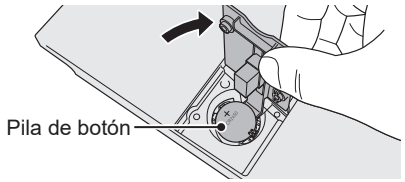

Sustitúyala con el siguiente procedimiento o póngase en contacto con su distribuidor.
Se recomienda que una persona que tenga conocimientos eléctricos realice el trabajo.

1 Extraiga los 2 tornillos de fijación de la tapa del compartimento y, a continuación, retire la tapa del compartimento.

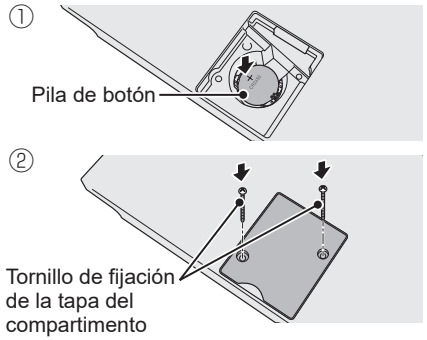

2 Usando la tapa del compartimento, saque la pila de botón.

Coja la pila de botón con el gancho de la tapa del compartimento.

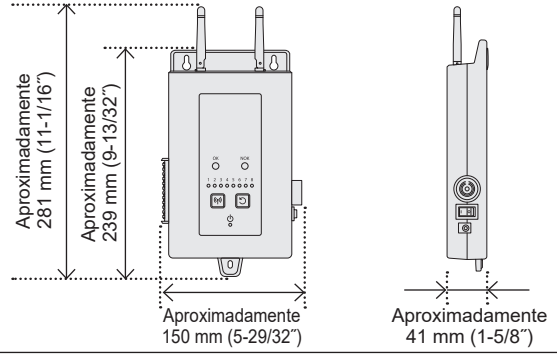

3 Coloque una nueva pila de botón y coloque la tapa del compartimento con los 2 tornillos de fijación de la tapa del compartimento.

Especificaciones del controlador

Recepción de señales de finalización y fallo de fijación durante los trabajos de montaje de productos de interior

Núm. de modelo	EYARW1
Fuente de alimentación	100 V-240 V ∼, 50/60 Hz
Estándar de comunicación inalámbrica	LAN inalámbrica (IEEE.802.11 a/b/g/n)
Banda de frecuencia	2.4 GHz: de 2.412 GHz a 2.462 GHz 5 GHz: de 5.180 GHz a 5.240 GHz
Canal	2.4 GHz: de 1 a 11 canales 5 GHz: 36, 40, 44, 48 canales
Cobertura	2.4 GHz: aproximadamente 16 m (52.5 ft) 5 GHz: aproximadamente 10 m (32.8 ft)
Número de herramientas que se pueden registrar	8 (máximo)
Terminales de entrada/salida (E/S)	8 entradas y 8 salidas
Clasificación del terminal de entrada E/S	24 V ⎓, 5 mA
Clasificación del terminal de salida E/S	30 V ⎓, 3 A
Clasificación de la fuente de alimentación E/S	24 V ⎓, 50 mA
Consumo de energía	Aproximadamente 30 W
Intervalos de temperatura y humedad de funcionamiento	De 0 °C (32 °F) a 45 °C (113 °F), del 20 % al 90 %
Tamaño (dimensiones estimadas) Longitud total × Altura total × Anchura	Aproximadamente 150 × 239 × 41 mm (5-29/32″ × 9-13/32″ × 1-5/8″) (altura incluyendo las antenas: 281 mm (11-1/16″))
Masa (Peso)	Alrededor de 550 g (1.1 lbs) (unidad principal solamente)
Interfaz de comunicación	Ethernet × 2, USB-A × 1
Número de datos que se pueden almacenar	Aproximadamente 200 000 registros del historial de fijación
Modelos de herramientas compatibles	EYADA112WA/WB *1, EYADA212WA/WB, EYADA218WA/WB, EYADA407WA/WB

*1 Esto solo es compatible con la versión de firmware 2.02.00 o posterior.

Especificaciones inalámbricas

Frecuencias por canal

Banda de frecuencia	Canal	Frecuencia
2.4 GHz	Canal 1	2.412 GHz
	Canal 2	2.417 GHz
	Canal 3	2.422 GHz
	Canal 4	2.427 GHz
	Canal 5	2.432 GHz
	Canal 6	2.437 GHz
	Canal 7	2.442 GHz
	Canal 8	2.447 GHz
	Canal 9	2.452 GHz
	Canal 10	2.457 GHz
	Canal 11	2.462 GHz
5 GHz	Canal 36	5.180 GHz
	Canal 40	5.200 GHz
	Canal 44	5.220 GHz
	Canal 48	5.240 GHz

Especificaciones WebUI

SO compatible	Windows 10 o posterior (compatible con cualquiera de los siguientes navegadores web)
Navegador web compatible	Microsoft Edge versión 102 o posterior o Google Chrome versión 102 o posterior
Idioma compatible	Español, Japonés
Resolución de pantalla recomendada	1024 × 768 o superior

PRECAUCIÓN

- Algunos PC no están disponibles incluso si cumplen con el entorno operativo.
- En función del entorno de uso, etc., de su PC, las descripciones y pantallas de este Manual de instrucciones podrían ser diferentes de las descripciones y pantallas reales.
  Por favor, téngalo en cuenta.
- El contenido de este Manual de instrucciones está sujeto a cambios sin previo aviso.
- Cualquier reproducción del contenido de este Manual de instrucciones, en su totalidad o en parte, está prohibida sin permiso.
- Las descripciones sobre cómo operar Windows en este Manual de instrucciones usan los procedimientos y pantallas de Windows 10.
- WebUI no funciona en un SO distinto al SO compatible.
- No se garantiza el funcionamiento para todos los PC que cumplan con el entorno recomendado.

■ Condiciones de uso (lea antes del uso)

<Limitaciones>

WebUI es el software de configuración para EYARW1.

PRECAUCIÓN

- Tenga en cuenta lo siguiente cuando utilice la función.
  Se considera que está de acuerdo con los siguientes términos de uso usando la función.

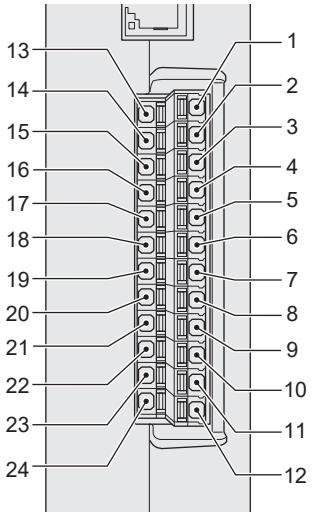

[Condiciones de uso]

Panasonic no ofrece ninguna garantía de ningún tipo con respecto a la función.
Panasonic no se hace responsable de ningún daño, incluidos, aunque sin limitarse a ellos, los daños directos, indirectos, por propagación, consecuentes y especiales causados por el uso o funcionamiento de la función.
La reproducción y distribución no autorizadas de la función está prohibida.

Especificaciones de E/S de contacto

■ Asignación entre terminales de relé de salida y terminales de entrada

IN: entrada RY: salida

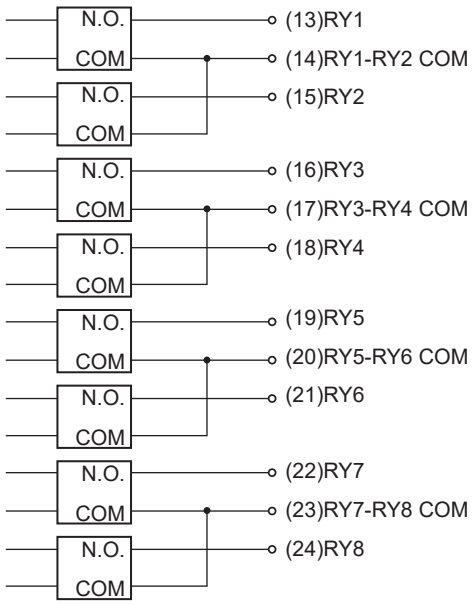

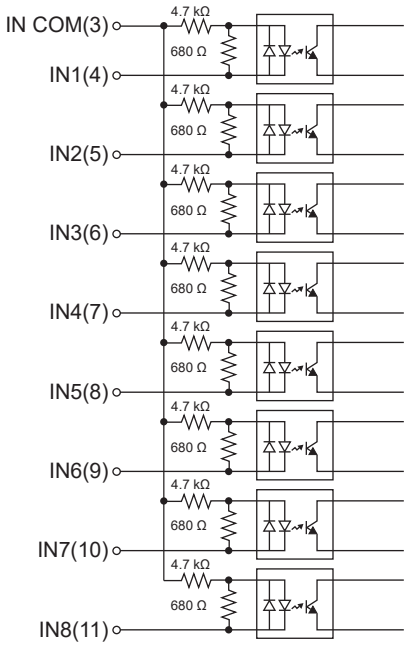

Núm.	Asignación de contactos
1	Salida de 24 V (+)*
2	Salida de 24 V (+)*
3	IN COM
4	IN 1
5	IN 2
6	IN 3
7	IN 4
8	IN 5
9	IN 6
10	IN 7
11	IN 8
12	Salida de 24 V (–)*

Núm.	Asignación de contactos
13	RY1
14	RY1-RY2 COM
15	RY2
16	RY3
17	RY3-RY4 COM
18	RY4
19	RY5
20	RY5-RY6 COM
21	RY6
22	RY7
23	RY7-RY8 COM
24	RY8

* Puede suministrar 24 V de potencia a dispositivos externos.
Los terminales 1 y 2 se pueden utilizar en paralelo.

■ Diagrama de conexión del bloque de terminales

■ Declaración de texto explicativo para varios requisitos

Este dispositivo cumple con el Apartado 15 de las regulaciones de FCC. La operación está sujeta a las siguientes dos condiciones (1) Este dispositivo no puede ocasionar interferencias que ocasionen daños y (2) este dispositivo debe aceptar cualquier interferencia, incluida una interferencia que pueda ocasionar una operación no deseada.

Precaución de FCC: Para asegurar un cumplimiento continuo, instale y use el equipo según las instrucciones provistas. Cualquier cambio o modificación no aprobada expresamente por el grupo responsable de su certificación puede anular el derecho del usuario sobre el uso del equipo.

Este equipo ha sido probado y se ha determinado que cumple con las limitaciones de un dispositivo digital de Clase B, de conformidad con el Apartado 15 de las regulaciones de FCC. Estas limitaciones están diseñadas para brindar protección razonable contra las interferencias perjudiciales en un entorno residencial. Este equipo genera, utiliza y puede irradiar energía de radiofrecuencia y, si no se instala y utiliza de acuerdo a las instrucciones, puede provocar interferencias perjudiciales en las comunicaciones de radio. Sin embargo, no existe ninguna garantía de que no se produzcan interferencias en una instalación concreta. Si este equipo provoca interferencias perjudiciales en la recepción de radio o televisión, lo que se puede determinar apagando y encendiendo el equipo, se recomienda al usuario intentar corregir la interferencia adoptando una de las siguientes medidas:

- Cambie la orientación o posición de la antena receptora.
- Aumente la separación entre el equipo y el receptor.
- Conecte el equipo en una toma de corriente de un circuito que no sea el mismo en el que está conectado el receptor.
- Consulte por ayuda a un proveedor o un técnico de radio/televisión con experiencia.

[Aparte de México]

Contiene el ID de la FCC: Z64-WL18DBMOD Contiene el IC: 451I-WL18DBMOD

Este transmisor no debe colocarse ni utilizarse junto con ninguna otra antena o transmisor.

Este equipo cumple con los límites de exposición a la radiación de la FCC establecidos para un entorno no controlado. Este equipo ha sido aprobado para el uso móvil que requiere un espacio mínimo de 20 cm (7-7/8″) entre la(s) antena(s) y el cuerpo de la persona (excluyendo las extremidades de manos, muñecas y pies) durante los modos inalámbricos de funcionamiento. Este equipo no debe colocarse ni utilizarse con ninguna otra antena o transmisor.

Este equipo cumple con los límites de exposición a la radiación de ISED establecidos para un entorno no controlado y cumple con RSS-102 de las reglas de exposición a radiofrecuencia (RF) de ISED. Este equipo debe ser instalado y operado manteniendo el radiador al menos a 20 cm (7-7/8″) o más alejado del cuerpo de la persona.

Este dispositivo contiene transmisor(es)/receptor(es) exentos de licencia que cumplen con los RSS exentos de licencia de Innovación, Ciencia y Desarrollo Económico de Canadá. Su funcionamiento está sujeto a las dos condiciones siguientes:

1. Este dispositivo no puede causar interferencias.
2. Este dispositivo debe aceptar cualquier interferencia, incluidas las que puedan causar un funcionamiento no deseado del dispositivo.

Solo para uso en interiores.

[Solo mercado méxicano]

"CUMPLIMIENTO MÉXICO" La operación de este equipo está sujeta a las siguientes dos condiciones: (1) es posible que este equipo o dispositivo no cause interferencia perjudicial y (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.

Este equipo ha sido diseñado para operar con las antenas que enseguida se enlistan y para una ganancia máxima de antena de 1.4 dBi. El uso con este equipo de antenas no incluidas en esta lista o que tengan una ganancia mayor que 1.4 dBi quedan prohibidas. La impedancia requerida de la antena es de 50 ohms.

PRECAUCIONES PARA LA COMUNICACIÓN INALÁMBRICA

Precauciones al utilizar un dispositivo WLAN

El dispositivo utiliza una banda de frecuencia compartida con otros tipos de equipos, incluidos dispositivos industriales, científicos y médicos (por ejemplo, un microondas) y estaciones de radio como una estación de radio local (con licencia) y una estación de radio de baja potencia (con licencia) para la identificación móvil utilizada en las líneas de fabricación de fábrica y una estación de radio de aficionados (con licencia).

1. Antes de usar el dispositivo, confirme que no haya instalaciones o estaciones de radio de baja potencia para la identificación móvil o que no haya emisoras de radioaficionados en las cercanías.
2. Si el dispositivo causa interferencias perjudiciales con una estación de radio local para la identificación móvil, detenga inmediatamente el uso de la banda y consulte el centro de asistencia siguiente para la solución del problema de interferencia (por ejemplo, instalación de una partición).
3. Si el dispositivo causa interferencias dañinas con un local o estación de radio de baja potencia para la identificación móvil o una estación de radioaficionados u otros problemas, consulte con el centro de asistencia.

■ Puede haber ruido, menor cobertura de radio o mal funcionamiento en las siguientes condiciones ambientales.

- Hay una obstrucción (por ejemplo, un objeto metálico o de concreto reforzado) que impide la propagación uniforme de la radio entre la unidad de herramienta con conexión inalámbrica y el controlador.
- Las antenas del controlador están cubiertas de metal.
- El cuerpo de un operador está interfiriendo con la propagación de la radio entre un operador (la unidad de herramienta con conexión inalámbrica) y el controlador.
- Hay cerca un microondas, un PC o cualquier otro dispositivo que genere ruido.
- Se utiliza un teléfono móvil o un teléfono PHS cerca de la unidad de herramienta con conexión inalámbrica y el controlador.

Términos de la licencia del software

Este producto incorpora el siguiente software:

(1) el software desarrollado independientemente por o para Panasonic Corporation,
(2) el software propiedad de terceros y licenciado a Panasonic Corporation,
(3) el software licenciado bajo la GNU General Public License, Version 1.0 (GPL V1.0),
(4) el software licenciado bajo la GNU General Public License, Version 2.0 (GPL V2.0),
(5) el software licenciado bajo la GNU General Public License, Version 3.0 (GPL V3.0),
(6) el software licenciado bajo la GNU LESSER General Public License, Version 2.1 (LGPL V2.1),
(7) el software licenciado bajo la GNU LESSER General Public License, Version 3.1 (LGPL V3.1),
(8) el software licenciado bajo la SMAIL General Public License(SMAIL),
(9) el software licenciado bajo la Mozilla Public License Version 1.1 (MPL V1.1),
(10) el software licenciado bajo la Mozilla Public License Version 2.0 (MPL V2.0), y/o
(11) software de código abierto distinto del software licenciado bajo GPL V1.0, GPL V2.0, GPL V3.0, LGPL V2.1, LGPL V3.1, SMAIL, MPL V1.1 y/o MPL V2.0.

El software clasificado como (3) - (11) se distribuye con la esperanza de que sea útil, pero SIN NINGUNA GARANTÍA, ni siquiera la garantía implícita de COMERCIABILIDAD o IDONEIDAD PARA UN PROPÓSITO PARTICULAR.

Para obtener más detalles sobre los titulares de los derechos de autor y las licencias, consulte a partir de la página 95.

Al menos 3 años desde la entrega de este producto, Panasonic entregará a cualquier tercero que se ponga en contacto con nosotros a través de la información de contacto facilitada a continuación, por un importe no superior a nuestro coste de realizar físicamente la distribución del código fuente, una copia completa legible por máquina del correspondiente código fuente cubierto por GPL V1.0, GPL V2.0, GPL V3.0, LGPL V2.1, LGPL V3.1, SMAIL o las otras licencias con la obligación de hacerlo, así como el respectivo aviso de derechos de autor de las mismas.

- Licenses

GNU GENERAL PUBLIC LICENSE
Version 1, February 1989

Copyright (C) 1989 Free Software Foundation, Inc.
51 Franklin St, Fifth Floor, Boston, MA 02110-1301 USA

Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The license agreements of most software companies try to keep users at the mercy of those companies. By contrast, our General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. The General Public License applies to the Free Software Foundation's software and to any other program whose authors commit to using it. You can use it for your programs, too.

When we speak of free software, we are referring to freedom, not price. Specifically, the General Public License is designed to make sure that you have the freedom to give away or sell copies of free software, that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of a such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must tell them their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The ""Program"", below, refers to any such program or work, and a ""work based on the Program"" means either the Program or any work containing the Program or a portion of it, either verbatim or with modifications. Each licensee is addressed as ""you"".

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this General Public License and to the absence of any warranty; and give any other recipients of the Program a copy of this General Public License along with the Program. You may charge a fee for the physical act of transferring a copy.

2. You may modify your copy or copies of the Program or any portion of it, and copy and distribute such modifications under the terms of Paragraph 1 above, provided that you also do the following:

a) cause the modified files to carry prominent notices stating that you changed the files and the date of any change; and

b) cause the whole of any work that you distribute or publish, that in whole or in part contains the Program or any part thereof, either with or without modifications, to be licensed at no charge to all third parties under the terms of this General Public License (except that you may choose to grant warranty protection to some or all third parties, at your option).

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the simplest and most usual way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this General Public License.

d) You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

Mere aggregation of another independent work with the Program (or its derivative) on a volume of a storage or distribution medium does not bring the other work under the scope of these terms.

3. You may copy and distribute the Program (or a portion or derivative of it, under Paragraph 2) in object code or executable form under the terms of Paragraphs 1 and 2 above provided that you also do one of the following:

a) accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Paragraphs 1 and 2 above; or,

b) accompany it with a written offer, valid for at least three years, to give any third party free (except for a nominal charge for the cost of distribution) a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Paragraphs 1 and 2 above; or,

c) accompany it with the information you received as to where the corresponding source code may be obtained. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form alone.)

Source code for a work means the preferred form of the work for making modifications to it. For an executable file, complete source code means all the source code for all modules it contains; but, as a special exception, it need not include source code for modules which are standard libraries that accompany the operating system on which the executable file runs, or for standard header files or definitions files that accompany that operating system.

4. You may not copy, modify, sublicense, distribute or transfer the Program except as expressly provided under this General Public License. Any attempt otherwise to copy, modify, sublicense, distribute or transfer the Program is void, and will automatically terminate your rights to use the Program under this License. However, parties who have received copies, or rights to use copies, from you under this General Public License will not have their licenses terminated so long as such parties remain in full compliance.

5. By copying, distributing or modifying the Program (or any work based on the Program) you indicate your acceptance of this license to do so, and all its terms and conditions.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein.

7. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of the license which applies to it and ""any later version"", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the license, you may choose any version ever published by the Free Software Foundation.

8. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author

to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

9. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM ""AS IS"" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

10. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

Appendix: How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to humanity, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the ""copyright"" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>
Copyright (C) 19yy <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 1, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software

Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston MA 02110-1301 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) 19xx name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it
under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a ""copyright disclaimer"" for the program, if necessary. Here a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (a program to direct compilers to make passes at assemblers) written by James Hacker.

<signature of Ty Coon>, 1 April 1989
Ty Coon, President of Vice

That's all there is to it!

GNU GENERAL PUBLIC LICENSE
Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for

this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you

conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

```
Gnomovision version 69, Copyright (C) year  name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it
under certain conditions; type `show c' for details.
```

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

```
Yoyodyne, Inc., hereby disclaims all copyright interest in the program
`Gnomovision' (which makes passes at compilers) written by James Hacker.

<signature of Ty Coon>, 1 April 1989
Ty Coon, President of Vice
```

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library General Public License instead of this License.

GNU GENERAL PUBLIC LICENSE
Version 2, June 1991

```
Copyright (C) 1989, 1991 Free Software Foundation, Inc.
    59 Temple Place, Suite 330, Boston, MA  02111-1307  USA
Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.
```

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it

if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The ""Program"", below, refers to any such program or work, and a ""work based on the Program"" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term ""modification"".) Each licensee is addressed as ""you"".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate

copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and ""any later version"", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM ""AS IS"" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the ""copyright"" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this
when it starts in an interactive mode:

    Gnomovision version 69, Copyright (C) year name of author
    Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
    This is free software, and you are welcome to redistribute it
    under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate
parts of the General Public License. Of course, the commands you use may
be called something other than `show w' and `show c'; they could even be
mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your
school, if any, to sign a ""copyright disclaimer"" for the program, if
necessary. Here is a sample; alter the names:

  Yoyodyne, Inc., hereby disclaims all copyright interest in the program
  `Gnomovision' (which makes passes at compilers) written by James Hacker.

  <signature of Ty Coon>, 1 April 1989
  Ty Coon, President of Vice

This General Public License does not permit incorporating your program into
proprietary programs. If your program is a subroutine library, you may
consider it more useful to permit linking proprietary applications with the
library. If this is what you want to do, use the GNU Library General
Public License instead of this License.

GNU LESSER GENERAL PUBLIC LICENSE
Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts
as the successor of the GNU Library Public License, version 2, hence
the version number 2.1.]

Preamble

The licenses for most software are designed to take away your
freedom to share and change it. By contrast, the GNU General Public
Licenses are intended to guarantee your freedom to share and change
free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some
specially designated software packages--typically libraries--of the
Free Software Foundation and other authors who decide to use it. You
can use it too, but we suggest you first think carefully about whether
this license or the ordinary General Public License is the better
strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use,
not price. Our General Public Licenses are designed to make sure that
you have the freedom to distribute copies of free software (and charge
for this service if you wish); that you receive source code or can get
it if you want it; that you can change the software and use pieces of
it in new free programs; and that you are informed that you can do
these things.

To protect your rights, we need to make restrictions that forbid
distributors to deny you these rights or to ask you to surrender these
rights. These restrictions translate to certain responsibilities for
you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis
or for a fee, you must give the recipients all the rights that we gave
you. You must make sure that they, too, receive or can get the source
code. If you link other code with the library, you must provide
complete object files to the recipients, so that they can relink them
with the library after making changes to the library and recompiling
it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the
library, and (2) we offer you this license, which gives you legal
permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that
there is no warranty for the free library. Also, if the library is
modified by someone else and passed on, the recipients should know
that what they have is not the original version, so that the original
author's reputation will not be affected by problems that might be
introduced by others.

Finally, software patents pose a constant threat to the existence of
any free program. We wish to make sure that a company cannot
effectively restrict the users of a free program by obtaining a
restrictive license from a patent holder. Therefore, we insist that
any patent license obtained for a version of the library must be
consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the
ordinary GNU General Public License. This license, the GNU Lesser
General Public License, applies to certain designated libraries, and
is quite different from the ordinary General Public License. We use
this license for certain libraries in order to permit linking those
libraries into non-free programs.

When a program is linked with a library, whether statically or using
a shared library, the combination of the two is legally speaking a
combined work, a derivative of the original library. The ordinary
General Public License therefore permits such linking only if the
entire combination fits its criteria of freedom. The Lesser General
Public License permits more lax criteria for linking other code with
the library.

We call this license the ""Lesser"" General Public License because it

does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a ""work based on the library"" and a ""work that uses the library"". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called ""this License""). Each licensee is addressed as ""you"".

A ""library"" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The ""Library"", below, refers to any such software library or work which has been distributed under these terms. A ""work based on the Library"" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term ""modification"".)

""Source code"" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated

interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based

on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a ""work that uses the Library"". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a ""work that uses the Library"" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a ""work that uses the library"". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a ""work that uses the Library"" uses material from a header file

that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a ""work that uses the Library"" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable ""work that uses the Library"", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the ""work that uses the Library"" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and ""any later version"", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY ""AS IS"" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the ""copyright"" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a ""copyright disclaimer"" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the library `Frob' (a library for tweaking knobs) written by James Random Hacker.

<signature of Ty Coon>, 1 April 1990
Ty Coon, President of Vice

That's all there is to it!

GNU LESSER GENERAL PUBLIC LICENSE
Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.
59 Temple Place, Suite 330, Boston, MA 02111-1307 USA
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.
^L
Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the ""Lesser"" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must

be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a ""work based on the library"" and a ""work that uses the library"". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.
^L
GNU LESSER GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called ""this License""). Each licensee is addressed as ""you"".

A ""library"" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The ""Library"", below, refers to any such software library or work which has been distributed under these terms. A ""work based on the Library"" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term ""modification"".)

""Source code"" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library

with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.
^L
Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a ""work that uses the Library"". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a ""work that uses the Library"" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a ""work that uses the library"". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a ""work that uses the Library"" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the

Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.
^L
6. As an exception to the Sections above, you may also combine or link a ""work that uses the Library"" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable ""work that uses the Library"", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the ""work that uses the Library"" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception,

the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.
^L
7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.
^L
11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not

excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and ""any later version"", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.
^L
14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY ""AS IS"" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS
^L
How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the ""copyright"" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a ""copyright disclaimer"" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the library `Frob' (a library for tweaking knobs) written by James Random Hacker.

<signature of Ty Coon>, 1 April 1990
Ty Coon, President of Vice

That's all there is to it!

GNU GENERAL PUBLIC LICENSE
Version 3, 29 June 2007

Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The GNU General Public License is a free, copyleft license for software and other kinds of works.

The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users. We, the Free Software Foundation, use the GNU General Public License for most of our software; it applies also to any other work released this way by its authors. You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

To protect your rights, we need to prevent others from denying you these rights or asking you to surrender the rights. Therefore, you have certain responsibilities if you distribute copies of the software, or if you modify it: responsibilities to respect the freedom of others.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

Developers that use the GNU GPL protect your rights with two steps:

(1) assert copyright on the software, and (2) offer you this License giving you legal permission to copy, distribute and/or modify it.

For the developers' and authors' protection, the GPL clearly explains that there is no warranty for this free software. For both users' and authors' sake, the GPL requires that modified versions be marked as changed, so that their problems will not be attributed erroneously to authors of previous versions.

Some devices are designed to deny users access to install or run modified versions of the software inside them, although the manufacturer can do so. This is fundamentally incompatible with the aim of protecting users' freedom to change the software. The systematic pattern of such abuse occurs in the area of products for individuals to use, which is precisely where it is most unacceptable. Therefore, we have designed this version of the GPL to prohibit the practice for those products. If such problems arise substantially in other domains, we stand ready to extend this provision to those domains in future versions of the GPL, as needed to protect the freedom of users.

Finally, every program is threatened constantly by software patents. States should not allow patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to avoid the special danger that patents applied to a free program could make it effectively proprietary. To prevent this, the GPL assures that patents cannot be used to render the program non-free.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS

0. Definitions.

"This License" refers to version 3 of the GNU General Public License.

"Copyright" also means copyright-like laws that apply to other kinds of works, such as semiconductor masks.

"The Program" refers to any copyrightable work licensed under this License. Each licensee is addressed as "you". "Licensees" and "recipients" may be individuals or organizations.

To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "based on" the earlier work.

A "covered work" means either the unmodified Program or a work based on the Program.

To "propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

An interactive user interface displays "Appropriate Legal Notices" to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

1. Source Code.

The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work.

A "Standard Interface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

The "System Libraries" of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A "Major Component", in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

The "Corresponding Source" for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work.

The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.

2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.

Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

3. Protecting Users' Legal Rights From Anti-Circumvention Law.

No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.

When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

4. Conveying Verbatim Copies.

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.

You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.

5. Conveying Modified Source Versions.

You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

a) The work must carry prominent notices stating that you modified it, and giving a relevant date.

b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to "keep intact all notices".

c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.

d) If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an "aggregate" if the compilation and its resulting copyright are not used to limit the access or legal rights of the compilation's users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate.

6. Conveying Non-Source Forms.

You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

a) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.

b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.

c) Convey individual copies of the object code with a copy of the written offer to provide the Corresponding Source. This alternative is allowed only occasionally and noncommercially, and only if you received the object code with such an offer, in accord with subsection 6b.

d) Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements.

e) Convey the object code using peer-to-peer transmission, provided you inform other peers where the object code and Corresponding Source of the work are being offered to the general public at no charge under subsection 6d.

A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work.

A "User Product" is either (1) a "consumer product", which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, "normally used" refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product.

"Installation Information" for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made.

If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM).

The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network.

Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

7. Additional Terms.

"Additional permissions" are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.

When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

a) Disclaiming warranty or limiting liability differently from the terms of sections 15 and 16 of this License; or

b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or

c) Prohibiting misrepresentation of the origin of that material, or requiring that modified versions of such material be marked in reasonable ways as different from the original version; or

d) Limiting the use for publicity purposes of names of licensors or authors of the material; or

e) Declining to grant rights under trademark law for use of some trade names, trademarks, or service marks; or

f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on

those licensors and authors.

All other non-permissive additional terms are considered "further restrictions" within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms.

Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way.

8. Termination.

You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11).

However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.

9. Acceptance Not Required for Having Copies.

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do

not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.

An "entity transaction" is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.

You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.

11. Patents.

A "contributor" is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's "contributor version".

A contributor's "essential patent claims" are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, "control" includes the right to grant patent sublicenses in a manner consistent with the requirements of this License.

Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.

In the following three paragraphs, a "patent license" is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To "grant" such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party.

If you convey a covered work, knowingly relying on a patent license,

and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. "Knowingly relying" means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient's use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.

If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it.

A patent license is "discriminatory" if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that arrangement, or that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting any implied license or other defenses to infringement that may otherwise be available to you under applicable patent law.

12. No Surrender of Others' Freedom.

If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.

13. Use with the GNU Affero General Public License.

Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single

combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such.

14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the GNU General Public License, you may choose any version ever published by the Free Software Foundation.

If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program.

Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

15. Disclaimer of Warranty.

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

17. Interpretation of Sections 15 and 16.

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively state the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

```
<one line to give the program's name and a brief idea of what it does.>
Copyright (C) <year>  <name of author>

This program is free software: you can redistribute it and/or modify
it under the terms of the GNU General Public License as published by
the Free Software Foundation, either version 3 of the License, or
(at your option) any later version.

This program is distributed in the hope that it will be useful,
but WITHOUT ANY WARRANTY; without even the implied warranty of
MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.  See the
GNU General Public License for more details.

You should have received a copy of the GNU General Public License
along with this program.  If not, see <http://www.gnu.org/licenses/>.
```

Also add information on how to contact you by electronic and paper mail.

If the program does terminal interaction, make it output a short notice like this when it starts in an interactive mode:

```
<program>  Copyright (C) <year>  <name of author>
This program comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it
under certain conditions; type `show c' for details.
```

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, your program's commands might be different; for a GUI interface, you would use an "about box".

You should also get your employer (if you work as a programmer) or school, if any, to sign a "copyright disclaimer" for the program, if necessary. For more information on this, and how to apply and follow the GNU GPL, see <http://www.gnu.org/licenses/>.

The GNU General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you

may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License. But first, please read <http://www.gnu.org/philosophy/why-not-lgpl.html>.

GNU LESSER GENERAL PUBLIC LICENSE

Version 3, 29 June 2007

Copyright © 2007 Free Software Foundation, Inc. <https://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below.

0. Additional Definitions.

As used herein, “this License” refers to version 3 of the GNU Lesser General Public License, and the “GNU GPL” refers to version 3 of the GNU General Public License.

“The Library” refers to a covered work governed by this License, other than an Application or a Combined Work as defined below.

An “Application” is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library.

A “Combined Work” is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the “Linked Version”.

The “Minimal Corresponding Source” for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.

The “Corresponding Application Code” for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

1. Exception to Section 3 of the GNU GPL.

You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.

2. Conveying Modified Versions.

If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version:

a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or

b) under the GNU GPL, with none of the additional permissions of this License applicable to that copy.

3. Object Code Incorporating Material from Library Header Files.

The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the incorporated material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following:

a) Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License.

b) Accompany the object code with a copy of the GNU GPL and this license document.

4. Combined Works.

You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following:

a) Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License.

b) Accompany the Combined Work with a copy of the GNU GPL and this license document.

c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document.

d) Do one of the following:

0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.

1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version.

e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)

5. Combined Libraries.

You may place library facilities that are a work based on the Library side by side in a single library together with other library facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.

b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

6. Revised Versions of the GNU Lesser General Public License.

The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License “or any later version” applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General

Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation.

If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of acceptance of any version is permanent authorization for you to choose that version for the Library.

GCC RUNTIME LIBRARY EXCEPTION

Version 3.1, 31 March 2009

Copyright (C) 2009 Free Software Foundation, Inc. <http://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This GCC Runtime Library Exception ("Exception") is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.

When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.

0. Definitions.

A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.

"GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.

"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.

"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.

The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered

part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.

A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.

1. Grant of Additional Permission.

You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.

2. No Weakening of GCC Copyleft.

The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.

This is the Debian GNU/Linux package debianutils.

It is an original Debian package. Programs in it were maintained by Guy Maor <maor@debian.org>, and are now maintained by Clint Adams <schizo@debian.org>.

All its programs except savelog, and which may be redistributed under the terms of the GNU GPL, Version 2 or later, found on Debian systems in the file /usr/share/common-licenses/GPL.

which is in the public domain.

savelog may be redistributed under the following terms: (The rest of this file consists of savelog's distribution terms.)

SMAIL GENERAL PUBLIC LICENSE
(Clarified 11 Feb 1988)

Copyright (C) 1988 Landon Curt Noll & Ronald S. Karr
Copyright (C) 1992 Ronald S. Karr
Copyleft (GNU) 1988 Landon Curt Noll & Ronald S. Karr

Everyone is permitted to copy and distribute verbatim copies of this license, but changing it is not allowed. You can also use this wording to make the terms for other programs.

The license agreements of most software companies keep you at the mercy of those companies. By contrast, our general public license is intended to give everyone the right to share SMAIL. To make sure that

you get the rights we want you to have, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. Hence this license agreement.

Specifically, we want to make sure that you have the right to give away copies of SMAIL, that you receive source code or else can get it if you want it, that you can change SMAIL or use pieces of it in new free programs, and that you know you can do these things.

To make sure that everyone has such rights, we have to forbid you to deprive anyone else of these rights. For example, if you distribute copies of SMAIL, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must tell them their rights.

Also, for our own protection, we must make certain that everyone finds out that there is no warranty for SMAIL. If SMAIL is modified by someone else and passed on, we want its recipients to know that what they have is not what we distributed, so that any problems introduced by others will not reflect on our reputation.

Therefore we (Landon Curt Noll and Ronald S. Karr) make the following terms which say what you must do to be allowed to distribute or change SMAIL.

COPYING POLICIES

1. You may copy and distribute verbatim copies of SMAIL source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy a valid copyright notice ""Copyright (C) 1988 Landon Curt Noll & Ronald S. Karr"" (or with whatever year is appropriate); keep intact the notices on all files that refer to this License Agreement and to the absence of any warranty; and give any other recipients of the SMAIL program a copy of this License Agreement along with the program. You may charge a distribution fee for the physical act of transferring a copy.

2. You may modify your copy or copies of SMAIL or any portion of it, and copy and distribute such modifications under the terms of Paragraph 1 above, provided that you also do the following:

a) cause the modified files to carry prominent notices stating that you changed the files and the date of any change; and

b) cause the whole of any work that you distribute or publish, that in whole or in part contains or is a derivative of SMAIL or any part thereof, to be licensed at no charge to all third parties on terms identical to those contained in this License Agreement (except that you may choose to grant more extensive warranty protection to some or all third parties, at your option).

c) You may charge a distribution fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

Mere aggregation of another unrelated program with this program (or its derivative) on a volume of a storage or distribution medium does not bring the other program under the scope of these terms.

3. You may copy and distribute SMAIL (or a portion or derivative of it, under Paragraph 2) in object code or executable form under the terms of Paragraphs 1 and 2 above provided that you also do one of the following:

a) accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Paragraphs 1 and 2 above; or,

b) accompany it with a written offer, valid for at least three years, to give any third party free (except for a nominal shipping charge) a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Paragraphs 1 and 2 above; or,

c) accompany it with the information you received as to where the corresponding source code may be obtained. (This alternative is allowed only for non-commercial distribution and only if you received the program in object code or executable form alone.)

For an executable file, complete source code means all the source code for all modules it contains; but, as a special exception, it need not include source code for modules which are standard libraries that accompany the operating system on which the executable file runs.

4. You may not copy, sublicense, distribute or transfer SMAIL except as expressly provided under this License Agreement. Any attempt otherwise to copy, sublicense, distribute or transfer SMAIL is void and your rights to use the program under this License agreement shall be automatically terminated. However, parties who have received computer software programs from you with this License Agreement will not have their licenses terminated so long as such parties remain in full compliance.

5. If you wish to incorporate parts of SMAIL into other free programs whose distribution conditions are different, write to Landon Curt Noll & Ronald S. Karr via the Free Software Foundation at 51 Franklin St, Fifth Floor, Boston, MA 02110-1301, USA. We have not yet worked out a simple rule that can be stated here, but we will often permit this. We will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software.

Your comments and suggestions about our licensing policies and our software are welcome! This contract was based on the contract made by the Free Software Foundation. Please contact the Free Software Foundation, Inc., 51 Franklin St, Fifth Floor, Boston, MA 02110-1301, USA, or call (617) 542-5942 for details on copylefted material in general.

NO WARRANTY

BECAUSE SMAIL IS LICENSED FREE OF CHARGE, WE PROVIDE ABSOLUTELY NO WARRANTY, TO THE EXTENT PERMITTED BY APPLICABLE STATE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING, LANDON CURT NOLL & RONALD S. KARR AND/OR OTHER PARTIES PROVIDE SMAIL ""AS IS"" WITHOUT WARRANTY OF ANY KIND,

EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF SMAIL IS WITH YOU. SHOULD SMAIL PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW WILL LANDON CURT NOLL & RONALD S. KARR AND/OR ANY OTHER PARTY WHO MAY MODIFY AND REDISTRIBUTE SMAIL AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY LOST PROFITS, LOST MONIES, OR OTHER SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS) SMAIL, EVEN IF YOU HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR FOR ANY CLAIM BY ANY OTHER PARTY.

Mozilla Public License Version 2.0
==========

.
1. Definitions

.
1.1. ""Contributor""
    means each individual or legal entity that creates, contributes to
    the creation of, or owns Covered Software.
.
1.2. ""Contributor Version""
    means the combination of the Contributions of others (if any) used
    by a Contributor and that particular Contributor's Contribution.
.
1.3. ""Contribution""
    means Covered Software of a particular Contributor.
.
1.4. ""Covered Software""
    means Source Code Form to which the initial Contributor has attached
    the notice in Exhibit A, the Executable Form of such Source Code
    Form, and Modifications of such Source Code Form, in each case
    including portions thereof.
.
1.5. ""Incompatible With Secondary Licenses""
    means
.
    (a) that the initial Contributor has attached the notice described
        in Exhibit B to the Covered Software; or
.
    (b) that the Covered Software was made available under the terms of
        version 1.1 or earlier of the License, but not also under the
        terms of a Secondary License.
.
1.6. ""Executable Form""
    means any form of the work other than Source Code Form.
.
1.7. ""Larger Work""
    means a work that combines Covered Software with other material, in
    a separate file or files, that is not Covered Software.
.
1.8. ""License""
    means this document.
.
1.9. ""Licensable""
    means having the right to grant, to the maximum extent possible,
    whether at the time of the initial grant or subsequently, any and
    all of the rights conveyed by this License.
.
1.10. ""Modifications""
    means any of the following:
.
    (a) any file in Source Code Form that results from an addition to,
        deletion from, or modification of the contents of Covered
        Software; or
.
    (b) any new file in Source Code Form that contains any Covered
        Software.
.
1.11. ""Patent Claims"" of a Contributor
    means any patent claim(s), including without limitation, method,
    process, and apparatus claims, in any patent Licensable by such
    Contributor that would be infringed, but for the grant of the
    License, by the making, using, selling, offering for sale, having
    made, import, or transfer of either its Contributions or its
    Contributor Version.
.
1.12. ""Secondary License""
    means either the GNU General Public License, Version 2.0, the GNU
    Lesser General Public License, Version 2.1, the GNU Affero General
    Public License, Version 3.0, or any later versions of those
    licenses.
.
1.13. ""Source Code Form""
    means the form of the work preferred for making modifications.
.
1.14. ""You"" (or ""Your"")
    means an individual or a legal entity exercising rights under this
    License. For legal entities, ""You"" includes any entity that
    controls, is controlled by, or is under common control with You. For
    purposes of this definition, ""control"" means (a) the power, direct
    or indirect, to cause the direction or management of such entity,
    whether by contract or otherwise, or (b) ownership of more than
    fifty percent (50%) of the outstanding shares or beneficial
    ownership of such entity.
.
2. License Grants and Conditions

.
2.1. Grants
.
Each Contributor hereby grants You a world-wide, royalty-free,
non-exclusive license:
.
(a) under intellectual property rights (other than patent or trademark)
    Licensable by such Contributor to use, reproduce, make available,

modify, display, perform, distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and

.

(b) under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version.

.

2.2. Effective Date

.

The licenses granted in Section 2.1 with respect to any Contribution become effective for each Contribution on the date the Contributor first distributes such Contribution.

.

2.3. Limitations on Grant Scope

.

The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor:

.

(a) for any code that a Contributor has removed from Covered Software; or

.

(b) for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or

.

(c) under Patent Claims infringed by Covered Software in the absence of its Contributions.

.

This License does not grant any rights in the trademarks, service marks, or logos of any Contributor (except as may be necessary to comply with the notice requirements in Section 3.4).

.

2.4. Subsequent Licenses

.

No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3).

.

2.5. Representation

.

Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License.

.

2.6. Fair Use

.

This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.

.

2.7. Conditions

.

Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1.

.

3. Responsibilities

.

3.1. Distribution of Source Form

.

All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients' rights in the Source Code Form.

.

3.2. Distribution of Executable Form

.

If You distribute Covered Software in Executable Form then:

.

(a) such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and

.

(b) You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients' rights in the Source Code Form under this License.

.

3.3. Distribution of a Larger Work

.

You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s).

.

3.4. Notices

.

You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.

.

3.5. Application of Additional Terms

.

You may choose to offer, and to charge a fee for, warranty, support,

indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.

.

4. Inability to Comply Due to Statute or Regulation

.

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

.

5. Termination

.

5.1. The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor fails to notify You of the non-compliance by some reasonable means prior to 60 days after You have come back into compliance. Moreover, Your grants from a particular Contributor are reinstated on an ongoing basis if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice.

.

5.2. If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate.

.

5.3. In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination.

.

****

*

* 6. Disclaimer of Warranty *

* ---------- *

*

* Covered Software is provided under this License on an ""as is"" *

* basis, without warranty of any kind, either expressed, implied, or *

* statutory, including, without limitation, warranties that the *

* Covered Software is free of defects, merchantable, fit for a *

* particular purpose or non-infringing. The entire risk as to the *

* quality and performance of the Covered Software is with You. *

* Should any Covered Software prove defective in any respect, You *

* (not any Contributor) assume the cost of any necessary servicing, *

* repair, or correction. This disclaimer of warranty constitutes an *

* essential part of this License. No use of any Covered Software is *

* authorized under this License except under this disclaimer. *

*

****

.

****

*

* 7. Limitation of Liability *

* ---------- *

*

* Under no circumstances and under no legal theory, whether tort *

* (including negligence), contract, or otherwise, shall any *

* Contributor, or anyone who distributes Covered Software as *

* permitted above, be liable to You for any direct, indirect, *

* special, incidental, or consequential damages of any character *

* including, without limitation, damages for lost profits, loss of *

* goodwill, work stoppage, computer failure or malfunction, or any *

* and all other commercial damages or losses, even if such party *

* shall have been informed of the possibility of such damages. This *

* limitation of liability shall not apply to liability for death or *

* personal injury resulting from such party's negligence to the *

* extent applicable law prohibits such limitation. Some *

* jurisdictions do not allow the exclusion or limitation of *

* incidental or consequential damages, so this exclusion and *

* limitation may not apply to You. *

8. Litigation

.

Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims.

.

9. Miscellaneous

.

This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe this License against a Contributor.

.

10. Versions of the License

.
10.1. New Versions
.
Mozilla Foundation is the license steward. Except as provided in Section 10.3, no one other than the license steward has the right to modify or publish new versions of this License. Each version will be given a distinguishing version number.
.
10.2. Effect of New Versions
.
You may distribute the Covered Software under the terms of the version of the License under which You originally received the Covered Software, or under the terms of any subsequent version published by the license steward.
.
10.3. Modified Versions
.
If you create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any references to the name of the license steward (except to note that such modified license differs from this License).
.
10.4. Distributing Source Code Form that is Incompatible With Secondary Licenses
.
If You choose to distribute Source Code Form that is Incompatible With Secondary Licenses under the terms of this version of the License, the notice described in Exhibit B of this License must be attached.
.
Exhibit A - Source Code Form License Notice

.
This Source Code Form is subject to the terms of the Mozilla Public License, v. 2.0. If a copy of the MPL was not distributed with this file, You can obtain one at http://mozilla.org/MPL/2.0/.
.
If it is not possible or desirable to put the notice in a particular file, then You may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice.
.
You may add additional accurate notices of copyright ownership.
.
Exhibit B - ""Incompatible With Secondary Licenses"" Notice

.
This Source Code Form is ""Incompatible With Secondary Licenses"", as defined by the Mozilla Public License, v. 2.0.

The ""Artistic License""

Preamble

The intent of this document is to state the conditions under which a Package may be copied, such that the Copyright Holder maintains some semblance of artistic control over the development of the package, while giving the users of the package the right to use and distribute the Package in a more-or-less customary fashion, plus the right to make reasonable modifications.

Definitions:

> ""Package"" refers to the collection of files distributed by the Copyright Holder, and derivatives of that collection of files created through textual modification.
>
> ""Standard Version"" refers to such a Package if it has not been modified, or has been modified in accordance with the wishes of the Copyright Holder as specified below.
>
> ""Copyright Holder"" is whoever is named in the copyright or copyrights for the package.
>
> ""You"" is you, if you're thinking about copying or distributing this Package.
>
> ""Reasonable copying fee"" is whatever you can justify on the basis of media cost, duplication charges, time of people involved, and so on. (You will not be required to justify it to the Copyright Holder, but only to the computing community at large as a market that must bear the fee.)
>
> ""Freely Available"" means that no fee is charged for the item itself, though there may be fees involved in handling the item. It also means that recipients of the item may redistribute it under the same conditions they received it.

1. You may make and give away verbatim copies of the source form of the Standard Version of this Package without restriction, provided that you duplicate all of the original copyright notices and associated disclaimers.

2. You may apply bug fixes, portability fixes and other modifications derived from the Public Domain or from the Copyright Holder. A Package modified in such a way shall still be considered the Standard Version.

3. You may otherwise modify your copy of this Package in any way, provided that you insert a prominent notice in each changed file stating how and when you changed that file, and provided that you do at least ONE of the following:

> a) place your modifications in the Public Domain or otherwise make them Freely Available, such as by posting said modifications to Usenet or an equivalent medium, or placing the modifications on a major archive site such as uunet.uu.net, or by allowing the Copyright Holder to include your modifications in the Standard Version of the Package.
>
> b) use the modified Package only within your corporation or organization.

c) rename any non-standard executables so the names do not conflict with standard executables, which must also be provided, and provide a separate manual page for each non-standard executable that clearly documents how it differs from the Standard Version.

d) make other distribution arrangements with the Copyright Holder.

4. You may distribute the programs of this Package in object code or executable form, provided that you do at least ONE of the following:

a) distribute a Standard Version of the executables and library files, together with instructions (in the manual page or equivalent) on where to get the Standard Version.

b) accompany the distribution with the machine-readable source of the Package with your modifications.

c) give non-standard executables non-standard names, and clearly document the differences in manual pages (or equivalent), together with instructions on where to get the Standard Version.

d) make other distribution arrangements with the Copyright Holder.

5. You may charge a reasonable copying fee for any distribution of this Package. You may charge any fee you choose for support of this Package. You may not charge a fee for this Package itself. However, you may distribute this Package in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution provided that you do not advertise this Package as a product of your own. You may embed this Package's interpreter within an executable of yours (by linking); this shall be construed as a mere form of aggregation, provided that the complete Standard Version of the interpreter is so embedded.

6. The scripts and library files supplied as input to or produced as output from the programs of this Package do not automatically fall under the copyright of this Package, but belong to whoever generated them, and may be sold commercially, and may be aggregated with this Package. If such scripts or library files are aggregated with this Package via the so-called ""undump"" or ""unexec"" methods of producing a binary executable image, then distribution of such an image shall neither be construed as a distribution of this Package nor shall it fall under the restrictions of Paragraphs 3 and 4, provided that you do not represent such an executable image as a Standard Version of this Package.

7. C subroutines (or comparably compiled subroutines in other languages) supplied by you and linked into this Package in order to emulate subroutines and variables of the language defined by this Package shall not be considered part of this Package, but are the equivalent of input as in Paragraph 6, provided these subroutines do not change the language in any way that would cause it to fail the regression tests for the language.

8. Aggregation of this Package with a commercial distribution is always permitted provided that the use of this Package is embedded; that is, when no overt attempt is made to make this Package's interfaces visible

to the end user of the commercial distribution. Such use shall not be construed as a distribution of this Package.

9. The name of the Copyright Holder may not be used to endorse or promote products derived from this software without specific prior written permission.

10. THIS PACKAGE IS PROVIDED ""AS IS"" AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

The End

"This program, ""bzip2"", the associated library ""libbzip2"", and all documentation, are copyright (C) 1996-2019 Julian R Seward. All rights reserved.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

1. Redistributions of source code must retain the above copyright notice, this list of conditions and the following disclaimer.

2. The origin of this software must not be misrepresented; you must not claim that you wrote the original software. If you use this software in a product, an acknowledgment in the product documentation would be appreciated but is not required.

3. Altered source versions must be plainly marked as such, and must not be misrepresented as being the original software.

4. The name of the author may not be used to endorse or promote products derived from this software without specific prior written permission.

THIS SOFTWARE IS PROVIDED BY THE AUTHOR ``AS IS'' AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. ```

The following individuals contributed in part to the Network Time Protocol Distribution Version 4 and are acknowledged as authors of this work.

1. [1]Takao Abe <takao_abe@xurb.jp> Clock driver for JJY receivers
2. [2]Mark Andrews <mark_andrews@isc.org> Leitch atomic clock controller
3. [3]Bernd Altmeier <altmeier@atlsoft.de> hopf Elektronik serial line and PCI-bus devices
4. [4]Viraj Bais <vbais@mailman1.intel.com> and [5]Clayton Kirkwood <kirkwood@striderfm.intel.com> port to WindowsNT 3.5
5. [6]Michael Barone <michael,barone@lmco.com> GPSVME fixes
6. [7]Karl Berry <karl@owl.HQ.ileaf.com> syslog to file option
7. [8]Greg Brackley <greg.brackley@bigfoot.com> Major rework of WINNT port. Clean up recvbuf and iosignal code into separate modules.
8. [9]Marc Brett <Marc.Brett@westgeo.com> Magnavox GPS clock driver
9. [10]Piete Brooks <Piete.Brooks@cl.cam.ac.uk> MSF clock driver, Trimble PARSE support
10. [11]Nelson B Bolyard <nelson@bolyard.me> update and complete broadcast and crypto features in sntp
11. [12]Jean-Francois Boudreault <Jean-Francois.Boudreault@viagenie.qc.ca> IPv6 support
12. [13]Reg Clemens <reg@dwf.com> Oncore driver (Current maintainer)
13. [14]Steve Clift <clift@ml.csiro.au> OMEGA clock driver
14. [15]Casey Crellin <casey@csc.co.za> vxWorks (Tornado) port and help with target configuration
15. [16]Sven Dietrich <sven_dietrich@trimble.com> Palisade reference clock driver, NT adj. residuals, integrated Greg's Winnt port.
16. [17]John A. Dundas III <dundas@salt.jpl.nasa.gov> Apple A/UX port
17. [18]Torsten Duwe <duwe@immd4.informatik.uni-erlangen.de> Linux port
18. [19]Dennis Ferguson <dennis@mrbill.canet.ca> foundation code for NTP Version 2 as specified in RFC-1119
19. [20]John Hay <jhay@icomtek.csir.co.za> IPv6 support and testing
20. [21]Dave Hart <davehart@davehart.com> General maintenance, Windows port interpolation rewrite
21. [22]Claas Hilbrecht <neoclock4x@linum.com> NeoClock4X clock driver
22. [23]Glenn Hollinger <glenn@herald.usask.ca> GOES clock driver
23. [24]Mike Iglesias <iglesias@uci.edu> DEC Alpha port
24. [25]Jim Jagielski <jim@jagubox.gsfc.nasa.gov> A/UX port
25. [26]Jeff Johnson <jbj@chatham.usdesign.com> massive prototyping overhaul
26. [27]Hans Lambermont <Hans.Lambermont@nl.origin-it.com> or [28]<H.Lambermont@chello.nl> ntpsweep
27. [29]Poul-Henning Kamp <phk@FreeBSD.ORG> Oncore driver (Original author)
28. [30]Frank Kardel [31]<kardel (at) ntp (dot) org> PARSE <GENERIC> (driver 14 reference clocks), STREAMS modules for PARSE, support scripts, syslog cleanup, dynamic interface handling
29. [32]Johannes Maximilian Kuehn <kuehn@ntp.org> Rewrote sntp to comply with NTPv4 specification, ntpq saveconfig
30. [33]William L. Jones <jones@hermes.chpc.utexas.edu> RS/6000 AIX modifications, HPUX modifications
31. [34]Dave Katz <dkatz@cisco.com> RS/6000 AIX port
32. [35]Craig Leres <leres@ee.lbl.gov> 4.4BSD port, ppsclock, Magnavox GPS clock driver
33. [36]George Lindholm <lindholm@ucs.ubc.ca> SunOS 5.1 port
34. [37]Louis A. Mamakos <louie@ni.umd.edu> MD5-based authentication
35. [38]Lars H. Mathiesen <thorinn@diku.dk> adaptation of foundation code for Version 3 as specified in RFC-1305

36. [39]Danny Mayer <mayer@ntp.org>Network I/O, Windows Port, Code Maintenance
37. [40]David L. Mills <mills@udel.edu> Version 4 foundation, precision kernel; clock drivers: 1, 3, 4, 6, 7, 11, 13, 18, 19, 22, 36
38. [41]Wolfgang Moeller <moeller@gwdgv1.dnet.gwdg.de> VMS port
39. [42]Jeffrey Mogul <mogul@pa.dec.com> ntptrace utility
40. [43]Tom Moore <tmoore@fievel.daytonoh.ncr.com> i386 svr4 port
41. [44]Kamal A Mostafa <kamal@whence.com> SCO OpenServer port
42. [45]Derek Mulcahy <derek@toybox.demon.co.uk> and [46]Damon Hart-Davis <d@hd.org> ARCRON MSF clock driver
43. [47]Rob Neal <neal@ntp.org> Bancomm refclock and config/parse code maintenance
44. [48]Rainer Pruy <Rainer.Pruy@informatik.uni-erlangen.de> monitoring/trap scripts, statistics file handling
45. [49]Dirce Richards <dirce@zk3.dec.com> Digital UNIX V4.0 port
46. [50]Wilfredo Sanchez <wsanchez@apple.com> added support for NetInfo
47. [51]Nick Sayer <mrapple@quack.kfu.com> SunOS streams modules
48. [52]Jack Sasportas <jack@innovativeinternet.com> Saved a Lot of space on the stuff in the html/pic/ subdirectory
49. [53]Ray Schnitzler <schnitz@unipress.com> Unixware1 port
50. [54]Michael Shields <shields@tembel.org> USNO clock driver
51. [55]Jeff Steinman <jss@pebbles.jpl.nasa.gov> Datum PTS clock driver
52. [56]Harlan Stenn <harlan@pfcs.com> GNU automake/autoconfigure makeover, various other bits (see the ChangeLog)
53. [57]Kenneth Stone <ken@sdd.hp.com> HP-UX port
54. [58]Ajit Thyagarajan <ajit@ee.udel.edu>IP multicast/anycast support
55. [59]Tomoaki TSURUOKA <tsuruoka@nc.fukuoka-u.ac.jp>TRAK clock driver
56. [60]Brian Utterback <brian.utterback@oracle.com> General codebase, Solaris issues
57. [61]Loganaden Velvindron <loganaden@gmail.com> Sandboxing (libseccomp) support
58. [62]Paul A Vixie <vixie@vix.com> TrueTime GPS driver, generic TrueTime clock driver
59. [63]Ulrich Windl <Ulrich.Windl@rz.uni-regensburg.de> corrected and validated HTML documents according to the HTML DTD

This product includes cryptographic software written by Eric Young
(eay@cryptsoft.com). This product includes software written by Tim
Hudson (tjh@cryptsoft.com).

Original SSLeay License

Copyright (C) 1995-1998 Eric Young (eay@cryptsoft.com)
All rights reserved.

This package is an SSL implementation written
by Eric Young (eay@cryptsoft.com).
The implementation was written so as to conform with Netscapes SSL.

This library is free for commercial and non-commercial use as long as
the following conditions are aheared to. The following conditions
apply to all code found in this distribution, be it the RC4, RSA,
lhash, DES, etc., code; not just the SSL code. The SSL documentation
included with this distribution is covered by the same copyright terms
except that the holder is Tim Hudson (tjh@cryptsoft.com).

Copyright remains Eric Young's, and as such any Copyright notices in
the code are not to be removed.
If this package is used in a product, Eric Young should be given attribution
as the author of the parts of the library used.
This can be in the form of a textual message at program startup or
in documentation (online or textual) provided with the package.

Redistribution and use in source and binary forms, with or without
modification, are permitted provided that the following conditions
are met:
1. Redistributions of source code must retain the copyright
notice, this list of conditions and the following disclaimer.
2. Redistributions in binary form must reproduce the above copyright
notice, this list of conditions and the following disclaimer in the
documentation and/or other materials provided with the distribution.
3. All advertising materials mentioning features or use of this software
must display the following acknowledgement:
"This product includes cryptographic software written by
Eric Young (eay@cryptsoft.com)"
The word 'cryptographic' can be left out if the rouines from the library
being used are not cryptographic related :-).
4. If you include any Windows specific code (or a derivative thereof) from
the apps directory (application code) you must include an acknowledgement:

The PHP License, version 3.01

Copyright (c) 1999 - 2021 The PHP Group. All rights reserved.

Redistribution and use in source and binary forms, with or without modification, is permitted provided that the following conditions are met:

1. Redistributions of source code must retain the above copyright notice, this list of conditions and the following disclaimer.

2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.

3. The name ""PHP"" must not be used to endorse or promote products derived from this software without prior written permission. For written permission, please contact group@php.net.

4. Products derived from this software may not be called ""PHP"", nor may ""PHP"" appear in their name, without prior written permission from group@php.net. You may indicate that your software works in conjunction with PHP by saying ""Foo for PHP"" instead of calling it ""PHP Foo"" or ""phpfoo""

5. The PHP Group may publish revised and/or new versions of the license from time to time. Each version will be given a distinguishing version number.
   Once covered code has been published under a particular version of the license, you may always continue to use it under the terms of that version. You may also choose to use such covered code under the terms of any subsequent version of the license published by the PHP Group. No one other than the PHP Group has the right to modify the terms applicable to covered code created under this License.

6. Redistributions of any form whatsoever must retain the following acknowledgment:
   ""This product includes PHP software, freely available from <http://www.php.net/software/>"".

THIS SOFTWARE IS PROVIDED BY THE PHP DEVELOPMENT TEAM ``AS IS'' AND ANY EXPRESSED OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE PHP DEVELOPMENT TEAM OR ITS CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

This software consists of voluntary contributions made by many individuals on behalf of the PHP Group.

The PHP Group can be contacted via Email at group@php.net.

For more information on the PHP Group and the PHP project, please see <http://www.php.net>.

PHP includes the Zend Engine, freely available at <http://www.zend.com>.

This software is provided 'as-is', without any express or implied warranty. In no event will the authors be held liable for any damages arising from the use of this software.

Permission is granted to anyone to use this software for any purpose, including commercial applications, and to alter it and redistribute it freely, subject to the following restrictions:

1. The origin of this software must not be misrepresented; you must not claim that you wrote the original software. If you use this software in a product, an acknowledgment in the product documentation would be appreciated but is not required.
2. Altered source versions must be plainly marked as such, and must not be misrepresented as being the original software.
3. This notice may not be removed or altered from any source distribution.

This is version 2007-Mar-4 of the Info-ZIP license.
The definitive version of this document should be available at ftp://ftp.info-zip.org/pub/infozip/license.html indefinitely and a copy at http://www.info-zip.org/pub/infozip/license.html.

Copyright (c) 1990-2007 Info-ZIP. All rights reserved.

For the purposes of this copyright and license, "Info-ZIP" is defined as the following set of individuals:

Mark Adler, John Bush, Karl Davis, Harald Denker, Jean-Michel Dubois, Jean-loup Gailly, Hunter Goatley, Ed Gordon, Ian Gorman, Chris Herborth, Dirk Haase, Greg Hartwig, Robert Heath, Jonathan Hudson, Paul Kienitz, David Kirschbaum, Johnny Lee, Onno van der Linden, Igor Mandrichenko, Steve P. Miller, Sergio Monesi, Keith Owens, George Petrov, Greg Roelofs, Kai Uwe Rommel, Steve Salisbury, Dave Smith, Steven M. Schweda, Christian Spieler, Cosmin Truta, Antoine Verheijen, Paul von Behren, Rich Wales, Mike White.

This software is provided "as is," without warranty of any kind, express or implied. In no event shall Info-ZIP or its contributors be held liable for any direct, indirect, incidental, special or consequential damages arising out of the use of or inability to use this software.

Permission is granted to anyone to use this software for any purpose, including commercial applications, and to alter it and redistribute it freely, subject to the above disclaimer and the following restrictions:

1. Redistributions of source code (in whole or in part) must retain the above copyright notice, definition, disclaimer, and this list of conditions.

2. Redistributions in binary form (compiled executables and libraries) must reproduce the above copyright notice, definition, disclaimer, and this list of conditions in documentation and/or other materials provided with the distribution. The sole exception to this condition is redistribution of a standard UnZipSFX binary (including SFXWiz) as part of a self-extracting archive; that is permitted without inclusion of this license, as long as the normal SFX banner has not been removed from the binary or disabled.

3. Altered versions--including, but not limited to, ports to new operating systems, existing ports with new graphical interfaces, versions with modified or added functionality, and dynamic, shared, or static library versions not from Info-ZIP--must be plainly marked as such and must not be misrepresented as being the original source or, if binaries, compiled from the original source. Such altered versions also must not be misrepresented as being Info-ZIP releases--including, but not limited to, labeling of the altered versions with the names "Info-ZIP" (or any variation thereof, including, but not limited to, different capitalizations), "Pocket UnZip," "WiZ" or "MacZip" without the explicit permission of Info-ZIP. Such altered versions are further prohibited from misrepresentative use of the Zip-Bugs or Info-ZIP e-mail addresses or the Info-ZIP URL(s), such as to imply Info-ZIP will provide support for the altered versions.

4. Info-ZIP retains the right to use the names "Info-ZIP," "Zip," "UnZip," "UnZipSFX," "WiZ," "Pocket UnZip," "Pocket Zip," and "MacZip" for its own source and binary releases.

Copyright 1992, 1993, 1994, 1997 Henry Spencer. All rights reserved.
This software is not subject to any license of the American Telephone and Telegraph Company or of the Regents of the University of California.

Permission is granted to anyone to use this software for any purpose on any computer system, and to alter it and redistribute it, subject to the following restrictions:

1. The author is not responsible for the consequences of use of this software, no matter how awful, even if they arise from flaws in it.

2. The origin of this software must not be misrepresented, either by explicit claim or by omission. Since few users ever read sources, credits must appear in the documentation.

3. Altered versions must be plainly marked as such, and must not be misrepresented as being the original software. Since few users ever read sources, credits must appear in the documentation.

4. This notice may not be removed or altered.

The files inet/getnameinfo.c and sysdeps/posix/getaddrinfo.c are copyright (C) by Craig Metz and are distributed under the following license:

/* The Inner Net License, Version 2.00

The author(s) grant permission for redistribution and use in source and binary forms, with or without modification, of the software and documentation provided that the following conditions are met:

0. If you receive a version of the software that is specifically labelled as not being for redistribution (check the version message and/or README), you are not permitted to redistribute that version of the software in any way or form.
1. All terms of the all other applicable copyrights and licenses must be followed.
2. Redistributions of source code must retain the authors' copyright notice(s), this list of conditions, and the following disclaimer.
3. Redistributions in binary form must reproduce the authors' copyright notice(s), this list of conditions, and the following disclaimer in the documentation and/or other materials provided with the distribution.
4. [The copyright holder has authorized the removal of this clause.]
5. Neither the name(s) of the author(s) nor the names of its contributors may be used to endorse or promote products derived from this software without specific prior written permission.

THIS SOFTWARE IS PROVIDED BY ITS AUTHORS AND CONTRIBUTORS ``AS IS'' AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE AUTHORS OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

If these license terms cause you a real problem, contact the author.

Permission is granted to anyone to use this software for any purpose on any computer system, and to redistribute it freely, subject to the following restrictions:

1. This software is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.

2. The origin of this software must not be misrepresented, either by explicit claim or by omission. In practice, this means that if you use PCRE in software that you distribute to others, commercially or otherwise, you must put a sentence like this

Regular expression support is provided by the PCRE library package, which is open source software, written by Philip Hazel, and copyright by the University of Cambridge, England.

somewhere reasonably visible in your documentation and in any relevant files or online help data or similar. A reference to the ftp site for the source, that is, to

ftp://ftp.csx.cam.ac.uk/pub/software/programming/pcre/

should also be given in the documentation. However, this condition is not intended to apply to whole chains of software. If package A includes PCRE, it must acknowledge it, but if package B is software that includes package A, the condition is not imposed on package B (unless it uses PCRE independently).

3. Altered versions must be plainly marked as such, and must not be misrepresented as being the original software.

4. If PCRE is embedded in any software that is released under the GNU General Purpose Licence (GPL), or Lesser General Purpose Licence (LGPL), then the terms of that licence shall supersede any condition above with which it is incompatible.

OCB is covered by several patents but may be used freely by most software. See http://web.cs.ucdavis.edu/~rogaway/ocb/license.htm . In particular license 1 is suitable for Libgcrypt: See http://web.cs.ucdavis.edu/~rogaway/ocb/license1.pdf for the full license document; it basically says:

License 1 — License for Open-Source Software Implementations of OCB (Jan 9, 2013)

Under this license, you are authorized to make, use, and distribute open-source software implementations of OCB. This license terminates for you if you sue someone over their open-source software implementation of OCB claiming that you have a patent covering their implementation.

License for Open Source Software Implementations of OCB
January 9, 2013

1 Definitions

1.1 “Licensor” means Phillip Rogaway.

1.2 “Licensed Patents” means any patent that claims priority to United States Patent Application No. 09/918,615 entitled “Method and Apparatus for Facilitating Efficient Authenticated Encryption,” and any utility, divisional, provisional, continuation, continuations-in-part, reexamination, reissue, or foreign counterpart patents that may issue with respect to the aforesaid patent application. This includes, but is not limited to, United States Patent No. 7,046,802; United States Patent No. 7,200,227; United States Patent No. 7,949,129; United States Patent No. 8,321,675 ; and any patent that issues out of United States Patent Application No. 13/669,114.

1.3 “Use” means any practice of any invention claimed in the Licensed Patents.

1.4 “Software Implementation” means any practice of any invention claimed in the Licensed Patents that takes the form of software executing on a user-programmable, general-purpose computer or that takes the form of a computer-readable medium storing such software. Software Implementation does not include, for example, application-specific integrated circuits (ASICs), field-programmable gate arrays (FPGAs), embedded systems, or IP cores.

1.5 “Open Source Software” means software whose source code is published and made available for inspection and use by anyone because either (a) the source code is subject to a license that permits recipients to copy, modify, and distribute the source code without payment of fees or royalties, or (b) the source code is in the public domain, including code released for public use through a CC0 waiver. All licenses certified by the Open Source Initiative at opensource.org as of January 9, 2013 and all Creative Commons licenses identified on the creativecommons.org website as of January 9, 2013, including the Public License Fallback of the CC0 waiver, satisfy these requirements for the purposes of this license.

1.6 “Open Source Software Implementation” means a Software Implementation in which the software implicating the Licensed Patents is Open Source Software. Open Source Software Implementation does not include any Software Implementation in which the software implicating the Licensed Patents is combined, so as to form a larger program, with software that is not Open Source Software.

2 License Grant

2.1 License. Subject to your compliance with the term s of this license, including the restriction set forth in Section 2.2, Licensor hereby grants to you a perpetual, worldwide, non-exclusive, non-transferable, non-sublicenseable, no-charge, royalty-free, irrevocable license to practice any invention claimed in the Licensed Patents in any Open Source Software Implementation.

2.2 Restriction. If you or your affiliates institute patent litigation (including, but not limited to, a cross-claim or counterclaim in a lawsuit) against any entity alleging that any Use authorized by this license infringes another patent, then any rights granted to you under this license automatically terminate as of the date such litigation is filed.

3 Disclaimer
YOUR USE OF THE LICENSED PATENTS IS AT YOUR OWN RISK AND UNLESS REQUIRED BY APPLICABLE LAW, LICENSOR MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND CONCERNING THE LICENSED PATENTS OR ANY PRODUCT EMBODYING ANY LICENSED PATENT, EXPRESS OR IMPLIED, STATUT ORY OR OTHERWISE, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF TITLE, MERCHANTIBILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NONINFRINGEMENT. IN NO EVENT WILL LICENSOR BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, WHETHER IN CONTRACT, TORT OR OTHERWISE, ARISING FROM OR RELATED TO ANY USE OF THE LICENSED PATENTS, INCLUDING, WITHOUT LIMITATION, DIRECT, INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR SPECIAL DAMAGES, EVEN IF LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES PRIOR TO SUCH AN OCCURRENCE.

This file is part of the OpenSSH software.

The licences which components of this software fall under are as follows. First, we will summarize and say that all components are under a BSD licence, or a licence more free than that.

OpenSSH contains no GPL code.

1)
```
 * Copyright (c) 1995 Tatu Ylonen <ylo@cs.hut.fi>, Espoo, Finland
 *                    All rights reserved
 *
 * As far as I am concerned, the code I have written for this software
 * can be used freely for any purpose.  Any derived versions of this
 * software must be clearly marked as such, and if the derived work is
 * incompatible with the protocol description in the RFC file, it must be
 * called by a name other than ""ssh"" or ""Secure Shell"".

[Tatu continues]
 *  However, I am not implying to give any licenses to any patents or
 * copyrights held by third parties, and the software includes parts that
 * are not under my direct control.  As far as I know, all included
 * source code is used in accordance with the relevant license agreements
 * and can be used freely for any purpose (the GNU license being the most
 * restrictive); see below for details.
```

[However, none of that term is relevant at this point in time. All of these restrictively licenced software components which he talks about have been removed from OpenSSH, i.e.,

- RSA is no longer included, found in the OpenSSL library
- IDEA is no longer included, its use is deprecated
- DES is now external, in the OpenSSL library
- GMP is no longer used, and instead we call BN code from OpenSSL
- Zlib is now external, in a library
- The make-ssh-known-hosts script is no longer included
- TSS has been removed
- MD5 is now external, in the OpenSSL library
- RC4 support has been replaced with ARC4 support from OpenSSL
- Blowfish is now external, in the OpenSSL library

[The licence continues]

Note that any information and cryptographic algorithms used in this software are publicly available on the Internet and at any major bookstore, scientific library, and patent office worldwide. More information can be found e.g. at ""http://www.cs.hut.fi/crypto"".

The legal status of this program is some combination of all these permissions and restrictions. Use only at your own responsibility. You will be responsible for any legal consequences yourself; I am not making any claims whether possessing or using this is legal or not in your country, and I am not taking any responsibility on your behalf.

NO WARRANTY

BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM ""AS IS"" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

3)
ssh-keyscan was contributed by David Mazieres under a BSD-style license.

```
 * Copyright 1995, 1996 by David Mazieres <dm@lcs.mit.edu>.
 *
 * Modification and redistribution in source and binary forms is
 * permitted provided that due credit is given to the author and the
 * OpenBSD project by leaving this copyright notice intact.
```

4)
The Rijndael implementation by Vincent Rijmen, Antoon Bosselaers and Paulo Barreto is in the public domain and distributed with the following license:

```
 * @version 3.0 (December 2000)
 *
 * Optimised ANSI C code for the Rijndael cipher (now AES)
 *
 * @author Vincent Rijmen <vincent.rijmen@esat.kuleuven.ac.be>
 * @author Antoon Bosselaers <antoon.bosselaers@esat.kuleuven.ac.be>
 * @author Paulo Barreto <paulo.barreto@terra.com.br>
 *
 * This code is hereby placed in the public domain.
 *
 * THIS SOFTWARE IS PROVIDED BY THE AUTHORS "AS IS" AND ANY EXPRESS
 * OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED
 * WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE
 * ARE DISCLAIMED.  IN NO EVENT SHALL THE AUTHORS OR CONTRIBUTORS BE
 * LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR
 * CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF
 * SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR
 * BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY,
 * WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE
 * OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE,
 * EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.
```

5)
One component of the ssh source code is under a 3-clause BSD license, held by the University of California, since we pulled these parts from original Berkeley code.

```
 * Copyright (c) 1983, 1990, 1992, 1993, 1995
 *      The Regents of the University of California.  All rights reserved.
 *
 * Redistribution and use in source and binary forms, with or without
 * modification, are permitted provided that the following conditions
 * are met:
 * 1. Redistributions of source code must retain the above copyright
 *    notice, this list of conditions and the following disclaimer.
 * 2. Redistributions in binary form must reproduce the above copyright
 *    notice, this list of conditions and the following disclaimer in the
 *    documentation and/or other materials provided with the distribution.
 * 3. Neither the name of the University nor the names of its contributors
 *    may be used to endorse or promote products derived from this software
 *    without specific prior written permission.
 *
 * THIS SOFTWARE IS PROVIDED BY THE REGENTS AND CONTRIBUTORS ``AS IS'' AND
 * ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE
 * IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE
 * ARE DISCLAIMED.  IN NO EVENT SHALL THE REGENTS OR CONTRIBUTORS BE LIABLE
 * FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL
 * DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS
 * OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION)
 * HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT
 * LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY
 * OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF
 * SUCH DAMAGE.
```

6)
Remaining components of the software are provided under a standard 2-term BSD licence with the following names as copyright holders:

Markus Friedl
Theo de Raadt
Niels Provos
Dug Song
Aaron Campbell
Damien Miller
Kevin Steves
Daniel Kouril
Wesley Griffin
Per Allansson
Nils Nordman
Simon Wilkinson

Portable OpenSSH additionally includes code from the following copyright holders, also under the 2-term BSD license:

Ben Lindstrom
Tim Rice
Andre Lucas
Chris Adams
Corinna Vinschen
Cray Inc.
Denis Parker

 ****************************************************************************/
```

This documents purpose is to state the conditions under which this Package (See definition below) viz: ""Shadow"", the Shadow Password Suite which is held by Julianne Frances Haugh, may be copied, such that the copyright holder maintains some semblance of artistic control over the development of the package, while giving the users of the package the right to use and distribute the Package in a more-or-less customary fashion, plus the right to make reasonable modifications.

So there.

****

Definitions:

A ""Package"" refers to the collection of files distributed by the Copyright Holder, and derivatives of that collection of files created through textual modification, or segments thereof.

""Standard Version"" refers to such a Package if it has not been modified, or has been modified in accordance with the wishes of the Copyright Holder.

""Copyright Holder"" is whoever is named in the copyright or copyrights for the package.

""You"" is you, if you're thinking about copying or distributing this Package.

""Reasonable copying fee"" is whatever you can justify on the basis of media cost, duplication charges, time of people involved, and so on. (You will not be required to justify it to the Copyright Holder, but only to the computing community at large as a market that must bear the fee.)

""Freely Available"" means that no fee is charged for the item itself, though there may be fees involved in handling the item. It also means that recipients of the item may redistribute it under the same conditions they received it.

1. You may make and give away verbatim copies of the source form of the Standard Version of this Package without restriction, provided that you duplicate all of the original copyright notices and associated

disclaimers.

2. You may apply bug fixes, portability fixes and other modifications derived from the Public Domain or from the Copyright Holder. A Package modified in such a way shall still be considered the Standard Version.

3. You may otherwise modify your copy of this Package in any way, provided that you insert a prominent notice in each changed file stating how and when AND WHY you changed that file, and provided that you do at least ONE of the following:

a) place your modifications in the Public Domain or otherwise make them Freely Available, such as by posting said modifications to Usenet or an equivalent medium, or placing the modifications on a major archive site such as uunet.uu.net, or by allowing the Copyright Holder to include your modifications in the Standard Version of the Package.

b) use the modified Package only within your corporation or organization.

c) rename any non-standard executables so the names do not conflict with standard executables, which must also be provided, and provide separate documentation for each non-standard executable that clearly documents how it differs from the Standard Version.

d) make other distribution arrangements with the Copyright Holder.

4. You may distribute the programs of this Package in object code or executable form, provided that you do at least ONE of the following:

a) distribute a Standard Version of the executables and library files, together with instructions (in the manual page or equivalent) on where to get the Standard Version.

b) accompany the distribution with the machine-readable source of the Package with your modifications.

c) accompany any non-standard executables with their corresponding Standard Version executables, giving the non-standard executables non-standard names, and clearly documenting the differences in manual pages (or equivalent), together with instructions on where to get the Standard Version.

d) make other distribution arrangements with the Copyright Holder.

5. You may charge a reasonable copying fee for any distribution of this Package. You may charge any fee you choose for support of this Package. YOU MAY NOT CHARGE A FEE FOR THIS PACKAGE ITSELF. However, you may distribute this Package in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution provided that YOU DO NOT ADVERTISE this package as a product of your own.

6. The name of the Copyright Holder may not be used to endorse or promote products derived from this software without specific prior written permission.

7. THIS PACKAGE IS PROVIDED ""AS IS"" AND WITHOUT ANY EXPRESS OR IMPLIED

WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTIBILITY AND FITNESS FOR A PARTICULAR PURPOSE.

The End

Firmware provided by Pierrick Hascoet <pierrick.hascoet@abiliss.com> to Devin Heitmueller <dheitmueller@kernellabs.com> on January 15, 2010.

The USB firmware files "dvb-as102_data1_st.hex" and "as102_data2_st.hex" for Abilis's AS10X, used together with the AS10X USB Kernel driver, is provided under the following licensing terms:

```

The following statement from Agere clarifies the status of the firmware

---
I would like to confirm that the two drivers; Linux LKM Wireless Driver Source Code, Version 7.18 and Linux LKM Wireless Driver Source Code, Version 7.22 comply with Open Source BSD License. Therefore the source code can be distributed in unmodified or modified form consistent with the terms of the license.

The Linux driver architecture was based on two modules, the MSF (Module specific functions) and the HCF (Hardware Control Functions). Included in the HCF is run-time firmware (binary format) which is downloaded into the RAM of the Hermes 1/2/2.5 WMAC.

This hex coded firmware is not based on any open source software and hence it is not subject to any Open Source License. The firmware was developed by Agere and runs on the DISC processor embedded within the Hermes 1/2/2.5 Wireless MAC devices.

Hope this helps.

Sincerely,

Viren Pathare
Intellectual Property Licensing Manager
Agere

IN NO EVENT SHALL COPYRIGHT HOLDER OR ITS AUTHORIZED REPRESENTATIVES TOTAL LIABILITY FOR ALL DAMAGES, LOSSES, AND CAUSES OF ACTION (WHETHER IN CONTRACT, TORT (INCLUDING NEGLIGENCE) OR OTHERWISE) EXCEED THE AMOUNT OF US$10.

Notice: The Software is subject to United States export laws and regulations. You agree to comply with all domestic and international export laws and regulations that apply to the Software, including but not limited to the Export Administration Regulations administered by the U.S. Department of Commerce and International Traffic in Arm Regulations administered by the U.S. Department of State. These laws include restrictions on destinations, end users and end use.

Copyright (C) 2010-2018 Advanced Micro Devices, Inc., All rights reserved.

Permission is hereby granted by Advanced Micro Devices, Inc. ("AMD"), free of any license fees, to any person obtaining a copy of this microcode in binary form (the "Software") ("You"), to install, reproduce, copy and distribute copies of the Software and to permit persons to whom the Software is provided to do the same, subject to the following terms and conditions. Your use of any portion of the Software shall constitute Your acceptance of the following terms and conditions. If You do not agree to the following terms and conditions, do not use, retain or redistribute any portion of the Software.

If You redistribute this Software, You must reproduce the above copyright notice and this license with the Software.
Without specific, prior, written permission from AMD, You may not reference AMD or AMD products in the promotion of any product derived from or incorporating this Software in any manner that implies that AMD endorses or has certified such product derived from or incorporating this Software.

You may not reverse engineer, decompile, or disassemble this Software or any portion thereof.

THE SOFTWARE IS PROVIDED "AS IS" WITHOUT ANY EXPRESS OR IMPLIED WARRANTY OF ANY KIND, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY, NONINFRINGEMENT, TITLE, FITNESS FOR ANY PARTICULAR PURPOSE, OR WARRANTIES ARISING FROM CONDUCT, COURSE OF DEALING, OR USAGE OF TRADE. IN NO EVENT SHALL AMD OR ITS LICENSORS BE LIABLE FOR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF PROFITS, BUSINESS INTERRUPTION, OR LOSS OF DATA OR

INFORMATION) ARISING OUT OF AMD'S NEGLIGENCE, GROSS NEGLIGENCE, THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF AMD HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. BECAUSE SOME JURISDICTIONS PROHIBIT THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES OR THE EXCLUSION OF IMPLIED WARRANTIES, THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

Without limiting the foregoing, the Software may implement third party technologies for which You must obtain licenses from parties other than AMD. You agree that AMD has not obtained or conveyed to You, and that You shall be responsible for obtaining the rights to use and/or distribute the applicable underlying intellectual property rights related to the third party technologies. These third party technologies are not licensed hereunder.

If You use the Software (in whole or in part), You shall adhere to all applicable U.S., European, and other export laws, including but not limited to the U.S. Export Administration Regulations ("EAR"), (15 C.F.R. Sections 730 through 774), and E.U. Council Regulation (EC) No 1334/2000 of 22 June 2000. Further, pursuant to Section 740.6 of the EAR, You hereby certify that, except pursuant to a license granted by the United States Department of Commerce Bureau of Industry and Security or as otherwise permitted pursuant to a License Exception under the U.S. Export Administration Regulations ("EAR"), You will not (1) export, re-export or release to a national of a country in Country Groups D:1, E:1 or E:2 any restricted technology, software, or source code You receive hereunder, or (2) export to Country Groups D:1, E:1 or E:2 the direct product of such technology or software, if such foreign produced direct product is subject to national security controls as identified on the Commerce Control List (currently found in Supplement 1 to Part 774 of EAR). For the most current Country Group listings, or for additional information about the EAR or Your obligations under those regulations, please refer to the U.S. Bureau of Industry and Security?s website at ttp://www.bis.doc.gov/.

Amlogic Co., Inc. grants permission to use and redistribute aforementioned firmware files for the use with devices containing Amlogic chipsets, but not as part of the Linux kernel or in any other form which would require these files themselves to be covered by the terms of the GNU General Public License or the GNU Lesser General Public License.

These firmware files are distributed in the hope that they will be useful, but are provided WITHOUT ANY WARRANTY, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Amlogic Contact: Arden Jin <Arden.Jin@amlogic.com>

This is a concatenation of LICENCE.txt and NOTICE.txt from the open-ath9k-htc-firmware repository describing licensing terms for the

firmware image and its sources.

The source code repository is publicly available at
https://github.com/qca/open-ath9k-htc-firmware .

LICENCE.txt

Files with a Qualcomm Atheros / Atheros licence fall under the following licence. Please see NOTICES.TXT for information about other files in this repository.

Copyright (c) 2013 Qualcomm Atheros, Inc.

IN NO EVENT SHALL THE COPYRIGHT OWNER OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

NOTICE.TXT

This NOTICE.TXT file contains certain notices of software components included with the software that QUALCOMM ATHEROS Incorporated ('Qualcomm Atheros') is required to provide you. Notwithstanding anything in the notices in this file, your use of these software components together with the Qualcomm Atheros software (Qualcomm Atheros software hereinafter referred to as 'Software') is subject to the terms of your license from Qualcomm Atheros. Compliance with all copyright laws and software license agreements included in the notice section of this file are the responsibility of the user. Except as may be granted by separate express written agreement, this file provides no license to any Qualcomm Atheros patents, trademarks, copyrights, or other intellectual property.

Copyright (C) 2015 Atmel Corporation. All rights reserved.

REDISTRIBUTION: Permission is hereby granted by Atmel Corporation (Atmel), free of any license fees, to any person obtaining a copy of this firmware (the "Software"), to install, reproduce, copy and distribute copies, in binary form, in hexadecimal or equivalent formats, of the Software and to permit persons to whom the Software is provided to do the same, subject to the following conditions:

* Any redistribution of the Software must reproduce the above copyright notice, this license notice, and the following disclaimers and notices in the documentation and/or other materials provided with the Software.

* Neither the name of Atmel Corporation, its products nor the names of its suppliers may be used to endorse or promote products derived from this Software without specific prior written permission.

* All matters arising out of or in connection with this License and/or Software shall be governed by California law and the parties agree to the exclusive jurisdiction of the Californian courts to decide all disputes arising.

* The licensee shall defend and indemnify Atmel against any and all claims, costs, losses and damages (including reasonable legal fees) incurred by tme arising out of any claim relating to the Software due to the licensee's use or sub-licensing of the Software

DISCLAIMER: THIS SOFTWARE IS PROVIDED BY ATMEL "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT ARE DISCLAIMED. IN NO EVENT SHALL ATMEL BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

SOFTWARE LICENSE AGREEMENT

The accompanying software in binary code form ("Software"), is licensed to you, or, if you are accepting on behalf of an entity, the entity and its affiliates exercising rights hereunder ("Licensee") subject to the terms of this software license agreement ("Agreement"), unless Licensee and Broadcom Corporation ("Broadcom") execute a separate written software license agreement governing use of the Software. ANY USE, REPRODUCTION, OR DISTRIBUTION OF THE SOFTWARE CONSTITUTES LICENSEE'S ACCEPTANCE OF THIS AGREEMENT.

1. License. Subject to the terms and conditions of this Agreement, Broadcom hereby grants to Licensee a limited, non-exclusive, non-transferable, royalty-free license: (i) to use and integrate the Software with any other software; and (ii) to reproduce and distribute the Software complete, unmodified, and as provided by Broadcom, solely for use with Broadcom proprietary integrated circuit product(s) sold by Broadcom with which the Software was designed to be used, or their successors.

2. Restrictions. Licensee shall distribute Software with a copy of this Agreement. Licensee shall not remove, efface or obscure any copyright or trademark notices from the Software. Reproductions of the Broadcom copyright notice shall be included with each copy of the Software, except where such Software is embedded in a manner not readily accessible to the end user. Licensee shall not: (i) use, license, sell or otherwise distribute the Software except as provided in this Agreement; (ii) attempt to modify in any way, reverse engineer, decompile or disassemble any portion of the Software; or (iii) use the Software or other material in violation of any applicable law or regulation, including but not limited to any regulatory agency. This Agreement shall automatically terminate upon Licensee's failure to comply with any of the terms of this Agreement. In such event, Licensee will destroy all copies of the Software and its component parts.

3. Ownership. The Software is licensed and not sold. Title to and ownership of the Software, including all intellectual property rights thereto, and any portion thereof remain with Broadcom or its licensors. Licensee hereby covenants that it will not assert any claim that the Software created by or for Broadcom infringe any intellectual property right owned or controlled by Licensee.

4. Disclaimer. THE SOFTWARE IS OFFERED "AS IS," AND BROADCOM PROVIDES AND GRANTS AND LICENSEE RECEIVES NO SUPPORT AND NO WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, BY STATUTE, COMMUNICATION OR CONDUCT WITH LICENSEE, OR OTHERWISE. BROADCOM SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A SPECIFIC PURPOSE, OR NONINFRINGEMENT CONCERNING THE SOFTWARE OR ANY UPGRADES TO OR DOCUMENTATION FOR THE SOFTWARE. WITHOUT LIMITATION OF THE ABOVE, BROADCOM GRANTS NO WARRANTY THAT THE SOFTWARE IS ERROR-FREE OR WILL OPERATE WITHOUT INTERRUPTION, AND GRANTS NO WARRANTY REGARDING ITS USE OR THE RESULTS THEREFROM INCLUDING, WITHOUT LIMITATION, ITS CORRECTNESS, ACCURACY, OR RELIABILITY. TO THE MAXIMUM EXTENT PERMITTED BY LAW, IN NO EVENT SHALL BROADCOM OR ANY OF ITS LICENSORS HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES, HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER FOR BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE) OR OTHERWISE, ARISING OUT OF THIS AGREEMENT OR USE, REPRODUCTION, OR DISTRIBUTION OF THE SOFTWARE, INCLUDING BUT NOT LIMITED TO LOSS OF DATA AND LOSS OF PROFITS, EVEN IF SUCH PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THESE

LIMITATIONS SHALL APPLY NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY.

5. Export Laws. LICENSEE UNDERSTANDS AND AGREES THAT THE SOFTWARE IS SUBJECT TO UNITED STATES AND OTHER APPLICABLE EXPORT-RELATED LAWS AND REGULATIONS AND THAT LICENSEE MAY NOT EXPORT, RE-EXPORT OR TRANSFER THE SOFTWARE OR ANY DIRECT PRODUCT OF THE SOFTWARE EXCEPT AS PERMITTED UNDER THOSE LAWS. WITHOUT LIMITING THE FOREGOING, EXPORT, RE-EXPORT, OR TRANSFER OF THE SOFTWARE TO CUBA, IRAN, NORTH KOREA, SUDAN, AND SYRIA IS PROHIBITED.

Copyright (c) 2012, Creative Technology Ltd
All rights reserved.

Redistribution. Redistribution and use in binary form, without modification, are permitted provided that the following conditions are met:

* Redistributions must reproduce the above copyright notice and the following disclaimer in the documentation and/or other materials provided with the distribution.
* Neither the name of Creative Technology Ltd or its affiliates ("CTL") nor the names of its suppliers may be used to endorse or promote products derived from this software without specific prior written permission.
* No reverse engineering, decompilation, or disassembly of this software (or any part thereof) is permitted.

Limited patent license. CTL grants a limited, world-wide, royalty-free, non-exclusive license under patents it now or hereafter owns or controls to make, have made, use, import, offer to sell and sell ("Utilize") this software, but strictly only to the extent that any such patent is necessary to Utilize the software alone, or in combination with an operating system licensed under an approved Open Source license as listed by the Open Source Initiative at http://opensource.org/licenses. The patent license shall not be applicable, to any other combinations which include this software. No hardware per se is licensed hereunder.

DISCLAIMER. THIS SOFTWARE IS PROVIDED BY THE COPYRIGHT HOLDERS AND CONTRIBUTORS "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE COPYRIGHT OWNER OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

NO OTHER RIGHTS GRANTED. USER HEREBY ACKNOWLEDGES AND AGREES THAT USE OF THIS SOFTWARE SHALL NOT CREATE OR GIVE GROUNDS FOR A LICENSE BY IMPLICATION, ESTOPPEL, OR OTHERWISE TO ANY INTELLECTUAL PROPERTY RIGHTS (PATENT, COPYRIGHT, TRADE SECRET, MASK WORK, OR OTHER PROPRIETARY RIGHT) EMBODIED IN ANY OTHER CTL HARDWARE OR SOFTWARE WHETHER SOLELY OR IN COMBINATION WITH THIS SOFTWARE.

Copyright © 2015, Cavium, Inc. All rights reserved.

Software License Agreement

ANY USE, REPRODUCTION, OR DISTRIBUTION OF THE ACCOMPANYING BINARY SOFTWARE CONSTITUTES LICENSEEE'S ACCEPTANCE OF THE TERMS AND CONDITIONS OF THIS AGREEMENT.

Licensed Software. Subject to the terms and conditions of this Agreement, Cavium, Inc. ("Cavium") grants to Licensee a worldwide, non-exclusive, and royalty-free license to use, reproduce, and distribute the binary software in its complete and unmodified form as provided by Cavium.

Restrictions. Licensee must reproduce the Cavium copyright notice above with each binary software copy. Licensee must not reverse engineer, decompile, disassemble or modify in any way the binary software. Licensee must not use the binary software in violation of any applicable law or regulation. This Agreement shall automatically terminate upon Licensee's breach of any term or condition of this Agreement in which case, Licensee shall destroy all copies of the binary software.

Warranty Disclaimer. THE LICENSED SOFTWARE IS OFFERED "AS IS," AND CAVIUM GRANTS AND LICENSEE RECEIVES NO WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY, OR BY COURSE OF COMMUNICATION OR DEALING WITH LICENSEE, OR OTHERWISE. CAVIUM AND ITS LICENSORS SPECIFICALLY DISCLAIM ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, OR NONINFRINGEMENT OF THIRD PARTY RIGHTS, CONCERNING THE LICENSED SOFTWARE, DERIVATIVE WORKS, OR ANY DOCUMENTATION PROVIDED WITH THE FOREGOING. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, CAVIUM DOES NOT WARRANT THAT THE LICENSED SOFTWARE IS ERROR-FREE OR WILL OPERATE WITHOUT INTERRUPTION, AND CAVIUM GRANTS NO WARRANTY REGARDING ITS USE OR THE RESULTS THEREFROM, INCLUDING ITS CORRECTNESS, ACCURACY, OR RELIABILITY.

Limitation of Liability. IN NO EVENT WILL LICENSEE, CAVIUM, OR ANY OF CAVIUM'S LICENSORS HAVE ANY LIABILITY HEREUNDER FOR ANY INDIRECT, SPECIAL, OR CONSEQUENTIAL DAMAGES, HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER FOR BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE), OR OTHERWISE, ARISING OUT OF THIS AGREEMENT, INCLUDING DAMAGES FOR LOSS OF PROFITS, OR THE COST OF PROCUREMENT OF SUBSTITUTE GOODS, EVEN IF SUCH PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Export and Import Laws. Licensee acknowledges and agrees that the Licensed Software (including technical data and related technology) may be controlled by the export control laws, rules, regulations, restrictions and national security controls of the United States and other applicable foreign agencies (the "Export Controls"), and agrees not export or re-export, or allow the export or re-export of export-controlled the Licensed Software (including technical data and related technology) or any copy, portion or direct product of the foregoing in violation of the Export Controls. Licensee hereby represents that (i) Licensee is not an entity or person to whom provision of the Licensed Software (including technical data and related technology) is restricted or prohibited by the Export Controls; and (ii) Licensee will not export, re-export or otherwise transfer the export-controlled Licensed Software (including

technical data and related technology) in violation of U.S. sanction programs or export control regulations to (a) any country, or national or resident of any country, subject to a United States trade embargo, (b) any person or entity to whom shipment is restricted or prohibited by the Export Controls, or (c) anyone who is engaged in activities related to the design, development, production, or use of nuclear materials, nuclear facilities, nuclear weapons, missiles or chemical or biological weapons.

CYPRESS WIRELESS CONNECTIVITY DEVICES
DRIVER END USER LICENSE AGREEMENT (SOURCE AND BINARY DISTRIBUTION)

PLEASE READ THIS END USER LICENSE AGREEMENT ("Agreement") CAREFULLY BEFORE DOWNLOADING, INSTALLING, OR USING THIS SOFTWARE, ANY ACCOMPANYING DOCUMENTATION, OR ANY UPDATES PROVIDED BY CYPRESS ("Software"). BY DOWNLOADING, INSTALLING, OR USING THE SOFTWARE, YOU ARE AGREEING TO BE BOUND BY THIS AGREEMENT. IF YOU DO NOT AGREE TO ALL OF THE TERMS OF THIS AGREEMENT, PROMPTLY RETURN AND DO NOT USE THE SOFTWARE. IF YOU HAVE PURCHASED THE SOFTWARE, YOUR RIGHT TO RETURN THE SOFTWARE EXPIRES 30 DAYS AFTER YOUR PURCHASE AND APPLIES ONLY TO THE ORIGINAL PURCHASER.

Software Provided in Binary Code Form. This paragraph applies to any Software provided in binary code form. Subject to the terms and conditions of this Agreement, Cypress Semiconductor Corporation ("Cypress") grants you a non-exclusive, non-transferable license under its copyright rights in the Software to reproduce and distribute the Software in object code form only, solely for use in connection with Cypress integrated circuit products ("Purpose").

Software Provided in Source Code Form. This paragraph applies to any Software provided in source code form ("Cypress Source Code"). Subject to the terms and conditions of this Agreement, Cypress grants you a non-exclusive, non-transferable license under its copyright rights in the Cypress Source Code to reproduce, modify, compile, and distribute the Cypress Source Code (whether in source code form or as compiled into binary code form) solely for the Purpose. Cypress retains ownership of the Cypress Source Code and any compiled version thereof. Subject to Cypress' ownership of the underlying Cypress Source Code, you retain ownership of any modifications you make to the Cypress Source Code. You agree not to remove any Cypress copyright or other notices from the Cypress Source Code and any modifications thereof. Any reproduction, modification, translation, compilation, or representation of the Cypress Source Code except as permitted in this paragraph is prohibited without the express written permission of Cypress.

Free and Open Source Software. Portions of the Software may be licensed under

free and/or open source licenses such as the GNU General Public License ("FOSS"). FOSS is subject to the applicable license agreement and not this Agreement. If you are entitled to receive the source code from Cypress for any FOSS included with the Software, either the source code will be included with the Software or you may obtain the source code at no charge from <http://www.cypress.com/go/opensource>. The applicable license terms will accompany each source code package. To review the license terms applicable to any FOSS for which Cypress is not required to provide you with source code, please see the Software's installation directory on your computer.

Proprietary Rights. The Software, including all intellectual property rights therein, is and will remain the sole and exclusive property of Cypress or its suppliers. Except as otherwise expressly provided in this Agreement, you may not: (i) modify, adapt, or create derivative works based upon the Software; (ii) copy the Software; (iii) except and only to the extent explicitly permitted by applicable law despite this limitation, decompile, translate, reverse engineer, disassemble or otherwise reduce the Software to human-readable form; or (iv) use the Software other than for the Purpose.

No Support. Cypress may, but is not required to, provide technical support for the Software.

Term and Termination. This Agreement is effective until terminated. This Agreement and Your license rights will terminate immediately without notice from Cypress if you fail to comply with any provision of this Agreement. Upon termination, you must destroy all copies of Software in your possession or control. Termination of this Agreement will not affect any licenses validly granted as of the termination date to any end users of the Software. The following paragraphs shall survive any termination of this Agreement: "Free and Open Source Software," "Proprietary Rights," "Compliance With Law," "Disclaimer," "Limitation of Liability," and "General."

Compliance With Law. Each party agrees to comply with all applicable laws, rules and regulations in connection with its activities under this Agreement. Without limiting the foregoing, the Software may be subject to export control laws and regulations of the United States and other countries. You agree to comply strictly with all such laws and regulations and acknowledge that you have the responsibility to obtain licenses to export, re-export, or import the Software.

Disclaimer. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, CYPRESS MAKES NO WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, WITH REGARD TO THE SOFTWARE, INCLUDING, BUT NOT LIMITED TO, INFRINGEMENT AND THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Cypress reserves the right to make changes to the Software without notice. Cypress does not assume any liability arising out of the application or use of Software or any product or circuit described in the Software. Cypress does not authorize its products for use as critical components in life-support systems where a malfunction or failure may reasonably be expected to result in significant injury to the user. The inclusion of Cypress' product in a life-support system or application implies that the manufacturer of such system or application assumes all risk of such use and in doing so indemnifies Cypress against all charges.

Limitation of Liability. IN NO EVENT WILL CYPRESS OR ITS SUPPLIERS, RESELLERS, OR DISTRIBUTORS BE LIABLE FOR ANY LOST REVENUE, PROFIT, OR DATA, OR FOR SPECIAL, INDIRECT, CONSEQUENTIAL, INCIDENTAL, OR PUNITIVE DAMAGES

HOWEVER CAUSED AND REGARDLESS OF THE THEORY OF LIABILITY, ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE EVEN IF CYPRESS OR ITS SUPPLIERS, RESELLERS, OR DISTRIBUTORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT SHALL CYPRESS' OR ITS SUPPLIERS' RESELLERS', OR DISTRIBUTORS' TOTAL LIABILITY TO YOU, WHETHER IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR OTHERWISE, EXCEED THE PRICE PAID BY YOU FOR THE SOFTWARE. THE FOREGOING LIMITATIONS SHALL APPLY EVEN IF THE ABOVE-STATED WARRANTY FAILS OF ITS ESSENTIAL PURPOSE. BECAUSE SOME STATES OR JURISDICTIONS DO NOT ALLOW LIMITATION OR EXCLUSION OF CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

Restricted Rights. The Software under this Agreement is commercial computer software as that term is described in 48 C.F.R. 252.227-7014(a)(1). If acquired by or on behalf of a civilian agency, the U.S. Government acquires this commercial computer software and/or commercial computer software documentation subject to the terms of this Agreement as specified in 48 C.F.R. 12.212 (Computer Software) and 12.211 (Technical Data) of the Federal Acquisition Regulations ("FAR") and its successors. If acquired by or on behalf of any agency within the Department of Defense ("DOD"), the U.S. Government acquires this commercial computer software and/or commercial computer software documentation subject to the terms of this Agreement as specified in 48 C.F.R. 227.7202-3 of the DOD FAR Supplement ("DFAR") and its successors.

General. This Agreement will bind and inure to the benefit of each party's successors and assigns, provided that you may not assign or transfer this Agreement, in whole or in part, without Cypress' written consent. This Agreement shall be governed by and construed in accordance with the laws of the State of California, United States of America, as if performed wholly within the state and without giving effect to the principles of conflict of law. The parties consent to personal and exclusive jurisdiction of and venue in, the state and federal courts within Santa Clara County, California; provided however, that nothing in this Agreement will limit Cypress' right to bring legal action in any venue in order to protect or enforce its intellectual property rights. No failure of either party to exercise or enforce any of its rights under this Agreement will act as a waiver of such rights. If any portion hereof is found to be void or unenforceable, the remaining provisions of this Agreement shall remain in full force and effect. This Agreement is the complete and exclusive agreement between the parties with respect to the subject matter hereof, superseding and replacing any and all prior agreements, communications, and understandings (both written and oral) regarding such subject matter. Any notice to Cypress will be deemed effective when actually received and must be sent to Cypress Semiconductor Corporation, ATTN: Chief Legal Officer, 198 Champion Court, San Jose, CA 95134 USA.

Firmware provided by Patrick Boettcher <pboettcher@dibcom.fr> to Devin Heitmueller <dheitmueller@kernellabs.com> on October 8, 2009.

The USB firmware file "dvb-usb-dib0700.1.20.fw" for DiBcom's DiB0700, used together with the Linux driver module dvb-usb-dib0700, is provided under the following licensing terms:

Limited patent license. NXP (.Licensor.) grants you (.Licensee.) a limited, worldwide, royalty-free, non-exclusive license under the Patents to make, have made, use, import, offer to sell and sell the Software. No hardware per se is licensed hereunder.
The term .Patents. as used in this agreement means only those patents or patent applications owned solely and exclusively by Licensor as of the date of Licensor.s submission of the Software and any patents deriving priority (i.e., having a first effective filing date) therefrom. The term .Software. as used in this agreement means the firmware image submitted by Licensor, under the terms of this license, to git://git.kernel.org/pub/scm/linux/kernel/git/firmware/linux-firmware.git.
Notwithstanding anything to the contrary herein, Licensor does not grant and Licensee does not receive, by virtue of this agreement or the Licensor's submission of any Software, any license or other rights under any patent or patent application owned by any affiliate of Licensor or any other entity (other than Licensor), whether expressly, impliedly, by virtue of estoppel or exhaustion, or otherwise.

DISCLAIMER. Copyright (c) 2017, NETRONOME Systems, Inc. All rights reserved.

Agilio(r) Firmware License Agreement (the "AGREEMENT")

BY INSTALLING OR USING IN ANY MANNER THE SOFTWARE THAT ACCOMPANIES THIS AGREEMENT (THE "SOFTWARE") YOU (THE "LICENSEE") ACKNOWLEDGE TO BE BOUND BY ALL OF THE TERMS OF THIS AGREEMENT.

LICENSE GRANT. Subject to the terms and conditions set forth herein, Netronome Systems, Inc. ("NETRONOME") hereby grants LICENSEE a non-exclusive license to use, reproduce and distribute the SOFTWARE exclusively in object form.

Restrictions. LICENSEE agrees that, (a) unless explicitly provided by NETRONOME, the source code of the SOFTWARE is not being provided to LICENSEE and is confidential and proprietary to NETRONOME and that LICENSEE has no right to access or use such source code. Accordingly, LICENSEE agrees that it shall not cause or permit the disassembly, decompilation or reverse engineering of the SOFTWARE or otherwise attempt to gain access to the source code for the SOFTWARE; and (b) LICENSEE agrees that it shall not subject the SOFTWARE in whole or in part, to the terms of any software license that requires, as a condition of use,

modification and/or distribution that the source code of the SOFTWARE, or the SOFTWARE be i) disclosed or distributed in source code form; ii) licensed for the purpose of making derivative works of the source code of the SOFTWARE; or iii) redistribution of the source code of the SOFTWARE at no charge.

DISCLAIMER OF ALL WARRANTIES. THE SOFTWARE IS PROVIDED "AS IS" AND WITH ALL FAULTS AND NETRONOME AND ITS LICENSORS HEREBY DISCLAIM ALL EXPRESS OR IMPLIED WARRANTIES OF ANY KIND, INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT AND FITNESS FOR A PARTICULAR PURPOSE.

LIMITATIONS OF LIABILITY. EXCEPT WHERE PROHIBITED BY LAW, IN NO EVENT SHALL NETRONOME OR ANY OTHER PARTY INVOLVED IN THE CREATION, PRODUCTION, OR DELIVERY OF THE SOFTWARE BE LIABLE FOR ANY LOSS OF PROFITS, DATA, USE OF THE SOFTWARE, DOCUMENTATION OR EQUIPMENT, OR FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, EXEMPLARY, PUNITIVE, MULTIPLE OR OTHER DAMAGES, ARISING FROM OR IN CONNECTION WITH THE SOFTWARE EVEN IF NETRONOME OR ITS LICENSORS HAVE BEEN MADE AWARE OF THE POSSIBILITY OF SUCH DAMAGES AND NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY.

EXPORT COMPLIANCE. LICENSEE shall not use or export or transmit the SOFTWARE, directly or indirectly, to any restricted countries or in any other manner that would violate any applicable US and other export control and other regulations and laws as shall from time to time govern the delivery, license and use of technology, including without limitation the Export Administration Act of 1979, as amended, and any regulations issued thereunder.

PROHIBITION OF SOFTWARE USE IN HIGH RISK ACTIVITIES AND LIFE SUPPORT APPLICATIONS. The SOFTWARE is not designed, manufactured or intended for use as on-line control equipment in hazardous environments requiring fail-safe performance, such as in the operation of nuclear facilities, aircraft navigation or communications systems, air traffic control, life support systems, human implantation or any other application where product failure could lead to loss of life or catastrophic property damage or weapons systems, in which the failure of the SOFTWARE could lead directly to death, personal injury, or severe physical or environmental damage ("High Risk Activities"). Accordingly NETRONOME and, where applicable, NETRONOME'S third party licensors specifically disclaim any express or implied warranty of fitness for High Risk Activities.

License For Customer Use of NVIDIA Software

IMPORTANT NOTICE -- READ CAREFULLY: This License For Customer Use of NVIDIA Software ("LICENSE") is the agreement which governs use of the software of NVIDIA Corporation and its subsidiaries ("NVIDIA") downloadable herefrom, including computer software and associated printed materials ("SOFTWARE"). By downloading, installing, copying, or otherwise using the SOFTWARE, you agree to be bound by the terms of this LICENSE. If you do not agree to the terms of this LICENSE, do not download the SOFTWARE.

RECITALS

Use of NVIDIA's products requires three elements: the SOFTWARE, the hardware, and a personal computer. The SOFTWARE is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The SOFTWARE may be protected by various patents, and is not sold, and instead is only licensed for use, strictly in accordance with this document. The hardware is protected by various patents, and is sold, but this agreement does not cover that sale, since it may not necessarily be sold as a package with the SOFTWARE. This agreement sets forth the terms and conditions of the SOFTWARE LICENSE only.

1. DEFINITIONS

1.1 Customer. Customer means the entity or individual that downloads or otherwise obtains the SOFTWARE.

2. GRANT OF LICENSE

2.1 Rights and Limitations of Grant. NVIDIA hereby grants Customer the following non-exclusive, non-transferable right to use the SOFTWARE, with the following limitations:

2.1.1 Rights. Customer may install and use multiple copies of the SOFTWARE on a shared computer or concurrently on different computers, and make multiple back-up copies of the SOFTWARE, solely for Customer's use within Customer's Enterprise. "Enterprise" shall mean individual use by Customer or any legal entity (such as a corporation or university) and the subsidiaries it owns by more than fifty percent (50%).

2.1.2 Open Source Exception. Notwithstanding the foregoing terms of Section 2.1.1, SOFTWARE may be copied and redistributed solely for use on operating systems distributed under the terms of an OSI-approved open source license as listed by the Open Source Initiative at http://opensource.org, provided that the binary files thereof are not modified, and Customer provides a copy of this license with the SOFTWARE.

2.1.3 Limitations.

No Reverse Engineering. Customer may not reverse engineer, decompile, or disassemble the SOFTWARE, nor attempt in any other manner to obtain the source code.

Usage. SOFTWARE is licensed only for use with microprocessor(s) which have been (i) designed by NVIDIA and (ii) either (a) sold by or (b) licensed by NVIDIA. Customer shall not use SOFTWARE in conjunction with, nor cause SOFTWARE to be executed by, any other microprocessor.

No Translation. Customer shall not translate SOFTWARE, nor cause or permit SOFTWARE to be translated, from the architecture or language in which it is originally provided by NVIDIA, into any other architecture or language.

No Rental. Customer may not rent or lease the SOFTWARE to someone else.

3. TERMINATION

This LICENSE will automatically terminate if Customer fails to comply with any of the terms and conditions hereof. In such event, Customer must destroy all copies of the SOFTWARE and all of its component parts.

Defensive Suspension. If Customer commences or participates in any legal proceeding against NVIDIA, then NVIDIA may, in its sole discretion, suspend or terminate all license grants and any other rights provided under this LICENSE during the pendency of such legal proceedings.

4. COPYRIGHT

All title and copyrights in and to the SOFTWARE (including but not limited to all images, photographs, animations, video, audio, music, text, and other information incorporated into the SOFTWARE), the accompanying printed materials, and any copies of the SOFTWARE, are owned by NVIDIA, or its suppliers. The SOFTWARE is protected by copyright laws and international treaty provisions. Accordingly, Customer is required to treat the SOFTWARE like any other copyrighted material, except as otherwise allowed pursuant to this LICENSE and that it may make one copy of the SOFTWARE solely for backup or archive purposes.

5. APPLICABLE LAW

This agreement shall be deemed to have been made in, and shall be construed pursuant to, the laws of the State of California.

6. DISCLAIMER OF WARRANTIES AND LIMITATION ON LIABILITY

6.1 No Warranties. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE SOFTWARE IS PROVIDED "AS IS" AND NVIDIA AND ITS SUPPLIERS DISCLAIM ALL WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

6.2 No Liability for Consequential Damages. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL NVIDIA OR ITS SUPPLIERS BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, OR ANY OTHER PECUNIARY LOSS) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF NVIDIA HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. MISCELLANEOUS

The United Nations Convention on Contracts for the International Sale of Goods is specifically disclaimed. If any provision of this LICENSE is inconsistent with, or cannot be fully enforced under, the law, such provision will be construed as limited to the extent necessary to be consistent with and fully enforceable under the law. This agreement is the final, complete and exclusive agreement between the parties relating to the subject matter hereof, and supersedes all prior or contemporaneous understandings and agreements relating to such subject matter, whether oral or written. Customer agrees

that it will not ship, transfer or export the SOFTWARE into any country, or use the SOFTWARE in any manner, prohibited by the United States Bureau of Export Administration or any export laws, restrictions or regulations. This LICENSE may only be modified in writing signed by an authorized officer of NVIDIA.

PLEASE READ THIS LICENSE AGREEMENT ("AGREEMENT") CAREFULLY. THIS AGREEMENT IS A BINDING LEGAL AGREEMENT ENTERED INTO BY AND BETWEEN YOU (OR IF YOU ARE ENTERING INTO THIS AGREEMENT ON BEHALF OF AN ENTITY, THEN THE ENTITY THAT YOU REPRESENT) AND QUALCOMM TECHNOLOGIES, INC. ("QTI" "WE" "OUR" OR "US"). THIS IS THE AGREEMENT THAT APPLIES TO YOUR USE OF THE DESIGNATED AND/OR LINKED APPLICATIONS, THE ENCLOSED QUALCOMM TECHNOLOGIES' MATERIALS, INCLUDING RELATED DOCUMENTATION AND ANY UPDATES OR IMPROVEMENTS THEREOF (COLLECTIVELY, "MATERIALS"). BY USING OR COMPLETING THE INSTALLATION OF THE MATERIALS, YOU ARE ACCEPTING THIS AGREEMENT AND YOU AGREE TO BE BOUND BY ITS TERMS AND CONDITIONS. IF YOU DO NOT AGREE TO THESE TERMS, QTI IS UNWILLING TO AND DOES NOT LICENSE THE MATERIALS TO YOU. IF YOU DO NOT AGREE TO THESE TERMS YOU MUST DISCONTINUE THE INSTALLATION PROCESS AND YOU MAY NOT USE THE MATERIALS OR RETAIN ANY COPIES OF THE MATERIALS. ANY USE OR POSSESSION OF THE MATERIALS BY YOU IS SUBJECT TO THE TERMS AND CONDITIONS SET FORTH IN THIS AGREEMENT.

1. RIGHT TO USE DELIVERABLES; RESTRICTIONS.

1.1 License. Subject to the terms and conditions of this Agreement, including, without limitation, the restrictions, conditions, limitations and exclusions set forth in this Agreement, QTI hereby grants to you a nonexclusive, limited license under QTI's copyrights to: (i) install and use the Materials; and (ii) to reproduce and redistribute the binary code portions of the Materials (the "Redistributable Binary Code"). You may make and use a reasonable number of copies of any documentation.

1.2 Redistribution Restrictions. Distribution of the Redistributable Binary Code is subject to the following restrictions: (i) Redistributable Binary Code may only be distributed in binary format and may not be distributed in source code format:; (ii) the Redistributable Binary Code may only operate in conjunction with platforms incorporating Qualcomm Technologies, Inc. chipsets; (iii) redistribution of the Redistributable Binary Code must include the .txt file setting forth the terms and condition of this Agreement; (iv) you may not use Qualcomm Technologies' or its affiliates or subsidiaries name, logo or trademarks; and (v) copyright, trademark, patent and any other notices that appear on the Materials may not be removed or obscured.

1.3 Additional Restrictions. Except as expressly permitted by this Agreement, you shall have no right to sublicense, transfer or otherwise disclose the Materials to any third party. You shall not reverse engineer, reverse assemble, reverse translate, decompile or reduce to source code form any portion of the Materials provided in object code form or executable form. Except for the purposes expressly permitted in this Agreement, You shall not use the Materials for any other purpose. QTI (or its licensors) shall retain title and all ownership rights in and to the Materials and any alterations, modifications (including all derivative works), translations or adaptations made of the Materials, and all copies thereof, and nothing herein shall be deemed to grant any right to You under any of QTI's or its affiliates' patents. You shall not subject the Materials to any third party license terms (e.g., open source license terms). You shall not use the Materials for the purpose of identifying or providing evidence to support any potential patent infringement claim against QTI, its affiliates, or any of QTI's or QTI's affiliates' suppliers and/or direct or indirect customers. QTI hereby reserves all rights not expressly granted herein.

1.4 Third Party Software and Materials. The Software may contain or link to certain software and/or materials that are written or owned by third parties. Such third party code and materials may be licensed under separate or different terms and conditions and are not licensed to you under the terms of this Agreement. You agree to comply with all terms and conditions imposed on you in the applicable third party licenses. Such terms and conditions may impose certain obligations on you as a condition to the permitted use of such third party code and materials. QTI does not represent or warrant that such third party licensors have or will continue to license or make available their code and materials to you.

1.5 Feedback. QTI may from time to time receive suggestions, feedback or other information from You regarding the Materials. Any suggestions, feedback or other disclosures received from You are and shall be entirely voluntary on the part of You. Notwithstanding any other term in this Agreement, QTI shall be free to use suggestions, feedback or other information received from You, without obligation of any kind to You. The Parties agree that all inventions, product improvements, and modifications conceived of or made by QTI that are based, either in whole or in part, on ideas, feedback, suggestions, or recommended improvements received from You are the exclusive property of QTI, and all right, title and interest in and to any such inventions, product improvements, and modifications will vest solely in QTI.

1.6 No Technical Support. QTI is under no obligation to provide any form of technical support for the Materials, and if QTI, in its sole discretion, chooses to provide any form of support or information relating to the Materials, such support and information shall be deemed confidential and proprietary to QTI.

2. WARRANTY DISCLAIMER. YOU EXPRESSLY ACKNOWLEDGE AND AGREE THAT THE USE OF THE MATERIALS IS AT YOUR SOLE RISK. THE MATERIALS AND TECHNICAL SUPPORT, IF ANY, ARE PROVIDED "AS IS" AND WITHOUT WARRANTY OF ANY KIND, WHETHER EXPRESS OR IMPLIED. QTI ITS LICENSORS AND AFFILIATES MAKE NO WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE MATERIALS OR ANY OTHER INFORMATION OR DOCUMENTATION PROVIDED UNDER THIS AGREEMENT, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR AGAINST INFRINGEMENT, OR ANY EXPRESS OR IMPLIED WARRANTY ARISING OUT OF TRADE USAGE OR OUT OF A COURSE OF DEALING OR COURSE OF PERFORMANCE. NOTHING CONTAINED IN THIS AGREEMENT SHALL BE CONSTRUED AS (I) A WARRANTY OR REPRESENTATION BY QTI, ITS LICENSORS OR AFFILIATES AS TO THE VALIDITY OR SCOPE OF ANY PATENT, COPYRIGHT OR OTHER INTELLECTUAL PROPERTY RIGHT OR (II) A WARRANTY OR REPRESENTATION BY QTI THAT ANY MANUFACTURE OR USE WILL BE FREE FROM INFRINGEMENT OF PATENTS, COPYRIGHTS OR OTHER INTELLECTUAL PROPERTY RIGHTS OF OTHERS, AND IT SHALL BE THE SOLE RESPONSIBILITY OF YOU TO MAKE SUCH DETERMINATION AS IS NECESSARY WITH RESPECT TO THE ACQUISITION OF LICENSES UNDER PATENTS AND OTHER INTELLECTUAL PROPERTY OF THIRD PARTIES.

3. NO OTHER LICENSES OR INTELLECTUAL PROPERTY RIGHTS. Neither this Agreement, nor any act by QTI or any of its affiliates pursuant to this Agreement or relating to the Materials (including, without limitation, the provision by QTI or its affiliates of the Materials), shall provide to You any license or any other rights whatsoever under any patents, trademarks, trade secrets, copyrights or any other intellectual property of QTI or any of its affiliates, except for

the copyright rights expressly licensed under this Agreement. You understand and agree that:

(i) Neither this Agreement, nor delivery of the Materials, grants any right to practice, or any other right at all with respect to, any patent of QTI or any of its affiliates; and

(ii) A separate license agreement from QUALCOMM Incorporated is needed to use or practice any patent of QUALCOMM Incorporated. You agree not to contend in any context that, as a result of the provision or use of the Materials, either QTI or any of its affiliates has any obligation to extend, or You or any other party has obtained any right to, any license, whether express or implied, with respect to any patent of QTI or any of its affiliates for any purpose.

4. TERMINATION. This Agreement shall be effective upon acceptance, or access or use of the Materials (whichever occurs first) by You and shall continue until terminated. You may terminate the Agreement at any time by deleting and destroying all copies of the Materials and all related information in Your possession or control. This Agreement terminates immediately and automatically, with or without notice, if You fail to comply with any provision hereof. Additionally, QTI may at any time terminate this Agreement, without cause, upon notice to You. Upon termination You must, to the extent possible, delete or destroy all copies of the Materials in Your possession and the license granted to You in this Agreement shall terminate. Sections 1.2 through 10 shall survive the termination of this Agreement. In the event that any restrictions, conditions, limitations are found to be either invalid or unenforceable, the rights granted to You in Section 1 (License) shall be null, void and ineffective from the Effective Date, and QTI shall also have the right to terminate this Agreement immediately, and with retroactive effect to the effective date.

5. LIMITATION OF LIABILITY. IN NO EVENT SHALL QTI, QTI's AFFILIATES OR ITS LICENSORS BE LIABLE TO YOU FOR ANY INCIDENTAL, CONSEQUENTIAL OR SPECIAL DAMAGES, INCLUDING BUT NOT LIMITED TO ANY LOST PROFITS, LOST SAVINGS, OR OTHER INCIDENTAL DAMAGES, ARISING OUT OF THE USE OR INABILITY TO USE, OR THE DELIVERY OR FAILURE TO DELIVER, ANY OF THE DELIVERABLES, OR ANY BREACH OF ANY OBLIGATION UNDER THIS AGREEMENT, EVEN IF QTI HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THE FOREGOING LIMITATION OF LIABILITY SHALL REMAIN IN FULL FORCE AND EFFECT REGARDLESS OF WHETHER YOUR REMEDIES HEREUNDER ARE DETERMINED TO HAVE FAILED OF THEIR ESSENTIAL PURPOSE. THE ENTIRE LIABILITY OF QTI, QTI's AFFILIATES AND ITS LICENSORS, AND THE SOLE AND EXCLUSIVE REMEDY OF YOU, FOR ANY CLAIM OR CAUSE OF ACTION ARISING HEREUNDER (WHETHER IN CONTRACT, TORT, OR OTHERWISE) SHALL NOT EXCEED US$50.

6. INDEMNIFICATION. You agree to indemnify and hold harmless QTI and its officers, directors, employees and successors and assigns against any and all third party claims, demands, causes of action, losses, liabilities, damages, costs and expenses, incurred by QTI (including but not limited to costs of defense, investigation and reasonable attorney's fees) arising out of, resulting from or related to: (i) any breach of this Agreement by You; and (ii) your acts, omissions, products and services. If requested by QTI, You agree to defend QTI in connection with any third party claims, demands, or causes of action resulting from, arising out of or in connection with any of the foregoing.

7. ASSIGNMENT. You shall not assign this Agreement or any right or interest under this Agreement, nor delegate any obligation to be performed under this Agreement, without QTI's prior written consent. For purposes of this Section 7, an "assignment" by You under this Section shall be deemed to include, without limitation, any merger, consolidation, sale of all or substantially all of its assets, or any substantial change in the management or control of You. Any attempted assignment in contravention of this Section 9 shall be void. QTI may freely assign this Agreement or delegate any or all of its rights and obligations hereunder to any third party.

8. COMPLIANCE WITH LAWS; APPLICABLE LAW. You agree to comply with all applicable local, international and national laws and regulations and with U.S. Export Administration Regulations, as they apply to the subject matter of this Agreement. This Agreement is governed by the laws of the State of California, excluding California's choice of law rules.

9. CONTRACTING PARTIES. If the Materials are downloaded on any computer owned by a corporation or other legal entity, then this Agreement is formed by and between QTI and such entity. The individual accepting the terms of this Agreement represents and warrants to QTI that they have the authority to bind such entity to the terms and conditions of this Agreement.

10. MISCELLANEOUS PROVISIONS. This Agreement, together with all exhibits attached hereto, which are incorporated herein by this reference, constitutes the entire agreement between QTI and You and supersedes all prior negotiations, representations and agreements between the parties with respect to the subject matter hereof. No addition or modification of this Agreement shall be effective unless made in writing and signed by the respective representatives of QTI and You. The restrictions, limitations, exclusions and conditions set forth in this Agreement shall apply even if QTI or any of its affiliates becomes aware of or fails to act in a manner to address any violation or failure to comply therewith. You hereby acknowledge and agree that the restrictions, limitations, conditions and exclusions imposed in this Agreement on the rights granted in this Agreement are not a derogation of the benefits of such rights. You further acknowledges that, in the absence of such restrictions, limitations, conditions and exclusions, QTI would not have entered into this Agreement with You. Each party shall be responsible for and shall bear its own expenses in connection with this Agreement. If any of the provisions of this Agreement are determined to be invalid, illegal, or otherwise unenforceable, the remaining provisions shall remain in full force and effect. This Agreement is entered into solely in the English language, and if for any reason any other language version is prepared by any party, it shall be solely for convenience and the English version shall govern and control all aspects. If You are located in the province of Quebec, Canada, the following applies: The Parties hereby confirm they have requested this Agreement and all related documents be prepared in English.

Copyright (c) 2015, Qualcomm Atheros, Inc.
All rights reserved.

Redistribution. Reproduction and redistribution in binary form, without modification, for use solely in conjunction with a Qualcomm Atheros, Inc. chipset, is permitted provided that the following conditions are met:

- Redistributions must reproduce the above copyright notice and the following disclaimer in the documentation and/or other materials provided with the distribution.

- Neither the name of Qualcomm Atheros, Inc. nor the names of its suppliers may be used to endorse or promote products derived from this Software without specific prior written permission.

- No reverse engineering, decompilation, or disassembly of this Software is permitted.

Limited patent license. Qualcomm Atheros, Inc. (“Licensor”) grants you (“Licensee”) a limited, worldwide, royalty-free, non-exclusive license under the Patents to make, have made, use, import, offer to sell and sell the Software. No hardware per se is licensed hereunder.
The term “Patents” as used in this agreement means only those patents or patent applications owned solely and exclusively by Licensor as of the date of Licensor’s submission of the Software and any patents deriving priority (i.e., having a first effective filing date) therefrom. The term “Software” as used in this agreement means the firmware image submitted by Licensor, under the terms of this license, to git://git.kernel.org/pub/scm/linux/kernel/git/firmware/linux-firmware.git.
Notwithstanding anything to the contrary herein, Licensor does not grant and Licensee does not receive, by virtue of this agreement or the Licensor’s submission of any Software, any license or other rights under any patent or patent application owned by any affiliate of Licensor or any other entity (other than Licensor), whether expressly, impliedly, by virtue of estoppel or exhaustion, or otherwise.

DISCLAIMER. THIS SOFTWARE IS PROVIDED BY THE COPYRIGHT HOLDERS AND CONTRIBUTORS "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE COPYRIGHT OWNER OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

Copyright (c) 2015-2017, Qualcomm Atheros, Inc.

The following XC4000 firmware file "dvb-fe-xc4000-1.4.1.fw" was created based on version 1.4 of "xc4000_firmwares.h".

Firmware provided as part of an XC4000 Linux developers kit by Brian Mathews <bmathews@xceive.com> to Devin Heitmueller <dheitmueller@kernellabs.org> on July 1, 2009.

The code was released by Xceive under the following license:

```
// Copyright (c) 2009, Xceive Corporation <info@xceive.com>
//
// Permission to use, copy, modify, and/or distribute this software, only
// for use with Xceive ICs, for any purpose with or without fee is hereby
// granted, provided that the above copyright notice and this permission
// notice appear in all source code copies.
//
// THE SOFTWARE IS PROVIDED "AS IS" AND THE AUTHOR DISCLAIMS ALL WARRANTIES
// WITH REGARD TO THIS SOFTWARE INCLUDING ALL IMPLIED WARRANTIES OF
// MERCHANTABILITY AND FITNESS. IN NO EVENT SHALL THE AUTHOR BE LIABLE FOR
// ANY SPECIAL, DIRECT, INDIRECT, OR CONSEQUENTIAL DAMAGES OR ANY DAMAGES
// WHATSOEVER RESULTING FROM LOSS OF USE, DATA OR PROFITS, WHETHER IN AN
// ACTION OF CONTRACT, NEGLIGENCE OR OTHER TORTIOUS ACTION, ARISING OUT OF
// OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THIS SOFTWARE.
```

The following XC500 firmware file "dvb-fe-xc5000-1.6.114.fw" was created based on "xc5000_firmwares_32000Khz.h".

Firmware provided as part of an XC5000 Linux developers kit by Brian Mathews <bmathews@xceive.com> to Devin Heitmueller <dheitmueller@linuxtv.org> on July 1, 2009.

The code was released by Xceive under the following license:

```
// Copyright (c) 2009, Xceive Corporation <info@xceive.com>
//
// Permission to use, copy, modify, and/or distribute this software, only
// for use with Xceive ICs, for any purpose with or without fee is hereby
// granted, provided that the above copyright notice and this permission
// notice appear in all source code copies.
//
// THE SOFTWARE IS PROVIDED "AS IS" AND THE AUTHOR DISCLAIMS ALL WARRANTIES
// WITH REGARD TO THIS SOFTWARE INCLUDING ALL IMPLIED WARRANTIES OF
```

```
// MERCHANTABILITY AND FITNESS. IN NO EVENT SHALL THE AUTHOR BE LIABLE FOR
// ANY SPECIAL, DIRECT, INDIRECT, OR CONSEQUENTIAL DAMAGES OR ANY DAMAGES
// WHATSOEVER RESULTING FROM LOSS OF USE, DATA OR PROFITS, WHETHER IN AN
// ACTION OF CONTRACT, NEGLIGENCE OR OTHER TORTIOUS ACTION, ARISING OUT OF
// OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THIS SOFTWARE.
```

The following XC500C firmware file "dvb-fe-xc5000C-4.1.30.7.fw" was created based on "Xc5200_firmwares_32000Khz.h".

Firmware provided as part of an XC5000C Linux developers kit by Ramon Cazares <Ramon.Cazares@CrestaTech.com> to Devin Heitmueller dheitmueller@linuxtv.org on July 25, 2012.

The code was released by Cresta Technology under the following license:

```
// Copyright (c) 2012, Cresta Technology Corporation <info@crestatech.com>
//
// Permission to use, copy, modify, and/or distribute this software, only
// for use with Cresta Technlogy ICs, for any purpose with or without fee is
// hereby granted, provided that the above copyright notice and this
// permission notice appear in all source code copies.
//
// THE SOFTWARE IS PROVIDED "AS IS" AND THE AUTHOR DISCLAIMS ALL WARRANTIES
// WITH REGARD TO THIS SOFTWARE INCLUDING ALL IMPLIED WARRANTIES OF
// MERCHANTABILITY AND FITNESS. IN NO EVENT SHALL THE AUTHOR BE LIABLE FOR
// ANY SPECIAL, DIRECT, INDIRECT, OR CONSEQUENTIAL DAMAGES OR ANY DAMAGES
// WHATSOEVER RESULTING FROM LOSS OF USE, DATA OR PROFITS, WHETHER IN AN
// ACTION OF CONTRACT, NEGLIGENCE OR OTHER TORTIOUS ACTION, ARISING OUT OF
// OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THIS SOFTWARE.
```

Fast discrete Fourier and cosine transforms and inverses
author: Monty <xiphmont@mit.edu>
modifications by: Monty
last modification date: Jul 1 1996

/* These Fourier routines were originally based on the Fourier
routines of the same names from the NETLIB bihar and fftpack
fortran libraries developed by Paul N. Swarztrauber at the National
Center for Atmospheric Research in Boulder, CO USA. They have been
reimplemented in C and optimized in a few ways for OggSquish. */

/* As the original fortran libraries are public domain, the C Fourier
routines in this file are hereby released to the public domain as
well. The C routines here produce output exactly equivalent to the
original fortran routines. Of particular interest are the facts
that (like the original fortran), these routines can work on
arbitrary length vectors that need not be powers of two in
length. */

****

This file attempts to document the origin and licensing information,
if known, for each piece of firmware distributed for use with the Linux
kernel.

Driver: BCM-0bb4-0306 Cypress Bluetooth firmware for HTC Vive

File: brcm/BCM-0bb4-0306.hcd

Licence: Redistributable. See LICENCE.cypress for details.

Driver: ambassador -- Madge Ambassador (Collage PCI 155 Server) ATM NIC.

File: atmsar11.fw

Licence: Allegedly GPLv2+, but no source visible. Marked:

Madge Ambassador ATM Adapter microcode.
Copyright (C) 1995-1999 Madge Networks Ltd.

This microcode data is placed under the terms of the GNU General
Public License. The GPL is contained in /usr/doc/copyright/GPL on a
Debian system and in the file COPYING in the Linux kernel source.

We would prefer you not to distribute modified versions without
consultation and not to ask for assembly/other microcode source.

Driver: snd-korg1212 -- Korg 1212 IO audio device

File: korg/k1212.dsp

Licence: Unknown

Found in alsa-firmware package in hex form; no licensing information.

Driver: snd-maestro3 -- ESS Allegro Maestro3 audio device

File: ess/maestro3_assp_kernel.fw
File: ess/maestro3_assp_minisrc.fw

Licence: Unknown

Found in alsa-firmware package in hex form with a comment claiming to
be GPLv2+, but without source -- and with another comment saying "ESS
drops binary dsp code images on our heads, but we don't get to see
specs on the dsp."

Driver: snd-ymfpci -- Yamaha YMF724/740/744/754 audio devices

File: yamaha/ds1_ctrl.fw
File: yamaha/ds1_dsp.fw
File: yamaha/ds1e_ctrl.fw

Licence: Unknown

Found alsa-firmware package in hex form, with the following comment:
Copyright (c) 1997-1999 Yamaha Corporation. All Rights Reserved.

Driver: advansys - AdvanSys SCSI

File: advansys/mcode.bin
File: advansys/3550.bin
File: advansys/38C0800.bin
File: advansys/38C1600.bin

Licence: BSD, no source available.

Found in hex form in kernel source.

Driver: qla1280 - Qlogic QLA 1240/1x80/1x160 SCSI support

File: qlogic/1040.bin
File: qlogic/1280.bin
File: qlogic/12160.bin

Licence: Redistributable. See LICENCE.qla1280 for details

Driver: smctr -- SMC ISA/MCA Token Ring adapter

File: tr_smctr.bin
Version: 6.3C1
Info: MCT.BIN v6.3C1 03/01/95

Original licence info:

```
 * This firmware is licensed to you strictly for use in conjunction
 * with the use of SMC TokenRing adapters. There is no waranty
 * expressed or implied about its fitness for any purpose.
```

Driver: kaweth -- USB KLSI KL5USB101-based Ethernet device

File: kaweth/new_code.bin
File: kaweth/new_code_fix.bin
File: kaweth/trigger_code.bin
File: kaweth/trigger_code_fix.bin

Licence: Redistributable. See LICENCE.kaweth for details

Found in hex form in the kernel source.

Driver: dvb-ttusb-budget -- Technotrend/Hauppauge Nova-USB devices

File: ttusb-budget/dspbootcode.bin

Licence: Unknown

Found in hex form in the kernel source.

Driver: keyspan -- USB Keyspan USA-xxx serial device

File: keyspan/mpr.fw
File: keyspan/usa18x.fw
File: keyspan/usa19.fw
File: keyspan/usa19qi.fw
File: keyspan/usa19qw.fw
File: keyspan/usa19w.fw
File: keyspan/usa28.fw
File: keyspan/usa28xa.fw
File: keyspan/usa28xb.fw
File: keyspan/usa28x.fw
File: keyspan/usa49w.fw
File: keyspan/usa49wlc.fw

Converted from Intel HEX files, used in our binary representation of ihex.

Original licence information:

```
                Copyright (C) 1999-2001
                Keyspan, A division of InnoSys Incorporated ("Keyspan")

Debug loader claims the following behaviour:
Port 1 LED flashes when the vend_ax program is running
Port 2 LED flashes when any SETUP command arrives

Port 3 LED flashes when any valid VENDOR request occurs
Port 4 LED flashes when the EXTERNAL RAM DOWNLOAD request occurs

Converted from Intel HEX files, used in our binary representation of ihex.

Driver: ip2 -- Computone IntelliPort Plus serial device

File: intelliport2.bin

Licence: Unknown

Found in hex form in kernel source.

Driver: cpia2 -- cameras based on Vision's CPiA2

File: cpia2/stv0672_vp4.bin

Licence: Allegedly GPLv2+, but no source visible. Marked:
Copyright (C) 2001 STMicroelectronics, Inc.
Contact: steve.miller@st.com
Description: This file contains patch data for the CPiA2 (stv0672) VP4.

Found in hex form in kernel source.

Driver: dabusb -- Digital Audio Broadcasting (DAB) Receiver for USB and Linux

File: dabusb/firmware.fw
File: dabusb/bitstream.bin

Licence: Distributable

```
 * Copyright (C) 1999 BayCom GmbH
 *
 * Redistribution and use in source and binary forms, with or without
 * modification, are permitted provided that redistributions of source
 * code retain the above copyright notice and this comment without
 * modification.
```

Driver: vicam -- USB 3com HomeConnect (aka vicam)

File: vicam/firmware.fw

Licence: Unknown

Found in hex form in kernel source.

Driver: io_edgeport - USB Inside Out Edgeport Serial Driver

File: edgeport/boot.fw
File: edgeport/boot2.fw
File: edgeport/down.fw
File: edgeport/down2.fw

Licence: Allegedly GPLv2+, but no source visible. Marked:

```
//************************************************************
//* Edgeport/4 Binary Image
//* Generated by HEX2C v1.06
//* Copyright (C) 1998 Inside Out Networks, All rights reserved.
//************************************************************
```

Found in hex form in kernel source.

Driver: io_ti - USB Inside Out Edgeport Serial Driver
(TI Devices)

File: edgeport/down3.bin

Licence:

```
//************************************************************
//* Edgeport Binary Image (for TI based products)
//* Generated by TIBin2C v2.00 (watchport)
//* Copyright (C) 2001 Inside Out Networks, All rights reserved.
//************************************************************
```

Found in hex form in kernel source.

Driver: dsp56k - Atari DSP56k support

File: dsp56k/bootstrap.bin
Source: dsp56k/bootstrap.asm
Source: dsp56k/Makefile
Source: dsp56k/concat-bootstrap.pl

Licence: GPLv2 or later. See GPL-2 and GPL-3 for details.

DSP56001 assembler, buildable with a56 from
http://www.zdomain.com/a56.html

Driver: snd-sb16-csp - Sound Blaster 16/AWE CSP support

File: sb16/mulaw_main.csp
File: sb16/alaw_main.csp
File: sb16/ima_adpcm_init.csp
File: sb16/ima_adpcm_playback.csp
File: sb16/ima_adpcm_capture.csp

Licence: Allegedly GPLv2+, but no source visible. Marked:
/*
 * Copyright (c) 1994 Creative Technology Ltd.
 * Microcode files for SB16 Advanced Signal Processor
 */

Found in hex form in kernel source.

Driver: qla2xxx - QLogic QLA2XXX Fibre Channel

File: ql2100_fw.bin
Version: 1.19.38 TP
File: ql2200_fw.bin
Version: 2.02.08 TP
File: ql2300_fw.bin
Version: 3.03.28 IPX
File: ql2322_fw.bin
Version: 3.03.28 IPX
File: ql2400_fw.bin
Version: 8.07.00 MID
File: ql2500_fw.bin
Version: 8.07.00 MIDQ

Licence: Redistributable. See LICENCE.qla2xxx for details

Available from http://ldriver.qlogic.com/firmware/

Driver: orinoco - Agere/Prism/Symbol Orinoco support

File: agere_sta_fw.bin
Version: 9.48 Hermes I
File: agere_ap_fw.bin
Version: 9.48 Hermes I

Licence: Redistributable. See LICENCE.agere for details

Driver: ar9170 - Atheros 802.11n "otus" USB

File: ar9170-1.fw
File: ar9170-2.fw

Licence: Redistributable. See LICENCE.atheros_firmware for details

---

Driver: ath9k_htc - Atheros HTC devices (USB)

File: ar9271.fw
File: ar7010.fw
File: ar7010_1_1.fw
File: htc_9271.fw

Version: 1.3.1
File: htc_7010.fw
Version: 1.3.1

Licence: Redistributable. See LICENCE.atheros_firmware for details

File: ath9k_htc/htc_7010-1.4.0.fw
Version: 1.4.0
File: ath9k_htc/htc_9271-1.4.0.fw
Version: 1.4.0

Licence: Free software. See LICENCE.open-ath9k-htc-firmware for details

---

Driver: cassini - Sun Cassini

File: sun/cassini.bin

Licence: Unknown

Found in hex form in kernel source.

Driver: slicoss - Alacritech IS-NIC products

File: slicoss/gbdownload.sys
File: slicoss/gbrcvucode.sys
File: slicoss/oasisdbgdownload.sys
File: slicoss/oasisdownload.sys
File: slicoss/oasisrcvucode.sys

Link: cxgb4/t6fw.bin -> t6fw-1.24.3.0.bin
File: cxgb4/aq1202_fw.cld
File: cxgb4/bcm8483.bin

Licence: Redistributable. See LICENCE.chelsio_firmware for details

---

Driver: e100 -- Intel PRO/100 Ethernet NIC

File: e100/d101m_ucode.bin
File: e100/d101s_ucode.bin
File: e100/d102e_ucode.bin

Licence: Redistributable. See LICENCE.e100 for details

Driver: acenic -- Alteon AceNIC Gigabit Ethernet card

File: acenic/tg1.bin
File: acenic/tg2.bin

Licence: Unknown

Found in hex form in kernel source, but source allegedly available at http://alteon.shareable.org/

Driver: tg3 -- Broadcom Tigon3 based gigabit Ethernet cards

File: tigon/tg3.bin
File: tigon/tg3_tso.bin
File: tigon/tg3_tso5.bin
File: tigon/tg357766.bin

Licence:
```
 * Firmware is:
 *      Derived from proprietary unpublished source code,
 *      Copyright (C) 2000-2013 Broadcom Corporation.
 *
 *      Permission is hereby granted for the distribution of this firmware
 *      data in hexadecimal or equivalent format, provided this copyright
 *      notice is accompanying it.
```

Found in hex form in kernel source.

Driver: starfire - Adaptec Starfire/DuraLAN support

File: adaptec/starfire_rx.bin

File: adaptec/starfire_tx.bin

Licence: Allegedly GPLv2, but no source visible.

Found in hex form in kernel source, with the following notice:

BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE IT IS LICENSED "AS IS" AND
THERE IS NO WARRANTY FOR THE PROGRAM, INCLUDING BUT NOT LIMITED TO THE
IMPLIED WARRANTIES OF MERCHANTIBILITY OR FITNESS FOR A PARTICULAR PURPOSE
(TO THE EXTENT PERMITTED BY APPLICABLE LAW). USE OF THE PROGRAM IS AT YOUR
OWN RISK. IN NO EVENT WILL ADAPTEC OR ITS LICENSORS BE LIABLE TO YOU FOR
DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES
ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM.

Driver: i2400m-usb - Intel 2400 Wireless WiMAX Connection over USB

File: i2400m-fw-usb-1.4.sbcf
File: i2400m-fw-usb-1.5.sbcf
File: i6050-fw-usb-1.5.sbcf

Licence: Redistributable. See LICENCE.i2400m for details

Driver: wl1251 - Texas Instruments 802.11 WLAN driver for WiLink4 chips

File: ti-connectivity/wl1251-fw.bin
Version: 4.0.4.3.7

File: ti-connectivity/wl1251-nvs.bin

Licence: Redistributable. See LICENCE.wl1251 for details.

The published NVS files are for testing only. Every device needs to
have a unique NVS which is properly calibrated for best results.

The driver expects to find the firmwares under a ti-connectivity subdirectory.
So if your system looks for firmwares in /lib/firmware, the firmwares for
wl12xx chips must be located in /lib/firmware/ti-connectivity/.

Driver: wl12xx - Texas Instruments 802.11 WLAN driver for WiLink6/7 chips

File: ti-connectivity/wl1271-fw.bin
Version: 6.1.0.50.350 (STA-only)
File: ti-connectivity/wl1271-fw-2.bin

Version: 7.3.10.2.142 (PLT-only)

File: ti-connectivity/wl127x-nvs.bin
File: ti-connectivity/wl128x-nvs.bin
Link: ti-connectivity/wl12xx-nvs.bin -> wl127x-nvs.bin
Link: ti-connectivity/wl1271-nvs.bin -> wl127x-nvs.bin

Licence: Redistributable. See LICENCE.ti-connectivity for details.

The NVS file includes two parts:
- radio calibration
- HW configuration parameters (aka. INI values)

The published NVS files are for testing only. Every device needs to hava a unique NVS which is properly calibrated for best results. You can find more information about NVS generation for your device here:

http://wireless.kernel.org/en/users/Drivers/wl12xx/calibrator

If you're using a wl127x based device, use a symbolic link called wl1271-nvs.bin that links to the wl127x-nvs.bin file. If you are using wl128x, link to wl128x-nvs.bin instead.

The driver expects to find the firmwares under a ti-connectivity subdirectory. So if your system looks for firmwares in /lib/firmware, the firmwares for wl12xx chips must be located in /lib/firmware/ti-connectivity/.

Driver: wl18xx - Texas Instruments 802.11 WLAN driver for WiLink8 chips

File: ti-connectivity/wl18xx-fw.bin
Version: 8.2.0.0.100
File: ti-connectivity/wl18xx-fw-2.bin
Version: 8.5.0.0.55
File: ti-connectivity/wl18xx-fw-3.bin
Version: 8.8.0.0.13
File: ti-connectivity/wl18xx-fw-4.bin
Version: 8.9.0.0.79

Licence: Redistributable. See LICENCE.ti-connectivity for details.

The driver expects to find the firmwares under a ti-connectivity subdirectory. So if your system looks for firmwares in /lib/firmware, the firmwares for wl18xx chips must be located in /lib/firmware/ti-connectivity/.

Driver: TI_ST - Texas Instruments bluetooth driver

File: ti-connectivity/TIInit_6.2.31.bts
Version: 2.44 (TI_P31.123)

File: ti-connectivity/TIInit_6.6.15.bts
Version: 2.14 (TI_P6_15.93)
File: ti-connectivity/TIInit_7.2.31.bts

Licence: Redistributable. See LICENCE.ti-connectivity for details.

TIInit_7.2.31.bts version 7.2.31

In order to use that file copy it to /lib/firmware/ti-connectivity.

Driver: tlg2300 - Telgent 2300 V4L/DVB driver.

File: tlg2300_firmware.bin

Licence: Redistributable.

Telegent System grants permission to use and redistribute these firmware files for use with devices containing the chip tlg2300, but not as a part of the Linux kernel or in any other form which would require these files themselves to be covered by the terms of the GNU General Public License. These firmware files are distributed in the hope that they will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.

Driver: mwlwifi - Marvell mac80211 driver for 80211ac cards.

File: mwlwifi/88W8864.bin
Version: 7.2.8.6

File: mwlwifi/88W8897.bin
Version: 8.2.0.10

Licence: Redistributable. See LICENCE.Marvell for details.

Driver: mtk-vpu - Mediatek VPU video processing unit driver

File: vpu_d.bin
File: vpu_p.bin

Licence: Redistributable.

MediaTek Inc. grants permission to use and redistribute aforementioned firmware
files for the use with devices containing MediaTek chipsets, but not as part of
the Linux kernel or in any other form which would require these files themselves
to be covered by the terms of the GNU General Public License or the GNU Lesser
General Public License.

These firmware files are distributed in the hope that they will be useful, but
are provided WITHOUT ANY WARRANTY, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTY
OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Driver: btmtk - MediaTek Bluetooth Driver

File: mediatek/mt7622pr2h.bin
Version: 20180621204904
File: mediatek/mt7668pr2h.bin
Version: 20180517181834

Licence: Redistributable. See LICENCE.mediatek for details.

Driver: rk3399-dptx - ROCKCHIP rk3399 dptx firmware

File: rockchip/dptx.bin
Version: 3.1

Licence: Redistributable. See LICENCE.rockchip for details.

Driver: mt76x0 - MediaTek MT76x0 Wireless MACs

File: mediatek/mt7610u.bin
File: mediatek/mt7610e.bin
Version: 2.6
File: mediatek/mt7650e.bin
Version: 1.0.07-b370

Licence: Redistributable. See LICENCE.mediatek for details.

Driver: mt76x2e - MediaTek MT76x2 Wireless MACs

File: mt7662.bin
Version: 1.9

File: mt7662_rom_patch.bin
Version: 0.0.2_P69

Licence: Redistributable. See LICENCE.ralink_a_mediatek_company_firmware for details

---

Driver: mt76x2u - MediaTek MT76x2u Wireless MACs

File: mediatek/mt7662u.bin
Version: 1.5

File: mediatek/mt7662u_rom_patch.bin
Version: 0.0.2_P48

Licence: Redistributable. See LICENCE.mediatek for details.

Driver: mt7615e - MediaTek MT7615e Wireless MACs

File: mediatek/mt7615_n9.bin
Version: 20190114
File: mediatek/mt7615_cr4.bin
Version: 20190114
File: mediatek/mt7615_rom_patch.bin
Version: 20190114

This quote is just too good to not pass on:

> ""BTW, I would have rejected the name Story Server because its
> initials are SS, the name of the secret police in Nazi
> Germany, probably the most despised pair of letters in western
> culture."" --- http://scriptingnewsarchive.userland.com/1999/12/13

Let no one say political correctness isn't dead....

FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR
CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE
WORK, EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE
POSSIBILITY OF SUCH DAMAGES.

XZ Utils Licensing
==========

Different licenses apply to different files in this package. Here
is a rough summary of which licenses apply to which parts of this
package (but check the individual files to be sure!):

- liblzma is in the public domain.

- xz, xzdec, and lzmadec command line tools are in the public
  domain unless GNU getopt_long had to be compiled and linked
  in from the lib directory. The getopt_long code is under
  GNU LGPLv2.1+.

- The scripts to grep, diff, and view compressed files have been
  adapted from gzip. These scripts and their documentation are
  under GNU GPLv2+.

- All the documentation in the doc directory and most of the
  XZ Utils specific documentation files in other directories
  are in the public domain.

- Translated messages are in the public domain.

- The build system contains public domain files, and files that
  are under GNU GPLv2+ or GNU GPLv3+. None of these files end up
  in the binaries being built.

- Test files and test code in the tests directory, and debugging
  utilities in the debug directory are in the public domain.

- The extra directory may contain public domain files, and files
  that are under various free software licenses.

You can do whatever you want with the files that have been put into
the public domain. If you find public domain legally problematic,
take the previous sentence as a license grant. If you still find
the lack of copyright legally problematic, you have too many
lawyers.

As usual, this software is provided "as is", without any warranty.

If you copy significant amounts of public domain code from XZ Utils
into your project, acknowledging this somewhere in your software is
polite (especially if it is proprietary, non-free software), but
naturally it is not legally required. Here is an example of a good
notice to put into "about box" or into documentation:

    This software includes code from XZ Utils <https://tukaani.org/xz/>.

The following license texts are included in the following files:
  - COPYING.LGPLv2.1: GNU Lesser General Public License version 2.1
  - COPYING.GPLv2: GNU General Public License version 2
  - COPYING.GPLv3: GNU General Public License version 3

Note that the toolchain (compiler, linker etc.) may add some code
pieces that are copyrighted. Thus, it is possible that e.g. liblzma
binary wouldn't actually be in the public domain in its entirety
even though it contains no copyrighted code from the XZ Utils source
package.

If you have questions, don't hesitate to ask the author(s) for more
information.

LICENSE TERMS (cont.)

If you have questions, don't hesitate to ask the author(s) for more information.

This software contains source code (src/portable_endian.h) that is:
// "License": Public Domain
// I, Mathias Panzenböck, place this file hereby into the public domain. Use it at your own risk for whatever you like.

2001-09-15

The author disclaims copyright to this source code. In place of a legal notice, here is a blessing:

May you do good and not evil.
May you find forgiveness for yourself and forgive others.
May you share freely, never taking more than you give.

Explanation of AC adapter manufacturing date
Explication de la date de fabrication de l'adaptateur CA
Explicación de la fecha de fabricación del adaptador de c.a.

About S/No. From the year of 2010,notation of year will be as below;

À propos du numéro de série. À partir de 2010, l'indication de l'année se fera comme ci-dessous :

Acerca del N/S. Desde el año 2010, la notación del año será la siguiente;

ex: / ex. : / ej.:

2022/11.....N11-XXXXXXX
2023/06 .....P06-XXXXXXX
2024/01 .....Q01-XXXXXXX
2025/01 .....R01-XXXXXXX
2026/01 .....S01-XXXXXXX

(A, B, C-Z) the letters of "I" and "O" will not be used. (In order not to make confusion of 1 and 0.)

(A, B, C-Z) les lettres « I » et « O » ne seront pas utilisées.
(Afin de ne pas faire de confusion avec 1 et 0.)

No se utilizarán las letras (A, B, C-Z) "I" y "O". (Para evitar su confusión con 1 y 0).
